Dear Amanda Skarsgard,

The New Mexico Environment Department (NMED) has received the National Aeronautics and Space Administration Johnson Space Center White Sands Test Facility (Permittee) final well construction diagram for replacement monitoring well 600C-002-GW as required by the *Work Plan for Abandonment of NASA WSTF Well PL-6 and Replacement with Monitoring Well 600C-002-GW*, dated February 1, 2022 and approved by NMED on October 31, 2022. NMED has completed its review of the final well construction diagram and the supplemental information provided and hereby issues this Approval.

The groundwater monitoring well abandonment and new well completion report must be submitted to NMED for review no later than **December 1, 2026.**

This approval is based on the information presented in the document as it relates to the objectives of the work identified by NMED at the time of review. Approval of this document does not constitute agreement with all information or every statement presented in the document.

If you have any questions regarding this letter, please contact Melissa Milner at (505) 690-5760.

Sincerely,

JohnDavid Nance Digitally signed by JohnDavid Nance
