

JSC Senior Design Project and or Intern Request Form

Project Title:	Live Video Stitching - Zoom Matching		
Project Description:	NASA/JSC desires a general purpose software based solution for stitching live video from multiple cameras together (achieving panoramic view) to allow the user maintain the stitched imagery effect while zooming in on an object of interest . This would enable using external cameras to survey surroundings or exterior of spacecraft and zoom on an area of interest while maintaining spatial awareness of the area of interest with the surroundings.
