

field trip experience - 7th grade

www.nasa.gov

Cater your field trip experience by focusing on these NextGen standard-aligned exhibits and activities!

Seventh Grade:

Real Moon Rock (*MS-ESS1-4, MS-ESS2-2*): During the Apollo Missions, astronauts collected hundreds of pounds of samples from the Moon. Learn about the differences (and similarities) between Earth and Moon rocks!

Living and Working in Space (*MS-LS2-4, MS-LS1-5, MS-LS4-5*): The crew of the International Space Station perform a multitude of experiments, including those on plants and animals. Scientists want to know exactly how these organisms react to the harsh environment of space. Find out what they learned!

Take NASA into Your Classroom!

NASA Ames Research Center is now offering Field Trip in a Box activities, a resource for teachers to take standard-aligned activities into your classroom!
