Overview

Chris Zmijewski
Advisory Board Member, SPAR International
Vice President, Haag 3D Solutions
SPAR Point Group provides conferences and information updates on 3D measurement and imaging technologies.

Goal is to increase awareness and adoption of 3D technologies for increased accuracy; reduced risk and cost.
3D Measurement & Imaging Series

http://www.youtube.com/watch?v=fr5ZY4m_yzM
SPAR Conferences

- Business and technology considerations for End-to-end 3D measurement
- Newest 3D capture, process, visualization technologies explored for long, medium and short-range scanning projects
- Platform neutral event displaying all major hardware manufacturers and software platforms available in market
- Best practices shared by industry’s leading experts and thought leaders
- Explores key industry challenges such as optimal equipment selection, processing large data sets, visualization tools and outputs
- Viewed as cutting edge event for what’s new and what’s next in 3D data capture and imaging sector
SPAR Presenters Include…

- Joseph E. Chumbley, **Lockheed Martin**
- Roger Clarke, **US Airforce**
- Michael Diggs, **Newport News Energy**
- Jason Hall, **NASA**
- Michael Jones, **Google**
- Wayne Rodieck, **Anadarko Petroleum Corporation**
- Magnus Rönnäng, **Volvo Cars Group**
- Miao Wang, **Shell Int’l. Exploration and Production**
2014 Exhibitors

Premium Sponsors

AUTODESK, AVEVA, Bentley

esri, FARO, Leica Geosystems

Optech, RIEGL USA, Surphaser

TOPCON, Trimble, Zoller-Fröhlich
SPAR International | 2014

LiDAR Series
LiDAR Mapping Forums

- Leading technical conferences for LiDAR technology
- Aerial, Mobile, Bathymetric applications and systems including Airborne LiDAR, UAVs sensors and systems
- Platform neutral exhibit displaying all major LiDAR systems and software available in market
- Participants: Technologists, Academia, End users
- Includes applications for:
  - Corridor Mapping
  - Land Resource Management (Forestry, Agriculture, Cadastre)
  - Military & Defense
  - Coastal Zone Mapping & Underwater/Bathymetry
LiDAR Mapping Forum Presenters Include…

- Paul Basgall, National Geospatial Intelligence Agency
- Stan Burns, Utah Department of Transportation
- Andre Jalobeanu, Naval Postgraduate School / RSC
- Alvan Karlin, Southwest Florida Water Management
- John Kosovich, U.S. Geological Survey
- Brent Mitchell, USDA Forest Service
- Tanya Ramond, Systems Engineer, National Ecological Observatory Network (NEON)
2014 Exhibitors

Gold Exhibitors
2014 Exhibitors

Silver Exhibitors

- 3D Laser Mapping
- Applanix
- Applied Imagery
- Cardinal Systems
- DIELMQ
- DTS GIS
- DAS Digital Aerial Solutions
- Dynamic Aviation
- Eos Mapping
- Fugro
- I-Cubed Content Delivered
- IXBLUE
- KUCERA International Inc.
- LiDAR USA
- Merrick & Company
- Norpix
- Orbit Geospatial Technologies
- Overwatch Textom Sistemas
- PAR Government
- Pix4D
- Quantum Spatial
- SBG Systems
- Simactive
- SmartGeoMetrics
- SRI International
- Terrasolid
- Topcon
- Towill
- Velodyne LiDAR
- Viametris
- VR Geomatics Smart LiDAR
- SRW
- Wilson & Company
- Wire Services
- Woolpert
International LiDAR Mapping Forum 2014

Audience

**Attendance**
745 (2014)

81% US
7% Canada
5% Europe
7% Other

**Titles**
LIDAR Service Providers | LiDAR Specialists | Project Managers | Geospatial Managers | GIS Specialists | Engineering Managers | Survey Heads | Dimension Control Managers | Federal, State & Local Government Professionals | University Researchers

**Applications For:**
Civil Infrastructure | Land and Natural Assets Management | Utility Asset Management | Emergency Services & Disaster Response

Upcoming Conferences

- SPAR Europe & European LiDAR Mapping Forum  
  December 8 - 10, 2014 ~ Amsterdam, Netherlands

- International LiDAR Mapping Forum (ILMF)  
  February 23 - 25, 2015 ~ Denver, CO, USA

- SPAR Int’l Conference on End-to-End 3D  
  March 30 - April 2, 2015 ~ Houston, TX, USA
Online Information Sharing

SPAR Point Group also provides:

- SPARView – complimentary weekly newsletter
- SPARPointGroup.com – all-encompassing online source.
- SPAR Webinar Series – complimentary education

Get a free subscription at www.sparpointgroup.com!
SPAR Webinar Series

Complimentary 1-hour Webinars on 3D Applied

- Monthly Webinars on latest trends and case study overviews
- Next one: **Tuesday July 22, 2014, 1:00pm EST**
  - Topic: *3D Printing and 3D Scanning: From Digital Data Capture to Physical Object*
    - Sponsored by FARO
