Tyler N. Hague

(Col, U.S. Air Force) NASA Astronaut

Summary:

Tyler N. Hague was selected by NASA as an astronaut in 2013. The Kansas native earned a Bachelor of Science in Astronautical Engineering from the United States Air Force Academy in 1998, and a Master of Science in Aeronautical and Astronautical Engineering from the Massachusetts Institute of Technology in 2000. In 2009, Hague was selected for the Air Force Fellows program in Washington, D.C., and was a staff member in the United States Senate. Following his fellowship, he served in the Pentagon as a congressional appropriations liaison for United States Central Command. Selected as an astronaut by NASA in 2013, Hague completed astronaut candidate training in July 2015. He was selected for a mission to the International Space Station which launched on October 11, 2018. Unfortunately, he and his crewmate Alexey Ovchinin, of the Russian space agency Roscosmos, were forced to abort the mission when a rocket booster experienced a malfunction shortly after the launch of their Soyuz MS-10. The aborted spacecraft landed safely. Hague most recently served as Flight Engineer on the International Space Station for Expedition 59 and 60.

Personal Data:

Born in 1975 in Belleville, Kansas, but considers Hoxie, Kansas, his hometown. He is married to Lt. Col. Catie Hague, U.S. Air Force. They are the proud parents of two sons. Hague enjoys exercise, flying, snow skiing and scuba. His parents, Don and Bev Hague, reside in Gering, Nebraska. His wife's parents, Charlie Devlin and Clare Keenan reside in Ossining, New York.

Education:

Graduated from Hoxie High School, Hoxie, Kansas, in 1994. Earned a Bachelor of Science in Astronautical Engineering from the United States Air Force Academy in 1998. Earned a Master of Science in Aeronautical and Astronautical Engineering from the Massachusetts Institute of Technology in 2000.

Experience:

Hague was commissioned as a Second Lieutenant in the U.S. Air Force in May 1998. In August 2000, he was assigned to Kirtland Air Force Base, Albuquerque, New Mexico, where he worked on advanced spacecraft technologies. In 2003, he attended the flight test engineering course at the United States Air Force Test Pilot School, Edwards Air Force Base, California. Following graduation in 2004, he worked at the 416th Flight Test Squadron, testing F-16, F-15 and T-38 aircraft. In late 2004, he deployed for five months to Iraq in support of Operation Iraqi Freedom, conducting experimental airborne reconnaissance. In 2006, Hague joined the Department of Astronautics faculty at the United States Air Force Academy, Colorado, where he instructed courses in introductory astronautics, linear control system analysis and design and scuba. In 2009, Hague was selected for the Air Force Fellows program in Washington, D.C., where he was assigned as a member of the personal staff in the U.S. Senate, advising on matters of national defense and

foreign policy. Following his fellowship, he served in the Pentagon as a congressional appropriations liaison for United States Central Command. In 2012, Hague was assigned to the Joint Improvised Explosive Device Defeat Organization, Crystal City, Virginia, as the Deputy Division Chief for research and development, where he worked until he commenced astronaut training in 2013. Hague was promoted to Colonel in June 2016.

NASA Experience:

Hague was selected in June 2013, as one of eight members of the 21st NASA astronaut class. In August 2013, he began Astronaut Candidate Training, which included scientific and technical briefings, intensive instruction in International Space Station systems, spacewalks, Russian Language training, Robotics, physiological training, T-38 flight training and water and wilderness survival training. Hague completed astronaut candidate training in July 2015.

Hague was the first astronaut from his class to be assigned to a mission which launched on October 11, 2018. Unfortunately, he and his crewmate Alexey Ovchinin, of the Russian space agency Roscosmos, were forced to abort the mission when a rocket booster experienced a malfunction shortly after the launch of their Soyuz MS-10. The aborted spacecraft landed safely.

Expeditions 59 and 60 (March 2019 through October 2019) Hague launched from the Baikonur Cosmodrome in Kazakhstan to the International Space Station March 14, 2019. Together the international crew of Expeditions 59 and 60 conducted or participated in hundreds of experiments in biology, biotechnology, physical science and Earth science, including investigations into devices that mimic the structure and function of human organs, free-flying robots, and an instrument to measure Earth's distribution of carbon dioxide. Hague conducted three spacewalks during his mission, totaling 19 hours and 56 minutes with a total of 203 days in space.

Awards/Honors:

Distinguished Graduate, United States Air Force Academy; Distinguished Graduate and top flight test engineer in the United States Air Force Test Pilot School Class 03A; two Defense Meritorious Service Medals; Meritorious Service Medal; six Air Medals, two Aerial Achievement Medals; two Air Force Commendation Medals and the Air Force Combat Action Medal, as well as various other campaign and service awards.
