National Aeronautics and Space Administration

FORUM

07.13.10 / 07.14.10

OFFICE OF THE CHIEF TECHNOLOGIST

This event will focus on the President's fiscal year 2011 budget for NASA's new Space Technology Programs. Representatives from industry, academia, and the federal government are invited to learn the latest plans for these programs and discuss strategy, development, and implementation of these broadly applicable technology development activities.

Space is limited, for more information and registration visit us online at:
