

WANTED

FE-3 Launch Config

GMT 142 FE-3 Config

If found, restow on FE-3.

Identification:

Part Name: **Cassidy-Hair**

Part Number: **SEG123123123-301**

Serial Number: **HAIR**

Barcode: **None**

History:

FE-3 was launched with 0.75 inches of hair. Hair was last seen on **FE-3 zenith** on GMT 148/13 prior to 35S docking. Possible locations include **Cassidy Crew Pref CTB** or **Parmitano Crew Quarters**.

Rationale:

Hair is required to differentiate FE-3 and FE-5. Inability to locate hair may result in MCC-H confusion and inadvertent return of incorrect crew members of upcoming Soyuz flights.

Workaround:

- R&R Hair from FE-6 zenith.
- Assemble wig from kapton tape and bungees.
- Apply Seedling Growth seeds to FE-3 zenith and water once per day.
