

Free Third Saturday Event
NASA Glenn Visitor Center presents
NASA at the Movies
February 21, 2009, 9 a.m. to 4 p.m.

NASA's space and aeronautics programs have always inspired film and television. Find out how NASA has participated in the making of Hollywood productions by providing technical expertise and location shoots. Special presentations will look back at some of these ventures with a focus on the portrayal of technology.

10:00 a.m. - The Science of Superman by NASA researcher Dennis Stocker

Noon - Behind the Scene's of HBO's "From the Earth to the Moon" by Ivan Schwarz, Executive Director, Greater Cleveland Film Commission

1:30 p.m. - Blockbuster Technology by NASA speaker David DeFelice

See Web site for details.

Free kids' crafts, "Picture Yourself in Space" digital photos and more!

- Space is limited at presentations. Call (216) 433-9653 to register.
- Access to the NASA Glenn Visitor Center is limited to U.S. Citizens.
- All adult visitors are required to present government-issued photo identification.

Free admission always!
