

Space Exploration Theater

The Space Exploration Theater is designed to resemble a real Space Shuttle cockpit. Guests sit in the pilot's seat as they use the joystick to navigate a series of audio and video clips. These short video presentations highlight many aspects of the Vision for Space Exploration, including the Shuttle's Return to Flight, completion of the International Space Station, and the exploration of Mars and beyond.

exhibit data sheet

General Specifications

Dimensions:

- 6' x 8'

Electrical Requirements:

- One 110 Volt 20 Amp drop

Value for Insurance:

- \$30,000

Special Notes

- An 8' x 10' door into exhibit area is required
- This exhibit is suitable for indoor use only
- See Exhibits Web site below for required application form, loan agreement and contact information:
<http://outreach.msfc.nasa.gov/>

Assembly Specifications

Assembly Equipment Required:

- Forklift for crates
- Pallet jack
- Various hand tools

Labor Required:

- Two people

Assembly Time:

- Approximately one hour

Assembly Notes:
