# An Afternoon with an Astronaut at Duke University

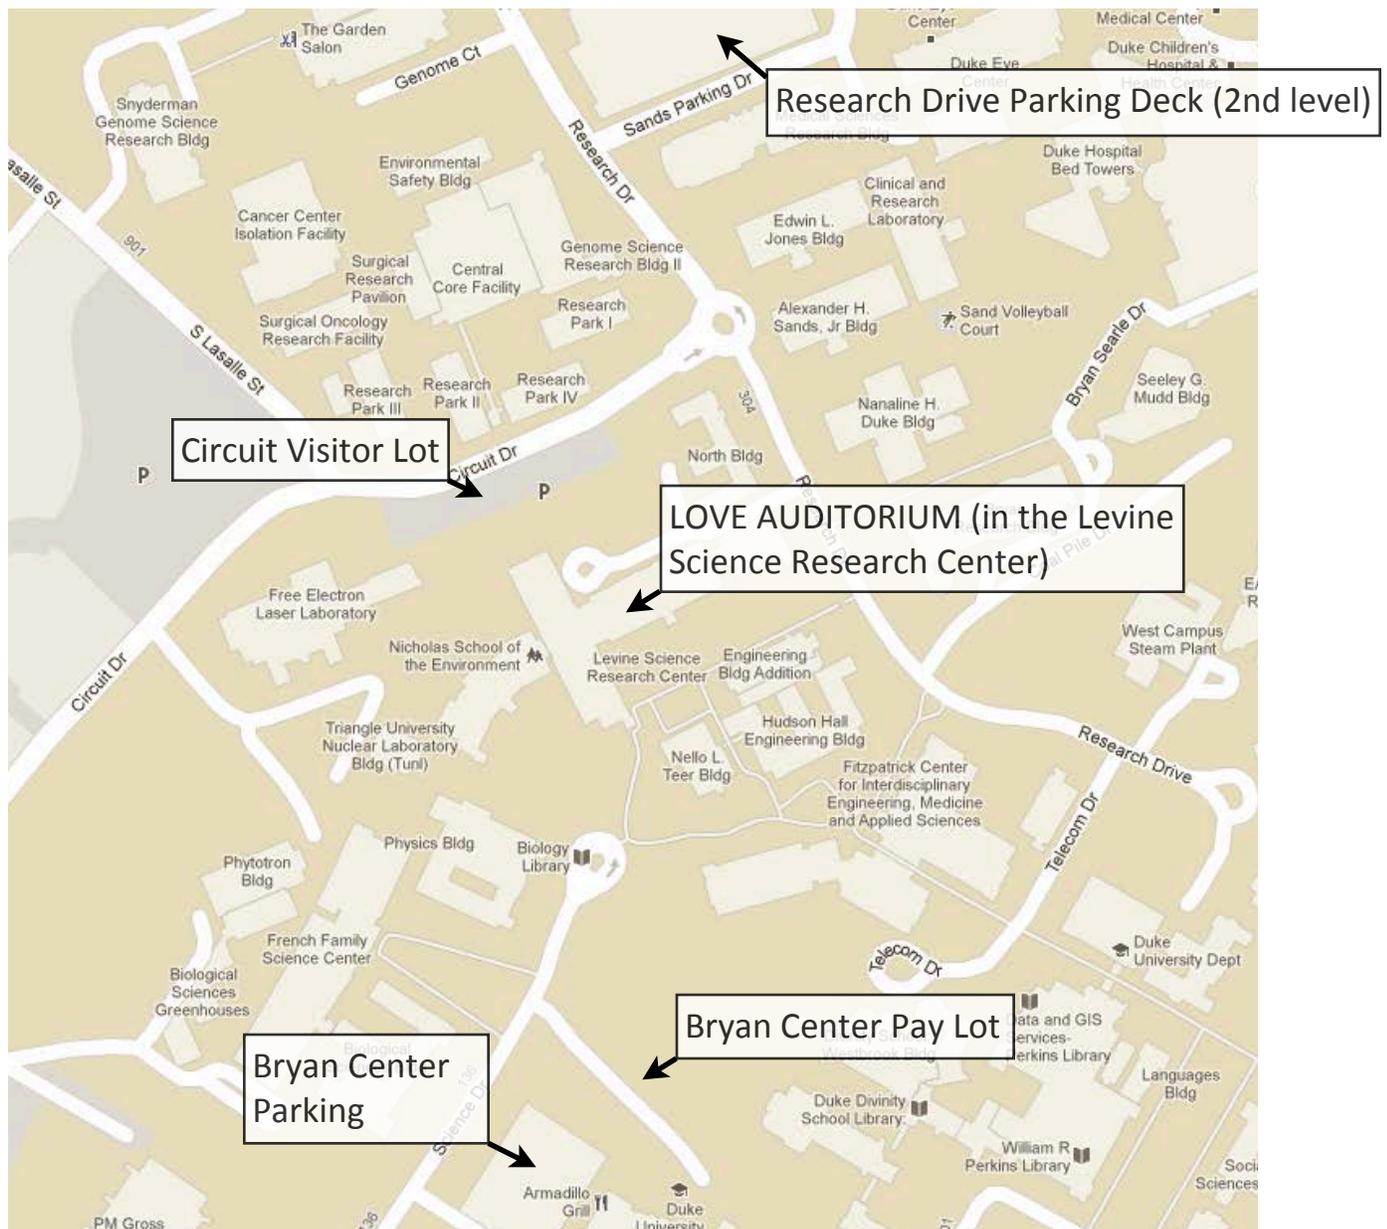

In partnership with NASA Johnson Space Center's Destination Station, Duke University's Office of Durham and Regional Affairs invites you to spend an afternoon with NASA Astronaut Bill McArthur and learn about his life aboard a space station. Astronaut Bill will take questions from the audience and be available for autographs. This family-friendly event is free and open to the public.

Destination Station is NASA's International Space Station Program national awareness campaign that promotes research opportunities and educates communities about activities performed on the International Space Station.

## DIRECTIONS & PARKING

Love Auditorium is located in the Levine Science Research Center on Duke University's West Campus, pictured on the map below. Also shown are nearby parking garages, all of which are open to visitors and cost \$2.00 per hour.

Visit <http://maps.duke.edu> and search for "Love Auditorium" to find these points online. To get directions, click on the "Get directions to this location" option and enter your starting location.
