

Annual Ethics Training for SGE

The Office of Government Ethics offers a web-based ethics training program for SGEs on their website at: http://education.oge.gov/training/module_files/ogesge_wbt_07/10.html. Although most SGEs receive live training from an attorney at a FACA meeting, this is what we use as a makeup for a new SGE or one who misses the live training session. There is a certificate at the end of the course that the SGE can email or mail to you to show he completed the course. The date of training completion needs to be entered into the person's record in the Ethics Program Tracking System.
