Evaluation Criteria

Question 1 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

I have no major concerns, bur rather a number of minor points and suggested changes. These are fully included in an annotated version of the chapter that I shall upload.

Question 2 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

Please see annotated document

Question 3 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

Not applicable to this chapter.

Question 4 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

Yes. See annotatated chapter for details.

Question 5 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

Yes.

Question 6 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

Yes. In several places, as noted in the annotated chapter, the exposition needs to be more balanced, but this is more in the nature of comparing current models rather than pleading for resources to overemphasize air quality.

Question 7 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

N/A

Question 8 : Please distinguish issues you consider to be of general/major concern(s) from other, less significant point(s).

See annotated chapter.
