9. PROJECT DESCRIPTION: <i>(Provide site plans, maps, etc. as separate attachment(s))</i> This project for AT&T communications equipment to be relocated at the KSC Press Site. The project involves a 20' by 30' area as shown in the attached figure. The area shown is approximate, but must be accessible by vehicles. The site will be used to place exterior cabinets containing communications equipment to support press organizations at the press site with phone and other telecommunications support. A portable generator may also be placed on the site during launches. Also included as a space allocation requirement is a 5' by 9' area within the Cable Terminal Building (K7-1205B) for a equipment cabinet and desks for temporary personnel. Personnel will be located in this building only around time of Shuttle launches. This relocation is required as the existing equipment is located at the Press Site where the Press Stands were located. Public Affairs now requires that this area be cleared. There are no hazards associated with this activity.

3. ENVIRONMENTAL REQUIREMENTS

- a. Non-Permit Requirements YES NO
- b. Permit Requirements YES NO

3.b.1 GENERATORS: The temporary operation of a portable generator at the Press Site during launches is allowed and are not considered a stationary source of air emissions. This generator does not fall under the Title V permit and there are no further requirements.

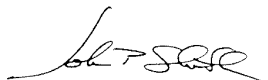

3.b.2. EXCAVATION PERMIT: An Excavation Permit will be required for any digging proposed by this project. Please contact Mission Support at 861-4453 for an underground utility scan.

No other environmental issues were identified based upon the information provided in the KSC Checklist. This Record of Environmental Consideration (REC) does not relinquish the project lead from obtaining and complying with any other internal NASA permits or directives necessary to ensure all organizations potentially impacted by this project are notified and concur with the proposed project.

Due to potential changes in regulations, permit requirements and environmental conditions, statements in this REC are valid for 6 months, and subject to review after this period. It is the responsibility of the project lead to notify the Environmental Management Branch (TA-B1C) if the scope of the project has changed since the original checklist was submitted.

cc: M. Busacca/TA-A3

- 4 Upon evaluation of the subject project, the above determinations have been made and identified. Contact the Environmental Program Office (TA-B1C) at 867-8448 for re-evaluation should there be any modifications to the scope of work.
