

# A Space Weather Report

## Preparing Space Explorers for Bad Weather Throughout the Solar System

*Sponsored by the Science, Technology & Business Division and  
NASA Goddard Space Flight Center*

**Thursday, September 29th**

**11:30am - 12:30pm**

**The Pickford Theater**

3rd floor, Madison Building  
Library of Congress

**Dr. Alex Young**

Dr. Alex Young, Associate Director for Science in NASA Goddard's Heliophysics Science Division, explores the science of space weather. Space is far from empty, and sometimes, thanks to the Sun and stars, it can be downright nasty. In this talk, Dr. Young will discuss ways in which NASA is dealing with the challenges of the harshness of space, making sure that travelers can safely reach for the planets and beyond.
