CONTRACTOR 3rd PARTY WORK (C3PW) PROJECT PROPOSAL CHECKLIST

In accordance with terms and conditions set forth in Space Act Umbrella Agreement No. KCA-4762, dated November 30, 2023, for 80TECH23DA001 the Partner provides NASA KSC with the following information in support of proposed C3PW work:

A. Describe the unique Nature of KSC Resources (i.e., Government-owned facilities, property, labor and/or expertise) not available from Commercial Sources.

This C3PW activity enables ROAR JV the ability to utilize the eMITS unique capabilities to provide this service to ULA via a commercial to commercial contract.

The ROAR JV/eMITS employees that perform this work are highly skilled television directors, producers, and other required skill classifications required to deliver quality products. Additionally, eMITS personnel proximity to ULA facilities and personnel, unmatched by similar commercial service providers, promotes timely responsiveness and enables eMITS availability for regular interface with ULA and immediate response where required. eMITS personnel have an in-depth familiarization with KSC and CCSFS and have completed training unique to these locations and possess the badging required to access areas where the C3PW activities will be performed. No other commercial provider has these capabilities.

ROAR JV thus has the skills to work with KSC and CCSFS unique systems and mitigate risks to NASA's infrastructure, systems, and equipment.

Providing this service to ULA benefits both ROAR JV/eMITS and the Government by aligning with KSC's focus on the operations and use of a multiuser space launch complex.
