Proposal Certifications

Solicitation: SBIR-2024-Phase 2
Firm Name: JE Sample Firm
Proposal: A1.02-1193 *Sample SBIR Phase II Proposal*

Please read carefully the following certification statements:

- The Federal Government relies on the information to determine whether the business is eligible for a Small Business Innovation Research (SBIR/STTR) Program award. A similar information will be used to ensure continued compliance with specific program requirements during the life of the funding agreement. The definitions for the terms used in this certification are set forth in the Small Business Act, SBA regulations (13 C.F.R. Part 121), the SBIR/STTR Policy Directive and also any statutory and regulatory provisions referenced in those authorities.
- If the Funding Agreement Officer believes that the business may not meet certain eligibility requirements at the time of award, they are required to file a size protest with the U.S. Small Business Administration (SBA), who will determine eligibility. At that time, SBA will request further clarification and supporting documentation in order to assist in the verification of any of the information provided as part of a protest. If the Funding Agreement Officer believes, after award, that the business is not meeting certain funding agreement requirements, the agency may request further clarification and supporting documentation in order to assist in the verification of any of the information provided.
- Even if correct information has been included in other materials submitted to the Federal Government, any action taken with respect to this certification does not affect the Government's right to pursue criminal, civil or administrative remedies for incorrect or incomplete information given in the certification. Each person signing this certification may be prosecuted if they have provided false information.

Selected Principal Investigator

Sample User

Need to change investigators? Select a new principal investigator from contacts.

Incomplete

The Principal Investigator's tasks cannot be split between two people. Co-PIs are not acceptable.

1. During the performance of the contract, the Principal Investigator will spend more than one half of his/her time as an employee SBC/RI (based on a 40-hour workweek). *

- Yes
- No

Incomplete

2. All Essentially Equivalent Work, or a portion of the work, proposed under this project. *

- Has not been submitted for funding to this agency or another Federal agency.
- Has been submitted for funding to this Agency or another Federal agency but has not been funded under any other grant, contract, subcontract or other transaction.
- A portion has been funded by another grant, contract, or subcontract as described in detail in the proposal and approved in writing by the Funding Agreement Officer.

☐ I will notify this agency **immediately if all or a portion of the work authorized and funded under this award** is subsequently funded by another Federal agency.

Incomplete

On rare occasions, minor deviations from this requirement may be necessary; however, any minor deviation must be approved in writing by the Contracting officer after consultation with the agency's SBIR/STTR Program Manager/Business Manager.

3. During the performance of the contract, the SBC will perform at least half (50%) of the applicable percentage of work. *

- Yes
- No

Incomplete

4. During performance of the award, the R/R&D will be performed in the United States unless a deviation is approved in writing by the Funding Agreement Officer. *

- Yes
- No

Incomplete

5. During performance of the award, the R/R&D will be performed at the Awardee's facilities by the Awardee's employees, except as otherwise indicated in the SBIR application and approved in the Funding Agreement. *

- Yes
- No

Incomplete

All subtopics listed in this solicitation have Technology Available (TAV) with NASA Intellectual Property. The use of the NASA IP is strictly voluntary. To use NASA IP, you must complete a NASA Research License Application.

6. Do you plan to use NASA IP under the award? *

- Yes
- No

Incomplete

As described in section 3 of this solicitation, you must meet the following requirements completely.

☐ **7. All parts of the technical proposal** are included in part order and the page limitation is met.

8. Do you plan to use subcontractors/consultants? *

- Yes
- No

9. Commitment letter(s) from the investor(s) is/are included with the SBIRP2 application. *

- Yes
- No

Note: Investor(s) information and commitment letter(s) are to be added in the Budget section.

10. Do you plan to use Federal facilities, laboratories, or equipment? *

- Yes
- No

11. Are there any related Research and Development proposals and awards to your proposed effort? *

- Yes
- No

Incomplete

In accordance with ITAR, 22 CFR 120-130, as applicable.

☐ **12.** I verify that I understand and will comply with export control regulations.

13. There will be ITAR/EAR data in this work and/or deliverables. *

- Yes
- No

Incomplete

In accordance with 14 CFR 1230 and 1232, as applicable.

14. Does this proposed effort involve human subjects (must comply with Federal regulations)? *

- Yes
- No

15. Does this proposed effort involve animal subjects (must comply with Federal regulations)? *

- Yes
- No

Incomplete

To comply with Federal regulations and in accordance with FAR 52.223-13, FAR 52.223-3, 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313 as applicable, indicate if the following will be used (must comply with Federal regulations)

16. Does this proposed effort involve Toxic Chemicals? *

- Yes
- No

17. Does this proposed effort involve Hazardous Materials? *

- Yes
- No

18. Does this proposed effort relate to Renewable Energy? *

- Yes
- No

19. Does this proposed effort relate to Manufacturing? *

- Yes
- No

Incomplete

Disclosure Permission

If your proposal does not result in an award, do you permit the Government to disclose the name, address and telephone number of your designated business official to appropriate local and state economic development organizations that may be interested in contacting you for further information? *

- Yes
- No

Incomplete

Proprietary Notice

If applicable, see sections 3.3 and 4.4 of the solicitation.

This data shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part for any purpose other than evaluation of this proposal. Provided that a funding agreement is awarded to the offeror as a result of or in connection with the submission of this data, the Government shall have the right to duplicate, use or disclose the data to the extent provided in the funding agreement and pursuant to applicable law. This restriction does not limit the Government's right to use information contained in the data if it is obtained from another source without restriction.

The data subject to this restriction are contained in the following pages of this proposal:

Page Numbers (comma-separated) *

Incomplete

Confirmation of Proposal Certifications

☐ I understand that the information submitted may be given to Federal, State and local agencies for determining violations of law and other purposes.

☐ I am an officer of the small business concern, authorized to represent it, and sign this certification on its behalf. By signing this certification, I am representing on my own behalf, and on behalf of the business concern that the information provided in this certification, the application, and all other information submitted in connection with this application, is true and correct as of the date of submission. I acknowledge that any intentional or negligent misrepresentation of the information contained in this certification may result in criminal, civil or administrative sanctions, including but not limited to: (1) fines, restitution and/or imprisonment under 18 U.S.C. §1001; (2) treble damages and civil penalties under the False Claims Act (31 U.S.C. §3729 et seq.); (3) double damages and civil penalties under the Program Fraud Civil Remedies Act (31 U.S.C. §3801 et seq.); (4) civil recovery of award funds; (5) suspension and/or debarment from all Federal procurement and non-procurement transactions (FAR Subpart 9.4 or 2 C.F.R. part 180); and (6) other administrative penalties including termination of SBIR/STTR awards.

The undersigned has reviewed, verified and certifies the above statements:

Proposal Summary Information

The information below is used to determine if a proposal is responsive to the topic. Failure to adequately communicate how the proposal relates to the technical need posed in the topic could result in the proposal being "screened" as non-responsive. The Proposal Summary, including the Technical Abstract, is public information and may be disclosed. Do not include proprietary or International Traffic in Arms Regulations (ITAR)-restricted information in this form.

Estimated Technology Readiness Level (TRL)

Select a number from 1 to 9 as an estimate.

Starting TRL *

--

Ending TRL *

--

Duration

SBIR Phase II maximum period of performance is 24 months.

Number of months *

Technical Abstract *

Provide a brief, descriptive summary of your proposal, including the technology's purpose, intended use of funding, and target markets.

2000 characters allowed

Potential NASA Applications *

Provide a brief summary of how your technology might support NASA mission directives.

2000 characters allowed

Potential non-NASA Applications *

Provide a brief summary of commercialization opportunities for your technology.

2000 characters allowed

Briefing Chart

Solicitation: SBIR-2024-Phase 2

Firm Name: JE Sample Firm

Proposal: A1.02-1193 *Sample SBIR Phase II Proposal*

Briefing Chart Information

The Briefing Chart is required to assist in the ranking and advocacy of Proposals prior to selection. Please include sufficient detail to assist decision makers in understanding the merit of your proposed technology solution. It must not contain any proprietary data to ITAR restricted data.

Identification and Significance of the Innovation

To best assist decision makers in understanding the merit of your proposed technology solution, the following are key points to include:

- Clear statement of "why" the idea is important - address the outstanding performance being promised and the degree to which the concept is new and different.
- Honest assessment of the state-of-the-art (SOA) with the key performance parameters (KPP).
- Quantitative assertions (e.g., x% improvement of y, x kg of mass saving, x meters of accuracy, code is x faster or z more accurate, etc.).
- Expression of the problem/need in terms common to the decision maker and to a wider audience who may not all be experts in your field.

Statement *

1100 characters allowed

TRL information will be pre-populated from the Proposal Summary form. Complete this on the Proposal Summary form before endorsing.

Technical Objectives and Proposed Deliverables

Key points to include:

- Main objectives of the work to be done.
- Proposed deliverables to NASA at the end of the contract.

Statement *

2000 characters allowed

Briefing Chart Technology Image *

Choose an image to display in your briefing chart. This can be any image related to your proposal. It will be resized to fit a standard 8.5 x 11.

Allowed formats: PDF, PNG, or JPG. You can upload a document more than once, but only the most recent version is saved. File names must be unique, duplicate filenames cannot be saved.

Capital Commitments Addendum

Solicitation: SBIR-2024-Phase 2

Firm Name: JE Sample Firm

Proposal: A1.02-1193 *Sample SBIR Phase II Proposal*

Capital Commitments Addendum Instructions

Describe and document capital commitments from non-SBIR/STTR sources or from internal SBC funds for pursuit of Phase II and Phase III efforts.

Offerers for Phase II contracts are strongly urged to obtain non-SBIR/STTR funding support commitments for follow-on Phase II activities and additional support of Phase II from parties other than the proposing firm.

Funding support commitments must show that a specific and substantial amount will be made available to the firm for the stated Phase II and/or Phase III objects. They must indicate the source, date, and conditions or contingencies under which the funds will be made available. Alternatively, self-commitments of the same type and magnitude that are required from outside sources can be considered. If a Phase III will be funded internally, offerers should describe their financial position.

Evidence of funding support commitments from outside parties must be provided in writing and should accompany the Phase II proposal. Letters of commitment should specify available funding commitments, other resources to be provided, and any contingent conditions.

Does the Capital Commitments Addendum supporting Phase II and Phase III apply to your proposal? *

- ○ Yes
- ○ No

Endorsement

Your proposal is complete.

Endorse and Submit

Please note that you will not be able to access your proposal package once the solicitation has closed - a copy of your submitted proposal package will not be provided to you. Print and retain back-up copies of any forms/documents prior to submitting your proposal package for your records.

Upload Endorsements *

Signatures from both the Business Official and Principal Investigator in this form are required for endorsement of this proposal before final submission can be completed.

Download the form template. Then, upload the signed form below.

Allowed formats: PDF, PNG, or JPG. You can upload a document more than once, but only the most recent version is saved. File names must be unique, duplicate filenames cannot be saved.

Drag file or choose from folder

Maximum file size: 10 MB

☐ I certify that the designated Business Official (BO) and Principal Investigator (PI) endorse this submission. Further, I certify that, to the best of my knowledge, this submission is accurate, complete, and responsive.
