Welcome, Young Robotic Engineers

We hope you're excited to experience science and technology through hands on activities. Please use your map to help you navigate to the various **Education Stations** located throughout the event area. As you stop at each of the locations listed below be sure to get your passport stamped in the corresponding space on the right side of this page.

Visit all 5 and become a certified Robotics expert!

- **mine & build**
- **space dirt 101**
- **robot row**
- **say Cheese!**
- **failure is not an option**

Visit the Welcome Table before you exit with your stamped passport and receive one final stamp and collect your prize!

Thank you for joining us in the Fifth Annual Robotic Mining Competition. Please visit us again next year!
