

Free Third Saturday Event
NASA Glenn Visitor Center
Lake Erie Nature & Science Center Schuele Planetarium
and Cuyahoga Astronomical Association

Sixth Annual
Stargazing
May 2, 2009
10 a.m. to 11p.m.

Auditorium Programs – Space is limited, so arrive early!

- 12 p.m. – Twinkle Tots: Kids program with laser light dancing and magic!
- 1 p.m. – Orion: Learn the latest on NASA's plans to return to the moon
- 2 p.m. – Hubble Servicing Mission: The last visit to Hubble by Jay Reynolds, Schuele Planetarium
- 3 p.m. – Mars Rover Update/Cassini: Up-to-the-minute information from Mars and Saturn
- 4 p.m. – Comet Making: Members of CAA create a comet form right before your eyes!
- 5 p.m. – Dawn: CSU and Lakeland Community College students present Dawn asteroid mission research
- 6 p.m. – How to Choose a Telescope: Members of CAA show you how to choose the best telescope
- 7 p.m. – Summer Stargazing: What the summer sky shows us by Gary Kader, BW's Burrell Observatory
- 8 p.m. – The Night Life: Learn about the animals you might see and hear while stargazing.
- 1-8 p.m. – Starlab Dome: See the night sky indoors!

Solar and night sky telescope viewing, weather permitting. Free kids crafts and activities, "Picture Yourself in Space" digital photographs, food, fun and more!

- No advance registration required. Free tickets for programs available at lobby desk.
- Access to the NASA Glenn Visitor Center is limited to U.S. Citizens.
- All adult visitors are required to present **government-issued photo identification**.
- Other security restrictions apply. See Web site for details.

Also join us on Sunday for a special "Out-of-This World Fashion" event. See Web site for details.

Free admission always!
