

Free Third Saturday Event
NASA Glenn Visitor Center
Safety in the Skies
March 21, 2009, 10 a.m. to 3 p.m.

NASA does more than launch rockets. From the very beginning, aircraft and air safety have been major parts of NASA's mission -- and NASA Glenn has led the way. Come learn why airplanes and ice don't mix, why a healthy airplane is a safe airplane, and how NASA is helping keep even the best pilots error-free.

11 a.m. – How NASA Helps Pilots Safely Manage Airplane Icing - NASA Glenn researcher Judy VanZante

1 p.m. – The Aviation Safety Program at NASA - NASA Glenn researcher Bryan Palaszewski

Free kids' crafts and "Picture Yourself in Space" digital photographs. Plus, hands-on demonstrations of NASA's SmartSkies Air Traffic Control Simulator!

- Space is limited at presentations. Make your reservations today by calling (216) 433-9653.
- Access to the NASA Glenn Visitor Center is limited to U.S. Citizens.
- All adult visitors are required to present government-issued photo identification.

Free admission always!
