

## NRP Exploration Lecture Series

# From Earth to Mars

## *Steps Toward the First Human Mission to Mars*

Dr. Lee will discuss how polar exploration on Earth is helping prepare the future exploration of the Moon and Mars, and his team's record-breaking 500 km trek on sea-ice along the fabled Northwest Passage.

October 20, 2009

Building 943, Eagle Room

NASA Ames Research Center

7:00 pm - 9:00 pm

Free/Open to the Public

**Dr. Pascal Lee**

Chairman, Mars Institute

Planetary Scientist, SETI Institute
