

## 2012 NASA IV&V Workshop Sponsorship Opportunity

### The 4th International Workshop on Independent Verification & Validation of Software

The NASA IV&V Facility and its affiliates are pleased to invite presentations, posters and demonstrations for its 4<sup>th</sup> International Independent Verification and Validation of Software Workshop, to be held in Morgantown, West Virginia, at the Erickson Alumni Center beginning Tuesday, September 11, 2012 and concluding on Thursday, September 13, 2012.

The goal of this workshop is to offer solutions to the challenges that IV&V organizations face in assuring that system software operates safely and reliably.

The NASA IV&V Program encourages participants from all industrial sectors, including aerospace, defense, transportation, energy, and any other industry where software is critical to the safety and mission goals.

The success of any workshop is dependent upon its participants, and we are counting on you to help continue the growth and success of the annual IV&V workshop. NASA does not pay per diem, honoraria, or expenses of presenters.

Go to <http://www.nasa.gov/centers/ivv/workshops/index.html> for details on how to participate. We thank you for your interest and welcome your technical contribution(s).

There are several different sponsorship packages available:
