SOLICITATION, OFFER AND AWARD

1. THIS CONTRACT IS A RATED ORDER UNDER DPAS (15 CFR 700) → RATING: DO-C9 | PAGE 1 OF PAGES 124

2. CONTRACT NUMBER: NNJ09JE44C
3. SOLICITATION NUMBER: NNJ08247027R
4. TYPE OF SOLICITATION: ☐ SEALED BID (IFB) X NEGOTIATED (RFP)
5. DATE ISSUED: 04/22/2009
6. REQUISITION/PURCHASE NO.: 4200308528

7. ISSUED BY (CODE):
NASA Lyndon B. Johnson Space Center
Institutional Procurement Office, Attn: Nancy Robb/BJ4
2101 NASA Parkway
Houston, TX 77058-3696

8. ADDRESS OFFER TO (If other than Item 7)
NASA Lyndon B. Johnson Space Center
Institutional Procurement Office
Attn: Nancy Robb
Houston, TX 77058-3696

APPROV
JSC PROCUR
OFFICE
8-25-0
DATE

NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and "bidder"

SOLICITATION

9. Sealed offers in original and 5 copies for furnishing the supplies or services in the Schedule will be received at the place specified in Item 8, or if hand carried, in the depository located in room 502, 1100 Space Park Dr., Houston, TX 77058, until **4:30 PM** local time on May 21, 2009.

CAUTION — LATE Submissions, Modifications, and Withdrawals: See Section L, Provision No. 52.214-7 or 52.215-1. All offers are subject to all terms and conditions contained in this solicitation.

10. FOR INFORMATION CALL: → A. NAME: Nancy Robb | B. TELEPHONE (NO COLLECT CALLS): AREA CODE 281, NUMBER 483-9044, EXT. | C. E-MAIL ADDRESS: nancy.s.robb@ nasa.gov

OFFER (Must be fully completed by offeror)

NOTE: Item 12 does not apply if the solicitation includes the provisions at 52.214-16, Minimum Bid Acceptance Period.

12. In compliance with the above, the undersigned agrees, if this offer is accepted within _____ calendar days (210 calendar days unless a different period is inserted by the offeror) from the date for receipt of offers specified above, to furnish any or all items upon which prices are offered at the price set opposite each item, delivered at the designated point(s), within the time specified in the schedule.

13. DISCOUNT FOR PROMPT PAYMENT (See Section I, Clause No. 52.232-8) → Current Value of Funds Rate

10 CALENDAR DAYS %	20 CALENDAR DAYS %	30 CALENDAR DAYS %	CALENDAR DAYS %

14. ACKNOWLEDGMENT OF AMENDMENTS (The offeror acknowledges receipt of amendments to the SOLICITATION for offerors and related documents numbered and dated):

AMENDMENT NO.	DATE	AMENDMENT NO.	DATE
1	4-28-09	4	6-04-09
2	5-18-09	5	6-08-09
3	5-28-09		

15A. NAME AND ADDRESS OF OFFEROR: CODE 1JGQ2, FACILITY 1JGQ2
CSC Applied Technologies, LLC
6500 West Freeway Suite 600
Fort Worth, TX 76116

16. NAME AND TITLE OF PERSON AUTHORIZED TO SIGN OFFER (Type or print)
Jeff Beauford
Director of Contracts and Procurement

15B. TELEPHONE NUMBER: AREA CODE 817, NUMBER 570, EXT. 2877

☒ 15C. CHECK IF REMITTANCE ADDRESS IS DIFFERENT FROM ABOVE - ENTER SUCH ADDRESS IN SCHEDULE. **See Addendum 1**

17. SIGNATURE

18. OFFER DATE: **August 10, 2009**

AWARD (To be completed by Government)

19. ACCEPTED AS TO ITEMS NUMBERED: B.3

20. AMOUNT: $ 45,209,809.00

21. ACCOUNTING AND APPROPRIATION: PR 4200308528

22. AUTHORITY FOR USING OTHER THAN FULL AND OPEN COMPETITION:
☒ 10 U.S.C. 2304(c) (1) ☐ 41 U.S.C. 253(c)( )

23. SUBMIT INVOICES TO ADDRESS SHOWN IN (4 copies unless otherwise specified) → ITEM: G.4

24. ADMINISTERED BY (If other than Item 7) CODE

25. PAYMENT WILL BE MADE BY CODE
NASA Shared Services Center
Financial Management Division-Accounts Payable, B. 1111, C. Road, Stennis Space Center, MS 39529

26. NAME OF CONTRACTING OFFICER (Type or print): Alice Jean Pursell

27. UNITED STATES OF AMERICA: Alice Jean Pursell (Signature of Contracting Officer)

28. AWARD DATE: 8/25/2009

IMPORTANT -- Award will be made on this Form, or on Standard Form 26, or by other authorized official written notice.

AUTHORIZED FOR LOCAL REPRODUCTION
Previous edition is unusable

STANDARD FORM 33 (Rev. 9-97)

SECTION B

SUPPLIES OR SERVICES AND PRICES/COSTS

B.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) -

No FAR By-reference clauses in Section B.

II. NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) -

No NASA By-reference clauses in Section B.

B.2 SCOPE OF WORK

The Contractor shall provide all personnel, materials, and facilities (except as otherwise provided in the contract) necessary to perform those functions set forth in section C, Statement of Work (SOW), at the Johnson Space Center (JSC) and other locations as specified in the SOW.

(End of clause)

B.3 ESTIMATED COST AND AWARD FEE (NASA 1852.216-85) (SEP 1993)

The estimated cost of this contract is b4 The maximum available award fee, excluding base fee, if any, is $ b4 The base fee is $ b4 Total estimated cost, base fee, and maximum award fee are :

B.3.1 The estimated cost and maximum available award fee for Johnson Space Center, Dryden Flight Research Center, and Langley Research Center are:

B.3.1.1 The estimated cost of this contract at the Johnson Space Center is $ b4 The maximum available award fee, excluding base fee, if any, is $ b4 The base fee is $ b4 Total estimated cost, base fee, and maximum award fee are

B.3.1.2 The estimated cost of this contract at Dryden Flight Research Center is b4 The maximum available award fee, excluding base fee, if any, is b4 The base fee is $ b4 Total estimated cost, base fee, and maximum award fee are

B.3.1.3 The estimated cost of this contract at Langley Research Center is b4 The maximum available award fee, excluding base fee, if any, is b4 The base fee is $ b4 Total estimated cost, base fee, and maximum award fee are b4

(End of clause)

B.4 FUNDING

Funds shall be provided for JSC in B.5 below. For DFRC and LaRC, Delivery Orders with funding shall be issued by the Administrative Contracting Officer for that Center. Funds shall be allotted by the Delivery Order and subsequent modifications, if required. The "Limitation of Funds" clause applies individually to each Center.

STATEMENT OF WORK (SOW) FOR AIRCRAFT MAINTENANCE AND MODIFICATION PROGRAM (AMMP)

B10.8.2 Course Instructor C-135
B10.8.3 Deficiency/Trend Analyst C-135
B10.8.6 Quality Assurance Representatives C-135
B10.8.8 Weight and Balance Officer C-135
B10.9 Support Personnel C-135
B10.9.2 Additional Duties: All Personnel C-135
B10.9.2.1 Course Instructor C-135

1 INTRODUCTION

This Statement of Work (SOW) describes the work to be performed and the deliverables to be provided by the Contractor under this Aircraft Maintenance and Modification Program (AMMP) contract. The purpose of this contract is to support the maintenance and modification of all aircraft operated at:

(1) Johnson Space Center (JSC), at Ellington Field (EFD), Texas.
  (a) JSC, at El Paso (ELP), Texas.
  (b) JSC, at Edwards Air Force Base (EDW), California.
(2) Dryden Flight Research Center (DFRC), at Edwards Air Force Base (EDW) California.
  (a) Dryden Aircraft Operations Facility (DAOF), at Palmdale California.
(3) Langley Research Center (LaRC), Virginia.

1.1 JSC Aircraft

The aircraft are operated in support of various NASA programs. During deployments, JSC aircraft may conduct aircraft operations from other facilities including Outside the Continental United States (OCONUS). The Contractor shall perform flightline, depot level, intermediate maintenance, repairs, modification(s), and engineering support on JSC aircraft and aircraft operated by the following NASA Centers on an as needed basis:

(1) Kennedy Space Center, Patrick Air Force Base, Florida
(2) Marshall Space Flight Center, Huntsville, Alabama
(3) Dryden Flight Research Center, Edwards AFB, California

1.2 DFRC Aircraft

DFRC aircraft are operated to meet both Center and Agency flight research requirements at Edwards AFB and Palmdale, California. During deployments, DFRC aircraft may conduct aircraft operations from other facilities. The Contractor shall support all aircraft services, including aircraft maintenance, aircraft modification, aircrew, and flight-line operations. Services may also include designated support shop repair and modification for Support aircraft and designated Research aircraft.

1.3 LaRC Aircraft

LaRC aircraft are operated to meet both the Center and Agency flight research requirements at Langley, Virginia. During deployments, LaRC aircraft may conduct aircraft operations from other facilities. The Contractor shall support all services, including aircraft maintenance, aircraft modification, aircrew, and flight-line operations. Services may also include designated support shop repair and modification for Support aircraft and designated Research aircraft.

The Contractor shall follow the SOW unless otherwise specified in the exceptions.

2 SCOPE

2.1 JSC Aircraft

1	Raytheon T-34	Program Support	Dryden Flight Research Center, CA
1	Predator B	Program Support	Dryden Flight Research Center, CA
2	Global Hawk	Research Aircraft	Dryden Flight Research Center, CA
2	F-15	Research Aircraft	Dryden Flight Research Center, CA
1	F-18B McDonnell-Douglas	Research Aircraft	Dryden Flight Research Center, CA
1	YO-3, Lockheed	Program Support Aircraft	Dryden Flight Research Center, CA
1	F-16 General Electric	Research Aircraft	Dryden Flight Research Center, CA

The aircraft are powered by the following types of engines:

- Pratt & Whitney PT6A-42, (Beach King Air 200).
- Rolls Royce Spey MK511-8, (C-20/G-III).
- General Electric 404-400, (F-18A/B).
- General Electric J-85-5 (T-38A).
- General Electric 404 (ER-2).
- Pratt and Whitney JT9D-7J (Sofia).
- CFM56-2-C1 High Bypass Turbofan Jet (DC-8).
- Pratt and Whitney PT-6A25 (T-34).
- Garrett/Honeywell TPE-331 (Predator B).
- Rolls Royce AE3007H (Global Hawk).
- Pratt & Whitney F-100 (F-15)
- General Electric F-10/129 (F-16)
- Continental I-0360 (YO-3)
- General Electric 404-200 (F-18B)

2.3 LaRC Aircraft

The Contractor shall maintain all assigned equipment, as described herein on: airframes, engines, appliances, and support equipment. Majority of the maintenance is performed at LaRC. Aircraft currently assigned to LaRC include the following:

Quantity	Type Aircraft	Mission	Location
1	Beechcraft King Air B200	Program Support Aircraft	Langley Research Center, Virginia
1	C-12 King Air	Research Aircraft	Langley Research Center, Virginia
1	Bell UH-1H	Program Support Aircraft	Langley Research Center, Virginia
1	Cessna 206	Research and Development Aircraft	Langley Research Center, Virginia
1	Cirrus SR-22	Research and Development Aircraft	Langley Research Center, Virginia
1	Lancair Columbia 300	Program Support Aircraft	Langley Research Center, Virginia
1	North American Rockwell OV-10A	Research and Development Aircraft	Langley Research Center, Virginia

The aircraft are powered by the following types of engines:
Pratt & Whitney PT6A-42, (Beech King Air B200).
Lycoming T-53-L-13B (UH-1H).
Lycoming IO-540-AC1A (Cessna 206).
Continental IO-550 (Cirrus SR-22).
Continental IO-550 (Lancair Columbia 300).
Garrett-AiResearch T-76 (OV-10A).

3 GENERAL REQUIREMENTS

The Contractor shall meet the requirements for maintenance and operations as directed in *NPR 7900.3B, Aircraft Operations Management,* NPR 7120.5, *NASA Program and Project Management Processes and Requirements*, and the Federal Aviation Administration (FAA) Federal Aviation Regulations 14 CFR Part 43. 14 CFR Part 43 shall be the default document for minimum standards for acceptable maintenance practices. The Contractor's responsibilities include but are not limited to:

(1) Exercise management and operational control and retain full responsibility for performance requirements set forth in this SOW.
(2) Meet or exceed the metrics outlined in Appendix C, *Performance Goals.*

3.1 Management

The Contractor shall establish management procedures to fulfill the requirements of this SOW. The Contractor also shall be required to interface, as required, with various NASA organizations, other NASA Contractors, and appropriate regulatory bodies.

3.2 Quality Management System

The Contractor shall establish and maintain a Quality Management System (QMS) encompassing all services and requirements of this SOW. The Contractor's QMS shall meet or exceed the elements contained in the International Organization for Standardization document AS9110, Quality Management System for Aerospace, Requirements for Aircraft Maintenance. Third party certification of the Contractor QMS is not required. The Contractor's QMS shall be compatible with each NASA Center's unique QMS.

3.2.1 Center Unique Differences

The format of the AMMP SOW reflects JSC as the primary customer and each section and subsection describes work that shall be accomplished under this contract.

DFRC center unique requirements are designated by an "A" and LaRC center unique requirement are designated by a "B" prior to the applicable AMMP SOW paragraph number at the end of each section.

Any differences between the AMMP SOW requirements and those at DFRC and LaRC will be specified at the end of each section and the SOW center unique differences will take precedence when identified.

If an AMMP SOW section or subsection is not referenced for DFRC or LaRC, that AMMP SOW section shall apply in its entirety to DFRC or LaRC.

3.3 Maintenance Services

Contractor operations shall include preventive and routine maintenance on JSC, DFRC, LaRC, and other NASA aircraft and their respective systems. The Contractor's responsibilities include but are not limited to:

(1) Remove, disassemble, inspect, repair, overhaul, adjust, test, assemble and re-install components when required by the aircraft inspection program.
(2) Perform maintenance to comply with FAA regulations as defined in NPR 7900.3B, *Aircraft Operations Management* and applicable aircraft technical data.

(3) Support NASA directed maintenance on Government transient aircraft.

3.4 Engineering Services

The Contractor shall provide engineering and drafting support services for aircraft alterations, modifications, software/hardware engineering, and repairs for public and FAA type-certificated aircraft. DFRC requires engineering library services only. No engineering services are required for LaRC.

3.5 Flight Operations

The Contractor shall provide flight operations support for aircraft operations identified in this SOW. NPR 7900.3B, *Aircraft Operations Management* defines the procedures and guidelines for management, utilization, operation, and control of NASA aircraft.

3.6 Logistic Services

The Contractor shall perform provisioning, property control, receipt and inspection, packing, shipping, delivery, redistribution, and disposal functions that meet the requirements of this contract. The Contractor shall use the Government furnished automated logistics support system. Logistic services are required for DFRC.

SECTION 4 - QUALITY MANAGEMENT SYSTEM

4 QUALITY MANAGEMENT SYSTEM

4.1 Management Responsibility

The Contractor shall define and document its policy for quality, including objectives for quality, and its commitment to quality in accordance with DRL item 4. The quality policy shall be relevant to the organizational goals and the expectations. The Contractor shall ensure that this policy is understood, implemented, and maintained at all levels of the organization.

4.2 Quality Management System

The Contractor shall establish, document, implement and maintain a Quality Management System (QMS) encompassing all services and requirements to cover the scope of this contract and continually improve its effectiveness. The Contractor's QMS shall be in compliance of the International Organization for Standardization document AS9110, Quality Management System for Aerospace, Requirements for Aircraft Maintenance. The Contractor shall ensure that personnel have access to QMS documentation and are aware of relevant procedures. Customer and regulatory Authority representatives shall have access to QMS documentation.

The Contractor's QMS shall be compatible with each NASA Center's unique QMS.

4.2.1 Quality Management System Planning

The Contractor shall ensure the integrity of the QMS is maintained and conforms to JSC standards and regulatory requirements when changes are implemented. If NASA actions significantly impair the Contractor's ability to meet established criteria, the Contractor may provide written justification for noncompliance to the CO/COTR. The CO/COTR will coordinate a waiver, if required.

4.3 Customer Focus

The Contractor shall assist in the development of requirements for controlling the quality and environmental impacts of JSC products and services by identifying, controlling, measuring and improving the processes used to perform assigned work in accordance with JPR 1281.9, Process Control.

4.4 Design Control

The Contractor shall be responsible for design control to include cost estimates, implementation plans, and schedules for all modifications and associated tests in accordance with JPR 1281.4, Design and Development. See Section 7, Engineering Activities.

4.5 Document and Data Control

4.5.1 Document Control

4.5.1.1 Process Control Work Instructions

The Contractor shall follow the QMS Work Instructions (WI) provided by NASA located on the QMS Aircraft Operations Master List. The Contractor may request

changes to these WI's in accordance with AOD 33803, Document and Data Management.

4.5.1.2 Technical Data

The Contractor shall coordinate document changes with NASA and regulatory Authorities. New maintenance processes shall be documented, qualified, and approved by NASA and, on type certificate aircraft, the FAA. The Contractor shall:

(1) Provide technical data after incorporation of new equipment to the NASA Quality Assurance (QA) Document Management Office (DMO).
(2) Ensure FAA approved technical data is available for equipment installed on FAA type-certificated aircraft prior to aircraft being released for flight.
(3) Provide the document custodian with technical data for flight manual changes.
(4) Prepare one time inspection requirements and identify needed changes to aircraft, engines, aircraft systems, and support equipment technical data. These changes shall be forwarded to the DMO for development and incorporation into formal technical documents.
(5) Provide technical data process improvements to the DMO in accordance with AOD 33803, Document and Data Management. Local changes to technical data will be reviewed for DoD applicability. If applicable to DoD, the Contractor will prepare an AFTO Form 22, Technical Manual Change Recommendation and Reply, change request and route to the Assistant Branch Chief, NASA QA Section for review and approval. Upon approval, the form will be forwarded to the responsible ALC for appropriate action.

4.5.1.3 Technical Libraries

(1) The Contractor shall maintain a library in each area that affects quality. The Contractor shall maintain technical libraries at EFD, ELP, and KSC to include QC and Shop libraries. The NASA QA DMO will determine additional areas.
(2) The Contractor QC Office shall maintain a current document master list for AOD and each technical library.
(3) The Contractor shall provide NASA a weekly report of document updates.
(4) The Contractor shall maintain a log of documents archived from the QC Library. The log shall be accessible to NASA QA and the Contractor shall provide reports as requested by NASA.

4.5.1.3.1 Technical Library Clerks

The Contractor shall provide technical library clerks who shall perform duties including but not limited to:

(1) Maintain an up-to-date technical library and document master list of all technical manuals, microfiche, and publications.
(2) Order all required technical publications.
(3) Distribute new technical publications and/or data changes when received from NASA QA to issue to sub-account custodian support personnel within two working days of receipt. The Contractor shall ensure the library documents are update within 5 working days of receipt.

SECTION 4—QUALITY MANAGEMENT SYSTEM

4.7.1 Control of Production and Service Provision

NASA reserves the right to inspect any system or procedure with NASA personnel that affects quality or safety.

The Contractor shall establish and maintain procedures for inspection and testing aircraft and related equipment in accordance with JPR 1281.10, Inspection and Testing. The Contractor shall:

(1) Establish process controls and develop control plans where key characteristics have been identified.
(2) Identify in-process verification points that require Quality Control intervention, or verification of conformance, for critical inspections. These tasks shall be incorporated into the Aircraft Inspection Program.
(3 Design, manufacture, and use tooling so that variable measurements can be taken, particularly for key characteristics.
(4) Plan special processes.
(5) Plan and carry out production and service provisions under controlled conditions. Controlled conditions shall include
   (a) The availability of information that describes the characteristics of the product or task.
   (b) The availability of work instructions.
   (c) The use of suitable equipment.
   (d) The availability and use of monitoring and measuring devices.
   (e) The implementation of monitoring and measurement.
   (f) The implementation of release, delivery and post-delivery activities.
   (g) Accountability for all products during manufacture.
   (h) Evidence that all manufacturing and inspection operations have been completed or otherwise documented and authorized.
   (i) Provisions for the prevention, detection and removal of foreign objects.
   (j) Monitoring and control of utilities and supplies to the extent they affect product quality.
   (k) Criteria for Workmanship
   The Contractor shall use the most current authorized version of the process control work instruction or technical data as indicated on the master document list. This includes all SOW requirements and options. The Contractor's responsibilities include but are not limited to:
      1. Perform workmanship in accordance with the approved technical data and 14 CFR Section 43.13, Performance Rules, and the workmanship criteria shall apply to all aircraft, engines, and appliances for both public and FAA type-certificated aircraft.
      2. Perform maintenance and inspections in accordance with (not inclusive) Military Technical Orders (T. O.), Manufacturers Specification, maintenance manuals, locally generated one-time inspections and one-time replacements, service changes, customer bulletins, service bulletins, engine bulletins, airframe bulletins and changes that are received from aircraft or component manufacturers, the Federal Aviation Administration (FAA), and the DoD.

4.8.2 Temporary Removal of Life-Limited Parts

The Contractor shall document when maintenance is performed on Life-Limited Parts and the status of Life-Limited Parts. This includes the documentation of a part that is removed and subsequently reinstalled to facilitate other maintenance.

4.8.3 Marking of Life-Limited Parts

The Contractor shall ensure all Aircraft Life-Limited Parts are properly marked, tagged, or positively identified, and maintain the historical records of serviceability and are available if sold or transferred in accordance with 14 CFR Section 45.16, Marking of Life Limited Parts.

4.9 Process Control

The Contractor shall follow the QMS Work Instructions (WI) provided by NASA. The Contractor may request changes to these WI's in accordance with AOD 33803, Document and Data Management. The Contractor shall:

(1) Establish processes, documents, or resources required to NASA management,
(2) Perform verification, validations, monitoring, inspection and test activities when required by this SOW and the criteria for product acceptance, and
(3) Provide records that provide evidence the verification, validations, monitoring, inspection and test activities are accomplished.

4.9.1 Determination of Requirements

Prior to accomplishing any work, the Contractor shall determine

(1) The requirements for delivery and post-delivery,
(2) Requirements not stated by this SOW or other directives but necessary for specified or intended use, where known, and
(3) Statutory and regulatory requirements related to any process.

4.9.1.1 Review of Requirements

Prior to accomplishing any work, the Contractor shall review the requirements and ensure that:

(a) Requirements are clearly defined,
(b) Contract or order requirements differing from those previously expressed are resolved,
(c) The Contractor has the ability to meet the defined requirements, and
(d) Risks (e.g., new technology, delivery time) have been evaluated.
(e) Records of the results of the review and actions arising from the review shall be maintained.

4.9.2 Aircraft Mishap Plan

The Contractor shall perform procedures identified in JSC 05900, Emergency Preparedness Plan, Appendix 5, Aircraft Mishap Plan, to respond to mishaps involving NASA aircraft. This plan includes:

(1) Providing personnel properly trained and responsible for the safe and efficient handling of each aircraft in a mishap situation.

4.9.10 Joint Oil Analysis Program (JOAP)

The Contractor shall maintain an Oil Analysis Program in accordance with the type aircraft technical requirements contained in AOD 33871, Joint Oil Analysis Program.

4.9.11 Tool Control Program

The Contractor shall establish and maintain a Tool Control Program. Personal common hand/power tools shall not be provided by the Government on a routine basis. Power tools may be purchased by the Government under special circumstances for technicians with prior approval by NASA's COTR or assigned authorizing official. The Contractor's duties include but are not limited to:

(1) Ensure individual tools are positively accounted for. Ensure that each technician receives training on the safety and use of tools.

(2) Be responsible for NASA provided special tools and test equipment so the tools are not damaged or destroyed through neglect or abuse.

(3) Ensure positive inventory control to account for tools, equipment and those checked-out to other shops or personnel.

- (a) All toolboxes, personal and shop, shall be shadowed and contain a master inventory list.
- (b) All tool boards shall be shadowed.
- (c) All tools shall be marked or identified.
- (d) A work center supervisor, or a production inspector, shall perform tool inventories at the end of each work task and at a frequency that includes but is not limited to the end of each day. The work center supervisor shall retain these inventory records for 6 months.

(4) Establish the policy and procedures to be followed in all instances involving lost or missing tools. This policy includes but is not limited to:

- (a) Immediately notifying maintenance control and the technician's supervisor.
- (b) Generating a down discrepancy in the NASA aircraft maintenance management system against stating what type tool was lost for all affected aircraft.
- (c) Notifying the NASA Assistant Branch Chief, Aircraft Systems Section and the NASA Assistant Branch Chief, Quality Assurance Section or their designated representative.
- (d) Ensuring the supervisor completes AOD Form 1748, Lost Tool Report and forwards the completed copy to the NASA Assistant Branch Chief, Quality Assurance Section prior to aircraft flight.

4.9.12 Weight and Balance Program

The Contractor shall establish and maintain a Weight and Balance Program in accordance with the Automated Weight and Balance System (AWBS) program.

4.9.13 Weather Protection/Lightning Detection Program

The Contractor shall comply with the requirements for the Weather Detection/Lightning Detection Program in accordance with AOD 33821, Weather Protection/Lightning Detection. All aircraft at EFD shall be positioned in a hangar as facilities or weather permits, or made ready to be flown to another field prior to severe weather as directed by NASA.

(6) Perform service changes unless otherwise waived by NASA Engineering, Maintenance, and QA. These service changes shall be approved in accordance with AOD 33846, Aircraft Service Changes.

(7) Maintain a complete copy of the third party work order as active quality record in accordance with 14 CFR Section 91.417, Maintenance Records, NPR 1441.1, Records Retention Schedules, and JPR 1440.3, JSC Files and Records Management Procedures.

4.10.3 Engineering Inspections/Analysis

The Contractor shall be responsible for engineering Inspections/Analysis in accordance with Section 7, Engineering Activities.

4.10.4 Production Inspections

The Contractor shall perform production inspections on all aircraft work indicated below and when required by the applicable WI. The Contractor shall identify and perform mandatory production inspections on all critical tasks identified in the Aircraft Maintenance Program. Records of these inspections shall be maintained in accordance with NPR 1441.1, Records Retention Schedules, JPR 1440.3, JSC Files and Records Management Procedures, and Section 4.16. See PI's and QAR's for the production inspection requirements per Section 4.10.4.1 and 4.10.4.2. The Contractor shall ensure all Production Inspections are accomplished prior to the aircraft, engine, or appliance being returned to service. Inspections may be performed on any system or procedure to ensure quality of the product.

4.10.4.1 Production Inspectors

The Contractor shall designate technicians with the collateral duty of Production Inspectors (PI). PI's shall be responsible to the quality control manager when serving in the capacity of an inspector. The PI's are actively involved in the decision making process on how the troubleshooting and repairs will be made. These duties shall include but are not limited to:

(1) Performing aircraft inspections of quality procedures, processes, and change requests. NASA deems those Configuration Directives with a Technical Directive code of 11, 12, 13, 14, 16 or 17 as critical processes and therefore will require a second level inspector's signature in the DSI/QAR block on the appropriate NASA provided automated form utilized in the automated database indicating the work has been completed as depicted on the Configuration Directive in accordance with AOD WI 33851. In these cases, the PI can stamp and/or sign for all Mandatory Inspection Points (MIP's) associated with the PI's stamp authority. The second level inspector (QAR) is responsible for ensuring these MIP's and the intent of the directive has been satisfied before signing off the directive.

(2) Performing toolbox inventory inspections.

(3) Performing inspection of quality records. Conduct research, to include trend analysis to determine extent of deficiencies and make recommendations as appropriate to correct negative trends.

(4) Monitoring currency and filing of technical publications.

(5) Performing operational tests/checks on equipment in accordance with approved technical data.

(6) Recommend changes in methods, procedures, processes and other techniques employed to improve the productivity without compromising safety or quality of assigned tasks. Changes to existing requirements will be accomplished in accordance with AOD 33803, Documentation and Data Management.

(14) Ensuring Continued Airworthiness requirements are available for technicians per Section 4.5.1.2.
(15) Performing inspections on major repairs and alterations and completing the required FAA Forms prior to the aircraft being returned to service on type-certificated aircraft.
(16) Performing mandatory inspections on Configuration Directives with a Technical Directive code of 11, 12, 13, 14, 16, or 17; refer to AOD 33851, Maintenance Action Form Work Instruction NASA Form 1671.
(17) Assist in the certification of assigned personnel.
(18) Investigate safety incidents and as required provide assistance to NASA or other personnel assigned to investigate anomalies.
(19) Assist in the development of pertinent technical manuals and preparation of technical manual changes required as a direct result of NASA modifications approved by the NASA Configuration Control Board, process improvements or other actions directing the process/procedure changes to existing technical data.

4.10.5 Reserved

4.10.6 Scheduled Inspections

The Contractor shall perform scheduled inspections in accordance with Section 6, Maintenance Activities.

4.10.7 Special Inspections

The Contractor shall perform special inspections when required by the Aircraft Maintenance Program, or applicable NASA WI.

4.11 Control of Monitoring and Measuring Devices

The Contractor shall establish and maintain control procedures for inspection, measuring, and test equipment in accordance with JPR 1281.11, Control of Monitoring and Measuring Devices.

4.12 Inspection and Test Status

The Contractor shall establish and maintain control procedures for the inspection and test status of equipment to include the items indicated below in accordance with JPR 1281.10, Inspection and Testing. The Contractor's responsibility includes but is not limited to:

(1) Track the reliability of aircraft systems and components in accordance with AOD 33816, Trend Analysis, by using the NASA provided aircraft maintenance data collection system. The Contractor shall provide notification to NASA QA any component or system that exhibits abnormal failure rates or malfunctions, and recommend corrective actions. The Contractor shall take corrective action as approved by the NASA Maintenance and NASA QA offices.
(2) Record all maintenance work performed in the NASA provided aircraft maintenance data collection system in accordance with AOD 33851, Maintenance Action Form Work Instruction NASA Form 1671, and the appropriate quality record in accordance with the applicable technical data or WI.

4.14 Corrective and Preventive Action

4.14.1 Corrective Action

The Contractor shall take action to eliminate the cause of nonconformities in order to prevent recurrence. Corrective or preventative actions shall be appropriate to the effects of the nonconformities encountered or the effects of the potential occurrence. The Contractor shall:

(1) Establish and maintain a documented procedure for identifying and preventing deficiencies in the QMS that include:
   (a) Procedures for reviewing nonconformities (including customer complaints),
   (b) Determining the causes of nonconformities,
   (c) Evaluate, determine and implement corrective actions to ensure that nonconformities are prevented and/or do not recur,
   (d) Records of the results of action taken,
   (e) Reviewing corrective and/or preventative action taken,
   (f) Flow down of the corrective action requirement to a supplier, when it is determined that the supplier is responsible for the root cause, and
   (g) Specific actions where timely and effective corrective actions are not achieved.

   Guidelines for these procedures are identified in JPR 1281.14, Corrective and Preventive Actions, and Continual Improvement, and AOD 33882, Quality Audit Program.

(2) The Contractor shall perform root cause analysis, corrective and preventive actions for all observations and nonconformance's discovered by NASA QA in accordance with AOD 33882, Quality Audit Program.

(3) The Contractor shall implement and record any changes to documented procedures resulting from corrective action.

(4) Utilize the DoD and FAA systems identified in FAA AC 21-29C, Detecting and Reporting Suspected Unapproved Parts, and FAA AC 20-109A, Service Difficulty Program, to alert other agencies of suspect components. Problems shall also be reported to the Assistant Brach Chief, Quality Assurance Section.

(5) Determining potential nonconformities and their causes (includes proactive processes for analyzing data for failure trends).

(6) Perform trend analysis procedures in accordance with AOD 33816, Trend Analysis.

4.15 Identification, Handling, Storage, Packaging, Preservation, and Delivery

The Contractor shall handle, store, package, preserve, and deliver materials in accordance with JPR 1281.15, Identification, Handling, Storage, Packaging, Preservation, and Delivery, and NPR 6000.1G, Requirements for Packaging, Handling, and Transportation.

4.15.1 Shipment of Cargo on NASA Aircraft

The Contractor's responsibility includes but is not limited to:

(1) A review of all safety regulations shall be conducted prior to acceptance of the cargo.

SECTION 4—QUALITY MANAGEMENT SYSTEM

The Contractor shall establish and maintain control methods for identifying, collecting, accessing, filing, storing, maintaining, and dispositioning all forms of Aircraft Maintenance Records in accordance with JPR 1440.3, JSC Files and Records Management, NPR 1441.1, NASA Records Retention Schedules, Schedule 7, AFS # 7900. In addition, on type-certificated aircraft, the Contractor shall establish and maintain control methods of aircraft records in accordance with 14 CFR Section 91.417, Maintenance Records. The record control methods shall include:

(1) Identification of Aircraft Maintenance Records:

(a) General Maintenance:

1. All maintenance work performed on aircraft, engines, or appliances shall be entered in the NASA aircraft maintenance management system in accordance with:
   - i. AOD 33851, Maintenance Action Work Instruction NASA Form 1671, or equivalent.
   - ii. AOD 33852, NASA Form 1672, Aircrew Flight Form, or equivalent.
   - iii. AOD 33853, NASA Form 1673, Flight Preparedness Summary Form, or equivalent, and the appropriate aircraft quality record indicated by the technical data.
2. Hard copy aircraft maintenance records shall be identified and controlled in accordance with the Aircraft Maintenance Program.

(b) Inspection Status:
The maintenance records shall indicate the current inspection status of the aircraft, including the time since the last inspection was performed.

(c) Aircraft Life-Limited Parts:
The Contractor shall control Aircraft Life-Limited Parts using the NASA aircraft maintenance management system. Refer to Section 4.8.

(d) Time Change/Life-Limited Components:
The Contractor shall establish and maintain quality records indicating the current status of Time Change/Life-Limited Components on aircraft or related equipment.

(e) Aircraft Change Directives (ACD):
All ACD's which include locally-generated one-time inspections and one-time replacements, service changes, customer bulletins, service bulletins, engine bulletins, airframe bulletins and airframe changes that are received from aircraft or component manufacturers, the FAA, and the DoD will be managed in accordance with AOD 33846, Aircraft Change Directives Management. This includes, but is not limited to:

1. Maintaining up-to-date records in the NASA aircraft maintenance management system to reflect the current status of all applicable ACD's.
2. For those ACDs complied with, the Maintenance Action Form (MAF) will contain the method of compliance in the corrective action field and if after compliance a recurring inspection will be required, the date of original ACD compliance, time on aircraft/engine (as applicable), the number of cycles (if applicable) and the date, time or cycles when the next maintenance action is required.
3. Logs and records will ensure:

1. For public aircraft:
   i. The date of the inspection.
   ii. The type of inspection, methodology used to accomplish the inspection, the results of the inspection and traceability to associated discrepancies.
   iii. The aircraft total time in service, landings, parabolas, cycles, L/D's, as applicable.
   iv. The signature of the person approving or disapproving for return to service.
   v. The employee number of the person approving or disapproving for return to service the aircraft, airframe, aircraft engine, propeller, appliance, component part, or portions thereof.
2. For type-certificated aircraft:
   The certificate number and type of certificate of the person approving or disapproving for return to service the aircraft, airframe, aircraft engine, propeller, appliance, component part, or portions thereof.

   In addition to the requirements for public aircraft, the following statement: "I certify that in accordance with a progressive inspection program, a routine inspection of (identify whether aircraft or components) and a detailed inspection of (identify components) were performed and the (aircraft or components) are (approved or disapproved) for return to service."

   If disapproved, the entry will further state "and a list of discrepancies and items deemed not airworthy (date) has been provided to the aircraft owner or operator."

   The entry must identify the inspection program, the part of the inspection program accomplished, and contain a statement that the inspection was performed in accordance with the inspections and procedures for that particular program.

(c) Aircraft Life-Limited and Time Change Parts:
Records for Aircraft Life-Limited parts shall include:
1. The current status of life-limited parts of each airframe, engine, propeller, rotor, and appliance.
2. The time since last overhaul of all items installed on the aircraft which are required to be overhauled on a specified time basis.

(3) Collecting Aircraft Maintenance Records:
The Contractor shall provide a central point or office to collect Aircraft Maintenance Quality Records to include electronic and hard copy media. Archive quality records in accordance with JPR 1440.3, JSC Files and Records Management Procedures.

(4) Accessing Aircraft Maintenance Records:

Preventive Maintenance, Rebuilding, and Alteration. This list shall be retained until the defects are repaired and the aircraft is approved for return to service.

d. When transferring the aircraft to another agency, the aircraft maintenance records shall be transferred with the aircraft. If aircraft is otherwise disposed of or destroyed, the records will either be destroyed, when no longer needed, or when 1 year old, whichever is sooner.

4.17 Internal Quality Audits

The Contractor shall establish and maintain self-audit procedures. The Contractor's responsibilities include but are not limited to:

(1) Perform self-audits at planned intervals to ensure the QMS
   (a) Conforms to the processes required by this SOW and
   (b) Is effectively implemented and maintained.

(2) Provide an audit program that takes into consideration the status and importance of the processes and areas to be audited, as well as the results of previous audits. This program shall include:
   (a) The audit criteria, scope, frequency and methods of accomplishment.
   (b) The responsibilities of personnel. Note: Auditors shall not audit their own work.
   (c) Requirements for planning and conducting audits.
   (d) Procedures for reporting results.
   (e) The detailed tools and techniques such as checklists, process flowcharts, or any similar method to support audit or the QMS requirements. The acceptability of the selected tools will be measured against the effectiveness of the internal audit process and overall organization performance.
   (f) Procedures for maintaining audit records. The Contractor shall provide records of all inspections or audits conducted by the Contractor and any corrective action taken. All nonconformances discovered during the audit process must receive corrective action. Reports of Contractor internal audits shall be subject to NASA review to ensure the self-audit procedures are accomplished. These records shall be made available to the NASA Assistant Branch Chief, QA Section, within 30 calendar days of the audit being performed.
   (g) Follow-up activities that include verification of the actions taken and the reporting of verification results.

(3) Meet or exceed the AMMP contract and AOD QMS standards. AOD 33882, Annual Process Audit Program, defines the audit and management review process. NASA reserves the right to conduct audits at any time during the contract period. These audits shall include the inspection of facilities, equipment, and conformance to required AOD directives and Contractors Operations Manual and are normally performed in accordance with AOD 33882, Quality Audit Program, AOD 33879, Contract Surveillance Plan, NASA Headquarters Intercenter Aircraft Operations Panel (IAOP) Procedures identified in NPD 7900.4, Aircraft Operations Management, and AG-UWI-003, Conducting and Participating in Internal Audits.

(2) Use the OJT training checklists.
(3) Record training accomplished.
(4) Recommend changes to the Training, Qualification, and Certification Program.

4.18.1.4 Personnel Training Folder

The Contractor shall identify and record in a Personnel Training Folder the training requirements, qualifications, and certifications of all employees. These records shall be available to QMS auditors and include but are not limited to:

(1) Safety Related Records:
Safety related requirements shall be maintained by the training officer in the QC office.
(a) Name of employee.
(b) Employment start date.
(c) Primary duty position to include assigned aircraft and shop.
(d) Evidence of all safety training required in accordance with JPR 1700.1, JSC Safety and Health Handbook.

(2) Work Center Training Records:
Training records for personnel shall be maintained by the work center supervisor/foreman. These records shall be available electronically to other work center supervisors/foremen when personnel are dispatched for temporary duty (TDY). These folders shall contain but are not limited to:
(a) Name of employee.
(b) Primary duty position to include assigned aircraft and shop.
(c) Additional duties which require training, qualification or certification requirements.
(d) Evidence of all certification, when required by the duty position(s), to include recurrent certification frequencies.
(e) Evidence of all qualifications, when required by the duty position(s), to include recurrent frequencies.
(f) Evidence of all training, when required by the duty position(s), to include recurrent training frequencies.
(g) Evidence of certification waiver authority when applicable.

4.18.1.5 Training Report Requirements

The Contractor shall provide a monthly training report in accordance with DRL item 8.

4.18.2 Facilities

The following facilities/shops are available for Contractor use:

Shop/Facility	Location/Building	Remarks
EFD		
Administration Office	EFD, Building 273	NASA Maintenance, IT, Contractor Administration
Battery Shop	EFD, Building 135	
Corrosion/Paint Shop	EFD, Building 136	
Egress Shop	EFD, Building 271	
Electric Shop	EFD, Building 135	

Shop/Facility	Location/Building	Remarks
Shuttle Handling Area "Area-A"	EDW/DFRC	Shuttle Support (747 aircraft)

4.18.2.1 Facility Services

The Contractor is responsible for a safe and secure work environment in accordance with JPR 1700.1, JSC Safety and Health Handbook. The Contractor's responsibilities include but are not limited to:

(1) Cleaning hangar floors and areas within all buildings occupied by the Contractor that are not carpeted or covered with floor tiles.
(2) Cleaning hangar floors to ensure free from dirt, grease, and oil. Spills shall be cleaned up immediately. All shop areas will be swept, work areas cleaned, and materials properly stored at the end of each shift or work day.
(3) Cleaning hangar wall areas (within reach) to include power cable racks, fire hose assemblies, fire cabinets, fire extinguishers, and portable eye wash stations. Fire hoses, extinguishers, and eye wash stations shall be clean and serviceable at all times.
(4) Cleaning hangar doors and drain grates to ensure free of debris.
(5) Stowing cables in "walk-overs" when in use. Cables and "walk-overs" shall be stowed when not in use to avoid trip hazards.
(6) Ensuring personnel in aircraft maintenance docks and workstations within the hangars use drip pans, aircraft hardware bags, and panel holders.
(7) Ensuring shops, warehouses, and other industrial work areas within and adjacent to the hangars are free of debris.
(8) Ensuring good housekeeping practices are implemented and followed.
(9) Ensuring cabinets are kept level, clean, and in good repair. Stacking of materials in offices and hangar spaces shall not create a hazardous condition.
(10) Ensuring the safe use, handling, storage, and disposition of all materials, including hazardous materials, used in support of aircraft maintenance. Products and materials such as flammables and combustibles shall be stored in flammable materials storage cabinets that are suitable and approved for the intended use. Products that are not compatible must be stored separately. Small quantities of flammable and combustible materials may be kept in shop, hangars, and other such work areas where it is safe to do so. See Section 4.18.3.2, Safety and Health Plan.
(11) Ensuring fire suppression/fire detection systems remain unobstructed.

4.18.2.1.1 Facility Manager Alternates

The Contractor shall assign a facility manager alternate to each hangar, building, warehouse, or facility used or occupied by the Contractor to assist the NASA facility managers. One facility manager altemate may be responsible for multiple locations. Their primary duties shall consist of:

(1) Performing facility inspections in accordance with AOD 33877, Monthly/Quarterly Safety and Health Inspection.
(2) Taking measures to correct discrepancies (particularly those with safety or health implications).
(3) Acting as a point of contact in the NASA facility manager's absence.

The Contractor shall designate a person to assist the NASA fire marshal. The duties shall include but are not limited to:

(1) Assisting the NASA fire marshal in the performance of fire drills.
(2) Monitoring fire equipment for serviceability.
(3) Inspecting all work areas and other facilities to identify possible fire risks.

4.18.3.1.2 Fire Wardens--Alternates and Assistants

The Contractor shall designate a Primary and Secondary Fire Warden with assistant Fire Wardens as required, with the duties identified in JPR 1700.1, JSC Safety and Health Handbook. The duties shall include but are not limited to:

(1) Assisting the NASA fire marshal in the performance of fire drills.
(2) Monitoring fire equipment for serviceability.
(3) Inspecting assigned work area to identify possible fire risks.

4.18.3.2 Safety and Health Plan

The Contractor shall establish, implement, and maintain a Safety and Health Plan in accordance with DRL item 13.

4.18.3.2.1 Safety and Health Officer

The Contractor shall designate a Safety and Health Officer to manage the Contractors Safety and Health Office. All Safety Office personnel shall provide hands on safety involvement and training (or training oversight) at all levels of the work performed. The Safety and Health Officer's duties include but are not limited to:

(1) Implement and maintain the Safety and Heath Plan and all formal contacts with regulatory agencies and with NASA.
(2) Teach basic first aid and Cardio Pulmonary Resuscitation (CPR) training to Contractor and NASA employees.
(3) Work on a daily basis with the NASA Ground Safety, Industrial Safety and Maintenance Safety Officers at EFD.
(4) Inspect shops, hangars, and other work areas and facilities regarding safety issues.
(5) Sample breathing air in accordance with 29 CFR 1910.146, General Environmental Controls--Permit-Required Confined Spaces.
(6) Test and service eye wash stations in accordance with the manufacturer's technical data.
(7) Maintain Material Safety Data Sheet (MSDS) files.
(8) Maintain spill kits.
(9) Calibrate and maintain safety and environmental test equipment.
(10) Shall be responsive to center-wide safety, health, environmental, and fire protection concerns and goals, and will participate in meetings, training, and other activities related to the JSC Safety and Health Plan.

SECTION 4—QUALITY MANAGEMENT SYSTEM

The information system includes the institutions workstations, software applications, data, web sites, video, telecommunications networks, documentation and publishing, records and directives administration, and information systems security. The Contractor shall provide an Information Technology Plan and associated reports in accordance with DRL item 6.

4.18.4.1 RESERVED

4.18.4.2 Computer Security

The Contractor shall establish effective and comprehensive industrial, physical, administrative, information, communications, and Information Technology (IT) security programs in accordance with the National Industrial Security Program Operating Manual, NASA site-specific regulations, and DD Form 254, Contract Security Classification Specification. The Contractor shall adhere to NASA security procedures for the unauthorized use of Government computer systems.

(1) Computers shall only be used for work-related functions.
(2) Personnel shall log off computers when not in use.
(3) Personnel shall receive security training on the computer information system within 3 months of employment and annually thereafter (See Section 10, Personnel Requirements).

Requirements System (OMRS). When approved technical data is not available or inadequate, the Contractor shall develop operation and maintenance (O&M) instructions, which will be titled Maintenance Directives (MD's). The Contractor shall establish and maintain current operation, maintenance, and repair procedures. The procedures utilized by the Contractor shall be in accordance with current laws, regulations, directives, and instructions applicable to these functions.

A4.9.2 Aircraft Mishap Plan

The Contractor shall provide support for off-site recovery or repair of disabled aircraft. Technical personnel shall participate in off-site recovery operations as required in support of DFRC flight operation missions. These deployments may include overseas travel. The Contractor shall also be required to participate in emergency recovery operations for any incidents/accidents associated with DFRC programs. Participation may require the repair of disabled aircraft, recovery of aircraft, or aircraft related hardware from crash sites. The Contractor shall be authorized to travel on Government aircraft to facilitate recovery of a disabled aircraft. The Contractor shall be expected to initiate all travel arrangements and/or procurement of services and equipment to facilitate the recovery of an aircraft.

A4.9.4 Aircraft Static Display

The Contractor shall provide aircraft static display services in accordance with DCP-O-001, Dryden Aircraft Maintenance and Safety Manual.

A4.9.5 Aircraft Maintenance Program

A4.9.5.2 Aircraft Maintenance Program Monitor

Not Applicable.

A4.9.7 Foreign Object Damage/Debris (FOD) Control Program

The Contractor shall be in compliance with the FOD policy called out in DCP-O-001, Dryden Aircraft Maintenance and Safety Manual, Chapter 9.

A4.9.10 Joint Oil Analysis Program (JOAP)

The Contractor shall maintain an Oil Analysis Program in accordance with the requirements of the type aircraft technical data.

A4.9.11 Tool Control Program

The Contractor shall be in compliance with the tool control policy called out in DCP-O-001, Dryden Aircraft Maintenance and Safety Manual, Chapter 9. The Contractor is encouraged to suggest better methods of tool control for incorporation into the Dryden policy. The Government may elect to provide tools as required to the Contractor when available as determined by COTR.

A4.9.12 Weight and Balance Program

Not applicable.

CO/COTR. All training shall be consistent with the provisions of the DCP-O-001, Dryden Aircraft Maintenance and Safety Manual, and with DOP-O-018, Certification Training, for mission management aircraft.

A4.18.1.3 Personnel Training

A4.18.1.3.1 Course Instructors

Not Applicable

A4.18.2 Facilities

The following facilities/shops are available for Contractor use:

Shop/Facility	Location/Building	Remarks
Maintenance Control	DFRC Trailer, T-20	
Engine Shop	DFRC Building 3800	
Electric Shop	DFRC Building 4802	
Administration Office	DFRC Building 4800/T-20	
Engineering, QC, Aircraft Operations, & Warehouse	DFRC Building 4800	
Hangar; Global Hawk	DFRC Building 4801	
Engine Shop, Hangar; F18, T34, T38, King Air	DFRC Building 4802	
Machine Shop, NDI Laboratory, Sheet metal Shop, Tool Crib, Hydraulic Shop, Fabrication Shop	DFRC Building 4823	
Hangar; F15, F16,	DFRC Building 4826	
Pilot Operations	DFRC Building 4800/DAOF	
Hangar: CEV	DFRC Building 4833	
Hangar; ER2, Predator	DFRC Building 4840	
Flight line & Ramp Areas	DFRC	
Office Areas, Support Shops, Hangar; 747, DC8, Associated Flight Line & Ramp Areas	DAOF Site 9, Building 703	

A4.18.2.1 Facility Services

A4.18.2.1.1 Facility Manager Alternates

Not Applicable

A4.18.3 Work Environment

A4.18.3.2 Safety and Health Plan

The Contractor shall establish, implement and maintain a Safety and Health Plan in accordance with DRL item 14.

A4.18.3.2.2 Assistant Safety and Health Officer

Not Applicable.

A4.18.3.3 Environmental Health Program

The Contractor shall develop and implement an Environmental Health and Safety (EHS) Program in accordance with DRL item 5.

B4.9.12 Weight and Balance Program

Not applicable.

B4.9.13 Weather Protection/Lightning Detection Program

Not applicable.

B4.10 Inspection and Testing

The Contractor shall advise the Lead, NASA Quality Assurance, or his designee, each morning on the status of the aircraft for which they are responsible.

B4.10.3 Engineering Inspections/Analysis

Not Applicable.

B4.10.4 Production Inspections

B4.10.4.2 Quality Assurance Representative

Not Applicable.

B4.11 Control of Monitoring and Measuring Devices

All aircraft test equipment records will be monitored for calibration due dates and repair notices. Equipment will be submitted for recalibration/repair as required. The Contractor will be responsible for tracking approximately 220 pieces of equipment.

B4.12 Inspection and Test Status

B4.12.2 Non-Destructive Inspection Testing

Not Applicable.

B4.16 Control of Quality Records

B4.16.2 Aircraft Maintenance Records

The Contractor shall maintain aircraft maintenance records in the QAO records library. Hard copy aircraft maintenance records shall be controlled in accordance with the Aircraft Maintenance Program. Section 4.16.2(1)(a)1.i., ii., and iii are not applicable to LaRC. All other requirements apply.

B4.18 Resource Management

B4.18.2 Facilities

The following facilities/shops are available for Contractor use:

Shop/Facility	Location/Building	Remarks
Administration Office	LaRC Building 1244	NASA Maintenance, Contractor Administration
Battery Shop	LaRC Building 1244	
Electric Shop	LaRC Building 1244	
Fabrication Shop	LaRC Building 1244	
Flight Line/Ramp	LaRC	
Ground Support Equipment Shop	LaRC Building 1244	

5 MANAGEMENT ACTIVITIES

(1) The Contractor shall exercise management, operational control, and retain full responsibility for performance requirements set forth in this SOW to include the goals listed in Appendix C, *Performance Goals*.

(2) The Contractor's General Manager shall be responsible for the implementation of the safety, health, and environmental program requirements and be responsive to center-wide safety, health, environmental, and fire protection concerns and goals.

(3) The Contractor's General Manager shall participate in meetings and other activities related to the Safety and Health Plan.

(4) The Contractor shall furnish, in writing, to the CO/COTR the names and phone numbers of the contract manager, all Contractor management, and supervisory personnel no later than contract start date. The CO/COTR shall be notified immediately whenever changes are proposed. Replacement of key management personnel shall be subject to approval of the CO/COTR.

(5) The Contractor shall provide sufficient mission capable aircraft per scheduled flying day, configured in accordance with the daily/weekly/monthly flying schedule, to ensure accomplishment of the mission.

(6) If NASA actions significantly impair the Contractor's ability to meet established criteria, the Contractor may provide written justification for noncompliance to the CO/COTR. The CO/COTR will coordinate a waiver, as required.

(7) Contractor management may be required to meet at least weekly with the CO/COTR during the first month of the contract, and thereafter as determined by the CO/COTR.

(8) The Contractor shall be responsible for complying with the Contractor's QMS encompassing all services and requirements to cover the scope of this contract.

5.1 Contractor Information Program

The Contractor shall establish and maintain a program to disseminate information to all personnel concerning issues of health, environmental, safety practices, and aircraft safety of flight items. This program shall include but not be limited to:

(1) An information file of all items disseminated to Contractor personnel.

(2) Records showing all personnel are aware of the file contents.

5.2 Documents

(1) The Contractor shall establish, maintain, and implement the requirements of the following documents:

(a) Aircraft Maintenance Program Work Instructions in accordance with DRL item 3.

(b) Aircraft Recovery Plan WI in accordance with DRL item 1.

(c) Contractor's Operations Manual (COM) in accordance with DRL item 3.

(d) Environmental Health Program Plan in accordance with DRL item 4.

(e) Information Technology (IT) Capital Investment Planning (CIP) DRL item 5.

(f) Lessons Learned in accordance with DRL item 6.

data information. Contractor personnel shall effectively utilize the computer information systems supplied by the Government to accomplish the requirements of this SOW.

5.4.1 Aircraft Maintenance and Logistics Management Information System(s)- General

The Contractor shall effectively utilize the Government furnished aircraft maintenance, logistics, and inventory management information systems. The Contractor shall input all data to ensure aircraft maintenance and logistics functions are accomplished.

5.5 JSC Environmental and Energy Conservation Requirements

The Contractor shall ensure that all work performed and equipment used on-site at JSC, EF, SCTF and EPFOL to fulfill the requirements of this contract are in compliance with all Federal, state, and local regulations and public laws, and the following NASA JSC directives: JPD 8500.1, JSC Environmental Excellence Policy; JPR 8550.1, JSC Environmental Compliance Procedural Requirements; JPR 8553.1, JSC Environmental Management System Manual; CWI JE9W-06, EMS Aspect/Impact Assessment and EMP Process; NPR 8570.1, Energy Efficiency and Water Conservation; JSC's Energy and Water Conservation 5-Year Plan; and CWI J69W-03, Energy Conservation. The Contractor shall provide data on affirmative procurement, waste reduction activity, energy efficient product procurement, and ozone depleting substances in accordance with DRD XX-X-X, Environmental and Energy Consuming Product Compliance Reports.

The Government remains the owner and operator of record for all environmental activities conducted at NASA owned properties unless otherwise documented in a signed agreement between NASA and the Contractor. The Contractor is advised that activities performed at JSC and associated facilities are subject to Federal, state and local regulatory agency inspections to review compliance with environmental laws and regulations. For on-site issues, JSC's Environmental Office will be the single point of contact with Federal and state regulatory agencies and their representatives unless otherwise directed by the Contracting Officer or the Environmental Office. The Contractor shall immediately notify the JSC Environmental Office when contacted by external regulatory agency representatives and shall cooperate fully. The Contractor shall complete, maintain, and make available to the Contracting Officer, JSC Environmental Office, JSC Energy Manager, or regulatory agency personnel all documentation relating to environmental compliance matters under applicable laws. The Contractor shall immediately notify the JSC Environmental Office upon issuance of a Notice of Violation or noncompliance to the Contractor.

Should a Notice of Violation, Notice of Noncompliance, Notice of Deficiency, or similar regulatory agency notice be issued to the Government as a facility owner/operator on account of the actions or inactions of the Contractor or one of its subcontractors in the performance of work under this contract, the Contractor shall fully cooperate with the Government in correcting any problems and defending against regulatory assessment of any civil fines or penalties arising out of such actions or inactions.

SECTION 5- MANAGEMENT ACTIVITIES

B5 LaRC- MANAGEMENT ACTIVITIES, CENTER UNIQUE

The Contractor shall perform the basic requirements of the SOW as specified in this section and identified in Section 3.2.1.

B5.1 Documents

The Contractor shall establish, maintain and implement the requirements of the documents indicated below in accordance with JSC AOD 33803, *Document and Data Management*.

(1) The Contractor shall develop, implement, and maintain a *Contractor's Operations Manual* in accordance with DRL item 3.
(2) Environmental Health Program in accordance with DRL item 21.
(3) Information Technology Plan DRL item 5.
(4) Safety and Health Plan in accordance with DRL item 12.

B5.2 Report Requirements

The Contractor's site management shall provide the reports indicated below and they shall be maintained in accordance with NPR 1441.1, *NASA Records Retention Schedules*.

Safety and Health Program Reports in accordance with DRL item 12.

B5.3 Computer Systems- General

B5.3.1 Aircraft Maintenance and Logistics Management Information System(s)- General

The Contractor shall effectively utilize the Government furnished aircraft maintenance, logistics, and inventory management information systems. The Contractor shall input all data to ensure aircraft maintenance and logistics functions are accomplished.

(b) Generate NASA Form 1673, *Flight Preparedness Summary Form* in accordance with AOD 33853, *NASA Form 1673, Flight Preparedness Summary Form* to certify aircraft "safe for flight".

(c) Perform trend analysis in accordance with AOD 33816, *Trend Analysis* for repeat discrepancies prior to dispatching personnel to a work task. In addition, trend analysis information is required any time there is an Air or Ground Abort in accordance with AOD 33822, *Abort Reports/Abort Notification*.

(4) Interface daily with the Operations Duty Officer (ODO) to meet flying requirements and requests. The Contractor shall maintain the ability to add aircraft to the schedule on a day-to-day basis to meet changing operations and maintenance requirements.

(5) Report aircraft air aborts, ground aborts, and maintenance delays in accordance with AOD 33822, *Abort Report/Abort Notification*.

(6) Receive discrepancies from aircrew and ensure they are entered into the NASA provided automated database in accordance with AOD 33851, *Maintenance Action Form Work Instruction NASA Form 1671* and AOD 33833, *One-Time Flight/Off-Station Maintenance*.

(7) Ensure aircraft are not released for flight with safety of flight discrepancies, inspections or Life-Limited Components due scheduled maintenance, or any discrepancy that can impact the mission, and coordinate all efforts through the NASA maintenance officer.

(8) Recommend changes to the process control quality procedures that effect maintenance operations.

6.2.2 Weekend Duty- Maintenance Control Supervisors

The Contractor shall provide Weekend Duty- Maintenance Control Supervisors who shall perform the following duties:

(1) Perform maintenance scheduling, tracking, resource allocation, and accomplishment of all weekend maintenance activities.

(2) Coordinate maintenance, approve NASA Form 1671, *Maintenance Action Form (MAF)* and issue NASA Form 1673, Flight Preparedness Summary Form, to certify aircraft "safe for flight".

(3) Utilize the maintenance data collection system to review and approve NASA Form 1671, *Maintenance Action Form* (MAF) and issue NASA Form 1673, *Flight Preparedness Summary Form* in accordance with AOD 33851, *Maintenance Action Form Work Instruction NASA Form 1671*.

(4) Report aircraft air aborts, ground aborts, and maintenance delays in accordance with AOD 33822, *Abort Report/Abort Notification*.

(5) Ensure the aircrew generates discrepancies into the NALCOMIS database in accordance with AOD 33851, *Maintenance Action Form Work Instruction NASA Form 1671* and AOD 33833, *One-Time Flight/Off-Station Maintenance*.

6.3 Maintenance

The Contractor shall be responsible for aircraft maintenance, repairs, and modifications requiring the installation of special equipment or instrumentation packages. The Contractor shall:

6.3.2 Unscheduled Maintenance

6.3.2.1 General

The Contractor shall:

(1) Perform unscheduled maintenance for each aircraft type.
(2) Ensure aircraft with safety of flight discrepancies are not released for flight with inoperative instruments or equipment installed unless an approved Minimum Equipment List exists and approved by the FAA or NASA.
(3) Ensure flyable discrepancies are repaired as soon as practical.
(4) Ensure maintenance is accomplished in accordance with technical data.

6.3.2.2 Off Station Maintenance

Repairs required on aircraft off station shall be performed by the Contractor when required and authorized by NASA. The Contractor shall comply with the procedures AOD 33833, *One-Time Flight/Off-Station Maintenance*.

6.4 Flight Line Services

6.4.1 Aircraft Handling

The Contractor shall ensure aircraft are serviced, handled, parked, and moored in accordance with the applicable aircraft technical data approved by NASA. The Contractor shall:

(1) Protect aircraft during periods of inclement weather in accordance with AOD 33821, *Weather Protection/Lightning Detection*.
(2) Ensure aircraft are not left unattended when electrical power is applied.

6.4.2 Aircraft Servicing

The Contractor shall provide flight line servicing personnel for fueling, liquid and gaseous oxygen, nitrogen, oils, hydraulics, pneumatics, de-mineralized water, and water methanol requirements.

6.4.3 Flight Publications

The Contractor shall maintain a current set of flight publications aboard all assigned aircraft in accordance with each type aircraft Flight Publication requirement provided by NASA.

6.4.4 Launch and Recovery

The Contractor shall:

(1) Perform launch and landing support during normal duty hours and when TDY to other NASA locations. Three (3) personnel shall be available during normal workshift hours to launch and recover aircraft at EFD.
(2) Meet and park all incoming NASA aircraft, aircraft on NASA business, Government aircraft, to include DoD, and NASA transient aircraft during normal maintenance work shift hours.

equipment in accordance with manufactures' technical data, NASA CC-WD-N6, *Aircraft Non-Powered Ground Support Equipment Work Deck* and CC-WD-G5, *Aircraft Powered Ground Support Equipment Work Deck* and the technical data reference in this SOW. All support equipment inspections shall be tracked using the NASA provided maintenance database. The Contractor shall coordinate maintenance and repairs of the AGE facility in accordance with JPR 1700.1, JSC Safety and Health Handbook. The Contractor shall maintain all AGE and vehicles in accordance with the manufactures manuals, USAF technical orders, NASA drawings, and NASA technical data.

6.5.2 Battery/Generator Shop

The Contractor shall service, maintain, and conduct scheduled and unscheduled maintenance on aircraft and GSE batteries. The Contractor shall repair and overhaul aircraft generators. The Contractor shall coordinate maintenance and repairs of the Battery Shop in accordance with JPR 1700.1, JSC Safety and Health Handbook. The Contractor shall perform:

(1) Battery Functional Testing.
All batteries turned in to the battery shop will be logged in and initially tested to determine condition using the appropriate T.O. or original equipment manufacturer (OEM) technical manual instructions. Defective batteries under warranty will be tagged and sent to logistics. In-shop repair will be completed.

(2) Battery Maintenance.
Batteries will be maintained in a serviceable condition suitable for issue.

(3) Battery Disposal.
Batteries Not Repairable at This Station (NRTS) shall be tagged as required by Section 4.8 and returned to logistics for disposal.

(4) Generator Repair and Overhaul.
T-38 aircraft generators turned in for repair will be examined in accordance with USAF T.O. 8A6-4-5-2, *AC Generator FMI* and repaired or overhauled as necessary. Generators will be overhauled, tagged as required by Section 4.8. If generators are NRTS, they shall be tagged as required by Section 4.8 and returned to logistics.

6.5.3 Communication/Navigation Shop

The Contractor shall perform maintenance on communication and navigation (Comm/Nav) equipment used on NASA aircraft. This includes receipt of units from maintenance, engineering and logistics for functional testing, repair of failed units, and turn in of units to logistics as either serviceable or for repair beyond the capability of the Comm/Nav shop. The Contractor shall:

(1) Perform unit repair.
(2) Return unserviceable units that are NRTS to logistics.
(3) Coordinate maintenance and repairs of the Comm/Nav Shop in accordance with JPR 1700.1, JSC Safety and Health Handbook
(4) Provide system checkout for operation and accuracy.
(5) Maintain electronic calibrated equipment.

SECTION 6- MAINTENANCE ACTIVITIES

6.5.5.1 Lightning Detection System

The Contractor shall maintain the Lightning Detection System. The Contractor shall:

(1) Perform management oversight of the Lightning Detection System.
(2) Provide minor maintenance when necessary.
(3) Maintain the technical data to perform maintenance on the Lightning Detection System.
(4) Follow the preventive maintenance plan to include the procedures for inspecting and testing.
(5) Establish and maintain control procedures for the inspection and test status of equipment.
(6) Provide spares and test equipment.
(7) Repair failed Lightning Detection System within 3 working days. Coordinate with NASA operations while the system is down to determine lightning in the area.

6.5.5.2 T-38 Simulation

The Contractor shall provide maintenance support for a T-38N ground based simulator. The single T-38N ground based simulator is located on JSC.

6.5.6 Engine Shop

The Contractor shall perform maintenance on aircraft engines used on NASA aircraft. The Contractor shall:

(1) Perform aircraft engine, component and sub-assembly depot level maintenance and modifications on J-85 engines in accordance with AFR 66-1, 2J-J85-111, 2J-J85-116 series T.O.'s, and AOD 33839, *Configuration Control*.
(2) Perform engine preservation and de-preservation in accordance with manufacturer manuals, DoD, FAA, and NASA directives, as applicable.
(3) Operate engines in accordance with applicable aircraft maintenance instructions.
(4) Perform intermediate maintenance on Auxiliary Power Units (APU) in accordance with the applicable aircraft technical data.
(5) Perform user inspections of all shop support equipment. This includes user inspections on the J-85 engine test cell.
(6) Overhaul STA thrust reversers in accordance with STA(N)-2-6, *STA Thrust Reverser Overhaul Manual*.

6.5.7 Hydraulic Shop

The Contractor shall perform maintenance on hydraulic systems and component's associated with NASA aircraft and ground equipment. The Contractor shall:

(1) Perform maintenance and servicing of aircraft hydraulic systems in accordance with DoD, Manufactures Maintenance Manuals, FAA and NASA directives.
(2) Perform the requirements of the Hydraulic Contamination Prevention Program in accordance with Section 4.9.9.
(3) Provide intermediate maintenance and overhaul of hydraulic components.

4. Radiographic Inspection (RT) in accordance with ASTM E 1742, *Standard Practice for Radiographic Examination* and ASTN E 2104, *Standard Practice for Radiographic Examination of Advanced Aero and turbine Materials and Components.*
5. Eddy Current (ET) in accordance with MIL-STD-1537, *Test Method Standard for Electrical Conductivity Test for Verification of Heat Treatment of Aluminum Alloys Eddy Current Method*, SAE ARP891, *Determination of Aluminum Tempers Through Electrical Conductivity Measurement (Eddy Current)*, and ASTM E 376, *Standard Practice for Measuring Thickness by Magnetic Field or Eddy-Current (Electromagnetic) Test Methods.*
6. Perform weld inspections in accordance with AWS D17.1, *Specification for Fusion Welding for Aerospace Applications.*

(2) Ensure all NDI equipment is operational and all unserviceable equipment has a repair order issued. General servicing shall be performed by the Contractor.
(3) Perform Non-Destructive Inspection (NDI) testing and overhaul procedures for T-38 air canopy seal regulators in accordance with USAF T.O. 9P10-4-10-3, *Air Canopy Seal Regulator P/N 11982/3 Overhaul.*
(4) Perform Joint Oil Analysis Program (JOAP) samples in accordance with Section 4.9.10.
(5) Perform calibration of pressure relief valves in accordance with JHB 1710.13, *Design, Inspection, and Certification of Ground-Based Pressure Vessels and Pressurized Systems.*
(6) Perform hydrostatic testing of valves, lines, ducts and pressure vessels in accordance with JHB 1710.13, *Design, Inspection, and Certification of Ground-Based Pressure Vessels and Pressurized Systems.*

6.5.10 Personal Equipment Shop

The Contractor shall be responsible for acquiring, storing, issuing, and maintaining flight crew personal equipment, aircraft emergency equipment, and Shuttle crew escape equipment. Work includes support of aircraft and aircraft related life support equipment, fabrication of textiles/fabric items to support aircraft maintenance, inspecting, testing, packing of life support equipment, sewing repairs, and local manufacture of fabric components. The contractor shall provide water survival training support. The Contractor shall track the input/output of equipment in the aircraft maintenance information system. The Contractor shall:

(1) Fabricate Equipment.
Fabricate and repair flight equipment, both aircraft related and non-aircraft related items. Pattern making skills will be required to manufacture items, such as seat cushion covers, flight clothing bags, aircraft intake covers, equipment covers, aircraft forms bags, aircraft interior panel/seat covers, any items per engineering or end user drawings, and applicable technical data.

(2) Maintain First Aid Kits.
Inspecting and replenishing first aid kits.

2. Perform pre-flight and post-flight inspections on pressure suits in accordance with AOD Form 304, WB-57 Preflight and Eminent Pre-Entry, Hook Up Crewman in Pressure Suit Checklist and USAF T.O. 14P3-6-131, Pressure Suits and Equipment.

(10) Maintain Night Vision Goggles.
Inspecting and the setting up of night vision goggles in accordance with manufacturers instructions.

(11) Maintain Smoke Masks.
Inspect, test, buildup, repair, and assembly of the smoke masks in accordance with USAF T.O.'s 15X5-5-3-1, *Fire Fighters and Oxygen Smoke Mask Assemblies,* and 15X5-4-5-3, *Mask Assembly Oxygen Breathing.* See Section 6.6.10 for the G-1159, G-1159A and STA smoke mask assemblies.

(12) Maintain Storage Areas.
(a) Bonded Storage Area.
Maintain bonded storage areas for Personal Parachute Assemblies (PPA's) and their components in accordance with JSC 26549, *JSC Manual for the Control of Program Stock*.
(b) Pyrotechnic Storage Locker.
Maintain a pyrotechnic storage locker for PPA bonded pyrotechnic devices and a locker for flares and pyrotechnics for automatic release devices in accordance with USAF T.O.'s 11A10-26-7, *Pyrotechnic Signals*, 11A10-30-7, *Pyrotechnic Fuses and Fire Starters*, and 11P-1-7, *Cartridges for Aircrew Escape Systems.*

(13) Maintain Survival Kits.
(a) MBEU 20027 Survival Kit (T-38N).
Inspecting and testing the MBEU 20027 Survival Kit in accordance with the Martin-Baker maintenance manuals.
(b) RSSK-8E Survival Kit (B-57).
Inspecting and testing the RSSK-8E Survival Kit in accordance with NavAir 13-1-6.3, *Seat Survival Kits- Aviation Crew Systems.*

6.5.11 Paint/Corrosion Shop

The Contractor shall perform paint and corrosion control procedures on aircraft, aircraft components and sub assemblies, aircraft ground support equipment, and locally manufactured items to support AOD projects in accordance with AOD 33827, *Aircraft Corrosion Control Program*. The Contractor shall perform painting and corrosion control on all assigned aircraft and support equipment. Ensure the paint area and equipment remains serviceable in accordance with the following:

(a) 29 CFR 1910.107, *Spray Finishing Using Flammable and Combustible Materials*.
(b) 29 CFR 1910.165, *Fire Protection- Employee Alarm Systems*.
(c) 40 CFR Part 75, *Continuous Emissions Monitoring*.
(d) JPR 1700.1, JSC Safety and Health Handbook.
(e) NSS 1740.15, *NASA Safety Standards for Oxygen and Oxygen Systems*.

Coordinate repairs and upkeep of the paint facility in accordance with JPR 1700.1, JSC Safety and Health Handbook

(3) Perform Fabrication of Projects.
Upon receipt of fabrication projects, the Contractor shall complete the project in accordance with the engineering instructions or technical requirements as outlined. The Contractor shall be responsible for certifying that the fabrication work conforms to all elements of the technical requirements.

6.5.14 Wheel and Tire Shop

The Contractor shall perform maintenance on wheels and tires on all aircraft types. The tools and equipment that are used in this facility are: three sizes of bead breakers, tire cages, degreasing machine, hot stripper tank, rinse tank, and nitrogen carts. The Contractor shall:

(1) Perform teardown, inspection, and buildup of aircraft wheels, tires and bearings.
(2) Comply with routine maintenance of tools and equipment for the tire shop.
Perform maintenance on aircraft wheel and tire assemblies in accordance with the general and aircraft specific wheel and tire technical data, manuals, and approved technical data acceptable to the FAA Administrator.

6.5.15 Model Design and Fabrication

Not applicable.

SECTION 6- MAINTENANCE ACTIVITIES

The Contractor shall maintain all aircraft systems in accordance with the applicable T.O. or Manufacturers Specifications and associated work cards for that aircraft unless directed by NASA.

The Contractor shall be responsible for modifications requiring the installation of special equipment or instrumentation packages. All documentation and authorization for modifications shall be in compliance with existing procedures and specifications and approved by the cognizant Configuration Control Board (CCB).

The Contractor shall be required to work on NASA transient aircraft specifically authorized by the CO/COTR.

A6.3.1 Scheduled Maintenance

The Contractor shall provide support on the following aircraft and any aircraft added to the fleet:

(1) F-18 Aircraft (Support and Designated Research).
Perform maintenance, modification and repair at the organizational, intermediate, and depot level as directed by the Operations Engineering Group for all F-18 support aircraft systems and subsystems.

(2) B 200 Mission Management and Program Aircraft.
Ensure maintenance standards meet FAA FAR Part 91, subparts A and B except when requirements of NASA Procedural Requirement (NPR) 7900.3 *Aircraft Operations Management* are more restrictive. NASA mission management aircraft are public aircraft.
The Contractor shall be responsible for maintenance, modification, and repair at the Operational Level and Intermediate Level for all B200 systems and subsystems in accordance with the manufacturer's technical data.

(3) Gulfstream III Aircraft.
Perform maintenance, modification, and repair at the operational and intermediate level for Gulfstream III systems and subsystems in accordance with the manufacturer's technical data.

(4) T-38
Perform maintenance, modification, and repair at the operational and intermediate level for systems and subsystems in accordance with the manufacturer's technical data.

(5) T-34
Perform maintenance, modification, and repair at the operational and intermediate level for systems and subsystems in accordance with the manufacturer's technical data.

(6) YO-3
Perform maintenance, modification, and repair at the operational and intermediate level for systems and subsystems in accordance with the manufacturer's technical data.

A6.3.1.2 Modification Docks

Not applicable.

A6.4 Flight Line Services

DFRC requirements for these operations are specifically listed in the DCP-O-001, *Aircraft Maintenance and Safety Manual* in Chapters 3 and 4.

A6.4.1 Aircraft Handling

The Contractor shall ensure aircraft are serviced, handled, parked, and moored in accordance with the applicable aircraft technical data approved by NASA. The Contractor shall as a minimum:

A6.5.6 Engine Shop

The Contractor shall perform maintenance on aircraft engines used on NASA aircraft. The Contractor shall:

(1) Perform aircraft engine disassembly, assembly, and engine test as well any related off aircraft engine support.

(2) Perform engine preservation and de-preservation in accordance with manufacturer manuals, DoD, FAA and NASA directives, as applicable.

A6.5.7 Hydraulic Shop

The Contractor shall perform hydraulic shop fabrication support for facilities and related ground support equipment.

A6.5.8 Mechanical Accessories Shop

Not applicable.

A6.5.9 Non-Destructive Inspection (NDI) Shop

The Contractor shall provide a NDI technician certified in Liquid Penetrant Inspection, Magnetic Particle Inspection, Eddy Current, Ultrasonic Inspection, and Radiographic Inspection to NDI/NDT Level II in accordance with NAS 410, NAS Certification and Qualification of Non-destructive Test Personnel. All chemicals and inspection equipment necessary to perform all inspections shall be Government provided.

It is anticipated that this function will not be full time, therefore the technicians shall be dual qualified as an aircraft technician.

A6.5.10 Personnel Equipment Shop

Not applicable.

A6.5.11 Paint/Corrosion Shop

Not applicable.

A6.5.12 Sheetmetal Shop

Not applicable.

A6.5.13 Welding Shop

Not applicable.

A6.5.14 Wheel and Tire Shop

Not applicable.

A6.5.15 Model Design and Fabrication

The Contractor shall:

(1) Perform mechanical fabrications including planning, layout, and fabrication of mechanical models, instruments, and other specialized prototype experimental hardware.

SECTION 6- MAINTENANCE ACTIVITIES

B6 LaRC- MAINTENANCE ACTIVITIES, CENTER UNIQUE

The Contractor shall perform the basic requirements of the SOW unless otherwise specified in this section as identified in Section 3.2.1.

B6.1 Reserved.

B6.2 Maintenance Control

The Contractor shall:

(1) Post aircraft status boards (2) for each aircraft. At the conclusion of each flight day, the status boards shall be updated to display current aircraft time, engine time, time remaining until next inspection, and type of inspection due.
(2) Update the QAO computer database daily with current aircraft status information and inspection requirements.
(3) Incorporate records and inspection requirements for newly acquired aircraft, providing accurate, updated aircraft records with computer access to status information. The computer database shall be expanded/developed as necessary.
(4) Ensure equipment records are reviewed and updated every 7 days.

B6.2.1 Maintenance Controllers

Not applicable.

B6.2.2 Weekend Duty- Maintenance Control Supervisors

Not applicable.

B6.3 Maintenance

B6.3.1 Scheduled Maintenance

The Contractor shall provide maintenance support that covers all activities associated with routine and scheduled/unscheduled maintenance and servicing of assigned aircraft. The Contractor shall perform organizational and intermediate with occasional depot level maintenance. Duties involve all associated maintenance and repair of fixed and rotary-wing aircraft systems. The Contractor shall:

(1) Conduct daily maintenance meetings with NASA maintenance personnel to report aircraft status and Contractor maintenance actions.
(2) Provide aircraft status at 0900 and 1400 daily to NASA maintenance contact. Flight schedules will be generated by NASA following the status reports.
(3) Submit specific maintenance reports as required by the contracting officer or his authorized representative.
(4) Provide aircraft rental components when required and directed by NASA.

B6.5.2 Battery/Generator Shop

See Section B6.5.3 for battery services required at LaRC. Maintaining generators is not required.

B6.5.3 Communication/Navigation Shop

The Contractor shall provide Comm/Nav avionics maintenance on aircraft equipment required on Program Support and Research aircraft. Types of systems maintained include: video, communication, and fly-by wire systems. The Contractor shall:

(1) Resolve in-flight avionics problems.
(2) Provide video equipment support.
(3) Develop and generate drawings and schematics for new and modified equipment installations.
(4) Perform preflight, post-flight, and periodic checks.
(5) Study and recommend avionics updates.
(6) Maintain avionics spare parts inventory.
(7) Maintain meteorology and Flight Operations and Support Center (FOSC) radios.

B6.5.3.1 Doppler Radar

Not applicable.

B6.5.4 Egress Shop

See Section 6.5.10.

B6.5.5 Electrical Shop

The Contractor shall provide maintenance on aircraft electrical equipment required on Program Support and Research aircraft. The Contractor shall conduct scheduled and unscheduled maintenance on aircraft electrical systems including component calibrations, repair, modifications, and installation. The Contractor shall:

(1) Wire and rewire aircraft electrical systems.
(2) Perform scheduled maintenance, repair, recharge, and inspections on nickel-cadmium and lead-acid batteries. Maintain and track files and documentation for aircraft and GSE batteries.

B6.5.5.1 Lightning Detection System

Not applicable.

7 ENGINEERING ACTIVITIES

7.1 General

The Contractor shall provide engineering services required for JSC aircraft, aircraft programs, and associated projects and activities. The process by which engineering activities are delegated to the Contractor is defined by AOD 33841, *Task Transmittal – Engineering*. Engineering services, functions performed, and technical expertise required shall include but are not limited to:

(1) Aircraft maintenance engineering for aeronautics, avionics, electrical, mechanical, structural systems and components.
(2) Aircraft design and analysis engineering for aeronautics, avionics, electrical, mechanical, structural systems, and components.
(3) Design, analysis, and maintenance engineering for ground support equipment.
(4) Engineering support for aircraft weight and balance determination.
(5) Aircraft and aircraft systems ground testing.
(6) Data collection, reduction, analysis, and reporting.
(7) Report preparation.
(8) Preparation of engineering drawings.
(9) Documentation and configuration control.
(10) Engineering support for flight readiness, operational readiness, and test readiness reviews.
(11) Engineering liaison services with NASA/Government/Commercial engineering and technical personnel.
(12) FAA Designated Engineering Representative (DER) services.
(13) Design, analysis, and maintenance engineering for instrumentation.
(14) Aircraft and aircraft systems flight testing and support.

7.2 Design Control

The Contractor shall conduct design activities in accordance with JPR 1281.4, Design and Development.

7.2.1 Aircraft/Maintenance Engineering

Engineering functions are performed with the primary purpose of supporting aircraft maintenance and flight operations.

The Contractor shall provide engineering services that comply with AOD 12454, *Maintenance, Engineering, and Quality Procedures*.

The Contractor shall provide engineering services in the appropriate engineering disciplines to effect repairs to aircraft or equipment that are beyond the scope of DoD Technical Orders, manufacturer's repair manuals, or routine aircraft maintenance. Such support shall be provided in a timely manner to maximize aircraft or equipment availability. The Contractor shall develop and document all such repairs using the appropriate documentation as defined in AOD 33842, *Preparation of Engineering Work Orders*.

7.2.3.1 Engineering Analyses Reports

The Contractor shall prepare and provide written reports of analyses and tests performed. Analysis reports shall be in a NASA approved format. Reports for Flight Tests shall be prepared in accordance with:

(1) AOD 33813, *STA Flight Tests* for STA.

(2) AOD 33843, *Flight Tests* for all other aircraft.

7.2.4 Engineering Liaison

Contractor engineering activities shall include serving as a technical interface with other Contractors, airframe manufacturers, NASA, FAA, other Government agencies, vendors, and other agencies or activities.

7.2.5 FAA Designated Engineering Representative (DER)

The Contractor shall provide for FAA DER engineering services in the appropriate engineering discipline when required for repairs on FAA type-certificated aircraft.

7.2.6 Aircraft Service Changes and Customer Bulletins

The Contractor shall provide engineering services to evaluate Aircraft Service Changes and Customer Bulletins in accordance with AOD 33846, *Aircraft Service Changes*

7.2.7 Technical Manual Revisions (TMR)

The Contractor shall provide engineering services to recommend and evaluate aircraft technical data revisions in accordance with AOD 33803, Document and Data Management.

7.2.8 Configuration Control

The Contractor shall accomplish configuration control procedures in accordance with AOD 33849, *Engineering Drawing Format, Requirements, and Procedures* to provide a systematic approach for the control of all documents, drawings, reports, and quality records associated with engineering activities and modifications involving all JSC assigned aircraft.

7.2.8.1 Aircraft Configuration Control

The Contractor shall perform the cconfiguration control procedures in accordance with *AOD 33839, Aircraft Configuration Control*. The Contractor's responsibility includes but is not limited to:

(1) Coordinate a monthly configuration control panel directive meeting to discuss and approve configuration changes for all JSC aircraft.

(2) Prepare comprehensive minutes of the Configuration Control Panel meetings and maintain in an electronic format.

(3) Post minutes to an NASA approved database for retrieval by AOD personnel.

7.2.8.2 Drafting

The Contractor shall provide design and drafting services. The Contractor shall prepare electrical schematics, wire lists, and mechanical drawings in direct support of

SECTION 7- ENGINEERING ACTIVITIES

(4) Store historical data of engineering documents including, but not limited to:
   (a) Engineering Work Orders (EWO) in accordance with AOD 33842, *Preparation of Engineering Work Orders*.
   (b) Fleet Modification Instructions in accordance with AOD 33819, *Fleet Modification Instructions*.

(5) Develop and maintain original and backup drawing database files to ensure that no loss of drawings or related data will occur because of hardware or software anomalies.

7.4 Inspection and Testing

7.4.1 Special Inspections

The Contractor shall identify when special inspections are required in accordance with AOD 33839, *Aircraft Configuration Control*.

7.5 Process Measurement and Improvement

The Contractor shall make recommendations to improve interfaces with other systems to improve operations efficiency, reliability, and safety in accordance with JPR 1281.9, Process Control and JPR 1281.14, Corrective and Preventive Actions, and Continual Improvement respectively.

B7 LaRC- ENGINEERING ACTIVITIES, CENTER UNIQUE

Not applicable.

(4) Support all NASA aircraft operations, as required, during Terminal Countdown Demonstration Test (TCDT), launch and landings.
(5) Provide maintenance support for transit NASA aircraft. See Section 6.4.
(6) Perform all phases of inspections and maintenance on the 377 Super Guppy, MMA and STA aircraft in accordance with Boeing, Airbus, NASA and Gulfstream maintenance practices.
(7) Keep aircraft hangared whenever possible, or when directed by NASA.
(8) Adhere to the corrosion control program for all aircraft on station in accordance with AOD 33827, *Aircraft Corrosion Control Program*.
(9) Provide personnel to perform high and low power engine runs on 377 Super Guppy, MMA, STA and T-38 aircraft in accordance with Section 11.9.2.5.

8.1.5.1 Support Equipment

The Contractor's responsibility includes but is not limited to:

(1) Perform inspections on all support equipment. All safety discrepancies shall be corrected prior to use.
(2) Inspect maintenance stands prior to use.
(3) Repair powered and non-powered equipment. If repairs are required on equipment beyond local maintenance capability, arrangements will be made to return the equipment to EFD or an authorized repair facility.

.1.6 Engineering Activities

The Contractor shall provide engineering support for FOL's. Routine engineering support is provided by the Contractor at EFD.

8.1.7 Logistics Activities

The Contractor's responsibility includes but is not limited to:

(1) Use the NASA Aircraft Management Information System (NAMIS) at EFD for inventory management. Parts requisitions shall be through the NASA aircraft maintenance data system.
(2) Maintain a forward supply point. Inventory levels shall be coordinated through NASA maintenance, logistics, and Contractor management.
(3) Tag all equipment returned to EFD is as required by Section 4.8. A notation as to whether it is being returned for repair or excess shall be attached.
(4) Ship equipment utilizing NASA JSC aircraft whenever possible.
(5) Ship by commercial means whenever Government transportation is not available.
(6) Perform all logistics operations support for maintenance activities at the FOL.
(7) Perform an annual inventory of all Government assets stored at this FOL. All adjustment to the inventory shall be reported to the Director of Logistics, EFD.

8.1.8 Personnel Requirements

1.8.1 Administrative and Management Personnel

The Contractor's responsibility includes but is not limited to:

8.2 EDW FOL

8.2.1 Scope

The Contractor shall provide the services described in this SOW at the EDW FOL.

8.2.2 General Requirements

EDW FOL's shall comply with all requirements of this SOW which parallel that of the EFD location except as indicated in this section.

8.2.3 Quality Management System

8.2.3.1 Safety and Health

The Contractor shall update and keep on file, Material Safety Data Sheet records for all required materials.

8.2.3.1.1 Aircraft Recovery Plan

The Contractor shall establish and maintain an Aircraft Recovery Plan WI for each type aircraft in accordance with DRL item 3 and local airport requirements.

.2.4 Management Activities

The Contractor shall exercise management and operational control at EDW FOL, and retain full responsibility for performance requirements set forth in this SOW. The CO/COTR reserves the right to make the final determination regarding whom shall perform maintenance on aircraft, engines, appliances, and ground support equipment.

8.2.5 Maintenance Activities

Note: Normal weekday flying/maintenance operations shall be conducted between the hours of 0730 and 1615.

The Contractor's responsibility includes but is not limited to:

(1) Support STA weekend astronaut training requirements at EDW.
(2) Support SCA proficiency flights, orbiter ferry flights, and maintenance delivery flights, at EDW and other facilities.
(3) Perform inspections and maintenance on the SCA in accordance with NASA and Boeing maintenance practices.

8.2.5.1 Support Equipment

The Contractor shall perform user inspections on all support equipment. Prior to use, all safety discrepancies shall be corrected.

8.2.6 Engineering Activities

The Contractor shall provide engineering support for EDW FOL's. Normal engineering support is provided by the Contractor at EFD.

.8 DFRC- FOL ACTIVITIES, CENTER UNIQUE

Not applicable.

B8 LaRC- FOL ACTIVITIES, CENTER UNIQUE

Not applicable.

(11) On discrepant DOD receipts, regardless of dollar value, if the receipts is an overage, an unacceptable substitute, or damaged, and if the dollar amount is greater than $50 for General Services Administration (GSA) items or greater than $100 for DOD items, submit through WEBSDR the required information.

(12) *Reserved.*

(13) Send a copy of the completed ROD to JSC's Financial Management Division (FMD) and to the appropriate depot. The Contractor is responsible for ROD's on material overages, shortages, and damages (OS&D) problems only, JSC's FMD is responsible for financial ROD's.

(14) Initiate and document follow-up action on any ROD not responded to within 30 calendar days. The Contractor shall take follow-up action within 2 workdays after the 30 calendar day period.

9.1.2 Affirmative Procurement Program

The Contractor shall verify purchase orders and invoices ensuring the accountable records match. The Contractor shall update the NAMIS cost data as required and include a summary in the monthly progress report in accordance with DRL item 9. The Contractor shall complete a yearly 5-year forecast of DoD spares. This forecast shall be completed and transmitted via Requirements Data Exchange List (RDEL) during the first quarter of each calendar year.

1.3 Management of Inventory

The Contractor shall have a proactive inventory management system that follows all FAR's. The Contractor's responsibility includes but is not limited to:

(1) Manage the inventory of all stocked assets in accordance with AOD 33880, *NASA Aircraft Management Information System (NAMIS) User's Guide*. This includes designation of controlled items or other items requiring specific consideration. This includes all repairable items that have been processed through the Repair Processing Center (RPC)/Backshop system. All end item assets, to include aircraft engines, will be tracked in the NAMIS.

(2) Control of assets, federally or commercially procured, with a value of $5,000 or greater that does not fall under NASA Equipment Management System (NEMS) control. This includes, but not limited to, aircraft assets.

(3) Review stock items, which have been in the NAMIS inventory for at least 12 months with little or no usage, for retention or elimination. The Contractor shall contact users of potential excess items for disposition. The Contractor shall initiate disposal actions and appropriate transactions in the NAMIS for item excess.

(4) Maintain optimum inventory utilization and levels.

(5) Replenish stock based on demand levels.

SECTION 9- LOGISTICS

(7) The Contractor shall promptly refrigerate appropriate packages as soon as possible to prevent damage after physical receipt at AOD. Items shall be kept refrigerated until processed, delivered to destination, or picked up by the customer.

(8) The Contractor shall segregate chemicals and caustic substances from other stock immediately upon physical receipt. These substances shall be segregated as long as the Contractor is in possession of the material.

(9) The Contractor shall receive all Class B explosives at the receiving area prior to storage at the explosive storage area, located at the Texas Air National Guard Base, Ellington Field.

(10) Class C explosives shall be off-loaded and processed through the receiving area. Explosives shall be kept in explosive proof container(s) until delivery to the explosive storage area. This area is located in Texas Air National Guard facilities at Ellington. Receipt processing and delivery of Class C explosives shall be accomplished by the close of the business day the items are received.

(11) All lithium batteries shall be received and handled in accordance with JSC 18661, *Safety Requirements and Procedures for Handling and Disposal of Lithium Cells/Batteries*. The Contractor shall maintain a copy of this document in the receiving area.

(12) The Contractor shall ensure pilferable items are secure during the entire receipt process to guard against theft. Pilferable items such as office supplies, batteries, etc., shall be stored in a secure location until delivered to destination.

(13) For NASA procured items, the Contractor shall enter the item into the NAMIS and notify the addressee. All effort will be made by NASA to assure that the Contractor is aware of in bound NASA procured freight.

(14) The Contractor shall follow proper procedures for receipt/storage of hazardous materials. These items are generally in the Federal Class Groups 6500, 6800, 8000, and 9100. The Contractor shall ensure the required MSDS accompany the material. If MSDS does not accompany freight as required, receiving personnel shall contact the Contractor's Occupational Health and Safety Office. If the item is a stocked item, ensure a MSDS is filed in the warehouse.

9.2.2 Inbound Freight Log

The Contractor shall process all inbound freight in NAMIS. After updating the database, the Contractor shall move property to be stocked or issued. Equipment received on behalf of other contractors will not be processed through NAMIS.

9.2.3 Processing AOD Supply Items

The Contractor shall enter in the NAMIS all receipts that are to replenish AOD supply inventory at the time of inspection.

9.2.4 Material Returns

(1) The Contractor shall update the NAMIS database to record Turn-in Stock and Ship Stock.

(2) The Contractor shall prepare a claim folder when concealed damage is discovered during inspection. Claims not resolved within 30 days shall be reported to NASA for further action. The Contractor shall promptly notify the supervisor of concealed damage and prepare claim folder on the same workday discrepancy is discovered.

(3) If equipment meets NEMS criteria for tagging, the Contractor shall notify the NASA Property Branch of the requirement. NASA Property will affix a NEMS tag to the item.

The Contractor shall send DD Form 1149, *Requisition and Invoice Shipping Document*, one copy of the original receiving documents, and a copy of the receipt/inspection transmittal form to the NASA Property Administrator to effect transfer of accountability to NASA in accordance with JSC Support Contractor Procedures and Guidelines.

9.2.8 Repairable Asset Control

The Contractor shall perform all functions required to track repairable assets. The Contractor shall maintain a Due In From Maintenance (DIFM) system to include a Repair Processing Center (RPC), which shall track all repairable assets from issue to return to supply. This includes coordination of document numbers and serial numbers, when applicable, for issued assets, transportation, and tracking of assets while in the repair cycle.

9.2.9 Warranty Management

The Contractor shall maintain a warranty tracking system through the NAMIS. This system will track all warranty items throughout their warranty lifetime, including those items returned with warranties after repair. This system shall provide the capability to identify all items by part and serial number, date received, date issued to maintenance, aircraft issued against, date(s) returned for service, hours on unit at removal, vendor's validation of warranty call, and/or vendor's charges for "Cannot Duplicate" (CND) inspection and return.

9.3 Property Management

9.3.1 Property Control System

The Contractor shall develop, implement, and maintain a property control system, which provides accountability and user responsibility for all property furnished to, or acquired by, the Contractor. This system shall include all data from time of contract initiation, and as augmented by acquisition, through final disposal.

9.3.2 Inventory Schedule

The Contractor shall develop and provide an annual inventory schedule to the NASA Property Administrator and the CO/COTR. This inventory shall include program stock, flight hardware, and critical spare items stored at all AOD facilities in accordance with the NPR 4100.1, *NASA Materials Inventory Management Manual*. This schedule shall be included in the COM. For all NASA tagged equipment (NEMS) in the Contractors possession, an annual inventory will be conducted unless otherwise directed.

Schedule shall be complete and available at least 30 calendar days prior to October 1 for the upcoming FY.

9.4.2 Routine Issues and Redistribution

Upon receipt of a issue request, the Contractor shall select stock to fill the request and prepare and physically stage material for customer delivery or pickup.

9.4.3 Bench Stock

The Contractor's responsibility includes but is not limited to:

(1) Maintain current inventories and restocking levels for all maintenance work areas that maintain bench stock. Bench stock listings shall be reviewed monthly for restocking and lists updated yearly for changes in requirements and levels.

(2) Pull material for issue, ensuring the material is issued to the correct organization or project. The Contractor shall identify and count all issued material, with the exception of bulk issue items such as rivets, which may be weighed.

9.4.4 Customer Service

The Contractor shall respond to oral or written customer service requests, which include: part number verification, asset availability, inventory count of an individual item, and requests to physically view material. Assistance should be provided within 8-work hours after request is made.

9.4.4.1 Call-Out After Center Support Hours

The Contractor shall provide 24-hour a day call-out support when a request is initiated outside of normal operating hours. The Contractor shall provide a 24-hour a day point of contact. Call-out work shall be processed within 4 hours after the logistics personnel arrival at the counter.

9.4.5 Work Stoppage Requests

The Contractor shall provide a work stoppage counter for customers to walk up and receive immediate service. The Contractor shall ensure order documents are valid and approved.

9.4.5.1 NASA Tagged Equipment

The Contractor shall physically store equipment until tagged by NASA Property personnel. Equipment is subject to the same receipt, storage and issue criteria as non-tagged program stock; however, actual physical inventory responsibility lies with the property custodian. If NASA Property personnel are not able to affix a NEMS tag within 48-hours of receipt, property may be issued to a property custodian and tagging shall be accomplished in place.

The Contractor shall annotate the NASA tag number on issue and receipt documents for tagged equipment if not already present. Tagged equipment shall be fully accounted for in NAMIS at all times. The Contractor shall record the tag number on the receiving paperwork if not already present.

All NEMS tagged items are to be inventoried on an annual basis.

SECTION 9- LOGISTICS

A9 DFRC- LOGISTIC ACTIVITIES, CENTER UNIQUE

Logistics support is provided by this contract. A separate Government contract is in place for some purchases.

B9 LaRC- LOGISTIC ACTIVITIES, CENTER UNIQUE

The Contractor shall perform the basic requirements of the SOW unless otherwise specified in this section as identified in Section 3.2.1.

The Contractor shall control procurement procedures in accordance with LAPD 4200.1, *Equipment Management Program*, LAPD 4300.2, *Program Recovery of Precious Metals*, and LAPD 4100.1, *Materials Inventory Management Program*. Applicable FAR's shall be used along with applicable NASA guidelines and directives to meet the requirements of all NASA Langley aircraft.

surfaces when required. Company headwear is authorized. Personal Protective Equipment (PPE) requirements include:

(a) Aprons meeting the requirements of ANSI Z41.1.
(b) Breathing Air in accordance with 29 CFR 1910.134 (Grade D air, or better).
(c) Eye and Face Protection- glasses/goggles in accordance with 29 CFR 1910.133 and ANSI Z87.1.
(d) Fall Protection in accordance with 29 CFR 1910.66
(e) Film Badges/Pocket Dosimeters in accordance with ANSI/IEEE C95.1.
(f) Foot Protection in accordance with 29 CFR 1910.136 and ANSI Z41.1.
(g) Hand Protection- gloves in accordance with 29 CFR 1910.138.
(h) Hearing Protection- sound attenuators in accordance with 29 CFR 1910.95 and "HEW" publication No. 76-120.1975.
(i) Respiratory protection equipment in accordance with 29 CFR 1910.134 and ANSI Z88.2.

10.3 Personnel Travel

(1) The Contractor shall provide personnel to support NASA deployments. The level of experience and qualification shall be the primary consideration in determining which Contractor personnel are selected to support deployments.
(2) The Contractor, in consultation with the CO/COTR, shall determine from which facility personnel will be selected to support each deployment.
(3) The Contractor may be required to fly on Government aircraft in support of various missions to support troubleshooting and repair of aircraft or systems.
(4) Contractor personnel traveling overseas shall meet all health, passport, air carrier and security requirements.

10.4 Training- All Personnel

The Contractor shall ensure personnel receive the applicable training required by this SOW within 3 months of employment or prior to assignment, unless otherwise specified. Specific safety precautions relative to maintenance tasks are contained in aircraft or support equipment technical data. The Contractor shall ensure personnel obtain physical examinations in accordance with the applicable regulations governing the work task. The Contractor shall ensure that all personnel are trained, qualified, and certified for all tasks assigned to them. NASA will pay for all job specific training required by this section. This training includes:

(1) Aircraft maintenance data collection system within 6 months of employment.
(2) Cardiopulmonary Resuscitation in accordance with NASA and American Health Association procedures.
(3) Computer Security Training in accordance with the Office of Management and Budget Circular A-130, Appendix III, *Security of Federal Automated Information Resources.*
(4) Emergency Action Plan.
(5) Eye and Face Protection in accordance with 29 CFR 1910.133 and ANSI Z87.1-1.
(6) Electrical Safety in accordance with 29 CFR 1910.331-360.

SECTION 10- PERSONNEL REQUIREMENTS

10.5.1 Document and Data Control Personnel

10.5.1.1 Document Control Personnel

10.5.1.1.1 Document Control Process Owners

The Contractor shall provide personnel who shall perform the duties identified in Section 4.5.1.1.

10.5.1.1.2 Technical Library Clerks

The Contractor shall provide personnel to perform the duties identified in Section 4.5.1.3.1:

(1) Qualification:
  (a) Technical library clerks shall be familiar with USAF T.O. 00-5-1, *Air Force Technical Order System*, or
  (b) Shall have experience with technical library management.

(2) Certification: None.

10.5.1.1.3 Technical Library Support Personnel

The Contractor shall provide personnel to perform the duties identified in Section 4.5.1.3.2:

(1) Qualification:
  (a) Technical library support personnel shall be familiar with USAF T.O. 00-5-1, *Air Force Technical Order System,* or
  (b) Shall have experience with technical library management.

(2) Certification: None.

10.5.1.2 Data Control Personnel

10.5.1.2.1 Database Administrator

The Contractor shall provide personnel to perform the duties identified in Section 4.5.2.2:

(1) Qualification: Must be proficient with computer information systems.

(2) Certification: None.

10.5.2 Maintenance Control Personnel

The Contractor shall provide personnel who perform the duties identified in Section 6.2.1.

10.5.2.1 Weekend Duty- Maintenance Control Supervisor

The Contractor shall provide personnel who perform the duties identified in Section 6.2.2.

(5) Hearing Conservation Program
(6) Heat Stress
(7) Personal Protective Equipment
(8) Radiographic Program
(9) Respirator Protection Program
(10) Voluntary Protection Program (VPP) as it applies to the JSC Safety and Health Program.

(e) Shall be trained on OSHA, EPA, ANSI, and applicable DoD standards prior to performance under this contract.
(f) Shall be trained in emergency response to the incident commander level in accordance with 29 CFR 1910 within 6 months of employment and receive refresher training annually.
(g) Shall maintain currency by attending 2 advanced safety courses per year.

(2) Additional duties may include:
(a) Course Instructor in accordance with Section 10.8.2.
(b) Assistant Fire Marshall in accordance with Section 10.5.3.3.
(c) Fire Warden or alternate in accordance with Section 10.5.3.5.
(d) OJT Trainer in accordance with Section 10.8.4.

(3) Certification:
(a) Hold a bachelors degree in aviation or safety and health related field from an accredited college or university or have 5 years aviation experience.
(b) Shall be certified to conduct First Aid Training in accordance with American Red Cross procedures.
(d) Shall be certified to conduct Cardiopulmonary Resuscitation (CPR) training in accordance with American Heart Association procedures.
(d) FAA "A" and "P" certification in accordance with 14 CFR Part 65 is desired.

10.5.4.2 Assistant Safety and Health Officer

The Contractor shall provide a person to assist the Contractor Safety and Health Officer with the qualifications and certifications listed in Section 10.5.4.1 above. This person shall be responsible for assisting in the performance of duties identified in Section 4.18.3.2.1.

10.5.4.3 Assistant Fire Marshall

The Contractor shall provide a person to assist the NASA AOD Fire Marshal who performs the duties identified in Section 4.18.3.1.1. The Assistant Fire Marshall may be an additional duty of the Safety and Health Officer.

Qualification: Shall receive Fire Safety Training in accordance with JPR 1700.1, JSC Safety and Health Handbook prior to performing assistant fire marshal duties, and requalify every 3 years.

10.5.4.4 Facility Manager Assistant

The Contractor shall provide Facility Manager Assistants who performs the duties identified in Section 4.18.2.1.1:

(a) Shall receive environmental protection training.
(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.
(c) Personnel assigned to type-certificated aircraft shall receive training on 14 CFR Part 43, Maintenance, Preventive Maintenance, Rebuilding and Alteration and 14 CFR Part 91,General Operating and Flight rules within 6 months of assignment.

(2) Additional duties may include:
(a) Aircraft Specific Mishap Qualification in accordance with Section 10.9.3.2.
(b) Fire Warden- Alternate and Assistant in accordance with Section 10.5.3.5.
(c) Technical Library Support in accordance with Section 10.5.1.

(3) Certification: None.

10.6 Engineering Support Personnel

The Contractor shall provide engineers and engineering support staff who perform the maintenance engineering duties identified in Section 7, Engineering Activities.

10.6.1 Engineers

10.6.1.1 Aircraft Mechanical/Structural Engineers

The Contractor shall provide aircraft mechanical/structural engineers who perform the duties identified in Section 7.2 and subsections:

(1) Qualification:
(a) Shall have at least 5 years engineering experience with aircraft and ground support equipment. This experience includes design, analysis, modification, and repair. Experience in aircraft maintenance engineering or structural repair is required.
(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Certification: Hold an engineering degree from an accredited college or university prior to employment.

10.6.1.2 Aeronautical Engineers

The Contractor shall provide aeronautical engineers who perform the duties identified in Section 7.2 and subsections:

(1) Qualification:
(a) Shall have at least 3 years engineering experience with aircraft. This experience includes aerodynamics, aircraft performance, aircraft systems, system design, maintenance, modification, and repair.
(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Certification: Hold an engineering degree from an accredited college or university prior to employment.

(1) Qualification:
(a) Shall have 6 months experience in records management.
(b) Shall receive training on the following within 3 months of assignment:
(1) 36 CFR Chapter XII, Subchapter B, *Records Management.*
(2) JPR 1440.3, *JSC Files and Records Management Procedures.*
(3) NPR 1441.1, *NASA Records Retention Schedules.*

(2) Certification: None.

10.7 Logistics Support Personnel

The Contractor shall provide logistics support personnel who perform the services required for NASA aircraft and aircraft programs as listed in this SOW.

10.7.1 Procurement Specialists

The Contractor shall provide procurement specialists who perform the duties identified in Section 9, Logistics Activities:

(1) Qualification:
(a) Personnel assigned duties as a procurement specialist shall have experience in procurement or receive OJT training.
(b) Shall be familiar with FAR, NASA FAR Supplement, ANSI, EPA, and OSHA standards involving the procurement of safety and personnel protective equipment.
(c) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Certification: Attend a NASA approved negotiation course within 6 months of employment.

10.7.2 Logistics Monitor

The Contractor shall provide a Logistics Monitor who perform supply and logistics operations at ELP:

(1) Qualification:
(a) Shall receive OJT training on supply and logistic operations within 3 months of employment or prior to assignment.
(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are identified in Section 10.9.2.

(3) Certification: None.

10.7.3 Supply Technician

The Contractor shall provide Supply Technicians who perform the duties identified in Section 9, Logistics Activities:

(1) Qualification: Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are identified in Section 10.9.2.

10.8.5 Production Inspectors

The Contractor shall provide Production Inspectors (PI) who perform the duties identified in Section 4.10.4.1. PI's shall have the following prior to performing production inspections:

(1) Qualification:
- (a) Shall have at least 3 years aviation experience.
- (b) Shall be qualified in the primary technician duty position.
- (c) Shall pass a written examination administered by the Contractor QC office prior to performing PI duties and annually thereafter.
- (d) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.
- (e) Personnel assigned to the type-certificated aircraft shall receive training on 14 CFR Part 43, Maintenance, Preventive Maintenance, Rebuilding and Alteration and 14 CFR Part 91, General Operating and Flight rules within 6 months of assignment.

(2) Certification:

FAA Inspection Authorization (IA) in accordance with 14 CFR Part 65 is desirable. As a minimum, the final inspector who performs inspections on type-certificated aircraft for major repairs or alterations must possess an FAA IA authorization in accordance with 14 CFR Part 65. The exception is the T-38 Depot Program technicians are not required FAA certifications.

- (a) Airframe Inspector- FAA "A" certificate in accordance with 14 CFR Part 65
- (b) Comm/Nav Shop Inspector- FAA "A" certification in accordance with 14 CFR Part 65 or Federal Communication Commission (FCC) license.
- (c) Electrical inspector- FAA "A" certificate in accordance with 14 CFR Part 65.
- (d) Engine inspectors- FAA "P" certificate in accordance with 14 CFR Part 65.
- (e) Parachute Inspectors- FAA Senior Parachute Rigger's certificate in accordance with14 CFR Part 65.

10.8.6 Quality Assurance Representatives

The Contractor shall provide Quality Assurance Representatives (QAR) who support the Contractor's quality program and perform the duties identified in Section 4.10.4.2:

(1) Shall have the same qualification and certification requirements of technicians they train when performing PI, Course Instructor, or OJT Trainer duties.

(2) Shall be familiar with ASI9100/9110 *American National Standard, Quality Systems-Model for Quality Assurance in Design, Development, Production, Installation and Servicing* quality standards.

(3) QAR additional duties may include:
- (a) Aircraft Maintenance Program Monitor in accordance with Section 10.8.5.
- (b) Aircraft Mishap Qualification in accordance with Section 10.9.3.2.
- (c) Course Instructor in accordance with Section 10.8.1.
- (d) Production Inspector in accordance with Section 11.8.5.
- (e) OJT Trainer in accordance with Section 10.8.4.
- (f) Weight and Balance Officer in accordance with Section 10.8.8.

(b) Personnel assigned to the type-certificated aircraft shall receive training on 14 CFR Sections 43.9-11, *Maintenance Records* and 14 CFR Section 91.417, *Maintenance Records* within 6 months of assignment.

(2) Certification:

(a) QARs who perform as production inspectors on engines shall have a FAA Powerplant "P" certification in accordance with14 CFR Part 65.

(b) QAR's who perform as production inspectors on certificated aircraft shall have a FAA Inspection Authorization "IA" in accordance with 14 CFR Part 65.

10.8.6.5 Personal Equipment QAR

The Contractor shall provide QAR's with a personal equipment specialty:

(1) QAR's who do not have a FAA Master/Senior Parachute Rigger Certification may not perform normal duties as a parachute repack "production inspector".

(2) QAR's, under certain circumstances, may perform as limited production inspectors (less parachute repacks) under specific NASA approved circumstances as a designated PE Production Inspector Augmentee. Once approved, augmentees would be limited to perform "production inspection" duties for no more than a 90 day period.

(3) The Contractor Quality Control (QAR) shall provide monitoring and surveillance on all ALSS items as required to ensure compliance with appropriate ALSS technical data.

(4) QAR's may provide oversight and confirmation of calibrated measurements taken during maintenance accomplished on ALSS items, to include parachutes, as deemed appropriate.

10.8.7 Training Officer

The Contractor shall provide a Training Officer who perform the duties identified in Section 4.18.1.2. The Training Officer shall have the following prior to employment:

(1) Qualification:

(a) Shall have experience instructing in a classroom environment, organizing course/training syllabi, and organizing training reports.

(b) Shall have experience with computer based training (CBT) systems.

(2) Certification: The Training Officer shall be a graduate of a military instructor school or civilian equivalent.

10.8.8 Weight and Balance Officer

The Contractor shall provide a QAR with the duties as a Weight and Balance Officer (WBO) and perform the duties identified in Section 4.9.12.1. The WBO shall have the following prior to assignment:

(1) Qualification:

(a) Shall have experience performing weight and balance functions.

(b) Shall receive training on NPR 1441.1, *NASA Records Retention Schedules* within 3 months of assignment.

(g) Shall receive initial training in daily corrosion control and preservation measures specified in accordance with 1-1-689, *Avionics Cleaning and Corrosion Prevention/Control* and 1-1-691, *Aircraft Weapons System Cleaning and Corrosion Control* or aircraft specific technical data.

(2) Personnel who do not meet the certification requirements may request a waiver from the CO/COTR. Technicians who do not have the appropriate training, qualification, and certification shall only perform inspection and maintenance activities under the supervision of an appropriately FAA rated mechanic and the general privileges and limitations of 14 CFR Part 65- *Certification: Airmen Other Than Flight Crewmembers* shall apply. The T38 Depot Program technicians are not required FAA certification.

(3) All personnel shall be subject to task evaluations in accordance with the course training syllabus or OJT training checklists provided in the Personnel, Qualifications, and Training Program Work Instruction.

(4) All technicians shall be qualified and expected to perform in one or more basic tasks other than their primary duty position within 12 months of employment.

10.9.2 Additional Duties: All Personnel

The Contractor shall provide personnel who perform the additional duties identified below.

10.9.2.1 Course Instructor in accordance with Section 10.8.2.

10.9.2.2 Crane Operator (Aerospace Ground Equipment, G-1159/STA Airframe, Engine, and Hydraulic Technicians). Personnel assigned to perform additional duties as a Crane Operator shall:

(1) Receive NASA Safety Standard for Lifting Devices and Equipment training in accordance with NSS/GO/1740.9 and 29 CFR 1910.179 prior to operating a crane.

(2) For critical lift equipment and operations identified in NSS/GO/1740.9, re-qualify annually.

(3) For non-critical lift equipment and operations identified in NSS/GO/1740.9, re-qualify bi-annually.

10.9.2.3 Critical Lift Operator/Manager

The Contractor shall appoint and train a critical lift operator/manager whose duties include planning, coordinating, and executing all critical lift requirements. Specific requirements are contained in the JSC Material Handling Policy and in NASA-STD-8719.9. Critical lift activities include the lifting operations on national assets.

10.9.2.4 Doppler Radar Support

The Contractor shall appoint and train personnel who maintain the Doppler Weather Radar Unit and coordinate with the vendor for repair.

(b) Shall receive initial T-38 engine run training to include engine trim and troubleshooting procedures.
(c) Shall pass a written examination annually administered by the Contractor QC office. Practical evaluations shall be administered by the Contractor.

(6) T-38A/N Engine Run Low Power (Below 70% RPM).

The Contractor shall provide at least one qualified T-38A/N/J85 engine run technician per work shift who:

(a) Shall be assigned to the Airframe or Engine Technician primary duty position.
(b) Shall receive initial T-38 engine run training to include engine trim and troubleshooting procedures.
(c) Shall pass a written examination annually administered by the Contractor QC office. Practical evaluations shall be administered by the Contractor.

(7) WB-57 Engine Run.

The Contractor shall provide at least one qualified WB-57F/ Pratt and Whitney TF-33-P11/J-60-P9 engine run technician to run WB-57F engines as required at all power settings:

(a) Shall be assigned to the Airframe or Engine Technician primary duty position.
(b) Shall receive initial WB-57F engine run training to include engine trim and troubleshooting procedures.
(c) Shall pass a written examination annually administered by the Contractor QC office. Practical evaluations shall be administered by the contractor.

10.9.2.6 Fire Warden- Alternate and Assistant in accordance with Section 10.5.3.5.

10.9.2.7 Forklift Operator

Personnel assigned to perform additional duties as a forklift operator shall receive forklift safety for powered industrial trucks training prior to operating a forklift and re-qualify annually in accordance with 29 CFR 1910.178.

10.9.2.8 Fuel Cell Maintenance

Confined Space Safety Training is required for technicians who perform fuel cell maintenance, monitor equipment, and monitor personnel who enter fuel tanks. The Contractor shall:

(1) Have experience on aircraft fuel systems and be assigned to the Airframe Technician primary duty position.
(2) Pass a physical examination in accordance with 29 CFR 1910.134.
(3) Receive a respirator fit check in accordance with 29 CFR 1910.134.
(4) Receive the initial Confined Space Safety training in accordance with 29 CFR 1910.146.
(5) Be certified in First Aid in accordance with American Red Cross procedures.
(6) Be certified in Cardiopulmonary Respiration in accordance with American Heart Association procedures.
(7) Requalify annually in accordance with 29 CFR 1910.1311.

10.9.2.9 Logistics Monitor in accordance with Section 10.7.2.

10.9.2.10 OJT Trainer in accordance with Section 10.8.4.

10.9.3.3 Battery/Generator Shop Technician

The Contractor shall provide Battery/Generator Shop Technicians who perform the duties identified in Section 6.5.2. Technicians shall have the following prior to performing maintenance:

(1) Qualification:

(a) Shall have experience on aircraft and shall receive battery shop safety training in accordance with JPR 1700.1, JSC Safety and Health Handbook.

(b) Shall receive hazardous training on specific aircraft batteries within 3 months of employment.

(c) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are as identified in Section 10.9.2.

(3) Certification:

(a) FAA "A" certification in accordance with 14 CFR Part 65 is required for personnel who perform shop maintenance on aircraft batteries.

(b) Shall receive battery training from an approved military or civilian equivalent school or have prior experience before performing battery maintenance.

10.9.3.4 Communication/Navigation Shop Technician

The Contractor shall provide Comm/Nav Shop Technicians who perform the duties identified in Section 6.5.3. Technicians shall have the following prior to performing maintenance:

(1) Qualification:

(a) Shall have experience on modern avionic aircraft systems.

(b) Shall receive Comm/Nav shop familiarization training within 3 months of employment.

(c) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are as identified in Section 10.9.2.

(3) Certification:

(a) FAA "A" certification in accordance with 14 CFR Part 65 is desired for personnel who perform maintenance on aircraft Avionics/Electrical systems. NASA will allow hands on experience in lieu of an "A" license. The T38 Depot Maintenance Program technicians are not required FAA certification.

(b) Certified in crimping procedures in accordance with an approved military or NASA sponsored school.

(c) Certified in soldering procedures in accordance with an approved military or a NASA sponsored school in accordance with NASA-STD-8739.3, *Soldered Electrical Connections.*

(b) Shall complete a DoD or original equipment manufacturer aircraft ejection seat course to include Class B, C, and D explosive training prior to performing maintenance on egress equipment.

10.9.3.7 Electrical Technician

The Contractor shall provide Electrical Technicians who perform the duties identified in Section 6.5.5. Technicians shall have the following prior to performing maintenance:

(1) Qualification:
- (a) Shall have at least 3 years of electrical experience on aircraft.
- (b) Shall receive aircraft specific electrical familiarization training within 3 months of employment.
- (c) Shall receive electrical shop familiarization training within 3 months of employment.
- (d) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are as identified in Section 10.9.2.

(3) Certification:
- (a) FAA "A" certification in accordance with 14 CFR Part 65 is desired for personnel who perform maintenance on aircraft electrical systems. The T38 Depot Program technicians are not required FAA certification.
- (b) Certified in crimping procedures in accordance with an approved military or NASA sponsored school.
- (c) Certified in soldering procedures in accordance with an approved military or a NASA sponsored school in accordance with NASA-STD-8739.3, *Soldered Electrical Connections.*

10.9.3.8 Engine Technician

The Contractor shall provide Engine Technicians who perform maintenance, preventive maintenance, or alterations on aircraft engines. Technicians shall have the following prior to performing maintenance:

(1) Qualification:
- (a) Shall have at least 2 years experience on jet engines and receive aircraft specific engine familiarization training within 3 months of employment.
- (b) Shall receive engine shop familiarization training within 3 months of employment.
- (c) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties may include:
- (a) J-85 Shop Maintenance:
  Personnel shall receive maintenance training on J-85 engines prior to performing depot level engine shop maintenance.
- (b) Engine Test Cell Maintenance:

10.9.3.11 Reserved.

10.9.3.12 Non-Destructive Inspection (NDI) Technician

The Contractor shall provide NDI technicians who perform the duties identified in Section 6.5.9. Technicians shall have the following prior to performing NDT procedures:

(1) Qualification:

(a) Shall have at least 3 years experience on NDI procedures.

(b) Shall maintain a NDI/NDT Level-II qualification in accordance with NAS 410, *NAS Certification and Qualification of Non-destructive Test Personnel.*

(c) Shall receive Joint Oil Analysis Program (JOAP) analysis training within 3 months of employment.

(d) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are as identified in Section 10.9.2.

(3) Certification:

(a) Technicians performing NDI shall be certified in radiography standard IAW American Society of Non-Destructive Testing (ASNT).

(b) NDI technicians performing NDI work on FAA certified aircraft shall have a FAA airframe (A) or powerplant (P) certification in accordance with 14 CFR Part 65, as appropriate. T38 Depot Program technicians are not required FAA certification.

10.9.3.13 Personal Equipment Technician

The Contractor shall provide Personal Equipment Technicians who perform the duties identified in Section 6.5.10. Technicians shall have the following prior to performing maintenance:

(1) Qualification:

(a) Shall have at least 2 years experience on flight crew equipment and receive shop familiarization training within 3 months of employment.

(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties may include:

(a) Pressure Suit Technician:

The Contractor shall provide at least one qualified Pressure Suit Technician per work shift as required by the mission schedule. Personnel shall receive pressure suit training prior to performing maintenance on pressure suits.

(b) Parachute Technician:

The Contractor shall provide at least one qualified Parachute Technician per work shift as required by the mission schedule. Personnel shall receive parachute training prior to performing maintenance on parachutes.

(c) Other additional duties are as identified in Section 10.9.2.

(3) Certification: Certificated in accordance with T.O. 00-25-252 and AWS D17.1, *Specification for Fusion Welding for Aerospace Applications* and recertify annually.

10.9.3.17 Wheel and Tire Technician

The Contractor shall provide Wheel and Tire Technicians who perform the duties identified in Section 6.5.14. Technicians shall have the following prior to performing maintenance:

(1) Qualification:

(a) Personnel assigned duties as a Wheel and Tire Technician shall have experience on aircraft wheels and tires.

(b) Shall receive the applicable training identified in Section 10.4 within 3 months of employment or prior to assignment.

(2) Additional duties are as identified in Section 10.9.2.

(3) Certification: FAA "A" certification in accordance with 14 CFR Part 65 is required for personnel who perform shop maintenance on aircraft wheels and tires.

A10.7 Logistics Support Personnel

Currently, logistics support is provided by a separate Government contract.

A10.8 Quality Control Personnel Support

A10.8.1 Aircraft Maintenance Program Monitor

Not applicable.

A10.8.2 Course Instructor

Not applicable.

A10.8.3 Deficiency/Trend Analyst

Not applicable.

A10.8.6 Quality Assurance Representatives

Not applicable.

A10.8.8 Weight and Balance Officer

Not applicable.

A10.9 Support Personnel

A10.9.2 Additional Duties: All Personnel

A10.9.2.1 Course Instructor

Not applicable.

A10.9.2.4 Doppler Radar Support

Not applicable.

A10.9.2.6 Fire Warden- Alternate and Assistant

Not applicable.

A10.9.2.9 Logistics Monitor

Not applicable.

A10.9.2.13 Weight and Balance Officer Assistant

Not applicable.

A10.9.3.11 Model Design and Fabrication Technician

The Contractor shall provide Model Design and Fabrication technicians who perform the duties identified in Section A6.5.15. Technicians shall have the following:

(1) Qualification: Shall have 5 years experience performing mechanical fabrications. This experience includes planning, layout, fabrication of mechanical models, instruments, and other specialized prototype experimental hardware including both machined, sheet metal and tubing fabrications.

(2) Certification: None.

A10.9.3.12 Non-Destructive Inspection (NDI) Technician

Contractor technicians performing x-ray or radiography shall participate in the NASA Ionization Radiation training program.

A10.9.3.13 Personal Equipment Technician

Not applicable.

A10.9.3.14 Sheetmetal Technician

Not applicable.

A10.9.3.15 Simulation Maintenance Technicians- T38

Not applicable.

A10.9.3.16 Welder

Not applicable.

A10.9.3.17 Wheel and Tire Technician

Not applicable.

Not applicable.

B10.8 Quality Control Personnel Support

B10.8.1 Aircraft Maintenance Program Monitor

Not applicable.

B10.8.2 Course Instructor

Not applicable.

B10.8.3 Deficiency/Trend Analyst

Not applicable.

B10.8.6 Quality Assurance Representatives

Not applicable.

B10.8.8 Weight and Balance Officer

Not applicable.

B10.9 Support Personnel

B10.9.2 Additional Duties: All Personnel

B10.9.2.1 Course Instructor

Not applicable.

B10.9.2.4 Doppler Radar Support

Not applicable.

B10.9.2.6 Fire Warden- Alternate and Assistant

Not applicable.

B10.9.2.9 Logistics Monitor

Not applicable.

B10.9.2.13 Weight and Balance Officer Assistant

Not applicable.

B10.9.3 Specific Training, Qualification, and Certification Requirements

B10.9.3.3 Battery/Generator Shop Technician

Not applicable.

SECTION 11
OPTION 1--FLIGHT OPERATIONS

11 OPTION 1--FLIGHT OPERATIONS

The Contractor shall provide flight operations support for the aircraft operations identified in this SOW. NPD 7900.4, Aircraft Operations Management defines the procedures and guidelines for management, utilization, operation, and control of NASA aircraft.

Contractor personnel shall comply with the JPD 1280.1, Lyndon B. Johnson Space Center Quality Policy. The Contractor QMS shall not contradict the requirements of the JSC QMS. The minimum requirements of the JSC QMS shall apply. See Section 4, Quality Management System for more information.

11.1 Flight Crew

The Contractor shall provide flight crew personnel to operate mission management or program (project) aircraft, as delineated by specific task order(s). Operational requirements will be provided to the Contractor by the CO/COTR through the NASA/JSC AOD Flight Operations Branch. Specific duty requirements are identified in NPR 7900.3, Aircraft Operations Management, and this SOW.

11.1.1 Flight Crew Performance Standards

(1) All crewmembers shall comply with the provisions set forth in NPR 7900.3, Aircraft Operations Management, FAA, Original Equipment Manufacturer (OEM), and other applicable directives, regulations, and instructions.

(2) The Contractor aircrew shall maintain performance standards in accordance with AOD 09295, Aircraft Operations and Training Procedures, Research and Mission Support Aircraft Volume II. These standards include, but are not limited to:

(a) Safety Precautions.
Knowledge of safety precautions identified in the applicable aircraft technical data.

(b) Airfield Operations.
Knowledge of airfield operations.

(c) Normal Procedures.
Knowledge of normal aircraft operations identified in the applicable aircraft technical data.

(d) Emergency Procedures.
All applicable boldface procedures demonstrated without reference to the checklist.

(e) Aircraft Systems.
The examiner may randomly select any system(s) for the student to demonstrate adequate skill and knowledge.

(f) System Limitations.
Knowledge of engine limitations demonstrated without reference to the checklist.

(3) Aircrews flying Mission Management aircraft transporting officially approved passengers in response to Government travel requirements shall conduct operations in accordance with 14 CFR Part 91, General Operating and Flight Rules, and the JSC Aircraft Operations Procedures. The Contractor aircrew shall operate NASA Mission Management Aircraft as civil aircraft when carrying passengers.

SECTION 11
OPTION 1--FLIGHT OPERATIONS

(5) Perform Operational Readiness Reviews on aircraft prior to deployment in accordance with AOD 33872, Operation Readiness Reviews.

11.2.2 Flight Engineers

The Contractor shall provide Flight Engineers whose duties include but are not limited to:

(1) Identified in NPR 7900.3, Aircraft Operations Management.
(2) Perform preflight, thruflight, and postflight inspections on NASA aircraft in accordance with the Aircraft Flight Manual or NASA approved flight crew checklists.
(3) Perform normal and emergency procedures in accordance with the Aircraft Flight Manual and NASA approved flight crew checklists.
(4) Perform Functional Check Flights or Operational Checks on aircraft in accordance with AOD 33824, Functional Check Flights and Operational Checks, and applicable aircraft checklists.
(5) Perform Operational Readiness Reviews on aircraft prior to deployment in accordance with AOD 33872, Operation Readiness Reviews.
(6) Perform ground engine runs when requested by maintenance personnel. Flight engineers who perform ground engine runs shall be certified in accordance with AOD 09295, Aircraft Operations and Training Procedures, Research and Mission Support Aircraft Volume II.
(7) Assist in trouble-shooting aircraft systems if requested by maintenance personnel.

11.2.3 Loadmasters

The Contractor shall provide Loadmasters whose duties include but are not limited to:

(1) Identified in NPR 7900.3, Aircraft Operations Management.
(2) Perform preflight, thruflight, and postflight inspections on NASA aircraft in accordance with the Aircraft Flight Manual or NASA approved flight crew checklists.
(3) Perform normal and emergency procedures in accordance with the Aircraft Flight Manual and NASA approved flight crew checklists.
(4) Perform Operational Readiness Reviews on aircraft prior to deployment in accordance with AOD 33872, Operation Readiness Reviews.

11.2.4 Mission Managers

The Contractor shall provide Mission Managers whose duties include but are not limited to:

(1) Identified in NPR 7900.3, Aircraft Operations Management.
(2) Perform preflight, thruflight, and postflight inspections on NASA aircraft in accordance with the Aircraft Flight Manual or NASA approved flight crew checklists.
(3) Perform normal and emergency procedures in accordance with the Aircraft Flight Manual and NASA approved flight crew checklists.
(4) Perform Operational Readiness Reviews on aircraft prior to deployment in accordance with AOD 33872, Operation Readiness Reviews.

11.2.5 Flight Instructors

The Contractor shall provide qualified and certified personnel who shall perform Flight Instructor duties in accordance with AOD established procedures.

SECTION 11
OPTION 1--FLIGHT OPERATIONS

(1) Qualification:

(a) Shall have the experience required by NPD 7900.4, Aircraft Operations Management prior to employment.

(b) Pass an initial physical examination and annually thereafter. Details of these requirements are available in NPR 7900.3, Aircraft Operations Management,

(2) Additional duties may include:

(a) Course Instructor in accordance with Section 11.8.2.
(b) Flight Instructor in accordance with Section 13.3.5.
(c) Quality Assurance Technical Representative in accordance with Section 11.8.6.

(3) Certification:

(a) Shall maintain certification in accordance with AOD 09295, Aircraft Operations and Training Procedures, Research and Mission Support Aircraft Volume II.

(b) FAA "A" and "P" certification in accordance with 14 CFR Part 65, Certification: Airmen Other Than Flight Crewmembers, is required on Mission Management Aircraft in accordance with NHB 7920.3, NASA Administrative Aircraft Operations Manual.

(c) FAA Flight Engineer certification in accordance with 14 CFR Part 63, Certification: Flight Crewmembers Other Than Pilots, is desired.

11.3.5 Loadmasters

The Contractor shall provide Loadmasters who shall perform the duties in Section 13.2.3.

(1) Qualification:

(a) Shall have the experience required by NPD 7900.4, Aircraft Operations Management, prior to employment.

(b) Pass an initial physical examination and annually thereafter. Details of these requirements are available in NPR 7900.3, Aircraft Operations Management.

(2) Additional duties may include:

(a) Course Instructor in accordance with Section 11.8.2.
(b) Flight Instructor in accordance with Section 13.2.5.
(c) Supply Technician in accordance with Section 11.7.3.
(d) Weight and Balance Officer Assistants in accordance with Section 4.9.12.1.1.

(3) Certification: Shall maintain certification in accordance with AOD 09295, Aircraft Operations and Training Procedures, Research and Mission Support Aircraft Volume II.

11.3.6 Mission Managers

The Contractor shall provide Mission Managers who shall perform the duties identified in Section 13.2.4.

(1) Qualification:

(a) Shall have the experience required by NPD 7900.4, Aircraft Operations Management, prior to employment.

SECTION 11
OPTION 1--FLIGHT OPERATIONS

A11 OPTION 1- DFRC FLIGHT OPERATIONS, CENTER UNIQUE

The Contractor shall perform the basic requirements of the SOW unless otherwise specified in this section as identified in Section 3.2.1.

A11.3 Personnel Requirements

A11.3.3 Flight Crews

The Contractor shall provide flight crew services for the various assigned aircraft flight operations identified in this SOW. Flight crew(s) members are but not limited to:

- Pilots (to include instructors)
- Flight Engineers
- Flight Mechanics
- Navigators
- Simulator training/instructor personnel
- Other flight crews as needed to support the flight operations systems and platforms

APPENDIX A- DEFINITIONS

Reference Federal Acquisition Regulation Part 18-45- *Government Property, Definitions* and 14 CRF Part 1- *Definitions* for more information.

Abort- The failure of an aircraft to complete its planned mission.

Alteration, Major- an alteration not listed in the aircraft, aircraft engine, or propeller specifications-

(1) That might appreciably affect weight, balance, structural strength, performance, powerplant operation, flight characteristics, or other qualities affecting airworthiness; or
(2) That is not done according to accepted practices or cannot be done by elementary operations.

Aircraft Classification-

Mission Management Aircraft (MMA)- Those administrative aircraft certified by the Federal Aviation Administration and used primarily for passenger transport. These include aircraft used to transport management and staff personnel on official travel for the purpose of satisfying mission requirements or other travel for the conduct of agency business.

Program Support Aircraft- Aircraft used to support programs and operations other than the direct production and acquisition of data. This includes, but is not limited to, astronaut training, safety chase, photo chase, cargo transport, flight training, range surveillance, launch security, and command and control.

Air Abort- A discrepancy causing an aircraft to return (land) after takeoff without completing its mission.

Bench Check- Any action by maintenance in determining the condition, status of an item, or determination of capability or lack of capability to return an item removed for a malfunction or alleged malfunction to a serviceable status.

Cannibalization- The removal of a component not available from normal sources to make a second piece of equipment functional.

Certification- The formal process of a third-party evaluation and approval of a person's knowledge, skills, and competence to perform a function in comparison to an established criteria.

Configuration Control Panel Directives (CCPD)- The CCPD is the vehicle used by NASA management to approve and validate the concept behind flight-critical configuration changes to all JSC aircraft and their associated support systems. Modifications to GSE will also require a CCPD.

Continued Airworthiness Requirements- Mandatory requirements for the modification, replacement of parts, or inspection of aircraft and amendment of operating limitations and procedures.

Check or Inspect- A through examination of the items to determine identity, security, condition, and operation.

APPENDIX A- DEFINITIONS

Functional or Operational Check (or Test)- The testing and checking of function and operation of the component either on the aircraft or in shops, using equipment, procedures, and limits in the applicable technical data.

Ground Abort- A discrepancy discovered on the ground after the aircraft has been assigned, delaying, or canceling the flight.

Ground Support Equipment- Equipment necessary to service, repair, operate, and test aircraft.

Hazardous Duty- Services provided in areas specified in JSCI 1710.2 "Limitation to Work Shift of Personnel Associated with JSC Hazardous Activities."

Hand Tool- A tool commonly used on aircraft such as screwdrivers, wrenches, sockets, which may be easily purchased from a local vendor.

In-Commission (Operationally Ready)- An aircraft capable of safely fulfilling the mission for which it is assigned. Also see Fully Mission Capable.

Job Qualification Standard (JQS)- A checklist that identifies the minimum training requirements for a specific task.

Life-Limited Part- Any part for which a mandatory replacement limit is specified in the type design, the Instructions for Continued Airworthiness, or the maintenance manual.

Life Status- The accumulated cycles, hours, or any other mandatory replacement limit of a life-limited part.

Maintenance- The inspection, overhaul, repair, preservation, and the replacement of parts, but excludes preventive maintenance.

Maintenance Delay- Any mission which is delayed due to a detected or suspected maintenance malfunction discovered by an aircrew and/or maintenance personnel, that can be corrected by the maintenance contractor within 1 hour from the received time of the reported malfunction, will be classified as a maintenance delay and not a ground abort.

Maintenance

Depot Level- Those maintenance activities to augment stocks of serviceable material and to support organizational and intermediate maintenance activities by more extensive shop facilities and equipment, and personnel of higher technical skill than are normally available at the lower levels of maintenance. It normally consists of repairing, modifying, overhauling, reclaiming, or rebuilding parts, assemblies, subassemblies, components, and end items, the emergency manufacturing of unavailable parts and providing technical assistance to using activities and intermediate maintenance organizations.

Intermediate Level- Intermediate level maintenance normally consists of calibrating, repairing, or replacing damaged or unserviceable parts, components, or assemblies, modification of material, emergency manufacturing of unavailable parts, and providing technical assistance to using organizations. Intermediate level maintenance is sometimes indistinguishable from organization level maintenance except for its more in-depth maintenance capability.

APPENDIX A- DEFINITIONS

On-the-job training- Non-classroom training that focuses on performing actual job tasks to build skill proficiency. OJT is done under the guidance of someone experienced and fully qualified in that job or task.

Operational Check Flight- The airborne operational check of any system, which cannot be fully checked for proper operation on the ground.

Potentially Hazardous Item- An end item, element, system, subsystem, article, or component with the potential for exposure of personnel, facilities, equipment, or the environment to hazards arising from performance of work, use, handling, manufacturing, packaging, transportation, storage, inspection, or disposal.

Pre-Dock Meeting- A formal meeting between NASA representatives and the Contractor prior to the input of the aircraft for scheduled maintenance to establish the projected workload, the provisions required, and the schedule for accomplishment.

Production Inspection- An inspection performed by a production inspector that confirms the correct operation of the product and verifies the technical data requirements have been met.

Project Aircraft- An aircraft with a problem that cannot be solved with normal maintenance technical data, requiring engineering assistance. Specific anomalies will also cause an aircraft to become a project.

Project Engine- An engine with a problem that cannot be solved with normal maintenance technical data, requiring engineering assistance. Specific anomalies will also cause an engine to become a project.

Qualifications- Training or competencies, which provide an individual the necessary skills, knowledge, or credentials to perform a specific function.

Quality Management System (QMS)- The organizational structure, procedures, processes, and resources needed to implement quality management.

Records- Records are defined by 44 U.S.C. Sec. 3301 as:

Quality Management System Records-

"all books, papers, maps, photographs, machine-readable materials, or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data in them." Extracted from JPG 1440.3, *JSC Files and Records Management.*

Aircraft Maintenance Records-

Aircraft records indicating the performance of preventive maintenance, rebuilds, or alterations to an aircraft, airframe, aircraft engine, propeller, appliance, or component part.

Active Records-

- Records of tasks, which have not been repeated or superceded as referenced in the Aircraft Maintenance Program.

APPENDIX A- DEFINITIONS

Type Certificated- Aircraft with FAA airworthiness certificates.

Work Instruction- Documents that describe how to accomplish specific job activities needed to ensure consistent working methods and achieve the required quality standard.

Work Request- A work requirement that is provided in writing to the Contractor in accordance with the task order provision of this contract.

APPENDIX C
MONTHLY MAINTENANCE PERFORMANCE GOALS

- Documentation page errors.....No more than 1 typo per page
Repeat pilot discrepancies on
all aircraft models .....12 discrepancies
Tool control non-conformances .....2 non-conformances

- **Sortie abort rate** — Goal — H
  - T-38 aircraft 2%
  - STA aircraft 2%
  - Other aircraft 2%

- **Scheduled ETIC work days versus actual work days used** — Goal — I
  - T-38 aircraft .....ETIC + 10%
  - STA/G-II .....ETIC + 10%
  - Other aircraft .....ETIC + 10%

- **STA training missions maintenance lost** — Goal — J
  - Total missions 6%

MANAGEMENT PERFORMANCE GOALS

- **Overtime efficiency** — Goal — K
  - Percent of allowable used .....7% of the 10% allowable

- **Support Shops** — Goal — L
  - Total shop backlog .....1000 awaiting maintenance
  - Items processed 90%
  - Error rate for egress and life support systems. 0%
  - Tow tractor mission capable 80%
  - Portable Lighting/Generators 75%

- **Training accomplished** — Goal — M
  - Technical .....200 hours
  - Safety .....100 hours

- **T-38 aircraft fleet time** — Goal — N
  - Average time .....225 +/- 5 hours

OTHER PERFORMANCE GOALS

- **Aircraft parts cannibalizations** — Goal — O
  - T-38 aircraft .....1 per 3 aircraft
  - STA/G-II .....2 per aircraft

- **J-85 engine data**.....Goal
  - Unplanned shop visit rate .....8% — P
  - Spares .....4% — Q

APPENDIX C
MONTHLY MAINTENANCE PERFORMANCE GOALS

Air Traffic Control Tower Operator	Goal
• Currency	No assigned goal

NOTES

A. This goal indicates the number of aircraft discrepancies not worked and carried over to the next month.

B. This goal indicates the percentage number of engineering TTE's requests outsourced due to high workloads or lack of expertise and engineering projects completed on time.

C. This goal indicates the percentage number the FCF's flown and released on the first attempt.

D. This goal indicates the number of aircraft fully mission capable verses the total number aircraft in the NASA AOD inventory for each type. Aircraft in inspection status are included against the fully mission capable rate.

E. This goal indicates the percentage number of aircraft missions flown and successfully completed.

F. This goal indicates the percentage number of operational checks flown and released on the first attempt.

G. This goal indicates:
(1) The number of Quality Surveillance Audits (QSA's) and Annual Shop Audits (ASA's) performed by the contractor and their success rate
(2) The success rate of the Document, Data, and Process Audits performed by NASA QA.
(3) The number of pilot recorded discrepancies repeated.
(4) NASA or Contractor Audits where Tool Control was the contributing factor for the non-conformance rating.

H. This goal indicates the number of missions flown verses the number of missions air or ground aborted because the mission could not be completed. Ground aborts are not counted if they are spared.

I. This goal indicates the number of scheduled work days (ETIC) after the inspection look phase or project scope in work days is determined verses the total amount of work days taken for completion; plus an allowable ten percent.

J. This goal indicates the total percentage number of STA training missions flown verses missions lost due to grounding maintenance discrepancies.

K. This goal indicates the percentage number of allowable overtime hours by contract verses the amount of actual overtime percentage hours used.

L. This goal indicates the total number of aircraft components awaiting maintenance in all the support shops carried over to the next month. These numbers exclude parts that are part of sets, i.e. bolts and compressor blades. Sets will count as one

APPENDIX C
MONTHLY MAINTENANCE PERFORMANCE GOALS

- **Scheduled ETIC work days versus actual days used** — **Goal** — **I**
  - F-18 aircraft ..... ETIC + 10%
  - King Air ..... ETIC + 10%
  - Other aircraft ..... ETIC + 10%
- **Aircraft maintenance delays** — **Goal** — **J**
  - F-18 aircraft 1%
  - King Air 1%
  - Other aircraft 1%

MANAGEMENT PERFORMANCE GOALS

- **Overtime efficiency** — **Goal** — **K**
  - Percent of allowable used ..... 5% of the allowable
- **Training accomplished** — **Goal** — **L**
  - Technical ..... 200 hours
  - Safety ..... 100 hours
- **F-18 aircraft fleet time** — **Goal** — **M**
  - Average time 200
- **King Air aircraft fleet time** — **Goal** — **M**
  - Average time 200

OTHER PERFORMANCE GOALS

- **Aircraft parts cannibalizations** — **Goal** — **N**
  - F-18 aircraft ..... 2 cannibalization per 3 aircraft
  - King Air ..... 1 cannibalization per aircraft
- **Logistics data** — **Goal** — **O**
  - F-18 NMCS % rate ..... No assigned goal
- **Safety and health** — **Goal** — **P**
  - Mishaps 0
  - Close call reports ..... Proactive participation
  - Lost time injury frequency 0
  - Proactive - safety/training initiatives 95%
- **Flight Operations** — **Goal**
  - **Flight Crew Performance** — **Goal**

    (Pilots, Flight Engineers and Loadmasters)
    - Safety Precautions — 100% — **Q**
    - Airfield Operations — 90% — **S**
    - Normal Procedures — 80% — **R**

APPENDIX C
MONTHLY MAINTENANCE PERFORMANCE GOALS

L. This goal indicates the training hours accomplished in each category.

M. This goal indicates the average amount of time remaining until the next major inspection is due.

N. This goal indicates the number of aircraft repaired by parts from another aircraft.

O. This goal indicates the percentage of aircraft that are not mission capable because they are awaiting a supply action.

P. NASA views safety as a critical mission requirement. NASA further believes when the proper safety measures are applied, all accidents are preventable. Safety measures must be uniformly applied when performing aircraft maintenance so the best possible aircraft may be provided to NASA aircrews. The categories Lost Time Injury Frequency; Close Call Reports submitted (participation in the close call reporting system is highly encouraged); Lost Time Injury Severity; Recordable GSA Vehicle Damage; OSHA/EPA Violations, and Open Safety Discrepancies carried over during the monthly recording period (within the contractors control) will be scored in overall compliance and a proactive safety attitude presented.

Q. This goal reflects the percent of time, while operating NASA aircraft or preparing for a NASA mission, the individual should perform in a safe manner. NASA views safety as a critical mission requirement. NASA further believes when the proper safety measures are applied, all accidents are preventable.

R. This goal reflects the percent of compliance with prescribed standards.

S. This goal reflects the goal achievable through ground and flight evaluations. This goal can also be determined through operation of NASA equipment.

T. This goal is determined by the aircrew's ability to not complete the stated mission due to non-mechanical or other out side influences.

APPENDIX C
MONTHLY MAINTENANCE PERFORMANCE GOALS

OTHER PERFORMANCE GOALS **Goal**

- **Procurement/Stock**
  Aircraft spare parts inventory .....90% S

NOTES

A. This goal indicates the incorporation of aircraft maintenance records of newly acquired aircraft into the QAO database.

B. This goal indicates the percentage of aircraft records reviewed without errors.

C. This goal indicates the percentage of service change record accuracy concerning airworthiness directives and manufacturer service bulletins to determine their applicability to the aircraft/accessories.

D. This goal indicates the percentage of error free weighing, computation, and recording of weight and balance processes. This includes weight and balance record accuracy for all assigned aircraft.

E. This goal indicates the equipment records reviewed and updated and the appropriate reports distributed.

F. This goal indicates the percentage of error free inspections of major maintenance items per GAMM on assigned aircraft.

G. This goal indicates the percentage of error free preflight, post-flight, and periodic checks.

H. This goal indicates meeting the agreed upon output date schedule.

I. This goal indicates the percentage of aircraft FMC.

J. This goal indicates the success rate of FCF's following maintenance actions.

K. This goal indicates the percentage of missions that are successfully completed.

L. This goal indicates the percentage of AGE FMC.

M. This goal indicates the percentage of AGE scheduled inspections that meet the ETIC.

N. This goal indicates the percentage of equipment calibrated by the Comm/Nav Shop maintained as FMC.

O. This goal indicates the percentage of batteries maintained as FMC.

P. This goal indicates the percentage of the total compliment of avionic spares maintained as FMC.

Q. This goal indicates the percentage of PE equipment maintained as FMC.

R. This goal indicates the percentage of PE scheduled inspections that meet the ETIC.

SECTION D

PACKAGING AND MARKING

D.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) -
No FAR By-reference Clauses In Section D.

II. NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) -
No NASA By-reference Clauses In Section D.

D.2 PACKAGING, HANDLING, AND TRANSPORTATION (NFS 1852.211-70) (SEP 2005)

(a) The Contractor shall comply with NASA Procedural Requirements (NPR 6000.1, "Requirements for Packaging, Handling, and Transportation for Aeronautical and Space Systems, Equipment, and Associated Components" as may be supplemented by the statement of work or specifications of this contract, for all items designated as Class I, II, or III.

(b) The Contractor's packaging, handling, and transportation procedures may be used, in whole or in part, subject to the written approval of the Contracting Officer, provided (1) the Contractor's procedures are not in conflict with any requirements of this contract, and (2) the requirements of this contract shall take precedence in the event of any conflict with the Contractor's procedures.

(c) The Contractor must place the requirements of this clause in all subcontracts for items that will become components of deliverable Class I, II, or III items.

(End of clause)

(END OF SECTION)

SECTION E
INSPECTION AND ACCEPTANCE

E.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) -

52.246-3 INSPECTION OF SUPPLIES-COST REIMBURSEMENT (MAY 2001)
52.246-5 INSPECTION OF SERVICES-COST REIMBURSEMENT (APR 1984)

II. NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) -

1852.246-73 HUMAN SPACE FLIGHT ITEM (MAR 1997).

E.2 INSPECTION AND ACCEPTANCE

Preliminary inspection and acceptance shall be accomplished by the Contracting Officer (or Administrative Contracting Officer) or his/her duly authorized representative at JSC, DFRC, and LaRC or at other locations as dictated by the Statement of Work. Final inspection and acceptance shall be accomplished by the Contracting Officer or his/her duly authorized representative at NASA Lyndon B. Johnson Space Center or at other locations as dictated by the Statement of Work.

(End of clause)

E.3 HIGHER LEVEL CONTRACT QUALITY REQUIREMENTS (FAR 52.246-11) (FEB 1999)

The Contractor shall comply with the higher-level quality standard selected below. The Contractor shall have a quality program that complies with the International Organization for Standardization document AS9110, Quality Management System for Aerospace, Requirements for Aircraft Maintenance. Third party registration is not required.

(End of clause)

E.4 QUALITY ASSURANCE SURVEILLANCE PLAN

A quality assurance surveillance plan will be developed and implemented by the contracting officer's technical representative (COTR) as part of the contract administration and monitoring activities conducted to assure that the Government receives products and services that conform to the contract requirements. The nature and extent of the quality assurance surveillance contemplated in this plan will be based, on specific content of the contractor's quality management system.

(End of clause)

(END OF SECTION)

SECTION F

DELIVERIES OR PERFORMANCE

F.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) -
52.242-15 STOP WORK ORDER (AUG 1989)-ALTERNATE I (APR 1984)

II. NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) -
No NASA By-reference clauses in Section F.

F.2 PERIOD OF PERFORMANCE

The period of performance of this contract shall be September 1, 2009 through February 28, 2010.

(End of clause)

F.3 OPTION TO EXTEND PERIOD OF PERFORMANCE

The Government may require the contractor to continue to perform services under this contract. The Contracting Officer may exercise this option(s) by issuance of a unilateral contract modification 30 days or more before the completion date set forth in Section F.2. Should the option be exercised, the resultant contract will include all terms and conditions of the basic contract as it exists immediately prior to the exercise of the option except for the following changes:

Option 1:

B.3 entitled "ESTIMATED COST AND AWARD FEE" will be modified to reflect the addition of $ b4 to the estimated cost and b4 to the maximum available award fee.

B.3.1.1 will be modified to reflect the addition of $ b4 to the estimated cost and b4 to the maximum available award fee.

B.3.1.2 will be modified to reflect the addition of b4 to the estimated cost and $ b4 to the maximum available award fee.

B.3.1.3 will be modified to reflect the addition of b4 to the estimated cost and b4 to the maximum available award fee.

F.2 entitled "PERIOD OF PERFORMANCE" will be modified to state:

SECTION F

DELIVERIES OR PERFORMANCE

H.3.3 will be modified to reflect the addition of b4 otal direct labor hours.

I.7 entitled "PAYMENT OF OVERTIME PREMIUMS" will be modified to reflect an addition of b4

The total duration of this contract, including the exercise of any option under this clause shall not exceed 2 years and 6 months.

(End of clause)

F.4 OPTION FOR THE INCREMENTAL INCREASE OF EFFORT REQUIRED DURING CONTRACT PERFORMANCE

The Government may increase the number of direct labor hours required to be furnished during the period of performance by an amount ranging from b4 . direct labor hours. If the Government elects to exercise its option to increase the number of direct labor hours to be furnished, the Contractor will be so notified by a contract modification executed by the Contracting Officer. The terms and conditions relating the Government's option rights as provided herein are as follows:

(a) The Government may increase the direct labor hours to be furnished (up to the maximum amount specified) by the exercise of one option, or by the exercise of multiple options, during the period of performance.

(b) (1) If the Government exercises one or more options pursuant to this provision for JSC, the estimated cost and fee values will be increased as follows:

(i) For options exercised during the base period, the estimated cost and award fee will be increased by b4 and b4, respectively, for every hour ordered by the exercise of an option.

(ii) For options exercised during F.3 Option 1, the estimated cost and award fee will be increased by $ b4 and $ b4, respectively, for every hour ordered by the exercise of an option.

(iii) For options exercised during F.3 Option 2, the estimated cost and award fee will be increased by $ b4 and b4 respectively, for every hour ordered by the exercise of an option.

(b) (2) If the Government exercises one or more options pursuant to this provision for DFRC, the estimated cost and fee values will be increased as follows:

(i) For options exercised during the base period, the estimated cost and award fee will be increased by b4 and $ b4 respectively, for every hour ordered by the exercise of an option.

(ii) For options exercised during F.3 Option 1, the estimated cost and award fee will be increased by b4 and b4 , respectively, for every hour ordered by the exercise of an option.

(iii) For options exercised during F.3 Option 2, the estimated cost and award fee will be increased by $ b4 and $ b4, respectively, for every hour ordered by the exercise of an option.

(b) Government Bills of Lading.

(1) International (export) and domestic overseas shipments of items deliverable under this contract shall be made by Government bills of lading (GBLs). As used in this clause, "domestic overseas" means non-continental United States, i.e. Hawaii, Commonwealth of Puerto Rico, and possessions of the United States.

(2) At least 15 days before shipment, the Contractor shall request in writing GBLs from: Silvia Hanagriff, Lead, Center Transportation, 2101 NASA Road One, Mail Code JB7, Houston, TX 77058. If time is limited, requests may be by telephone: 281-483-3208. Requests for GBLs shall include the following information.

(i) Item identification/ description.
(ii) Origin and destination.
(iii) Individual and total weights.
(iv) Dimensional Weight.
(v) Dimensions and total cubic footage.
(vi) Total number of pieces.
(vii) Total dollar value.
(viii) Other pertinent data.

(End of clause)

F.7 SHIPPING INSTRUCTIONS

All documentation shall be shipped to the address below:

Parcel Post Shipments and Freight Shipments
Ship to:
NASA
Ellington Field, Bldg. 270
Houston, TX 77034

Mark for: Accountable Property Officer
Contract Number: **NNJ09JE44C**

(End of clause)

F.8 FLIGHT ITEM (JSC 52.247-95) (SEP 1989)

Block 16 of each Department of Defense Form 250 prepared for hardware or equipment to be shipped under this contract must be annotated as follows in 1/4-inch letters or larger by hand printing or rubber stamp:

'THIS IS A FLIGHT ITEM: OR "THIS IS MISSION ESSENTIAL GROUND SUPPORT EQUIPMENT," as applicable.

(End of clause)

(END OF SECTION)

until approved and processed through the NFNMS. Unescorted access will not be granted unless a favorable National Agency Check (NAC) has been completed by the JSC Security Office, and an approved NASA Foreign National Visitor Security/Technology Control Plan (STTCP), (previously called the Access Control Plan) has been submitted and approved.

(c) The contractor agrees that it will not employ for the performance of work onsite at JSC or WSTF any individuals who are not legally authorized to work in the United States. If the JSC or WSTF Industrial Security Specialist or the contracting officer has reason to believe that any employee of the contractor may not be legally authorized to work in the United States and/or on the contract, the contractor may be required to furnish copies of Form I-9 (Employment Eligibility Verification), U.S. Department of Labor Application for Alien Employment Certification, and any other type of employment authorization document.

The contractor agrees to provide the information requested by JSC or WSTF Security Office in order to comply with NASA policy directives and guidelines related to foreign visits to NASA facilities so that (1) the visitor/employee/ representative may be allowed access to JSC or other NASA centers for performance of this contract, (2) required investigations can be conducted, and (3) required annual or revalidation reports can be submitted to NASA Headquarters. All requested information must be submitted in a timely manner in accordance with instructions provided by JSC or any other center to be visited.

(End of clause)

G.2.1.2 EL PASO INTERNATIONAL AIRPORT 10-YEAR FINGER PRINT CRIMINAL HISTORY CHECK

All contractor employees who require unescorted access to the El Paso International Airport Security Identification Display Area (SIDA) shall submit his/her fingerprints to the United States Office of Personnel Management for a fingerprint-based criminal history record check. The contractor may contact the El Paso International Airport Badging Office at 915-780-4750 to make an appointment for fingerprinting.

(End of clause)

G.2.1.3 SECURITY REGISTRATION AND IDENTIFICATION BADGES--ON-SITE CONTRACTORS, EXCLUDING CONSTRUCTION (DFRC 52.204-90) (FEB 2001)

(a) All persons engaged in work at Dryden Flight Research Center are required to be registered and badged by the Security Office, and to follow all security regulations and requirements.

(b) The Contractor is responsible for assuring that each employee or company representative wears his/her issued identification badge at all times while they

(b) Request for Center access in excess of 90 days requires that a background investigation be conducted on the non-U.S. citizen employee. The processing of a background investigation required the submittal of a NASA Form 531, "Name Check Request," and a fingerprint card application. Normal processing time for a background investigation is approximately 90 days. A favorably adjudicated background investigation shall allow non-U.S. citizen contractor employee limited unescorted access to the Center. Access shall be limited to work areas identified and deemed necessary and entry and egress to that site.

(End of clause)

G.3 AWARD FEE FOR SERVICE CONTRACTS (NFS 1852.216-76) (JUN 2000)

Award fees will be determined by JSC, DFRC, and LaRC individually under the provisions of this contract. Attachment J-2 provides the amount of award fee available in each period.

(a) The contractor can earn award fee from a minimum of zero dollars to the maximum stated in NASA FAR Supplement clause 1852.216-85, "Estimated Cost and Award Fee" in this contract.

(b) Beginning 6 months after the effective date of this contract, the Government shall evaluate the Contractor's performance every 6 months to determine the amount of award fee earned by the contractor during the period. The Contractor may submit a self-evaluation of performance for each evaluation period under consideration. These self-evaluations will be considered by the Government in its evaluation. The Government's Fee Determination Official (FDO) will determine the award fee amounts based on the Contractor's performance in accordance with Attachment J-2. The plan may be revised unilaterally by the Government prior to the beginning of any rating period to redirect emphasis.

(c) The Government will advise the Contractor in writing of the evaluation results. The payment office (see G.4) will make payment based on issuance of unilateral modification by contracting officer.

(d) After 85 percent of the potential award fee has been paid, the Contracting Officer may direct the withholding of further payment of award fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the total potential award fee.

(e) The amount of award fee which can be awarded in each evaluation period is limited to the amounts set forth at Attachment J-2. Award fee, which is not earned in an evaluation period cannot be reallocated to future evaluation periods.

(f) (1) Provisional award fee payments will be made under this contract pending the determination of the amount of fee earned for an evaluation period. If applicable, provisional award fee payments will be made to the Contractor on a monthly basis. The total amount of award fee available in an evaluation period that will be provisionally paid is the lesser of 80 percent or the prior period's evaluation score.

(2) Provisional award fee payments will be superseded by the final award fee evaluation for that period. If provisional payments exceed the final evaluation

(ii) Copy 2 Auditor;
(iii) Copy 3 Contractor;
(3) The Contracting Officer may designate other recipients as required.

(d) Public vouchers for payment of fee shall be prepared similarly to the procedures in paragraphs (b) or (c) of this clause, whichever is applicable, and be forwarded to:

For JSC:
NASA Lyndon B. Johnson Space Center
Institutional Procurement Office
Attn: Nancy Robb/BJ4
Houston, TX 77058-3696

For DFRC:
NASA Dryden Flight Research Center
Attn: Contracting Officer, Mail Stop 1422
P.O. Box 273
Edwards, CA 93523-0273

For LaRC:
NASA Langley Research Center
Office of Procurement
Attn: Michael T. Stubbs, Mail Stop 126
Hampton, VA 23681-0001

This is the designated billing office for fee vouchers for purposes of the Prompt Payment clause of this contract.

(e) In the event that amounts are withheld from payment in accordance with provisions of this contract, a separate voucher for the amount withheld will be required before payment for that amount may be made.

(End of clause)

G.5 JSC HAZARDOUS MATERIALS USE (JSC 52.223-92) (DEC 1999)

(a) This clause is JSC-unique, and the requirements are in addition to any U.S. Environmental Protection Agency, U.S. Occupational Safety and Health Administration, or other state or Federal regulation or statute. Therefore, the following requirements do NOT supercede any statutory or regulatory requirements for any entity subject to this clause.

(b) "Hazardous materials," for the purposes of this clause, consist of the following:

(1) Those materials defined as "highly hazardous chemicals" in Occupational Safety and Health Administration Process Safety Management Regulation, 29 Code of Federal Regulation 1010.119, without regard for quantity.

(2) Those "extremely hazardous substances" subject to the emergency planning requirements in the Environmental Protection Agency Emergency Planning and Community Right-to-Know Regulation, 40 Code of Federal Regulation 355, Part 355, without regard for quantity.

Technology Representative unless transmitted in response to correspondence or request from the Patent Representative. Inquires or requests regarding disposition of rights, election of rights, or related matters should be directed to the Patent Representative. This clause shall be included in any subcontract hereunder requiring a "New Technology" clause or "Patent Rights--Retention by the Contractor (Short Form)" clause, unless otherwise authorized or directed by the Contracting Officer. The respective responsibilities and authorities of the above-named representatives are set forth in 1827.305-370 of the NASA FAR Supplement.

(End of clause)

G.7 UNDERSTANDING WITH RESPECT TO COST VARIATIONS

The estimated cost of this contract is based on cost estimates for a number of cost elements such as direct labor, skills mix, materials and travel. One or more of these estimates was made by the Government and provided to the Contractor in the solicitation leading to this contract. The parties recognize that the Contractor's obligation to perform tasks within the scope of the Statement of Work could result in actual Contractor expenditures, which are greater or less than the Government's estimates provided to the Contractor for the related cost element. Should such be the case, the parties agree that there will be no adjustment to the fee provided for in this contract, nor to any other terms and conditions hereof, except the contract estimated cost, should that become necessary. Any such adjustment in estimated cost will be subject to the terms of the "Limitation of Cost" or "Limitation of Funds" clause hereof, whichever is applicable.

(End of clause)

G.8 RESERVED

(CONTINUED ON PAGE G-9)

(b) The COTR does not have the authority to, and shall not, issue any instruction purporting to be technical direction that –

(1) Constitutes an assignment of additional work outside the statement of work;

(2) Constitutes a change as defined in the Changes clause;

(3) Constitutes a basis for any increase or decrease in the total estimated contract cost, the fixed fee (if any), or the time required for contract performance;

(4) Changes any of the expressed terms, conditions, or specifications of the contract; or

(5) Interferes with the Contractor's rights to perform the terms and conditions of the contract.

(c) All technical direction shall be issued in writing by the COTR.

(d) The Contractor shall proceed promptly with the performance of technical direction duly issued by the COTR in the manner prescribed by this clause and within the COTR's authority. If, in the Contractor's opinion, any instruction or direction by the COTR falls within any of the categories defined in paragraph (b) above, the Contractor shall not proceed but shall notify the Contracting Officer in writing within 15 calendar days after receiving it and shall request the Contracting Officer to take action as described in this clause. Upon receiving this notification, the Contracting Officer shall either issue an appropriate contract modification within a reasonable time or advise the Contractor in writing within 30 days that the instruction or direction is –

(1) Rescinded in its entirety; or

(2) Within the requirements of the contract and does not constitute a change under the Changes clause of the contract, and that the Contractor should proceed promptly with its performance.

(e) A failure of the Contractor and Contracting Officer to agree that the instruction or direction is both within the requirements of the contract and does not constitute a change under the Changes clause, or a failure to agree upon the contract action to be taken with respect to the instruction or direction, shall be subject to the Disputes clause of this contract.

(f) Any action(s) taken by the Contractor in response to any direction given by any person other than the Contracting Officer or the COTR shall be at the Contractor's risk.

(End of clause)

G.10 IDENTIFICATION OF EMPLOYEES (JSC 52.242-92) (OCT 2006)

At all times while on Government property, the contractor, subcontractors, their employees, and agents shall wear badges which will be issued by the NASA Badging & Visitor Control Office, located in Building 110 at the Johnson Space Center (JSC), or at the Main Gate at the White Sands Test Facility (WSTF). JSC employee credentials and visitor badges will be issued only between the hours of 6:00 a.m. to 7:30 p.m., Monday through Friday, and 7:30 am to 3:00 pm on Saturday. WSTF employee badges will be issued only between the hours of 8 a.m. to 2 p.m., Monday through Friday. WSTF visitor

(d) Property furnished from Government excess sources is provided as-is, where-is. The Government makes no warranty regarding its applicability for performance of the contract or its ability to operate. Failure of property obtained from Government excess sources under this clause is insufficient reason for submission of requests for equitable adjustments discussed in the clause at 52.245-1, Government Property.

(e) In the event the Contracting Officer issues written authorization to provide property, the Contractor shall screen Government sources to determine the availability of property from Government inventory or excess property.

(1) The Contractor shall review NASA inventories and other authorized Federal excess sources for availability of items that meet the performance requirements of the requested property.

(i) If the Contractor determines that a suitable item is available from NASA supply inventory, it shall request the item using applicable Center procedures.

(ii) If the Contractor determines that an item within NASA or Federal excess is suitable, it shall contact the Center Industrial Property Officer to arrange for transfer of the item from the identified source to the Contractor.

(2) If the Contractor determines that the required property is not available from inventory or excess sources, the Contractor shall note the acquisition file with a list of sources reviewed and the findings regarding the lack of availability. If the required property is available, but unsuitable for use, the contractor shall document the rationale for rejection of available property. The Contractor shall retain appropriate cross-referenced documentary evidence of the outcome of those screening efforts as part of its property records system.

G.12 INSTALLATION-ACCOUNTABLE GOVERNMENT PROPERTY (NFS 1852.245-71) (DEVIATION) (SEP 2007) (ALT I) (DEVIATION) (SEP 2007)

(a) The Government property described in paragraph (c) of this clause may be made available to the Contractor on a no-charge basis for use in performance of this contract. This property shall be utilized only within the physical confines of the NASA installation that provided the property unless authorized by the contracting officer under (b)(1)(iv). Under this clause, the Government retains accountability for, and title to, the property, and the Contractor shall comply with the following:

NASA Procedural Requirements (NPR) 4100, NASA Materials Inventory Management Manual

NASA Procedural Requirements (NPR) 4200, NASA Equipment Management Procedural Requirements

NASA Procedural Requirement (NPR) 4300, NASA Personal Property Disposal Procedural Requirements

supporting documentation shall be made available, upon request, to the SEMO and any other authorized representatives of the Contracting Officer.

(c) The following property and services are provided if checked.

X (1) Office space, work area space, and utilities. Government telephones are available for official purposes only.
X (2) Office furniture.
X (3) Property listed in Section J, attachment J-4.
(ii) If the Contractor acquires property, title to which vests in the Government pursuant to other provisions of this contract, this property also shall become accountable to the Government upon its entry into Government records.
(iii) The Contractor shall not bring to the installation for use under this contract any property owned or leased by the Contractor, or other property that the Contractor is accountable for under any other Government contract, without the Contracting Officer's prior written approval.
_ (4) Supplies from stores stock.
X (5) Publications and blank forms stocked by the installation.
X (6) Safety and fire protection for Contractor personnel and facilities.
X (7) Installation service facilities listed in Section J, attachment J-5.
X (8) Medical treatment of a first-aid nature for Contractor personnel injuries or illnesses sustained during on-site duty.
X (9) Cafeteria privileges for Contractor employees during normal operating hours.
X (10) Building maintenance for facilities occupied by Contractor personnel.
X (11) Moving and hauling for office moves, movement of large equipment, and delivery of supplies. Moving services may be provided on-site, as approved by the Contracting Officer.

(End of clause)

G.13 FINANCIAL REPORTING OF NASA PROPERTY IN THE CUSTODY OF CONTRACTORS (DEVIATION) (NFS 1852.245-73) (SEP 2007)

(a) The Contractor shall submit annually a NASA Form (NF) 1018, NASA Property in the Custody of Contractors, in accordance with the provisions of 1845.505-14, the instructions on the form, subpart 1845.71, and any supplemental instructions for the current reporting period issued by NASA.

(b) (1) Subcontractor use of NF 1018 is not required by this clause; however, the Contractor shall include data on property in the possession of subcontractors in the annual NF 1018.

(2) The Contractor shall mail the original signed NF 1018 directly to the cognizant NASA Center Deputy Chief Financial Officer, Finance, unless the Contractor uses the NF 1018 Electronic Submission System (NESS) for report preparation and submission.

SECTION G

CONTRACT ADMINISTRATION DATA

G.14 PROPERTY MANAGEMENT CHANGES (DEVIATION) (NFS 1852.245-75) (SEP 2007)

(a) The Contractor shall submit any changes to standards and practices used for management and control of Government property under this contract to the assigned property administrator and Industrial Property Officer (IPO), prior to making the change whenever the change --

(1) Employs a standard that allows increase in thresholds or changes the timing for reporting loss, damage, or destruction of property;

(2) Alters physical inventory timing or procedures;

(3) Alters recordkeeping practices;

(4) Alters practices for recording the transport or delivery of Government property; or

(5) Alters practices for disposition of Government property.

(b) The Contractor shall contact the IPO at:

JA/Joe H. Nixon,
NASA. Lyndon B. Johnson Space Station
Houston, TX 77058
Telephone number: 281-483-6668
Email: joe.h.nixon@nasa.gov.

(End of clause)

G.15 LIST OF GOVERNMENT PROPERTY FURNISHED PURSUANT TO FAR 52.245-1 (DEVIATION) (NFS 1852.245-76)(SEP 2007)

(a) For performance of work under this contract, the Government will make available Government property identified in Attachment J-5 of this contract on a no-charge-for-use basis pursuant to the clause at FAR 52.245-1, Government Property. The Contractor shall use this property in the performance of this contract at NAS Johnson Space Center, Ellington Field, and at other location(s) as may be approved by the Contracting Officer. Under FAR 52.245-1, the Contractor is accountable for the identified property.

(End of clause)

G.16 NASA RECORDS MANAGEMENT

The contractor shall create, maintain, preserve, and dispose of NASA records in accordance with NPG 1441.1D "NASA Records Retention Schedules."

(End of clause)

G.17 CENTER UNIQUE CLAUSES

Federal Acquisition Regulation (FAR), NASA FAR Supplement (NFS), and clauses with no designation cover all work at JSC, DFRC, and LaRC. Unless otherwise noted, clauses commencing with JSC, DFRC, or LaRC are only applicable to the appropriate Center, as follows: JSC – Johnson Space Center, DFRC – Dryden Research Center, LaRC – Langley Research Center.

(End of clause)

SECTION H

SPECIAL CONTRACT REQUIREMENTS

H.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1)

No FAR By-reference clauses in Section H.

II. NASA FAR SUPPLEMENT (48 CFR CHAPTER 18)

1852.208-81	RESTRICTIONS ON PRINTING AND DUPLICATING (NOV 2004)
1852.223-76	FEDERAL AUTOMOTIVE STATISTICAL TOOL REPORTING (JUL 2003)
1852.225-70	EXPORT LICENSES (FEB 2000) ALTERNATE I (FEB 2000) (Insert JSC, DFRC, LaRC)
1852.228-71	AIRCRAFT FLIGHT RISKS (DEC 1988)
1852.228-72	CROSS-WAIVER OF LIABILITY FOR SPACE SHUTTLE SERVICES (SEP 1993)
1852.228-76	CROSS-WAIVER OF LIABILITY FOR SPACE STATION ACTIVITIES (DEC 1994)
1852.246-70	MISSION CRITICAL SPACE SYSTEM PERSONNEL RELIABILITY PROGRAM (MAR 1997)
1852.247-71	PROTECTION OF THE FLORIDA MANATEE (MAR 1989)

H.2 REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF OFFERORS

This contract incorporates Section K, Representations, Certifications, and Other Statements of Offerors, as set forth in the Contractor's proposal **NNJ0408247027R**, dated **22 June 09**, by reference, with the same force and effect as if it were given in full text.

(End of clause)

H.3 LEVEL-OF-EFFORT (COST)

(a) During the term of the contract, the Contractor is obligated to provide not less than 90% nor more than 110% of 64 total direct labor hours.

(b) "Direct labor hours" are those productive hours expended by Contractor personnel, including subcontracted personnel, in performing work requirements described in the Statement of Work or elsewhere in this contract that are charged as direct labor under the Contractor's established accounting policy and procedures.

(c) Once the maximum number of direct labor hours is reached or the contract term has ended, the Contractor's requirements under the contract are fulfilled, even though the specified work may not have been completed. The Contractor is not authorized to exceed the maximum of the direct labor hours specified in paragraph (a) unless a bilateral contract modification is executed. Any estimated cost and fee(s) adjustments for any additional direct labor hours shall be based solely upon the quantity of additional hours being added to the maximum number of direct labor hours specified in this clause.

SECTION H

SPECIAL CONTRACT REQUIREMENTS

Woman-Owned Small Business Concerns	10 percent
HUBZone Small Business Concerns	2 percent
Veteran-Owned Small Business Concern	2 percent
Service-Disabled, Veteran-Owned Small Business Concern	.5 percent
HBCU's (includes other minority institutions)	.2 percent.

(End of clause)

H.5 ACCESS TO SENSITIVE INFORMATION (NFS 1852.237-72) (JUN 2005)

(a) As used in this clause, "sensitive information" refers to information that a contractor has developed at private expense, or that the Government has generated that qualifies for an exception to the Freedom of Information Act, which is not currently in the public domain, and which may embody trade secrets or commercial or financial information, and which may be sensitive or privileged.

(b) To assist NASA in accomplishing management activities and administrative functions, the Contractor shall provide the services specified elsewhere in this contract.

(c) If performing this contract entails access to sensitive information, as defined above, the Contractor agrees to -

(1) Utilize any sensitive information coming into its possession only for the purposes of performing the services specified in this contract, and not to improve its own competitive position in another procurement.

(2) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(3) Allow access to sensitive information only to those employees that need it to perform services under this contract.

(4) Preclude access and disclosure of sensitive information to persons and entities outside of the Contractor's organization.

(5) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in this contract and to safeguard it from unauthorized use and disclosure.

(6) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(7) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(d) The Contractor will comply with all procedures and obligations specified in its Organizational Conflicts of Interest Avoidance Plan, which this contract incorporates as a compliance document.

(e) The nature of the work on this contract may subject the Contractor and its employees to a variety of laws and regulations relating to ethics, conflicts of interest, corruption, and other criminal or civil matters relating to the award and administration of government contracts. Recognizing that this contract establishes a high standard of accountability and trust, the Government will carefully review the Contractor's performance in relation to the mandates and restrictions found in these laws and

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is "sensitive." This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

SECTION H

SPECIAL CONTRACT REQUIREMENTS

The Contractor shall provide phase-in services, if required, in accordance with Section J-9, Phase-In/Phase Out Plan.

Also, the Contractor shall phase-out at contract end in a cooperative manner with the Government and new contractor to allow for continuity of services and smooth transition. See FAR 52.237-3, Continuity of Service and Section J-2, Award Fee Evaluation Plan.

(End of clause)

H.10 TASK ORDERING PROCEDURE. (NFS 1852.216-80) (OCT 1996):

(a) Only the Contracting Officer may issue task orders to the Contractor, providing specific authorization or direction to perform work within the scope of the contract and as specified in the schedule. The Contractor may incur costs under this contract in performance of task orders and task order modifications issued in accordance with this clause. No other costs are authorized unless otherwise specified in the contract or expressly authorized by the Contracting Officer.

(b) Prior to issuing a task order, the Contracting Officer shall provide the Contractor with the following data:

(1) A functional description of the work identifying the objectives or results desired from the contemplated task order.

(2) Proposed performance standards to be used as criteria for determining whether the work requirements have been met.

(3) A request for a task plan from the Contractor to include the technical approach, period of performance, appropriate cost information, and any other information required to determine the reasonableness of the Contractor's proposal.

(c) Within 10 calendar days after receipt of the Contracting Officer's request, the Contractor shall submit a task plan conforming to the request.

(d) After review and any necessary discussions, the Contracting Officer may issue a task order to the Contractor containing, as a minimum, the following:

(1) Date of the order.

(2) Contract number and order number.

(3) Functional description of the work identifying the objectives or results desired from the task order, including special instructions or other information necessary for performance of the task.

(4) Performance standards, and where appropriate, quality assurance standards.

(5) Maximum dollar amount authorized (cost and fee or price). This includes allocation of award fee among award fee periods, if applicable.

(6) Any other resources (travel, materials, equipment, facilities, etc.) authorized.

(7) Delivery/performance schedule including start and end dates.

(8) If contract funding is by individual task order, accounting and appropriation data.

(e) The Contractor shall provide acknowledgment of receipt to the Contracting Officer within 5 calendar days after receipt of the task order.

(f) If time constraints do not permit issuance of a fully defined task order in accordance with the procedures described in paragraphs (a) through (d), a task order which includes a ceiling price may be issued.

pose a serious or imminent danger to safety and health of the public, astronauts and pilots, the NASA workforce (including contractor employees working on NASA contracts), or high value mission critical equipment or property, the Contracting Officer shall notify the Contractor orally, with written confirmation. The Contractor shall promptly take and report any necessary corrective action.

(2) If the Contractor fails or refuses to institute prompt corrective action in accordance with subparagraph (f)(1) of this clause, the Contracting Officer may invoke the stop-work order clause in this contract or any other remedy available to the Government in the event of such failure or refusal.

(g) The Contractor (or subcontractor or supplier) shall insert the substance of this clause, including this paragraph (g) and any applicable Schedule provisions and clauses, with appropriate changes of designations of the parties, in all solicitations and subcontracts of every tier, when one or more of the following conditions exist:

(1) The work will be conducted completely or partly on premises owned or controlled by the Government.

(2) The work includes construction, alteration, or repair of facilities in excess of the simplified acquisition threshold.

(3) The work, regardless of place of performance, involves hazards that could endanger the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), or high value equipment or property, and the hazards are not adequately addressed by Occupational Safety and Health Administration (OSHA) or Department of Transportation (DOT) regulations (if applicable).

(4) When the Contractor (or subcontractor or supplier) determines that the assessed risk and consequences of a failure to properly manage and control the hazard(s) warrants use of the clause.

(h) The Contractor (or subcontractor or supplier) may exclude the provisions of paragraph (g) from its solicitation(s) and subcontract(s) of every tier when it determines that the clause is not necessary because the application of the OSHA and DOT (if applicable) regulations constitute adequate safety and occupational health protection. When a determination is made to exclude the provisions of paragraph (g) from a solicitation and subcontract, the Contractor must notify and provide the basis for the determination to the Contracting Officer. In subcontracts of every tier above the micro-purchase threshold for which paragraph (g) does not apply, the Contractor (or subcontractor or supplier) shall insert the substance of paragraphs (a), (b), (c), and (f) of this clause).

(i) Authorized Government representatives of the Contracting Officer shall have access to and the right to examine the sites or areas where work under this contract is being performed in order to determine the adequacy of the Contractor's safety and occupational health measures under this clause.

(j) The contractor shall continually update the safety and health plan when necessary. In particular, the Contractor shall furnish a list of all hazardous operations to be performed, and a list of other major or key operations required or planned in the performance of the contract, even though not deemed hazardous by the Contractor. NASA and the Contractor shall jointly decide which operations are to be considered

(a) The on-site Government personnel observe the following holidays:
New Year's Day
Labor Day
Martin Luther King, Jr.'s Birthday
Columbus Day
President's Day
Veterans Day
Memorial Day
Thanksgiving Day
Independence Day
Christmas Day
Any other day designated by Federal statute, Executive order, or the President's proclamation.

(b) When any holiday falls on a Saturday, the preceding Friday is observed. When any holiday falls on a Sunday, the following Monday is observed. Observance of such days by Government personnel shall not by itself be cause for an additional period of performance or entitlement of compensation except as set forth within the contract.

(End of clause)

H.14 OBSERVATION OF SAFETY STAND DOWN DAY BY CONTRACTOR EMPLOYEES (LaRC 52.223-92) (OCT 2004)

The Langley Research Center (LaRC) Safety Stand Down Day is an annual event dedicated to learnng best practes for a safe work environment. When the LaRC Director designates all or a portion of a day as Safety Stand Down Day (or equivalent), the Contractor shall require all onsite employees to participaet in all Safety Stand Down Day activities at LaRC. Normal work activities, with the exception of critical services (e.g., physical and computer security), will be suspended."

(End of clause)

H.15 ENVIRONMENTAL AND ENERGY CONSERVATION REQUIREMENTS) (JSC Procurement Instruction 52.223-93) (May 2008)

(a) The Contractor shall ensure that all work performed and equipment used to fulfill the requirements of this contract are in compliance with all Federal, state, and local regulations and public laws, and the following NASA JSC directives: JPD 8500.1, JSC Environmental Excellence Policy; JPR 8550.1, JSC Environmental Compliance Procedural Requirements; JPR 8553.1, JSC Environmental Management System Manual; CWI JE9W-06, EMS Aspect/Impact Assessment and EMP Process; NPR 8570.1, Energy Efficiency and Water Conservation; JSC's Energy and Water Conservation 5-Year Plan; and CWI J69W-03, Energy Conservation. The Contractor shall provide data on affirmative procurement, waste reduction activity, energy efficient product procurement, and ozone depleting substances in accordance with DRD 21, Environmental and Energy Consuming Product Compliance Reports.

(b) The Government remains the owner and operator of record for all environmental activities conducted at NASA owned properties unless otherwise documented in a

this contract for effected employees in accordance with the Contractor's established accounting policy.

1. If a labor hour-based contract, administrative leave granted under this clause shall be accounted for consistent with productive hours under this contract for employees in accordance with the Contractor's established accounting policy.
2. For fixed price contracts based on other than labor hours for deliverables, the Contracting Officer and Contractor shall as a precondition to any reminbursement negotiate an advanced agreement to determine the appropriate method in which to grant administrative leave under this clause.
3. All invoices requesting payment under this clause shall be marked as "Administrative Leave in accordance with 52.242-94, Administrative Leave." All such invoices paid will be subject to review, audit, and revision when routine operations re-commence.

(c) The Contractor shall include this clause in all services subcontracts that include personnel in the categories described in (a) above.

(End of clause)

H.17 PROTECTION OF THE FLORIDA MANATEE. (NFS 1852.247-71) (MAR 1989)

(a) Pursuant to the Endangered Species Act of 1973 (Pub. L. 93-205), as amended, and the Marine Mammals Protection Act of 1972 (Pub. L. 92-522), the Florida Manatee (Trichechus Manatus) has been designated an endangered species, and the Banana and Indian Rivers within and adjacent to NASA's Kennedy Space Center (KSC) have been designated as a critical habitat of the Florida Manatee.

(b) Contractor personnel involved in vessel operations, dockside work, and selected disassembly functions shall be provided training relative to (1) habits and characteristics of the Florida Manatee, (2) provisions of the applicable laws, (3) personal liability of workers under the laws, and (4) operational restrictions imposed by KSC.

(c) All vessel operations shall be conducted within the posted speed restrictions, and vessels shall be operated at minimum controllable speeds in all KSC waters. Shallow-water operations are prohibited.

(d) Training will be conducted by personnel of the U.S. Fish and Wildlife Service (USFWS). The contractor agrees to cooperate with the USFWS by allowing access at reasonable times and places (including shipboard) to USFWS personnel, and by making available such contractor personnel as are required to have the training. Arrangements for training will be made as follows:

(1) For personnel involved in tug, barge, or marine operations, through the Lockheed Space Operations Contractor, Transportation Coordination Center, Kennedy Space Center, Florida, telephone (407) 867-5330.

(2) For all other personnel, through the Systems Training and Employee Development Branch, Code PM-TNG, telephone (407) 867-2737.

(e) The contractor shall incorporate the provisions of this clause in applicable subcontracts (including vendor deliveries).

(End of clause)

(END OF SECTION)

PART II - CONTRACT CLAUSES
SECTION I - CONTRACT CLAUSES

I.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

I. FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1)

52.202-1	DEFINITIONS (JUL 2004)
52.203-3	GRATUITIES (APR 1984)
52.203-5	COVENANT AGAINST CONTINGENT FEES (APR 1984)
52.203-6	RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT (SEP 2006)
52.203-7	ANTI-KICKBACK PROCEDURES (JUL 1995)
52.203-8	CANCELLATION, RESCISSION, AND RECOVERY OF FUNDS FOR ILLEGAL OR IMPROPER ACTIVITY (JAN 1997)
52.203-10	PRICE OR FEE ADJUSTMENT FOR ILLEGAL OR IMPROPER ACTIVITY (JAN 1997)
52.203-12	LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (SEP 2007)
52.203-13	CONTRACTOR CODE OF BUSINESS ETHICS & CONDUCT (DEC 2008)
52.204-2	SECURITY REQUIREMENTS (AUG 1996)
52.204-4	PRINTED OR COPIED DOUBLE-SIDED ON RECYCLED PAPER (AUG 2000)
52.204-7	CENTRAL CONTRACTING REGISTRATION (APR 2008)
52.204-9	PERSONAL IDENTITY VERIFICATION OF CONTRACTOR PERSONNEL (SEP 2007)
52.209-6	PROTECTING THE GOVERNMENT'S INTEREST WHEN SUBCONTRACTING WITH CONTRACTORS DEBARRED, SUSPENDED, OR PROPOSED FOR DEBARMENT (SEP 2006)
52.211-5	MATERIAL REQUIREMENTS (AUG 2000)
52.211-15	DEFENSE PRIORITY AND ALLOCATION REQUIREMENTS (APR 2008)
52.215-2	AUDIT AND RECORDS--NEGOTIATION (JUN 1999)
52.215-8	ORDER OF PRECEDENCE-UNIFORM CONTRACT FORMAT (OCT 1997)
52.215-10	PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA (OCT 1997)
52.215-12	SUBCONTRACTOR COST OR PRICING DATA (OCT 1997)
52.215-14	INTEGRITY OF UNIT PRICES (OCT 1997)
52.215-15	PENSION ADJUSTMENTS AND ASSET REVERSIONS (OCT 2004)
52.215-18	REVERSION OR ADJUSTMENT OF PLANS FOR POSTRETIREMENT BENEFITS (PRB) OTHER THAN PENSIONS (JUL 2005)
52.215-21	REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA - MODIFICATIONS (OCT 1997)
52.216-7	ALLOWABLE COST AND PAYMENT (DEC 2002)
52.219-8	UTILIZATION OF SMALL BUSINESS CONCERNS (MAY 2004)

PART II - CONTRACT CLAUSES
SECTION I - CONTRACT CLAUSES

52.230-6	ADMINISTRATION OF COST ACCOUNTING STANDARDS (MAR 2008)
52.232-9	LIMITATION ON WITHHOLDING OF PAYMENTS (APR 1984)
52.232-17	INTEREST (OCT 2008)
52.232-18	AVAILABILITY OF FUNDS (APR 1984)
52.232-22	LIMITATION OF FUNDS (APR 1984)
52.232-23	ASSIGNMENT OF CLAIMS (JAN 1986)
52.232-25	PROMPT PAYMENT (OCT 2008) ALTERNATE I (FEB 2002)
52.232-34	PAYMENT BY ELECTRONIC FUNDS TRANSFER-OTHER THAN CENTRAL CONTRACTOR REGISTRATION (MAY 1999) (Insert 15 days after contract award)
52.232-35	DESIGNATION OF OFFICE FOR GOVERNMENT RECEIPT OF ELECTRONIC FUNDS TRANSFER INFORMATION (MAY 1999) (Insert – See addresses in Clause G.4)
52.233-1	DISPUTES (JUL 2002) ALTERNATE I (DEC 1991)
52.233-3	PROTEST AFTER AWARD (AUG 1996) ALTERNATE I (JUN 1985)
52.233-4	APPLICABLE LAW FOR BREACH OF CONTRACT CLAIM (OCT 2004)
52.237-2	PROTECTION OF GOVERNMENT BUILDINGS, EQUIPMENT, AND VEGETATION (APR 1984)
52.237-3	CONTINUITY OF SERVICES (JAN 1991)
52.239-1	PRIVACY OR SECURITY SAFEGUARDS (AUG 1996)
52.242-1	NOTICE OF INTENT TO DISALLOW COSTS (APR 1984)
52.242-3	PENALTIES FOR UNALLOWABLE COSTS (MAY 2001)
52.242-4	CERTIFICATION OF FINAL INDIRECT COSTS (JAN 1997)
52.242-13	BANKRUPTCY (JUL 1995)
52.243-2	CHANGES--COST-REIMBURSEMENT (AUG 1987) ALTERNATE II (APR 1984)
52.244-2	SUBCONTRACTS (JUN 2007)--ALTERNATE I (JUN 2007) (INSERT IN PARAGRAPH (d) SUBCONTRACTS IN EXCESS OF $100,000)
52.244-5	COMPETITION IN SUBCONTRACTING (DEC 1996)
52.244-6	SUBCONTRACTS FOR COMMERCIAL ITEMS (DEC 2008)
52.245-1	GOVERNMENT PROPERTY (JUN 2007)
52.245-9	USE AND CHARGES (JUN 2007)
52.246-23	LIMITATION OF LIABILITY (FEB 1997)
52.246-25	LIMITATION OF LIABILITY--SERVICES (FEB 1997)
52.247-1	COMMERCIAL BILL OF LADING NOTATIONS (FEB 2006)
52.247-63	PREFERENCE FOR U.S. FLAG AIR CARRIERS (JUN 2003)
52.247-64	PREFERENCE FOR PRIVATELY OWNED U.S. FLAG COMMERCIAL VESSELS (FEB 2006)
52.248-1	VALUE ENGINEERING (FEB 2000)
52.249-6	TERMINATION (COST-REIMBURSEMENT) (MAY 2004)
52.249-14	EXCUSABLE DELAYS (APR 1984)
52.251-1	GOVERNMENT SUPPLY SOURCES (APR 1984)
52.251-2	INTERAGENCY FLEET MANAGEMENT SYSTEM VEHICLES AND RELATED SERVICES (JAN 1991)
52.253-1	COMPUTER GENERATED FORMS (JAN 1991)

Authentication Guideline) access to NASA's computer systems, networks, or IT infrastructure; or

(2) Information categorized as low, moderate, or high by the Federal Information Processing Standards (FIPS) 199, Standards for Security Categorization of Federal Information and Information Systems is stored, generated, processed, or exchanged by NASA or on behalf of NASA by a contractor or subcontractor, regardless of whether the information resides on a NASA or a contractor/subcontractor's information system.

(b) IT Security Requirements.

(1) Within 30 days after contract award, a Contractor shall submit to the Contracting Officer for NASA approval an IT Security Plan, Risk Assessment, and FIPS 199, Standards for Security Categorization of Federal Information and Information Systems, Assessment. These plans and assessments, including annual updates shall be incorporated into the contract as compliance documents.

(i) The IT system security plan shall be prepared consistent, in form and content, with NIST SP 800-18, Guide for Developing Security Plans for Federal Information Systems, and any additions/augmentations described in NASA Procedural Requirements (NPR) 2810, Security of Information Technology. The security plan shall identify and document appropriate IT security controls consistent with the sensitivity of the information and the requirements of Federal Information Processing Standards (FIPS) 200, Recommended Security Controls for Federal Information Systems. The plan shall be reviewed and updated in accordance with NIST SP 800-26, Security Self-Assessment Guide for Information Technology Systems, and FIPS 200, on a yearly basis.

(ii) The risk assessment shall be prepared consistent, in form and content, with NIST SP 800-30, Risk Management Guide for Information Technology Systems, and any additions/augmentations described in NPR 2810. The risk assessment shall be updated on a yearly basis.

(iii) The FIPS 199 assessment shall identify all information types as well as the "high water mark," as defined in FIPS 199, of the processed, stored, or transmitted information necessary to fulfill the contractual requirements.

(2) The Contractor shall produce contingency plans consistent, in form and content, with NIST SP 800-34, Contingency Planning Guide for Information Technology Systems, and any additions/augmentations described in NPR 2810. The Contractor shall perform yearly "Classroom Exercises." "Functional Exercises," shall be coordinated with the Center CIOs and be conducted once every three years, with the first conducted within the first two years of contract award. These exercises are defined and described in NIST SP 800-34.

(3) The Contractor shall ensure coordination of its incident response team with the NASA Incident Response Center (NASIRC) and the NASA Security Operations Center, ensuring that incidents are reported consistent with NIST SP 800-61, Computer Security Incident Reporting Guide, and the United States Computer Emergency Readiness Team's (US-CERT) Concept of Operations for reporting security incidents. Specifically, any confirmed incident of a system containing NASA data or controlling NASA assets shall be reported to NASIRC within one

(iii) Utilize the NASA Public Key Infrastructure (PKI) for all encrypted communication or non-repudiation requirements within NASA when secure email capability is required.

(c) Physical and Logical Access Requirements.

(1) Contractor personnel requiring access to IT systems operated by the Contractor for NASA or interconnected to a NASA network shall be screened at an appropriate level in accordance with NPR 2810 and Chapter 4, NPR 1600.1, NASA Security Program Procedural Requirements. NASA shall provide screening, appropriate to the highest risk level, of the IT systems and information accessed, using, as a minimum, National Agency Check with Inquiries (NACI). The Contractor shall submit the required forms to the NASA Center Chief of Security (CCS) within fourteen (14) days after contract award or assignment of an individual to a position requiring screening. The forms may be obtained from the CCS. At the option of NASA, interim access may be granted pending completion of the required investigation and final access determination. For Contractors who will reside on a NASA Center or installation, the security screening required for all required access (e.g., installation, facility, IT, information, etc.) is consolidated to ensure only one investigation is conducted based on the highest risk level. Contractors not residing on a NASA installation will be screened based on their IT access risk level determination only. See NPR 1600.1, Chapter 4.

(2) Guidance for selecting the appropriate level of screening is based on the risk of adverse impact to NASA missions. NASA defines three levels of risk for which screening is required (IT-1 has the highest level of risk).

(i) IT-1 -- Individuals having privileged access or limited privileged access to systems whose misuse can cause very serious adverse impact to NASA missions. These systems include, for example, those that can transmit commands directly modifying the behavior of spacecraft, satellites or aircraft.

(ii) IT-2 -- Individuals having privileged access or limited privileged access to systems whose misuse can cause serious adverse impact to NASA missions. These systems include, for example, those that can transmit commands directly modifying the behavior of payloads on spacecraft, satellites or aircraft; and those that contain the primary copy of "level 1" information whose cost to replace exceeds one million dollars.

(iii) IT-3 -- Individuals having privileged access or limited privileged access to systems whose misuse can cause significant adverse impact to NASA missions. These systems include, for example, those that interconnect with a NASA network in a way that exceeds access by the general public, such as bypassing firewalls; and systems operated by the Contractor for NASA whose function or information has substantial cost to replace, even if these systems are not interconnected with a NASA network.

(3) Screening for individuals shall employ forms appropriate for the level of risk as established in Chapter 4, NPR 1600.1.

(4) The Contractor may conduct its own screening of individuals requiring privileged access or limited privileged access provided the Contractor can demonstrate to the Contracting Officer that the procedures used by the Contractor are

(4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.

(c) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).

(End of clause)

I.7 OMBUDSMAN (NFS 1852.215-84) (OCT 2003)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and contractors during the preaward and postaward phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact the installation ombudsman, Melanie W. Saunders, at 281-483-0490, e-mail melanie.w.saunders@nasa.gov. Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the NASA ombudsman, the Director of the Contract Management Division, at 202-358-0445, facsimile 202-358-3083, e-mail james.a.balinskas@nasa.gov. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the Contracting Officer or as specified elsewhere in this document.

(End of clause)

I.8 PAYMENT FOR OVERTIME PREMIUMS (52.222-2) (JUL 1990)

(a) The use of overtime is authorized under this contract if the overtime premium does not exceed 6% or the overtime premium is paid for work-

(1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or

(4) That will result in lower overall costs to the Government.

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, possession, or use of any controlled substance.

"Drug-free workplace" means the site(s) for the performance of work done by the Contractor in connection with a specific contract where employees of the Contractor are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

"Employee" means an employee of a Contractor directly engaged in the performance of work under a Government contract. "Directly engaged" is defined to include all direct cost employees and any other Contractor employee who has other than a minimal impact or involvement in contract performance.

"Individual" means an offeror/contractor that has no more than one employee including the offeror/contractor.

(b) The Contractor, if other than an individual, shall- within 30 days after award (unless a longer period is agreed to in writing for contracts of 30 days or more performance duration), or as soon as possible for contracts of less than 30 days performance duration-

(1) Publish a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition;

(2) Establish an ongoing drug-free awareness program to inform such employees about-

(i) The dangers of drug abuse in the workplace;

(ii) The Contractor's policy of maintaining a drug-free workplace;

(iii) Any available drug counseling, rehabilitation, and employee assistance programs; and

(iv) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(3) Provide all employees engaged in performance of the contract with a copy of the statement required by paragraph (b)(1) of this clause;

(4) Notify such employees in writing in the statement required by paragraph (b)(1) of this clause that, as a condition of continued employment on this contract, the employee will-

(i) Abide by the terms of the statement; and

(ii) Notify the employer in writing of the employee's conviction under a criminal drug statute for a violation occurring in the workplace no later than 5 days after such conviction;

contracts, the Contractor may request that the Contracting Officer or designee waive the notice requirement in paragraph (a) of this clause. Any such request shall--

(1) Be submitted in writing;

(2) State that the quantity of activity, characteristics, and composition of the radioactive material have not changed; and

(3) Cite the contract number on which the prior notification was submitted and the contracting office to which it was submitted.

(c) All items, parts, or subassemblies which contain radioactive materials in which the specific activity is greater than 0.002 microcuries per gram or activity per item equals or exceeds 0.01 microcuries, and all containers in which such items, parts or subassemblies are delivered to the Government shall be clearly marked and labeled as required by the latest revision of MIL-STD 129 in effect on the date of the contract.

(d) This clause, including this paragraph (d), shall be inserted in all subcontracts for radioactive materials meeting the criteria in paragraph (a) of this clause.

(End of clause)

I.12 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA DESIGNATED PRODUCTS (FAR 52.223-9) (MAY 2008)

(a) Definitions. As used in this clause-

"Postconsumer material" means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."

"Recovered material" means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall-

(1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of post-consumer material content; and

(2) Submit this estimate to the Contracting Officer.

(End of clause)

I.13 OZONE-DEPLETING SUBSTANCES (FAR 52.223-11) (MAY 2001)

(a) *Definition.* "Ozone-depleting substance," as used in this clause, means any substance the Environmental Protection Agency designates in 40 CFR part 82 as-

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

Mark each page of sensitive information the Contractor wishes to restrict with the following legend:

"Use or disclosure of sensitive information contained on this page is subject to the restriction on the title page of this proposal or document."

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is "sensitive." This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources. The Security

Short Form Instructions for Completing JSC Form 2323 & 2323A

For more detailed instruction, see JSC-STD-123.

DRL IDENTIFICATION

a. **Title** - Enter nomenclature descriptive of activity to which the DRL pertains, such as project, contract, statement of work, or request for proposal.
b. **Contract/RFP Number** - Enter contract number or RFP number, if applicable.
c. **Date** - Enter DRL preparation date as follows: Month-Day-Year. Subsequent modification dates may also be entered in this block.

LINE ITEM IDENTIFICATION

1. **Line Item No.** - Number line items sequentially, 1 through 999. Items 1, 2, 3, 4 are preprinted on JSC Form 2323. JSC Form 2323A is numbered 5 and following.

2. **DRD Title** - Enter DRD title from block 1 of JSC Form 2341.

3. **Data Type - Check the appropriate data type. Additinal detail needed to clarify types or define subtypes may be added in block 9, REMARKS:**
   (1) Written Approval - Data requiring written approval by the NASA OPR before implementation into procurement or development program.
   (2) Mandatory Submittal - Data submitted to NASA for coordination, information, review, and/or managment control.
   (3) Submittal upon Request - Data prepared and retained by respndent to be made available to requiring organization upon request.

4. Frequency - Enter frequency of submittal code as follows:

Code	Description	Code	Description	Code	Description
AD	As Directed	DA	Daily	RD	As Released
AN	Annually	DD	Deferred Delivery	RT	One Time and Revisions
AR	As Required	MO	Monthly	SA	SemiAnnually
BE	Biennually (Every other yr.)	OT	One Time	TY	Three Per Year
BM	Bimonthly (Every other mo.)	PV	Per Vehicle	UR	Upon Request
BW	Biweekly (Every other week)	QU	Quarterly	WK	Weekly

5. **As-Of Date** - If reports are of a recurring nature, give as-of date (cutoff date and due date: e.g., 15/1 indicated input cutoff date of 15th and due date of 1st). Amplify in Remarks, Item 9, if necessary.

6. **First Submittal** - Enter Month/Day/Year of initial submittal. If calendar date is not scheduled, enter number of days preceding or following event to which data requirement is related (e.g., 90 days prior to launch). Amplify in Remarks, Item 9, if necessary.

7. **Copies** - Complete 7a and 7b as specified below.
   a. **Type** - Enter code as follows:

Code	Definition	Code	Definition
PRINT	Printed Copies	MICRO	Microfilm Aperture Cards
REPRO	Reproducible Copy	OTHER	Explain Remarks, Item 9

   b. **Number** - Enter number of copies required opposite each type of copy furnished.

8. **DISTRIBUTION** - List current codes or addresses and names of organizations which are to receive copies of documents generated under the DRD. If more than one copy is required, so indicate in parenthesis by recipient's name. Continue ona blank shaet if necessary.

9. **REMARKS** - Enter in this space.
   a. Reference to specific work statement paragraph as applicable to explain relationship of data to task.
   b. Additional submittal information, if necessary.
   c. Comments which explain an entry made in any block of the DRL.
   d. OPR for a specific DRD, if different from contract COTR.

JSC Form 2323 (Rev May 1, 1991) (MS Word August 1995)

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123)

nstructions for Completing JSC Form 2341

General. JSC Form 2341 will be prepared to describe the content and provide preparation information for data required to support of JSC programs. For more detailed instructions, see JSC STD-123.

1. **DRD Title.** Enter the title of data or document required. The title should include a principal noun which best establishes the basic concept of the data.
2. **Date of current DRD version.** If an existing DRD is revised, enter the revision date. For a new DRD, enter origination date.
3. **DRL Line Item.** Enter the individual line item number from block 1 of JSC Form 2323, "JSC Data Requirements List," as completed for a specific procurement.

RFP/Contract No. The assigned procurement office enters the number of the specific procurement document to which the DRD is attached.

4. **Use.** Enter a synopsis of the intended use of the document. Include the reason for the requirement and identify the using organization if necessary.
5. **DRD Category.** Check the type of information described. SR&QA DRD's must be approved by a representative of the JSC Safety, Reliability, and Quality Assurance Office.
6. **References** *(Optional).* List applicable documents (NASA or JSC manuals, military specifications, Federal standards, NASA procurement regulations, etc.) containing additional information concerning the data requirements. If original DRD refers to obsolete documents, these should be deleted when the DRD is revised.
7. **Interrelationships** *(Optional).* Enter other data requirements or passages in the same SOW that will affect or be affected by this DRD. References to paragraphs in the SOW may not be substituted for the information in block 8.
8. **Preparation Information.** Provide instructions for preparation of the data required. JSC STD-123 contains suggestions for completing this section. If additional pages are required, use blank 8 1/2 X 11 inch sheets.

DRD's are listed in a separte file.

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Commercial Monthly Purchase Expenditures	Aug 14, 2008	**2**	**NNJ08247027R/NNJ09JE44C**

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

The report shall be generated from information in the Government supplied information system. Such information is derived from appropriate coding on all local purchase transactions for review by the COTR representative.

5. DRD Category: *(check one)*

- [ ] Technical
- [x] Administrative
- [ ] SR & QA

6. References *(Optional)*

7. Interrelationships *(e.g., with other DRDa) (Optional)*

Section 5.3, DRD item 10

8. Preparation Information *(Include complete instructions for document preparation)*

The interrelationships for this DRD are as follows:
DRL line item 10, Reports Required for Logistics

1. The report shall be generated from information in the Government supplied information system (NAMIS). Such information is derived from appropriate coding on all local purchase transactions.
2. The report shall accumulate cost data for monthly and year-to-date expenditures for aircraft, projects, and ground support equipment in the general categories of parts, repairs, services, stock, and other miscellaneous categories.

2.a These costs shall be subtotaled by aircraft type, project, category, and function with a separate item by item accounting for each sub-group.

2.b An example of portions of this report is attached.

(Continued on Page 2)

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Contractor's Operations Manual (COM)	March 18, 2009	3	NNJ08247027R/NNJ09JE44C

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

To describe the functions, policies, procedures, and documentation utilized by the Contractor in the performance of this contract.

5. DRD Category: *(check one)*
- [ ] Technical
- [X] Administrative
- [ ] SR & QA

6. References *(Optional)*

AOD 12454, Maintenance, Engineering, and Quality Procedures

7. Interrelationships *(e.g., with other DRDs) (Optional)*

SOW Section 4 and 5.2

8. Preparation Information *(Include complete instructions for document preparation)*

The Contractor shall prepare a Contractor's Operations Manual (COM) for critical processes contained within this Statement of Work where more detailed information on the scope of the process or procedure is required to align or augment the process with the Contractor's Quality Management System.

Format and Contents:

Must be available to management in hard copy media and workforce in electronic media.

The COM shall include, but not be limited to:

1. Cover page – to include the following signatures:
   a. Contractor
   b. Contracting Officer
   c. Assistant Branch Chief, Aircraft Systems Section
   d. Assistant Branch Chief, Quality Assurance Section

   Other signatures may be required at the discretion of the Government.
2. Table of Contents
3. Body of Contractor's Operation Manual

a. The COM sections shall be easily traceable to sections and requirements of the Statement of Work. The COM developed for the Center unique requirements at DFRC and LaRC will be in addition to the COM requirements outlined herein.

b. The Contractor shall define and document its policy for quality, including objectives for quality, its commitments to quality. The quality policy shall be relevant to the organizational goals and the expectations. The Contractor shall ensure that this policy is understood, implemented and maintained at all levels of the organization.

JSC Form 2341 (Rev February 26, 2002) (MS Word August 1995) Previous editions are obsolete

1. The Contractor shall develop and implement an Environmental, Health and Safety (EHS) Program. The EHS program shall identify how the Contractor will conduct its activities to ensure that all applicable laws, regulations, permits, and NASA policies are complied with. NASA's pollution prevention strategy is to reduce the generation of all waste streams to all environmental media, thereby minimizing the impact on the environment and managing the cost of wastes and emissions in accordance with JPR 8550.1, Environmental Compliance Procedural Requirements.

2. The Contractor shall conduct all activities in accordance with all local, state, federal regulations, executive orders and NASA and JSC policies and permits. The Contractor shall conduct all its activities in a manner that ensures all necessary environmental, safety, health and regulatory specifications and criteria are implemented in a way that offers maximum protection to human life, the environment and property, and minimizes the pollutants generated.

3. The proper use, collection and accumulation of wastes generated during the accomplishment of activities are the responsibility of the Contractor. NASA retains regulatory generator status for all wastes generated on NASA property during the accomplishment of Contractor activities associated with NASA's mission. NASA also holds all permits, authorizations and registrations for all environmental media. The Contractor shall provide information, documentation and records when requested by NASA in order to allow NASA to meet all regulatory and permitting requirements.

4. In the event that an authorized federal, state, or local authority assesses a monetary fine or penalty against the government for violations or environmental, health or safety laws, regulations, or requirements caused by Contractor negligence or failure to comply with the contract terms and conditions, the Contractor shall reimburse the government for the amount of that fine and other government-incurred expenses.

5. The Contractor shall develop and implement a pollution prevention (source reduction and waste minimization) program. The goal will be to reduce the amount in toxicity of all chemicals, wastes, air emissions, wastewater discharges, storm water discharges, trash or other source of pollutants. The program shall use the U.S. EPA's philosophy in developing and implementing the program. The EPA indicates that source reduction (no generation of waste) is preferable to recycling (the reuse or reclamation of a waste material). Recycling is preferable to treatment of a waste and treatment is preferable to disposal. Disposal should be utilized only if no other feasible options exist.

6. The Contractor shall integrate pollution opportunity assessments into all project planning activities, placing emphasis on minimizing and where feasible eliminating the generation of hazardous materials, hazardous wastes and regulated air emissions. Cost benefit analysis, including all environmental costs and the Contractor shall be used as part of the opportunity assessment and decision making process.

7. Documentation.
The Contractor will acknowledge the following as standing requests of the Government and to be handled as described below.

7.a Environmental Health Program Corrective Action Report
(1) The Contractor shall perform corrective action immediately upon identifying a problem. All inspections and corrective actions shall be documented on forms or in the format identified by NASA.
(2) Report to be delivered to the following as a minimum:
BJ4, Contracting Officer.
CA2, Chief, Aviation Safety Office.
CC22, Assistant Branch Chief, QA Section
CC23, Assistant Branch Chief, Aircraft Systems.
CC3, Chief, Aircraft Engineering Branch

7.b Pollution Prevention Report
(1) The Contractor shall submit a report to NASA annually at contract anniversary date and shall include:
a. Previous year report.
b. All pollution prevention opportunities identified.
c. The cost for implementing projects.
d. The cost savings or cost avoidance associated with implementing projects.

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

Lessons are distributed by entry into the JSC Lessons Learned Database which submits lessons to the NASA Lessons learned Information System once approved and published. The NASA Lessons Learned Information System may be used directly if the contractor is outside the JSC domain or firewall.

Contracting Officer's Technical Representative (COTR) (1 copy)

Content of Lessons.

Subject - one line subject of the lesson.

Lesson Learned - usually one sentence that describes insight gained

Description of Event - narrative that describes what happened.

Recommendations - may be an action plan, suggestion, etc., that was adopted at event source.

Supporting documentation – submit as needed to augment understanding of lesson (photographs with or without pointers and text labels), illustrations, drawings, etc.)

Contact name and e-mail address (for follow up by Government prior to publication of lesson)

Definitions. Refer to NASA LLIS at http://llis.gsfc.nasa.gov/ and AG-CWI-001for definitions of terms used.

Evaluation of Contactor Lessons Learned Program performance.

The following characteristics are evaluated by the Government in order of decreasing importance:

1. Effectiveness of approach to lessons learned advocacy.
2. Ability to recognize and capitalize on lessons learned in a timely manner.
3. Breadth of participation by the contracted effort to include from where lessons originate for publication and to whom lessons are disseminated for use by contract assets.
4. Technical quality of lessons submitted including thoroughness and readiness of supporting documentation for publication.

3. The number of personnel and type overdue training requirements.
4. Hours expended for training- safety and technical.

1.7 Report on Contract Goals (See Section C, Appendix C, Performance Goals)

LaRC Report Requirements:

B1. 6 Month – 1 Year Forecast on Time Change/Life Limited Parts
List all 781 D&E Time Change/Life Limited Part due within next 6 months to 1 year, list by Tail Number.

B2. Mission Capable Aircraft
Monthly listing of each aircraft's availability for scheduling flights. Percentage of days available out of total workdays per month. List by Tail Number.

B3. Completed Flight Effectiveness Report
Monthly listing of percentage of scheduled flights not canceled due to maintenance. List by Tail Number.

B4. Successful FCF Completed
Monthly listing of FCF's that are passed and do not require rework or grounding of the aircraft. Minor write-up's after major maintenance or modification are acceptable. List by Tail Number.

B5. Percentage Calibrations Performed on Time
Monthly report of calibrations of test equipment and tools (Maintenance, Avionics, Quality Assurance and Stockroom) that are complied with on time. List by Maintenance, Avionics, QA.

B6. Status of Overdue Calibrations
Monthly report on overdue calibrations of test equipment and tools. Reason they are overdue and schedule for completion.

B7. Percentage Battery Maintenance Completed
Monthly report of the scheduled Battery Shop Maintenance completed on time. Status and justification of any work not completed on time.

B8. Status of Ground Support Equipment plus 6-Month Forecast
Monthly report of Ground Support Equipment, maintenance and inspections completed. Status and justification of any work not completed. Six-month forecast of upcoming requirements.

B9. Status of Personal Survival Equipment plus 6-Month Forecast
Monthly report of Personal Survival Equipment maintenance and inspections completed. Status and justification of any work not completed. Six-month forecast of upcoming requirements.

B10. Monthly Report on Status of Outstanding Procurements
Monthly report on status of all outstanding procurements. This report shall include:
- When ordered by buyer
- Estimated due date
- Any problems holding up order

B11. Flight Hours by Tail Number to Date (FY and CY)
Monthly report by Tail Number of cumulative flight hours, documented from Form LF 115, both FY and CY.

B12. Status of all Parts and Materials (estimated price, actual price, date due and date received)
Monthly report of all parts and materials ordered by Tail Number to include:
- Purchase Order #
- Date Ordered
- Estimated Price
- Actual Price
- Date Due
- Date Received

	structured similar to the prime contractor's NASA Form 533 to enable the prime contractor to properly report to NASA. For Firm Fixed Price subcontracts with a contract value greater than $500,000, the prime contractor is required to document the methodology used to generate the sub- contractor costs reported and provide this information to the Contracting Officer and Center Deputy Chief Financial Officer (Finance).
Unfilled Orders	Reported as the difference between the cumulative cost incurred to date and amounts obligated to suppliers and subcontractors.
Fee	Should be accrued as earned using a consistent and auditable method to determine the amount. For example: an acceptable method would be to use historical data to determine the amount to accrue each month. Fee should be reported on the NASA Form 533 following the "Total Cost" line. Award fee must be reported by the following categories: Base Fee, Fee Earned, Interim Fee, Provisional Fee, Potential Additional Fee, and Total Fee. If any of the above fee categories do not pertain, they should not be included in the NASA Form 533.
Prompt Payment Discounts	Cumulative cost reported to NASA should be the full incurred cost. The prompt payment discount amount taken should be reported as a separate line item on the NASA Form 533 below the cumulative cost amounts for the contract.

The NASA Form 533 reports are the official cost documents used at NASA for cost type, price redetermination, and fixed price incentive contracts. The data contained in the reports must be auditable using Generally Accepted Accounting Principles. Supplemental cost reports submitted in addition to the NASA Form 533 must be reconcilable to the NASA Form 533.

The due dates for the NASA Form 533M and NASA Form 533Q reports are outlined in Chapter 3 of NPR 9501.2D, NASA Contractor Financial Management Reporting. The following is a summary of the NASA Form 533 due date requirements.

NASA Form 533 Report	**Due Date**
NASA Form 533M, Monthly Contractor Financial Management Report	Due not later than the 10th operating day following the close of the contractor's monthly accounting period or the 15th day of the calendar month, whichever is earlier.
NASA Form 533Q, Quarterly Contractor Financial Management Report	Due not later than the 15th day of the month preceding the quarter being reported.

The due dates reflect the date the NASA Form 533 reports are received by personnel on the distribution list, not the date the reports are generated or mailed by the contractor. It is critical that the NASA Form 533 reports are submitted in a timely manner to ensure adequate time for NASA to analyze and record the cost into the NASA accounting system.

Uncompensated overtime hours worked should be reported on NASA Form 533 reports as a separate line item or in the footnotes.

For contracts which have multiple schedules, a summary NASA Form 533 is required to provide a cumulative from inception cost for the contract, regardless of schedule.

NASA Form 533 report is required in the NASA Form 533Q format to be used as a baseline for the life of the contract. The initial (baseline) NASA Form 533Q report shall be submitted by the contractor 30 days after contract start of March 1, 2009. The initial report shall reflect the original contract value detailed by negotiated reporting categories and shall be the original contract baseline plan. In addition to the initial (baseline) report, monthly NASA Form 533 reporting shall begin no later than 30 days after the incurrence of cost.

Total Straight Time Hours
Total Overtime Hours
Total Labor Hours
Straight Time Direct Hours
Overtime Direct Hours
Total Direct Hours
Straight Time Indirect Hours
Overtime Indirect Hours
Paid Leave Hours
Total Indirect Hours

(2) As a minimum, the elements of cost to be reported are as follows:
Labor Cost
Straight Time
Overtime
Materials
Subcontracts
Travel & Subsistence
Other Direct Cost
Overhead
Fringe Benefits
Other Overhead
Total Direct Cost
G&A
Subtotal Cost
Fee
Total Cost and Fee

If the contractor's accounting system differs from the above elements of cost, the elements may be revised on approval of the Contracting Officer.

Cost variance reporting and a reconciliation of changes are required in accordance with NPR 9501.2D, NASA Contractor Financial Management Reporting, paragraph 3.6.

5. The format for the reports (both NASA Form 533M and NASA Form 533Q) are contained in NPR 9501.2D, NASA Contractor Financial Management Reporting. The following additional columns shall be included in the reports:

5.a Government Fiscal Year (GFY) Cumulative Through
Actual cumulative total from October 1st of the current year through the prior month.

5.b GFY Cost at Completion
Estimated cost at the end of the current Government fiscal year (October through September).

6. Adjustments to Prior Period

Adjustments to prior period resource expenditures identified during the reporting period shall be reported in the current month actual (column 7.a), the CTD actual (column 7.c), and itemized/explained as a footnote in the reports (both NASA Form 533M and NASA Form 533Q).

7. WBS

The WBS structure shall accommodate modifications/upgrades and Overhaul and Inspection by aircraft type (exception WB-57 by individual aircraft) to include 4b(1) and (2) reporting. Each modification and upgrade shall be a separate WBS. Upgrades/Modifications of less than $100K overall value maybe consolidated into a WBS category of "Miscellaneous Upgrades/Modifications.
The following WBS Structure shall be utilized:
1.0 Total Contract Summary as applicable
1.1 Space Flight Readiness (T-38) Program

2.6 Air Crew

10. Distribution for the NASA Form 533M and NASA Form 533Q is as follows:
Administrative Contracting Officer*/Mail Stop D-1422 - One paper copy and electronic submission
Contracting Officer Technical Representative*/Mail Stop D-T-20 – electronic submission
Financial Management Office*/Mail Stop D-1013 – electronic submission
Resource Management Office*/Mail Stop T-37 electronic submission
(*Names to be supplied upon contract award.)

12. FOR LANGLEY RESEARCH CENTER:

The contractor shall provide a separate NASA Form 533M (NF533M) and NASA Form 533Q (NF533Q) for the Langley Research Center to include items 1 through 10 above incorporating the following exceptions:

4.b(2) After G&A add:
Labor and Related Cost
Material & Travel Cost

7. WBS
The following WBS structure shall be used:
3.1 OV-10A Project Support Aircraft
3.2 UH-1H Project Support Aircraft
3.3 B-200 Mission Management Aircraft
3.4 Cessna 206 Project Support Aircraft
3.5 Lancair Project Support Aircraft
3.6 Cirrus Project Support Aircraft
3.7 Other Program Support

10. Distribution for the NASA Form 533M and NASA Form 533Q is as follows:
Administrative Contracting Officer*
Contracting Officer Technical Representative*
Cost Accounting*
Analyst*
(*Names and mail codes to be supplied upon contract award.)

13. Summary Total Contract Level to include Johnson, Dryden, and Langley

This level shall contain summary data totaling Johnson, Dryden, and Langley including 4.b(1) and (2) above.

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Reports Required for Logistics	Aug 14, 2008	**10**	**NNJ08247027R/NNJ09JE44C**

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

These reports are required to determine the effectiveness of the Property Management System and as indicators of the volume of logistics activity. These reports will be forwarded to NASA Headquarters.

5. DRD Category: *(check one)*
- [ ] Technical
- [x] Administrative
- [ ] SR & QA

6. References *(Optional)*

NPD 4100.1, Supply Support and Materials Management Policy

7. Interrelationships *(e.g., with other DRDa) (Optional)*

SOW Sections 5.3 and 9

8. Preparation Information *(Include complete instructions for document preparation)*

Applicable references for this DRD are as follows:
NPD 4100.1, Supply Support and Materials Management Policy.

The interrelationships for this DRD are as follows:
DRL line item 2, Commercial Monthly Purchase Expenditures

The following reports are required to be prepared when on site storage of $75,000 of program stock is stored in one on-site location.

1. Data Input for NASA Form 1324, Semiannual Report of Personal Property Management Operations
   This semi-annual report defines the following line item data elements of 3/15 and 9/15 of each year:

   Material Inventory Status
   Material Inventory Activity
   Material Acquisition Activity
   Material Receiving Activity
   Logistics Personnel Resources Report

   Reference: NPG 4100.1D, *NASA Materials Inventory Management Manual.*
   Due Dates: 3/25 and 9/25.

2. Data Input for NASA FMD 1489, *Semi-annual Analysis of Fixed Inventory Assets*:
   This semi-annual report defines the following monetary data elements as of 3/15 and 9/15 of each year.

   Starting Price; Price of Receipts, Price of Issues, Ending Price

   Note: This will be reported by each Object Class Code stocked in the storeroom. Separate reports are required for Stores, Program, and Standby stock (see the JSC Stocks Stock Catalog prefaces for a detailed explanation of these codes).

   Reference: NPR 4100.1, NASA Materials Inventory Management Manual.

   Due Dates: 3/25 and 9/25.
   * Forms for Data Input are available through JB3/Contract Property Management Branch.

3. NASA Form 1619, Physical Inventory of Materials Annual Report:

   This annual report identifies the sampling inventory actions completed by the Contractor. This report contains the following data by Object Class Code (see the JSC Stores Stock Catalog preface for a detailed explanation of these codes).

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Roster of Contract Personnel	Aug 14, 2008	**11**	**NNJ08247027R/NNJ09JE44C**

4. Use *(Define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To identify Contract Personnel.	[ ] Technical [X] Administrative [ ] SR & QA

6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDa) (Optional)*
	SOW Section 5.3 and 10.1

8. Preparation Information *(Include complete instructions for document preparation)*

The Contractor shall prepare a roster of all personnel employed by the Contractor and it will be updated each quarter, or when required by the CO.

The Contractor's format will be acceptable.

1. This roster shall include:
1.a Date of Roster.
1.b Name of Contractor.
1.c Name of employee.
1.d Employee identification number.
1.e Title/Duty Position (to include additional duty qualifications).
1.f Business Phone Number.

JSC Form 2341 (Rev February 26, 2002) (MS Word August 1995) Previous editions are obsolete

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

Details:

1. MANAGEMENT LEADERSHIP AND EMPLOYEE PARTICIPATION

1.1 Policy: Provide the Contractor's safety and health compliance policy statement with the plan. Compare the Contractor's policy statement with those of NASA and OSHA and discuss any differences.

1.2 Goals and Objectives. Describe your approach to the following:

1.2.1 Specific annual safety and health goals and objectives to be met.

1.2.2 Methods to be used, if any, to improve on the Days Away Case Rate (DACR), the Total Recordable Injury Rate (TRIR), and the total Days Away plus Restricted Duty plus Job Transfer (DART).

1.3 Management Leadership. Describe management's procedures for implementing its sustaining commitment to safety and health compliance through visible management activities and initiatives including a commitment to exercise management prerogatives to ensure workplace safety and health. Describe processes and procedures to making this visible in all Contract and subcontract activities and products. Include a statement from the project manager or designated safety official indicating that the plan will be implemented as approved and that the project manager will take personal responsibility for its implementation.

1.4 Employee Involvement. Describe procedures to promote, implement, and sustain employee (e.g., non-supervisory) involvement in safety and health compliance program development, implementation and decision-making. Describe the scope and breadth of employee participation to be achieved so that approximate safety and health risk areas of the Contract are equitably represented. Describe methods to be used to obtain employee buy in and address the behavioral aspects of safety.

1.5 Assignment of Responsibility. Describe line and staff responsibilities for safety and health program implementation. Identify any other personnel or organization that provides safety services or exercises any form of control or assurance in these areas. State the means of communication and interface concerning related issues used by line, staff, and others (such as documentation, concurrence requirements, committee structure, sharing of the work site with NASA and other Contractors, or other special responsibilities and support). As a minimum, the Contractor will identify the following:

1.5.1 Safety Representative - identify by title, the individual who will be trained and certified in accordance with JPR 1700.1 to be responsive to Center-wide safety, health and fire protection concerns and goals, and who will participate in meetings and other activities related to the JSC Safety and Health program.

1.5.2 Company Physician/Occupational Injury/illness case manager - identify a point of contact who is responsible for the transfer or receipt of company medical data and who will be the primary contact for the company in the event any employee suffers a work related injury or illness (such as the company physician) by name, address, and telephone number to the JSC Occupational Medicine Clinic, mail code SD32. This will facilitate communication of medical data to Contractor management. Prompt notification to the JSC Occupational Medicine Clinic shall be given of any changes that occur in the identity of the point of contact.

1.5.3 Building Fire Wardens - provide a roster of fire wardens at the start of each Contract year (their names, telephone numbers and pagers, and mail codes). Contractor fire wardens are needed to facilitate the JSC fire safety program, including coordination of related issues with NASA facility managers and emergency planning and response officials and their representatives. Fire wardens will be trained in accordance with JPR 1700.1. The Roster shall be maintained by letter to the JSC Safety and Test Operations Division, mail code NS2, with copies to the Contracting Officer and the Contracting Officers Technical Representative. The initial letter shall be received by the Government not later than 15 days after contract start.

1.5.4 Designated Safety Official - identify by title the official(s) responsible for implementation of this plan and all formal contacts with regulatory agencies and with NASA.

1.6 Provision of Authority. Describe consistency of the plan for compliance with applicable NASA and JSC requirements and contractual direction as well as applicable Federal, State, and Local regulations and how compliance will be maintained throughout the life of the contract.

1.7 Accountability. Describe procedures for ensuring that management and employees will be held accountable for implementing their tasks in a safe, healthful, and environmentally compliant manner. The use of traditional and/or innovative personnel management methods (including discipline, motivational techniques, or any other technique that ensures accountability) will be referenced as a minimum and described as appropriate.

c. The quantity of each material normally kept at each location (number of containers, container size, type container, unit of measure, conversion factor, storage temp & pressure, physical state/form, specific gravity, total pounds).

d. Peak quantity stored.

e. Actual or estimated rate of annual usage of each chemical.

1.10 Government Access to Safety and Health Program Documentation. The Contractor shall recognize, in its plan, that all safety and health documentation (including relevant personnel records) be available for inspection or audit at the Government's request. Electronic access by the Government to this data is preferred as long as Privacy Act requirements are met and Government safety and health professionals and their representatives have full and unimpeded access for review and audit purposes. For Contractor activities conducted on NASA property, the Contractor will identify what records will made available to the Government in accordance with the criteria of OSHA as implemented in JPR 1700.1, "JSC Safety and Health Handbook", as revised. For the purpose of this plan, safety and health documentation includes but is not limited to: logs, records, minutes, procedures, checklists, statistics, reports, analyses, notes, or other written or electronic document which contains in whole or in part any subject matter pertinent to safety, health, or emergency preparedness.

1.11 Review and Modification of Safety Requirements. The Contractor may be requested to participate in the review and modification of safety requirements that are to be implemented by the Government including any referenced documents therein. This review activity will be implemented at the direction of the NASA Contracting Officer's Technical Representative (**COTR**) in accordance with established contractual procedures.

1.12 Procurement. Identify procedures used to assure that procurements are reviewed for safety and health compliance considerations and that specifications contain appropriate safety criteria and instructions. Set forth authority and responsibility to assure that safety tasks are clearly stated in subcontracts.

1.13 Certified Professional Resources. Discuss your access to certified professional resources for safety and health protection. Discuss their roles in motivation/awareness, worksite analysis, hazard prevention and control, and training.

2. WORKSITE ANALYSIS

2.1 ANALYSIS OF Worksite Hazards. . Contractor worksite hazards shall be systematically identified through a combination of surveys, analyses, and inspections of the workplace, investigations of mishaps and close calls, and the collection and trend analysis of safety and health data such as: records of occupational injuries and illnesses, findings and observations from preventive maintenance activities, facilities related incidents related to partial or full loss of systems functions; etc. Describe how hazards identified by any of the techniques identified below shall be ranked, processed, and mitigated in accordance with JPR 1700.1. All hazards on NASA property, which are immediately dangerous to life or health, shall be reported immediately to the Safety and Test Operations Division. All safety engineering products that address operations, equipment, etc., on NASA property will be subject to JSC Safety and Test Operations Division review and concurrence unless otherwise waived by the JSC Safety and Test Operations Division.

2.2 Industrial Hygiene. Describe your industrial hygiene program and how it will be coordinated with the JSC Government provided resources for industrial hygiene. In the event corporate resources are used to determine workplace exposures, copies of all monitoring data shall be provided to JSC Occupational Medicine Occupational Health contractor within 15 days of receipt of results.

2.3 Hazard Identification. Describe the procedures and techniques to be utilized to compile an inventory of hazards associated with the work to be performed on this Contract. This inventory of hazards shall address the work specified in this Contract as well as operations and work environments in the vicinity or in close proximity to Contract operations. The results will be reported to the Government in a manner suitable for inclusion in facilities baseline documentation as a permanent record of the facility. Specific techniques to be considered include:

2.3.1 Comprehensive Survey - A "wall to wall" engineering assessment of the Contractor's worksite, which includes the Government furnished facilities to be used by the contractor and the immediate vicinity in which contractual work or tasks will be performed. This assessment encompasses facilities, equipment, materials, and processes.

2.3.22 Change (Pre-use) Analysis - Typically addresses modifications in facilities, equipment, processes, and materials (including waste); and related procedures for operations and maintenance. Change analyses periodically will be driven by new or modified regulatory and NASA requirements.

c. When a NASA investigation is required, witnesses will be identified and their names and contact information provided to NASA investigator but witness statement must be requested and collected by NASA. Such statements will be retained by the Government as part of the mishap file in accordance with NPR 8621.1.

d. The Contractor will deliver to NASA mishap reports which shall include the data specified in NPR 8621.1 for the level mishap. NASA approval and endorsements will be required as specified in NPR 8621.1 and included in the approved Safety and Health Plan.

2.7.2 Trend Analysis – Describe approach to performing trend analysis of data (occupational injuries and illnesses; facilities, systems, and equipment performance; maintenance findings; etc.). Discuss methods to identify and abate common causes indicated by trend analysis. In support of site-wide trend analysis to be performed by the Government, the Contractor will discuss method of providing data as follows.

a. Accident/Incident Summary Report – The Contractor shall prepare and deliver Accident/Incident Summary Reports as specified on JSC Form 288, "Accident/Incident Statistics" as revised. All new and open mishaps, including vehicle accidents, incidents, injuries, fires, and close calls shall be described in summary form along with current status. Negative reports are also required monthly. Report frequency is monthly; date due is the 10th days of the month following each month reported. Report to be delivered to the JSC S & MA Directorate through the Safety and Test Operations Division, mail code NS2, by fax to 281-244-0426 or by attaching to an e-mail and transmitting to JSC-Safety-Report-Submittals@mail.nasa.gov.

b. Log of Occupational Injuries/Illnesses

i. For each establishment on and off NASA property that performs work on this Contract, the Contractor shall deliver, to the Government, a copy of its annual summary of occupational injuries and illnesses (OSHA 300 and OSHA 300A or equivalent) as described in Title 29, Code of Federal Regulations, Subpart 1904.5 If the Contractor is exempt by regulation from maintaining and publishing such logs, equivalent data in Contractor's format is acceptable (such as loss runs from insurance carrier) which contains the data required by JSC Form 288.

ii. Data shall be compiled and reported by calendar year and provided to the Government within 45 days after the end of the year to be reported (e.g. not later than February 15 of the year following).

3. HAZARD PREVENTION AND CONTROL

3.1 Identified hazards must be eliminated or controlled. In the multiple employer environment of the Center, it is required that hazards including discrepancies and corrective actions be collected in a Center wide information system Hazard Abatement Tracking System (HATS) for risk management purposes. Describe your approach to implementing this requirement.

3.2 Appropriate Controls. Discuss approach to consideration and selection of controls. Discuss use of hazard reduction precedence sequence (see JPR 1700.1). Discuss approach to identifying and accepting any residual risk. Discuss implementation of controls including verifying effectiveness. Discuss scope of coverage (hazardous chemicals, equipment, energies, etc.). Discuss need for coordination with safety, health, and emergency authorities at NASA.

3.3 Hazardous Operations and Processes. Establish methods for notification of personnel when hazardous operations and processes are to be performed in their facilities or when hazardous conditions are found to exist during the course of this Contract. JPR 1700.1 will serve as a guide for defining, classifying, and prioritizing hazardous operations; 29 CFR 1910.119 will be the guide for hazardous processes when the material or process meets the requirements therein. Develop and maintain a list of hazardous operations and processes to be performed during the life of this Contract. The list of hazardous operations and processes will be provided to JSC as part of the plan for review and approval. JSC and the Contractor will decide jointly which operations and processes are to be considered hazardous, with JSC as the final authority. Before hazardous operations or processes commence, the Contractor will develop a schedule to develop written procedures with particular emphasis on identifying the job safety steps required. NASA will have access on request to any Contractor data necessary to verify implementation. For all identified operations or processes that may have safety or health implications outside Contract operations, the Contractor shall identify such circumstances to the JSC Safety and Test Operations Division and Occupational Health Officer who will provide additional instructions for further NASA management review and approval.

3.4 Written Procedures. Identification of methods to assure that the relevant hazardous situations and proper controls are identified in documentation such as inspection procedures, test procedures, etc., and other related information. Describe methods to assure that written procedures are developed for all hazardous operations, including testing, maintenance, repairs, and handling of hazardous materials and hazardous waste. Procedures will be developed in a format suitable for use as safety documentation (such as a safety manual) and be readily available to personnel as required to correctly perform their duties.

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

4.1 Describe the Contractor's training program including identification of responsibility for training employees to assure understanding of safe work practices, hazard recognition, and appropriate responses for protective and/or emergency countermeasures, including training to meet Federal, State, and Local regulatory requirements.

4.2 Describe approach to identifying training needs including traceability to exercises such as job safety analyses, performance evaluation profiles, hazard analyses, mishap investigations, trend analyses, etc.

4.3 Describe approach to training personnel in the proper use and care of personal protective equipment (PPE).

4.4 Discuss tailoring of training towards specific audiences (management, supervisors, and employees) and topics (safety orientation for new hires, specific training for certain tasks or operations).

4.5 Discuss approach to ensure that training is retained and practiced. Discuss personnel certification programs. Certifications should include documentation that training requirements and physical conditions have been satisfied (examples include physical examination, testing, and on-the-job performance).

4.6 Address utilization of JSC safety and health training resources (such as asbestos worker training/certification, hazard communication, confined space entry, lockout/tagout, etc.) as appropriate with particular emphasis on programs designed for the multiple employer work environment on NASA property. If the Contractor wishes to train their personnel in any regulatory mandated training, an agreement will be secured with JSC Occupational Safety Branch and Occupational Health and Test Operations Division and the JSC Occupational Health OfficerSupport office prior to beginning training. The agreement will ensure that safety and health training resources available from NASA are utilized where appropriate.

4.7 Discuss approach to making all training materials and training records available available to NASA, and other Federal, state, and local agencies for their review upon request.

f. Description of the processes to notify the local CO/COTR and Safety and Health organization of critical and catastrophic hazards and mishaps.

g. Description of the Contractors corrective action plan and request for deviations and/or waivers to NASA safety and health requirements.

h. Description of anticipated hazards, hazardous materials and hazardous operations and how these hazards will be mitigated.

i. Means of program evaluation--sets forth duties, methods and frequency for internal evaluation of the safety and health program. Identifies who performs evaluations and to whom evaluations are reported as well as who approves corrective action, and methods for altering plan,
   - Training on use of Portable First Aid Fire Extinguishers
   - Training for Confined Space entry. Confined Space entry must be done IAW DCP-S-022. Training is bi-annual and medial examination must be done annually.
   - Respirator training, fit test and medical examination are required annually IAW DCP-S-036.
   - Training on all Hangar Fire Suppression Systems.
   - Other training maybe required as necessary for the job, i.e. Hazardous Communication (required for everyone), hydrazine, ionizing radiation.

Contractor shall wear a respirator when working/repairing aircraft or related equipment or in the performance of related activities, when required.

In addition, the Contractor shall implement a program that addresses motivation and awareness. This program will ensure employee compliance with proper safety practices. It will require reporting any unsafe practices and conditions that may exist in the employees' work site to the Resident Site Manager; who in turn, shall notify the CO/COTR as soon as reasonably possible. The intent is to note and correct any safety and health problems at an early stage.

Safety, Health, and Environmental Compliance

The Contractor is responsible for compliance with all Government (federal, state, and local), NASA, and DFRC safety, health and Environmental compliance regulations applicable to the performance of this SOW. All work shall be carried out in accordance with the provisions of:

(1) CAL/OSHA. Division of Industrial Safety, Title 8, California Code of Regulations.

(2) California Department of Health Services (CDHS), Hazardous Waste Management, Title 22, California Code of Regulations.

(3) Occupational Safety and Health Standards (OSHA), Code of Federal Regulations, Title 29. Environmental Protection Agency (EPA), Protection of Environment, Code of Federal Regulation, Title 40.

(4) Dryden Health and Safety Manual.

(5) NFPA 40 (Aircraft Maintenance).

The Contractor shall reimburse the Government for any civil or criminal fines or penalties resulting from health and safety or environmental infractions caused by the Contractor's negligence. An effective drug-free work place policy is required. Smoking policy, while on duty, shall conform to NASA and OSHA standards.

All aircraft welding requirement operations will be accomplished IAW NFPA. 407-6-1 (Aircraft Maintenance). Before any welding on or around aircraft, a representative from the Safety, Health and Environmental Office shall issue a welding permit form #592.

The Contractor shall brief all its employees on safety regulations, safety equipment usage, and safety procedures pertaining to handling, servicing, and maintenance of aircraft assigned Government Furnished Equipment (GFE), and all other tasks specified in this SOW. The Contractor shall be responsible for ensuring that all assigned GFE is maintained, calibrated, in safe operating condition, and used only by trained, certified, and qualified individuals.

Use of the Chemical Crib

The Contractor shall strictly adhere to the guidelines of the DFRC Chemical Crib Management Plan (Draft of 1/15/98 or most current) and Executive Order 12856. All hazardous materials at DFRC shall be included in the DFRC Chemical Crib System and will be available for authorized use as required.

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Safety and Health Program Self Evaluation	Aug 14, 2008	**14**	**NNJ08247027R/NNJ09JE44C**

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

Self evaluation of Contractor's safety and health program performance.

5. DRD Category: *(check one)*

- [ ] Technical
- [ ] Administrative
- [x] SR & QA

6. References *(Optional)*

JPR 1700.1 (as revised)

7. Interrelationships *(e.g., with other DRDa) (Optional)*

SOW Section 5.2

8. Preparation Information *(Include complete instructions for document preparation)*

1. The Contractor must conduct an annual self-evaluation of its safety and health program as required by its safety and health plan.
2. Information required:

2.a. The internal assessment of safety and health program effectiveness during the report period (i.e., the previous year) indicating the status of goals or objectives previously established and areas of strength and weakness in Contractor safety program performance.

2.b. Safety and health concerns and resolutions relating to JSC operations which may have been identified during the report period.

2.c. Unresolved safety and health concerns relating to JSC operations which the Contractor feels merit attention of JSC safety and health management.

2.d. The goals and objectives of the Contractor safety and health program for the next report period.

2.e. An analysis of the contractor's performance at JSC-administered establishments in each of the 32 Voluntary Protection Program sub-elements found in the Federal Register Notice 65:45649-45663, July 24, 2000.

2.f. Attach action plans for identified problem areas. Action plans must include schedule for periodic progress reports to the Government on a frequency agreed to by the Government and the Contractor for each problem area.

3. Format to be as required by the cognizant OSHA regional office. Contractors who have submitted a written self-evaluation as a VPP site may submit their original report to JSC in lieu of writing a new self - evaluation provided that all action plans and status are updated.
4. Report due September 30th of each year.

Small Business Subcontracting Plan & Reports		17	NNJ08247027R/NNJ09JE44C

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

To describe the Contractor's planned approach to Small Business Subcontracting and their reporting against this plan.

5. DRD Category: *(check one)*
- [ ] Technical
- [x] Administrative
- [ ] SR & QA

6. References *(Optional)*

FAR 19.702. FAR 52.219-8. FAR 52.219-9,NFS 1852.219-75 and NFS 1852.219-76.

7. Interrelationships *(e.g., with other DRDa) (Optional)*

SOW Section 5.3

8. Preparation Information *(Include complete instructions for document preparation)*

1. SCOPE

The Small Business Subcontracting Plan shall be in compliance with FAR 52.219.9. The Small Business Subcontracting Reporting shall be in compliance with NFS 1852.219-75.

2. CONTENT

The Subcontracting Plan must include the approach that the contractor intends to use in meeting the subcontracting goals. Any subcontractor whose offer is part of this proposal should be identified. For each subcontractor, the percentage of the proposal and any small business subcategory classification should be identified. For areas of potential future subcontracting, the contractor should identify the area of work, the percentage of contract that this is expected to encompass, potential subcontractors, and their small business or small subcategory classification. Describe the management approach to subcontracting with the small, small disadvantaged 8(a), Women-owned, HUBZoned, Veteran owned, and Service Disabled Veteran Owned companies and HBCU/MIs.

3. FORMAT:

Contractor format is acceptable for the plan, reporting shall be in compliance with NFS 1852.219-75.

4 SUBMISSION:

i. Subcontracting Plan:
   1. Initial – Due with proposal
   2. Approval – Prior to contract award
   3. Frequency – Subcontracting Plan to be updated in accordance with FAR 19.702.

ii. Reports:
   1. All reports shall be submitted in accordance with FAR 52.219-9 and NFS 1852.219-75.
   2. In lieu of submitting a paper copy of the SF 294 and SF 295 Subcontracting Report for Individual Contracts. The contractor shall submit semi-annually and at contract completion to the NASA/JSC Contracting Officer electronically version of this data.
   3. Contractors are required to submit subcontracting data in the Electronic Subcontracting Reporting System (eSRS) which has replaced the paper Standard Forms 294 and 295 Summary Subcontracting Reports.
   4. All contractors are required to register and file both types of subcontracting reports using the eSRS system. The website to register is www.esrs.gov.

5 MAINTENANCE:: Revisions shall be incorporated by change page or complete reissue.

JSC Form 2341 (Rev February 26, 2002) (MS Word August 1995) Previous editions are obsolete

JSC DATA REQUIREMENTS DESCRIPTION (DRD)

(Based on JSC-STD-123. See work page for instructions.)

1. DRD Title	2. Date of current version	3. DRL Line Item No.	RFP/Contract No.
Wage/Salary and Fringe Benefit Data	08/14/08	**19**	**NNJ08247027R/NNJ09JE44C**

4. Use *(Define need for, intended use of, and/or anticipated results of data)*

The Wage/Salary and Fringe Benefit Data will be used by the NASA Contracting Officer and the Contract Labor Relations Office to provide the necessary data for submittal of Standard Form (SF) 98, Notice of Intention to Make a Service Contract and Response to Notice, to the Department of Labor, and to assist in the monitoring of Service Contract Act compliance.

SOW Section 5.3

8. Preparation Information *(Include complete instructions for document preparation)*

DISTRIBUTION: BJ4, Contracting Officer
BA2/Connie Pritchard, Contract Labor Relations Officer

INITIAL SUBMISSION: 30 Days following start of contract.

SUBMISSION FREQUENCY: Annually, 90 days prior to the anniversary date of the contract.

DATA PREPARATION INFORMATION:

SCOPE: The Wage/Salary and Fringe Benefit Data must be submitted by the Contractor, and any subcontractors which are subject to the provisions of the Service Contract Act, to the Contracting Federal Agency. This requirement is in accordance with FAR regulations 22.1007 and 22.1008.

APPLICABLE DOCUMENTS: None

CONTENTS: The Wage/Salary and Fringe Benefit Data should contain the data included in the enclosed DRD forms, titled "Wage/Salary Rate Information", "Fringe Benefit for Service Employees", and "Fringe Benefits per Collective Bargaining Agreement". The Wage/Salary Rate Information shall contain a listing of all exempt and nonexempt labor classifications working on the contract. Separate forms should be utilized for classifications working in different geographic areas and for each subcontractor. Wage determination numbers, appropriation labor organization names, and subcontractor names, must be reflected. All nonexempt labor classifications must be matched to wage determination classes or to Collective Bargaining Agreement (CBA) classifications if union represented employees are working on the contract. The current hourly rates should reflect the actual lowest and highest paid employees, along with a computed average rate. State the number of employees working in each category. Separate Fringe Benefit forms should be completed for nonrepresented classifications and for each separate CBA. A separate form must be completed for the prime and each subcontractor. Three copies and one electronic copy of each Collective Bargaining Agreement are required if organized labor is represented on your contract.

FORMAT: The Wage/Salary and Fringe Benefit Data should be in a format substantially the same as enclosed with this DRD. (Forms 2, 3, and 3A)

MAINTENANCE: Changes shall be incorporated as required by change page or complete reissue.

JSC Form 2341 (Rev February 26, 2002) (MS Word August 1995) Previous editions are obsolete

FRINGE BENEFITS PER COLLECTIVE BARGAINING AGREEMENT

JPR 8550.1, JPR 8553.1

7. Interrelationships *(e.g., with other DRDs) (Optional)*

8. Preparation Information *(Include complete instructions for document preparation)*

I. Annual Affirmative Procurement Report

The Contractor shall track and report each January 15 to the JSC Environmental Office the following information regarding the purchase by the Contractor (including subcontracts) of all products on the U. S. Environmental Protection Agency's Comprehensive Procurement Guideline list and items on the USDA Farm Bill Biobased list:

a. The total amount of each item purchased during the previous fiscal year in $,

b. The total amount of each listed item purchased during the previous fiscal year that contained at least the minimum recommended percenatges of recycled content or biobased content during the fiscal year in $,

c. The total amount of each listed item purchased during the previous fiscal year that contained some recycled content or biobased content but less than the minimum recommended percentages of recycled content or biobased content during the fiscal year in $,

d. The number of waivers and the name of the item each waiver was requested for submitted to the Environmental Office during the previous fiscal year,

e. The total amount purchased for each waivered item during the previous fiscal year in $, and

f. A narrative explanation of constraints for purchasing each item that did not meet affirmative procurement or biobased content requirements during the previous fiscal year.

II. Waste Reduction Activity Report

The Contractor shall track and report each January 15 to the JSC Environmental Office any new process improvements or programs undertaken by the Contractor (or subcontractors) that have contributed to waste reduction during the previous fiscal year. Waste reduction means increasing the percent of waste material diverted from the landfill. This may be accomplished through source reduction or by increasing reuse and recycling of items that would normally go to the landfill (trash). The information will be included in JSC's annual report to NASA HQ on waste reduction activities. Limit responses to one page or less per item. The response should include a description of the activity, the materials or wastes reduced, an estimated volume or weight of reduction, and a contact name and phone number for a person knowledgeable about the reduction activity.

FOR CONSTRUCTION/FACILITY MOD CONTRACTS ONLY

The Contractor shall track and report to the JSC Environmental Office the total weight in pounds of material sent to the landfill (this does not include shipments managed and paid for by the Environmental Office or their support contractor) and the total number of pounds of material recycled by media (scrap metal, wood, concrete, soil). The report is due within 30 days of completion of all waste generating and recycling activities or of final waste shipments associated with the project and in no case later than completion of the contract.

III. Annual Energy Efficiency Product Procurement Report

The Contractor shall report to the JSC Energy Manager, on January 15 of each year, information on purchases of energy consuming products made by the Contractor (including subcontracts) beginning upon contract start. This includes the purchase of premium efficiency motors and efficiency lighting covered by the Energy Policy Act of 2005. The report shall provide the following:

a. A list of all energy consuming products purchased during the previous fiscal year.

b. The total purchase cost of each item on the list.

c. A designatiou of which items were Energy Star or Federal Energy Management Program (FEMP)-sanctioned.

ATTACHMENT J-2

AWARD FEE EVALUATION PLAN

1.0 INTRODUCTION

In accordance with the provisions of NASA Award Fee Contracting Guide, FAR 16.405-2, and NFS 1816.405-270, an award fee evaluation procedure is hereby established for determination of award fee(s) payable under this contract. The payment of any award fee is contingent upon compliance with contractual requirements and performance to the degree specified in Appendix 1.

The Contractor's performance will be evaluated by the Government, in accordance with the procedures set forth below, at the expiration of each period specified in Appendix 2. The evaluation to be performed by the Government will be based on the Government's assessment of the Contractor's accomplishment of the various areas of work covered by the Statement of Work, in accordance with the criteria, weightings, procedures set forth below.

Performance determinations will be made at the end of each 6-month evaluation period as shown in Appendix 2.

2.0 ORGANIZATIONAL STRUCTURE

The following organizational structure is established for administering the award fee provisions of the contract.

a. Fee Determination Official (FDO) - The FDO, a senior NASA official, will determine the award fee earned and payable for each evaluation period.

b. Performance Evaluation Board (PEB) - A PEB, including a Chairman, will be appointed by the FDO. The Board will conduct an evaluation of the contractor's performance and submit a Performance Evaluation Report to the FDO covering the Board's findings and recommendations for each evaluation period.

c. Performance Monitors - One or more monitors will be assigned to each performance area to be evaluated. The assignment will be made by the PEB Chairman. The performance monitors will monitor, evaluate, and assess contractor performance in assigned areas. The performance monitors will prepare a Performance Monitor Report for the PEB.

3.0 EVALUATION PROCEDURES

a. A determination of the award fee earned for each evaluation period will be made by the FDO within 45 days after the end of the period. The method to be followed in monitoring, evaluation, and assessing contractor performance during the period, as well as for determining the award fee earned or paid, is described below.

b. On quarterly basis, monitors will evaluate and assess contractor performance, for the preceding quarter and discuss the results, both orally and in writing, with contractor personnel. This performance assessment will discuss specific areas, if any, where contractor performance has excelled and where future Contractor emphasis is necessary. The performance monitors will submit a six-month monitor report and make an oral presentation to the PEB at the end of each evaluation period.

c. The PEB will consider the performance monitor report and other performance information it obtains. The PEB will summarize its findings and

ATTACHMENT J-2

Evaluation Criteria	Weight
1. Technical Performance a. Quality and Quantity of Work b. Response and Schedules	45%
2. Management Performance a. Program Management b. Safety and Health Requirements	20%
3. Small Business Subcontracting Goals	10%
4. Cost Performance	25%

Cost performance evaluation shall be on the basis of the actual wrap rate compared to the contract baseline wrap rate. Wrap Rate is defined as follows. Total cost through G&A, and "Cost of Money", if applicable, less material, travel and their associated G&A, divided by total number of LOE hours expended during that evaluation period. Cost will never be below 25%.

The Contractor will be evaluated in the Award fee periods 1 and 5 for Phase-In/Phase-Out services, if appropriate.

A zero award fee may be given to a major safety violation or for a major breach of security during the performance period (see Section H, Clause H.9).

In order to earn any award fee, the Contractor must receive a numerical rating higher than 60. Appendix 1 hereto provides the performance level definition adjective ratings and corresponding numerical scores that will be used in evaluating performance. The numerical grade ranges corresponding to these adjective ratings, and their conversion to total percent of award fee earned are set forth in Appendix 3. Appendix 2 provides the distribution of the available maximum award fee for each evaluation period. Achievement of the performance goals set forth in Appendix C to the Statement of Work equates to an adjective rating of Good and a corresponding numerical score of 71 - 80.

5.0 SEPARATE AWARD FEE EVALUATIONS

Separate award fee evaluations and fee determinations will be made for JSC, DFRC, and LaRC.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $3.24 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than $27.63 (or on a salary or fee basis at a rate not less than $455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds $27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differeutial and receive an additional 10% of basic pay for any hours worked betweeu 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

3) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $3.24 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

3) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

99841 - Vending Machine Repairer	14.34
99842 - Vending Machine Repairer Helper	12.48

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $3.24 per hour computed on the basis of all hours worked by service employees employed on the contract.

scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at http://www.dol.gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.

DEPARTMENT OF DEFENSE
CONTRACT SECURITY CLASSIFICATION SPECIFICATION

(The requirements of the DoD Industrial Security Manual apply to all security aspects of this effort.)

1. CLEARANCE AND SAFEGUARDING
a. FACILITY CLEARANCE REQUIRED: TOP SECRET
b. LEVEL OF SAFEGUARDING REQUIRED: NONE

2. THIS SPECIFICATION IS FOR: *(X and complete as applicable)*

X	a. PRIME CONTRACT NUMBER: NNJ09JE44C	
	b. SUBCONTRACT NUMBER	
	c. SOLICITATION OR OTHER NUMBER	Due Date *(YYMMDD)*

3. THIS SPECIFICATION IS: *(X and complete as applicable)*

X	a. **ORIGINAL** *(Complete date in all cases)*		Date *(YYMMD* 09.09.01
	b. **REVISED** *(Supersedes all previous specs)*	Revision No.	Date *(YYMMD*
	c. **FINAL** *(Complete Item 5 in all cases)*		Date *(YYMMD*

4. IS THIS A FOLLOW-ON CONTRACT? [X] YES [ ] NO. If Yes, complete the following:

Classified material received or generated under NNJ-04-JA-83-C *(Preceding Contract Number)* are transferred to this follow-on contra

5. IS THIS A FINAL DD FORM 254? [ ] YES [X] NO. If Yes, complete the following:

In response to the contractor's request dated N/A, retention of the classified material is authorized for the period N/A

6. CONTRACTOR *(Include Commercial and Government Entity (CAGE) Code)*

a. NAME, ADDRESS, AND ZIP CODE	b. CAGE CODE	c. COGNIZANT SECURITY OFFICE *(Name, Address, and Zip Code)*

k. OTHER *(Specify)*			(See item #13)		

ATTACHMENT J-10
PIV CARD ISSUANCE PROCEDURES

PIV Card Issuance Procedures in accordance with FAR clause 52.204-9, Personal Identity Verification of Contractor Personnel

FIPS 201 Appendix A graphically displays the following procedure for the issuance of a PIV credential.

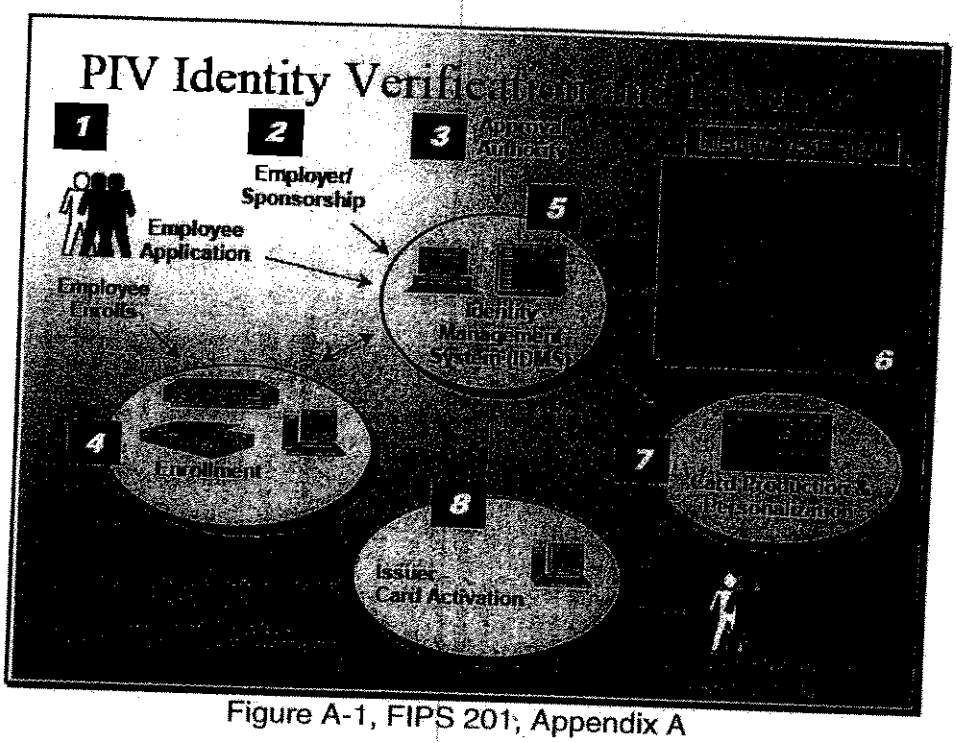

Figure A-1, FIPS 201, Appendix A

The following steps describe the procedures for the NASA Personal Identity Verification Card Issuance (PCI) of a PIV credential:

Step 1:
The Contractor's Corporate Security Officer (CSO), Program Manager (PM), or Facility Security Officer (FSO) submits a formal letter that provides a list of contract employees (applicant) names requesting access to the NASA Contracting Officer's Technical Representative (COTR). In the case of a foreign national applicant, approval through the NASA Foreign National Management System (NFNMS) must be obtained for the visit or assignment before any processing for a PIV credential can take place. Further, if the foreign national is not under a contract where a COTR has been officially designated, the foreign national will provide the information directly to their visit/assignment host, and the host sponsor will fulfill the duties of the COTR mentioned herein. In each case, the letter shall provide notification of the contract or foreign national employee's (hereafter the "applicant") full name (first, middle and last), social security number (SSN) or NASA Foreign National Management System Visitor Number if the foreign national does not have a SSN, and date of birth. If the contract employee has a current satisfactorily completed National Agency Check with Inquiries (NACI) or an equivalent or higher degree of background investigation, the letter shall indicate the type of investigation, the agency completing the investigation, and date the investigation was completed. Also, the letter must specify the risk/sensitivity level associated with the position in which each applicant will be working (NPR 1600.1, §4.5 is germane) Further, the letter shall also acknowledge

hat contract employees may be denied access to NASA information or information systems based or n unsatisfactory background investigation/adjudication. .

After reviewing the letter for completeness and concurring with the risk/sensitivity levels, the COTR/host must forward the letter to the Center Chief of Security (CCS). The CCS shall review the OPM databases (e.g, DCII, PIP, et al.), and take appropriate steps to validate the applicant's investigation status. Requirements for a NACI or other investigation shall be initiated only if necessary.

Applicants who do not currently possess the required level of background investigation shall be directed to the e-QIP web site to complete the necessary background investigation forms online. The CCS shall provide to the COTR/host information and instructions on how to access the e-QIP for each contract or foreign national employee requiring access

Step 2

Upon acceptance of the letter/background information, the applicant will be advised that in order to complete the investigative process, he or she must appear in-person before the authorized PIV registrar and submit two forms of identity source documents in original form. The identity source documents must come from the list of acceptable documents included in Form I-9, Employment Eligibility Verification, one which must be a Federal[1] or State issued picture identification. Fingerprints will be taken at this time. The applicant must appear **no later than** the entry on duty date.

Vhen the applicant appears, the registrar will electronically scan the submitted documents; any ocument that appears invalid will be rejected by the registrar. The registrar will capture electronically oth a facial image and fingerprints of the applicant. The information submitted by the applicant will be used to create or update the applicant identity record in the Identity Management System (IDMS).

Step 3:

Upon the applicant's completion of the investigative document, the CCS reviews the information, and resolves discrepancies with the applicant as necessary. When the applicant has appeared in person and completed fingerprints, the package is electronically submitted to initiate the NACI. The CCS includes a request for feedback on the NAC portion of the NACI at the time the request is submitted.

Step 4

Prior to authorizing physical access of a contractor employee to a federally-controlled facility or access to a Federal information system, the CCS will a National Crime Information Center (NCIC) with an Interstate Identification Index check is/has been performed. In the case of a foreign national, a national check of the Bureau of Immigration and Customs Enforcement (BICE) database will be performed for each applicant. If this process yields negative information, the CCS will immediately notify the COTR/host of the determination regarding access made by the CCS.

Step 5

Upon receipt of the completed NAC, the CCS will update IDMS from the NAC portion of the NACI and indicate the result of the suitability determination. If an unsatisfactory suitability determination is

---

[1] A non-PIV government identification badge, including the NASA Photo Identification Badge, MAY NOT BE USED for the original issuance of a PIV vetted credential

2. Based on favorable results of the NCIC, the applicant shall be issued a temporary NASA identification card for a period not-to-exceed six months. If at the end of the six month period the NAC results have not been returned, the agency will at that time make a determination if an additional extension will be granted for the temporary identification card.

3. Upon return of the completed NAC, the process will continue from Step 5.

(End of Section)
