NASA Headquarters
Export Control Compliance: Part of the NASA Mission

• “It is NASA policy to ensure that exports and transfers of commodities, technical data, or software to foreign persons are carried out in accordance with United States export control laws and regulations, and Administration and NASA policy.”

NPD 2190.1, Section 1.a. (May 24, 2001)

• “We want to maximize the benefits of our international efforts while ensuring that we comply with U.S. export control laws and regulations.’ This is the personal responsibility of each employee.”

NPR 2190.1, Section P.1. (April 10. 2003)
Key Export Control & Nonproliferation Principles

Proscribed Countries - 22 CFR 126.1

- If a country appears on the “proscribed country” list, it is (generally) U.S. policy to deny licenses, or other approvals, associated with exports and imports of defense articles and defense services, destined for or originating in that country.

- ITAR License Exemptions are trumped if a “foreign person” from any of these countries is involved; i.e., a license must be applied for.

NASA’s International Agreements

• NASA’s International Agreements – the basis for NASA foreign cooperative (or reimbursable) activity
  • Define the responsibilities of the parties, scope of the work to be performed, & the terms and conditions under which the cooperation will be effected

• All NASA International Agreements contain clauses on transfers of controlled goods & data

• NASA’s International Agreements do NOT trump export control laws & regulations

An International Agreement does not replace a contractor’s need for a Technical Assistance Agreement
