11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

1.) The purpose of this modification is to update section I. 15 Ombusdsman (NFS 1852.215-84) (Oct 2003) (Alt I) (Jun 2000) in its entirety.

From:

I.15 OMBUDSMAN (NFS 1852.215-84) (OCT 2003) (ALT I) (JUN 2000)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and contractors during the pre-award and post-award phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact the installation ombudsman, Melanie Saunders, Associate Director (Management), NASA, Lyndon B. Johnson Space Center, Mail code AC, 2101 NASA Parkway, Houston, TX 77058-3696, 281-483-0490 (phone), 281-483-2200 (fax), melanie.saunders-1@nasa.gov. Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the NASA ombudsman, the Director of the Contract Management Division, at 202-358-0445, facsimile 202-358-3083, e-mail james.a.balinskas@nasa.gov. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer or as specified elsewhere in this document.

(c) If this is a task or delivery order contract, the ombudsman shall review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures of the contract.

(End of clause)

To:

I.15 OMBUDSMAN (NFS 1852.215-84) (OCT 2003) (ALT I) (JUN 2000)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and contractors during the pre-award and post-award phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact

the installation ombudsman, Melanie Saunders, Associate Director (Management), NASA, Lyndon B. Johnson Space Center, Mail code AC, 2101 NASA Parkway, Houston, TX 77058-3696, 281-483-0490 (phone), 281-483-2200 (fax), melanie.saunders-1@nasa.gov. Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the NASA ombudsman, Diane S. Thompson, Contract Management Division, at 202-358-0514, facsimile 202-358-3083, e-mail diane.thompson@nasa.gov. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer or as specified elsewhere in this document.

(c) If this is a task or delivery order contract, the ombudsman shall review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures of the contract.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers (IS OR IS NOT) extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning one (1) copy of the amendment;
(b) By acknowledging receipt of this amendment on each copy of the offer submitted; or
(c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐ A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).

☑ C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
FAR 43.103(a); FAR 52.243-2 Changes - Cost Reimbursement

☐ D. OTHER *(Specify type of modification and authority)*

IMPORTANT: Contractor IS required to sign this document and return 3 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The purpose of this Modification is to update Sections B and J of the contract as a result of the negotiation of the Space Shuttle Program Manifest Revision STS-135 Proposal. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes. Increases are as follows: Base Cost [redacted] (b) (4) Additionally, this modification updates Sections B and J of the contract as a result of Task Order and Delivery Order modifications that affect Award Fee Period 5. Please see the following pages for further information.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER
Karen L. Beuchaw, Contracts Negotiator, Staff		Cynthia Maclean, Contracting Officer

		16C. DATE SIGNED 8/3/11

The purpose of this Modification is to update FDOC as a result of the negotiation of LM's FDOC Space Shuttle Program Manifest Revision STS-135 proposal dated April 08, 2011.

FDOC is hereby updated as follows (changes are in bold and italics):

1) Update Clause B.2, Supplies and Services to be Furnished, as follows:

B.2 SUPPLIES AND SERVICES TO BE FURNISHED
The contractor shall provide all resources (except as may be expressly stated in this contract as furnished by the Government) necessary to furnish supplies and services in accordance with the Statement of Work in Section C and specific task/delivery orders issued within the scope of the Statement of Work in Section C. The contractor shall perform phase-in period activities in accordance with the phase-in plan set forth in Section J, Attachment J-23.

BASE (45 months)				
Contract Line Item Number	**Supplies/Services**	**Estimated Cost**	**Award Fee**	**Total Estimated Cost & Award Fee**
001.0	Phase-In Period Work (Fixed Price)	(b) (4)		
002.0	***Baseline Requirements work***			
003.0	Indefinite Delivery-Indefinite Quantity work			
004.0	**Level-of-Effort work**

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

1) Clause B.4, CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

(a) For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through January 16, 2012.

(b) An additional amount of (b) (4) s obligated under this contract for payment of fee.

(End of clause)

	PREVIOUS	Obligation	NEW
Cost	(b) (4)		
Fee			
Total	$535,030,279.77	$9,876,405.60	$544,906,685.37

2) Update Clause B.3, Estimated Cost and Award Fee, as follows:

a) The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is (b) (4) Total maximum estimated cost and maximum award fee are ***$714,618,623***.

b) The estimated cost and award fee for this contract is broken out as follows:

Contract Line Item Number	Supplies/Services	Estimated Cost *	Maximum Award Fee	Total
001	Phase-In Period Work (Fixed Price)	(b) (4)		
002	Baseline Requirements work			
003	***Indefinite Delivery-Indefinite Quantity Orders Issued*** **			
004	Level-of-Effort Orders Issued **			
005	Level-of-Effort Flex Options ***			
	TOTAL	(b) (4)		***$714,618,623***

3) Update Attachment J-3, Award Fee Plan, Appendix 3, with Page 4 of this Modification

4) Update **H.5 KEY PERSONNEL AND FACILITIES (NFS 1852.235-71) (MAR 1989)** as follows:

H.5 KEY PERSONNEL AND FACILITIES (NFS 1852.235-71) (MAR 1989)

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

CODE 3VRH3 / FACILITY CODE	☒	10B. DATED *(SEE ITEM 13)* 11/7/08

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers (IS OR IS NOT) extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning one (1) copy of the amendment;
(b) By acknowledging receipt of this amendment on each copy of the offer submitted; or
(c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

10B. DATED *(SEE ITEM 13)* 11/07/2008

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*
See Schedule

Net Decrease: -$148,925.89

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

FDOC is hereby updated (Changes are in bold and italics):

1) Update Clause H.5, Key Personnel and Facilities, as follows

H.5 KEY PERSONNEL AND FACILITIES (NFS 1852.235-71) (MAR 1989)

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

NAME	TITLE
Laurie Labra	**Program Manager**
Brian Flannery	**Deputy Program Manager**
(b) (4)	Chief Engineer
	Business Operations Manager
	Systems Engineering Manager
	Project Management Office Manager

No key facilities identified.

(End of clause)

2) Update Clause B.3, Estimated Cost and Award Fee, as follows:

a) The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is $ (b) (4) Total maximum estimated cost and maximum award fee are ***$767,038,392.***

b) The estimated cost and award fee for this contract is broken out as follows:

Contract Line Item Number	Supplies/Services	Estimated Cost *	Maximum Award Fee	Total
001	Phase-In Period Work (Fixed Price)	(b) (4)		
002	Baseline Requirements work			
003	Indefinite Delivery-Indefinite Quantity Orders Issued **			
004	Level-of-Effort Orders Issued **			
005	Level-of-Effort Flex Options ***			
	TOTAL	(b) (4)		*$767,038,392*

3) Update Attachment J-3, Award Fee Plan, Appendix 3, with Page 4 of this Modification

4.) Update Attachment J-16 Data Requirements List (DRL) to reflect a change in DRD-0060 Systems Requirements Operations Concept that modifies the remarks to No Further Submission Required. Attachment J-16, page J-16.17 is replaced in its entirety with page 5 of this modification.

5.) Update Attachment J-16 Data Requirements List (DRL) to reflect a change in DRD-0063 Operations Strategic Plan for Multi-Facility Cost Reduction that modifies the remarks to No Further Submission Required. Attachment J-16, page J-16.18 is replaced in its entirety with page 6 of this modification.

6.) Update Attachment J-17 Data Requirements Descriptions (DRD) Sheets to reflect a change in DRD-0060 Systems Requirements Operations Concept that modifies section f. Submission to reflect No Further Submission Required. Attachment J-17, pages J.17.105 and J.17.106 are replaced with page 7 of this modification.

7.) Update Attachment J-17 Data Requirements Descriptions (DRD) Sheets to reflect a change in DRD-0063 Operations Strategic Plan for Multi-Facility Cost Reduction that modifies section f. Submission to reflect No Further Submission Required. Attachment J-17, page J.17.109 is replaced in its entirety with page 9 of this modification.

JSC Form 2323 (Rev May 1, 1991) (MS Word August 1995)

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
System Requirements Operations Concept	5/9/2008	DRD-FDOC-0060	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

This document defines the operational concept that is the basis for the system requirements. It describes the way in which the system will appear to its users, and the ways in which the users will interact with the system. The Ops Concept shall also describe a method for the Contractor to interact with NASA and the user communities to ensure correct implementation of SRs and corrections for ARs to ensure customer satisfaction.

Applicability:

- Integrated Planning System (IPS)
- Constellation Training Facility (CxTF)
- Mission Operations Reconfiguration System (MORS)

5. DRD Category: *(check one)*

- [X] Technical
- [ ] Administrative
- [ ] SR&QA

6. References *(Optional)*

a. Integrated Planning System (IPS)

i. MSOC-DRD-0074, Integrated Planning System (IPS) Operations Concept
ii. JSC-13565, Integrated Planning System Level A Requirements

b. Constellation Training Facility (CxTF)

i. JSC-63664, Constellation Training Facility (CxTF) Operational Concept Document (OCD)
ii. JSC-63640, Constellation Training Facility (CxTF) Level A Requirements

c. Mission Operations Reconfiguration System (MORS)

ii. JSC-63823, Mission Operations Reconfiguration System (MORS) Level A Requirements

7. Interrelationships *(e.g., with other DRDs) (Optional)*

SOW 3.2.2.4

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: To identify and document the operations concept used as a basis for system requirements, to describe user interface/interaction and Contractor interface to the user community.

c. Content: This document shall contain, as a minimum:

i. A definition of each user group and scenarios that are applied to operate, maintain, and support the software in an operational environment,
ii. A summary of the user needs for the system in terms of the primary use, secondary use, and the environment in which the user operates,
iii. A description of the system operational capability in terms of system functions, functional relationships, and operations table (user actions and responses to system functions for each operations mode),
iv. A set of scenarios depicting operational flow from a functional perspective,
v. A set of scenarios depicting operational flow from a data/information flow perspective,
vi. Where appropriate, high-level scenarios will be supported by more detailed scenarios addressing processing/data flow at a lower level,

vii. A set of scenarios depicting the operational flow for change requests (SRs or ARs) that demonstrate closed-loop interactions with the user community.

d. Format: Contractor provided format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due 120 calendar days following contract start.
ii. Final – Due 150 calendar days following contract start..
iii. Approval – Due 30 calendar days following submittal.
iv. Frequency – As required. **No Further Submissions Required**
v. Delivery to – DD, DO, DM representatives.

g. Maintenance: The Operations Concept shall be reviewed on an annual basis, as appropriate, and revised as necessary.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Operations Strategic Plan for Multi-Facility Cost Reduction	5/9/2008	DRD-FDOC-0063	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

This document describes the overall operations strategic plan that serves as the foundation for reducing costs in FDOC. The document shall detail the intended multi-facility functional architecture and operations concept that safely fulfills all items in the SOW. The plan shall illustrate how the intended functional architecture helps to meet MOD's cost goals.

Applicability: All facilities covered by the FDOC SOW.

5. DRD Category: *(check one)*

- [X] Technical
- [ ] Administrative
- [ ] SR&QA

6. References *(Optional)*

None.

7. Interrelationships *(e.g., with other DRDs) (Optional)*

SOW 3.1.4

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: To identify and document an operations strategic plan that embodies MOD's cost reducing goals. This information shall document a comprehensive and cohesive roadmap for the length of the contract.

c. Content: This document shall contain, as a minimum:

i. The overall strategic plan that aligns with MOD's cost reduction goals for 2012,
ii. Management style and lines of authority,
iii. Technology synergism and innovation as it pertains to streamlining operations,
iv. Systems engineering,
v. Employee skill sets and deployment,
vi. Functional architecture.

d. Format: Contractor-provided format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – May 1, 2009.
ii. Final – At contract end.
iii. Approval – Submission + 30 calendar days.
iv. Frequency – **No Further Submissions Required**

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $3.71 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than $27.63 (or on a salary or fee basis at a rate not less than $455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds $27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:
(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at http://www.dol.gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE
{Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the

authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

(x) 9A. AMENDMENT OF SOLICITATION NO.

9B. DATED (SEE ITEM 11)

x 10A. MODIFICATION OF CONTRACT/ORDER NO. NNJ09HD46C

10B. DATED (SEE ITEM 13) 11/07/2008

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Schedule

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	
	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
X	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to update B.3 Estimated Cost and Award Fee and Attachement J-3 Award Fee Plan, Appendix 3 to recognize DO25-13R1 and TO5-13R1. Additionally this modification incorporates the clause 52.232-99 Providing Accelerated Payment to Small Business Subcontractors (AUG 2012) (Deviation). Please see page 2 for additional information.

Payment Terms:
Net 30 days

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)
Karen L. Beuchaw / Contract Neg SH	Cynthia Maclean

15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
Karen L Beuchaw	12/5/12	Cynthia Maclean	12/5/12
(Signature of person authorized to sign)		(Signature of Contracting Officer)	

FDOC is hereby updated (Changes are in bold and italics):

1) Update Clause B.3, Estimated Cost and Award Fee, as follows:

a) The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is (b) (4) Total maximum estimated cost and maximum award fee are ***$823,189,590.***

b) The estimated cost and award fee for this contract is broken out as follows:

Contract Line Item Number	Supplies/Services	Estimated Cost *	Maximum Award Fee	Total
001	Phase-In Period Work (Fixed Price)	(b) (4)		
002	Baseline Requirements work			
003	Indefinite Delivery-Indefinite Quantity Orders Issued **			
004	Level-of-Effort Orders Issued **			
005	Level-of-Effort Flex Options ***			
	TOTAL	(b) (4)		***$823,189,590***

2) Update Attachment J-3, Award Fee Plan, Appendix 3, with Page 4 of this Modification

3.) Incorporate 52.232-99 Providing Accelerated Payment to Small Business Subcontractors (Aug 2012) (Deviation) in full text.

I.22 52.232-99 PROVIDING ACCELERATED PAYMENT TO SMALL BUSINESS SUBCONTRACTORS (AUG 2012) (DEVIATION)

This clause implements the temporary policy provided by OMB Policy Memorandum M-12-16, Providing Prompt Payment to Small Business Subcontractors, dated July 11, 2012.

(a) Upon receipt of accelerated payments from the Government, the contractor is required to make accelerated payments to small business subcontractors to the maximum extent practicable after receipt of a proper invoice and all proper documentation from the small business subcontractor.

(b) Include the substance of this clause, including this paragraph (b), in all subcontracts with small business concerns.

(c) The acceleration of payments under this clause does not provide any new rights under the Prompt Payment Act.

(End of Clause)

4.) The purpose of this modification is to update Attachment J-17 Data Requirements Descriptions (DRD) to reflect a change in DRD-0012. Page J-17.15 and J-17.16 are replaced in their entirety with page 5 of this modification.

5.) The purpose of this modification is to update Attachment J-17 Data Requirements Descriptions (DRD) Sheets to reflect a change in DRD-0025. Page J-17.58-J-17.60 are replaced in their entirety with page 7 of this modification.

5.) The purpose of this modification is to update Attachment J-17 Data Requirements Descriptions (DRD) Sheets to reflect a change in DRD-0026. Page J-17.61-J-17.62 are replaced in their entirety with page 10 of this modification.

Evaluation Period	Estimated Baseline Award Fee Available	Estimated IDIQ Award Fee Available	Estimated LOE Award Fee Available	Total Estimated Award Fee Available	Score	Earned Award fee
BASIC CONTRACT (If Options 1 & 2 are not exercised):						
Period 1: January 1, 2009 – September 30, 2009	(b) (4)				97	(b) (4)
Period 2: October 1, 2009 – March 31, 2010					96	
Period 3: April 1, 2010 – September 30, 2010					98	
Period 4: October 1, 2010 – March 31, 2011					99	
Period 5: April 1, 2011 – September 30, 2011					99	
Period 6: October 1, 2011 – March 31, 2012					99	
Period 7: April 1, 2012 – September 30, 2012					TBD	
Total Available Award Fee - Basic Contract					$0	
OPTION 1 Exercised:						
Period 8: October 1, 2012 – March 31, 2013					TBD	$TBD
Period 9: April 1, 2013 – September 30, 2013					TBD	$TBD
Total Available Award Fee - Option 1					TBD	$TBD
Total Award Fee - Base & Option 1					TBD	$TBD
If OPTION 2 is exercised the evaluation periods will be as follows:

Period 11: April 1, 2014 – September 30, 2014		$TBD	$TBD	$TBD	TBD	$TBD
Total Available Award Fee - Option 2		$TBD	$TBD	$TBD	TBD	$TBD
Total Available Award Fee - Base, Option 1 & 2		$TBD	$TBD	$TBD	TBD	$TBD

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Status Reports and Reviews	5/9/2008	DRD-FDOC-0012	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide information necessary for NASA's insight function.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*
JSC-63756, Mission Operations Directorate Software Management Plan	SOW 2.1, 2.14.3, and 3.1.9

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: This DRD establishes the activity reporting for the Contractor's progress and accomplishments as well as performance and utilization of facilities/systems.

c. Content:

i. Status Reports and Reviews shall include quantitative descriptions of overall technical and administrative progress, and status, of significant activities relating to the accomplishments of the contractual objectives. Risks to the accomplishment of contractual objectives shall also be identified. The report shall also include performance and utilization data for major facilities and systems.

ii. Activity Report items covered shall included significant accomplishments, high level run reports for simulations, tests, problems encountered, quality assurance results, corrective actions, as well as significant facility problems or mishaps.

iii. Metrics Report items shall be in accordance with DRD-FDOC-0006, Earned Value Measurement (EVM) Plan and Reports and DRD-FDOC-0007, Technical Metrics Plan and Reports. All reports shall be of sufficient depth and clarity to permit understanding and evaluation of progress made. Supporting data in the form of charts, graphs, etc. may be included as appropriate.

iv. Program Manager Status Review (PMSR) – A monthly review to document accomplishments; changes in plans; problems being worked and proposed solutions consistent with the requirements of DRD-FDOC-0006. The discussion of plans, progress and problems shall include variance analysis and reporting cause, impact and corrective action. Technical issues shall be covered in terms of performance goals (metrics), exit criteria, schedule progress and/or cost impact. The review shall include current status, year-end estimate and cover upcoming major events.

v. Surveillance Report should include the following information – description of the surveillance methodology for internal and supplier surveillance; internal and supplier surveillance performed in the evaluation period; internal and supplier surveillance findings; internal and supplier corrective action request issued; and plans for improvement.

vi. Status Reports shall include, but not be limited to:

1. Daily Reports:

   a. Facility Status Report,
   b. MOD Facility Status Teleconference.

2. Weekly or As Required Reports:

   a. Weekly Activity Report,
   b. Facility Control Boards (CB),
   c. User Application Control Boards,
   d. Equipment Replacement Working Group (ERWG),
   e. MOD Flight Operations and Integration Group (FOIG),
   f. Operational Readiness Test (ORT) working group meeting,
   g. Test and Operations Board (T&O),
   h. MOD Integrated Scheduling meeting,

i. MOD Product Integration Board (MPIB),
j. MOD Subsystem User and status meetings,
k. Delivery Schedules,
l. Work plan.

3. Monthly Reports:

a. Project Integration meetings ,
b. Program Manager Status Review (PMSR),
c. Progress Report,
d. Delivery Schedules Report,
e. Work Plan Report,
f. DRD Status Report,
g. Technical Cost and Schedule Reviews (TCSR),
h. Security reports,
i. QA reports.

j. SQA Monthly Report (IAW NASA-STD-8739.8, Sec 6.7)

k. Surveillance Report

4. Quarterly Reports:

a. Process Integrity Metrics Review (PIMR).

5. Reports due with special frequency:

a. DD and Contractor management status meeting – Twice a month.
b. MOD Flight Readiness Review (FRR) – Per flight and increment.

6. Reviews and Meetings

a. Monthly:

i. Program Manager Review – Monthly.
ii. Program Manager Status Review – Monthly.

b. As required:

i. Operating Plan Review.
ii. PPBE Review.

d. Format: To be determined by mutual agreement with the COTR.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due at the end of the first reporting period after contract award.
ii. Final – Due at the end of the final reporting period.
iii. Approval – N/A.
iv. Frequency – Due on the last day of the applicable period for Status Reports covering periods of time less than or equal to one week. Due 10 calendar days following close of the applicable period for all Status Reports covering periods of time greater than one week.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

SOW 2.11

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1 – Plan, 2 – Training Report

b. Scope: A contract specific Quality Plan shall be prepared which identifies activities performed both on-site and off-site of JSC to ensure the quality products and services. The Quality Plan is to be submitted with the Contractor's proposal. The plan shall be approved by the Contracting Officer concurrent with contract award.

c. Content:

i. The quality plan shall address each element of ANSI/ISO/ASQ Q9001-2000, Quality Management Systems Requirements and the additional requirements identified below:

1. Identify the methods, procedures, and controls that shall be used to ensure the quality, quantity, and timeliness of the required contract requirements.
2. Explain how training shall be provided to personnel responsible for quality assurance, quality engineering, and software quality assurance on-site at JSC, including JSC processes for Discrepancy Reporting and Tracking, Work Authorization Documents (Task Performance Sheets) and Flight Equipment Pre-Shipment Readiness Review.
3. Explain in detail how in-line quality assurance (Quality Assurance, Quality Engineering, and Software Quality Assurance) shall be performed on-site at JSC. Include discussion of specific allocation of responsibilities, authority and resources.

4. Describe how controlled work instructions shall be provided to all applicable employees, on and off-site JSC.
5. Explain how timely review of technical documents that affect quality and changes thereto shall be performed.
6. Describe participation including responsibilities/activities in design reviews.
7. Explain how quality aspects are ensured and fully included in all designs and are continuously maintained in the fabricated articles and during operations.
8. Explain and ensure how quality requirements are implemented and satisfied throughout all phases of contract performance, including preliminary and engineering design, development, subcontracting, fabrication, processing, assembly, inspection, test, checkout, packaging, shipping, storage, maintenance, field use, flight preparations, flight operations, and post-flight analysis, as applicable, on and off-site JSC.
9. Explain how to ensure, monitor, measure, and control the quality of products produced by the contractor and subcontractors. Explain how the Contractor shall ensure that products, which do not conform to product requirements, are identified and controlled to prevent their unintended use or delivery.
10. Describe the methodology for inspection and test planning (economical and effective use of personnel, facilities and equipment) for both off and on-site.
11. Describe the methodology/criteria for assigning itinerate or resident quality assurance personnel at subcontractor or supplier facilities.
12. Explain how the monitoring and measuring, and cross-utilization of personnel will be performed to assure that contract products and services shall not be negatively affected.
13. Describe the Contractor's techniques, procedures, and mechanisms to ensure quality output despite schedule and/or priority pressures.
14. Provide and explain the schedule, including milestones, outlining the Contractor's plan on accomplishing ANSI/ISO/ASQ Q 9001-2000 compliance within one year of the contract award date.
15. Explain how inspection or other activities necessary for ensuring that purchased product meets specified purchase requirements shall be established.
16. Explain how to verify that all personnel performing work affecting product quality are competent as a result of appropriate education, training, skills, and experience. In addition explain the system that shall be used to monitor and maintain this level of personnel competency required during the duration of the contract.
17. Describe the responsibilities and requirements for planning and conducting audits (internal and external), and for reporting results and maintaining records.
18. Explain the process of involvement in waivers and deviations when quality assurance is affected.
19. Explain the methods for measuring the achievement of the Contractor's quality objectives.

ii. The Contractor shall deliver a Training Report. The report shall include the following information:

1. Certification/Qualification Training Report:

   a. Listing of all processes/tasks/positions that require certification or qualification and the requirements for getting that certification or qualification.
   b. Departments, organizations, or positions participating in training, certification, or qualification.
   c. Type of training (online, classroom).
   d. Number of employees trained, qualified, or certified.
   e. Number of employees left to be trained, qualified, or certified.

d. Format: The Quality Plan format shall match the elements of the ANSI/ISO/ASQ Q 9001-2000.

e. Standards for Electrical and Electronic Equipment and Parts: The Contractor shall comply with the following standards in the design, manufacture, and maintenance of electrical and electronic equipment or applications under FDOC:

i. Soldering, Through-Hole Technology: use NASA-STD-8739.3, Soldered Electrical Connections
ii. Soldering, Surface Mount Technology: use NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology

iii. Crimping, Cable, and Harness: use NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses and Wiring
iv. Conformal Coating and Staking: use NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies
v. Fiber Optics: use NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation,
vi. Electrostatic Discharge Control (ESD): use ANSI/ESD S20.20-2007, ESD Association Standard for the Development of an Electrostatic Discharge Control Program for Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices), and JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies
vii. Rigid Printed Wiring Board (PWB) Design: use ANSI/IPC-2221, Generic Standard on Printed Board Design; and ANSI/IPC-2222, Sectional Design Standard for Rigid Organic Printed Boards
viii. Rigid Printed Wiring Board (PWB): use ANSI/IPC-6011, Generic Performance Specification for Printed Boards; ANSI/IPC-6012, Qualification and Performance Specification for Printed Boards; IPC-6011, Generic Performance Specification for Printed Boards; and IPC-6012, Qualification and Performance Specification for Rigid Printed Boards
ix. Solderless Wire-wrapped Electrical Connections: use MIL-STD-1130B, Connections, Electrical, Solderless Wrapped

f. Distribution: Per Contracting Officer's letter.

g. Submission:

i. Initial – Due with proposal.
ii. Final – Start of contract + 30 calendar days.
iii. Approval – Start of contract + 90 calendar days.
iv. Frequency – Quality Cost Data, as required; Surveillance Report, within 10 calendar days following the end of each quarter (i.e. April 10, July 10, etc.); Training Reports, no later than January 15 of each calendar year.

h. Maintenance: Revisions shall be incorporated by change page or complete reissue.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Plan – 1

b. Scope: Software Assurance includes Quality Assurance, Quality Engineering, Verification and Validation, Non-conformance Reporting and Corrective Action, Safety Assurance, Software Reliability, and Security Assurance. Software Assurance activities are conducted during the software development life cycle. The phases of the software development life cycle are:

i. Concept and Initiation Phase,
ii. Requirements Phase,
iii. Design Phase,
iv. Implementation Phase,
v. Integration and Test Phase,
vi. Acceptance and Delivery Phase,
vii. Operations Phase,
viii. Transition to Sustaining Phase,
ix. Maintenance Phase.

Software Quality Assurance applies to all software developed for NASA, including deliverable software, software included as part of deliverable hardware (including firmware), non-deliverable software (commercially available or user-developed) used for development, fabrication, manufacturing process control, testing, or acceptance of deliverable software or hardware (test and acceptance software; software design, test, and analysis tools; compilers; etc.), and commercially available (COTS), reused, or government-furnished software (GFS).

c. Content: The Contractor shall provide a Software Assurance Plan in accordance with IEEE 730-2002 Standard for Software Quality Assurance Plans. The Software Assurance Plan shall identify the software assurance approval authority responsible for the establishment and composition of all software baselines and any changes to the baseline per NASA-STD-8739.8, Sec.6.3.2.1. Format: Hardcopy and electronic document, JSC web accessible.

d. Distribution: Per Contracting Officer's letter.

e. Submission:

i. Initial – Due with proposal.
ii. Final – Start of contract + 45 calendar days.

iii. Approval – Start of contract + 90 calendar days.
iv. Frequency – Review as required, annually at a minimum.

f. Maintenance: Revisions shall be incorporated by change page or complete reissue.

FAR (48 CFR) 53.243

1. This change is estimated at $0. Pursuant to Section H. 10, Special Provisions for Contract Changes, this action is less than $500,000. Therefore, no equitable adjustment is required.

2. This modification is agreed to be a complete and equitable adjustment for the additional requirements contained in this modification. The contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments.

3. All work performed under the following Statement of Work (SOW) is hereby deleted from Section C and is effective April 1, 2013:

2.17 Building Floor Space Management

The Contractor shall provide support for the management of assigned building floor space to accommodate contractor, NASA, other Government agencies, and non-government tenants. The Contractor shall provide planning, development, and integration of facility projects including coordination with the Center Operations Directorate (COD), IRD, and NASA facility management.

1852.225-74 Notification Prior to Acquiring Information Technology Systems from Entities Owned, Directed or Subsidized by the People's Republic of China (JUN 2013) (Deviation)

(a) Definitions –

"Acquire" means procure with appropriated funds by and for the use of NASA through purchase or lease.

"Entity owned, directed or subsidized by the People's Republic of China" means any organization incorporated under the laws of the People's Republic of China.
"Information Technology (IT) System" means the combination of hardware components, software, and other equipment to make a system whose core purpose is to accomplish a data processing need such as the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission or reception of data. IT systems include ground systems in support of flight hardware. IT systems do not include—

(i) Systems acquired by a contractor incidental to a contract;
(ii) Imbedded information technology that is used as an integral part of the product, but the principal function of which is not the acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. For example, HVAC (heating, ventilation, and air conditioning) equipment such as thermostats or temperature control devices, and medical equipment where information technology is integral to its operation, are not information technology systems;
(iii) Services in support of IT systems, such as help desk services; or
(iv) Flight hardware, which includes aircraft, spacecraft, artificial satellites, launch vehicles, balloon systems, sounding rockets, on-board instrument and technology demonstration systems, and equipment operated on the International Space Station; as well as prototypes, and engineering or brass boards created and used to test, troubleshoot, and refine air- and spacecraft hardware, software and procedures.

(b) Section 516 of the Consolidated and Further Continuing Appropriation Act, 2013 (Pub. L.113-6), requires NASA's Office of the Chief Information Officer (OCIO) to assess the risk of cyber-espionage or sabotage of an information technology (IT) system that is produced, manufactured, or assembled by an entity owned, directed or subsidized by the People's Republic of China (PRC). The Government retains the right to reject any IT system tendered for acceptance under this Contract, without any further recourse by, or explanation to, the Contractor, if the Government determines the IT system, in whole or in part, presents an unacceptable risk to national security.

(c) The Contractor shall obtain the approval of the Contracting Officer before acquiring any IT system(s) from entities owned, directed or subsidized by the People's Republic of China under this contract. Any Contractor request to use such items shall include adequate information for Government evaluation of the request, including—

(1) A brief description of the item(s); and

(2) Vendor/manufacturer's company name and address;

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of this modification is to revise contract funding by --

	Purchase Request #	Amount
Obligating Incremental Funding	4200487436	$135,500.00
Subtotal		**$135,500.00**
De-obligating Funds	4200462744	($105,254.51)
	4200468127	($40,000.00)
	4200481544	($3,000,000.00)
Subtotal		***($3,145,254.51)***
Total		***($3,009,754.51)***

As a result of this action, contract funding is hereby changed as follows:

I. The Funding Recapitulation is updated as depicted in the chart below:

NNJ09HA15C	Prior Cumulative Obligations (Mod 141)	Obligated This Action (Mod 142)	Revised Cumulative Obligations
Cost	[redacted]	(b) (4)	[redacted]
Fee	[redacted]	[redacted]	[redacted]
Total	**$821,901,602.73**	**($3,009,754.51)**	**$818,891,848.22**

1) Clause B.4, CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

(a) For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **October 21, 2013**.

(b) An additional amount of (b) (4) is obligated under this contract for payment of fee.

The purpose of modification 143 is to:

1. Update Section B, clause B.4, Page B-4
   Revise Contract Funding by:

	Purchase Request #	Amount
Obligating Incremental Funding	4200491241	$11,625,521.00
Subtotal		**$11,625,521.00**
De-Obligating Funds	4200443043	($23,915)
De-Obligating Funds	4200440935	($66,085)
Subtotal		**($90,000)**
Total		**$11,535,521.00**

As a result of this action, contract funding is hereby changed as follows:

A.

	Prior Cumulative Obligations (Mod 142)	Obligated this Action (Mod 143)	Revised Cumulative Obligation
Cost	(b) (4)		
Fee			
Total	$818,891,848.22	$11,535,521.00	$830,427,369.22

B. Clause B.4, CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

   a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **November 29, 2013.**

   b. An additional amount of (b) (4) is obligated under this contract for payment of fee.

(End of Clause)

2. Update Section C, Page 16, Paragraph 04

FROM

"The Contractor shall use RITF training services for hand soldering, electrostatic discharge, and other special processes for personnel certification."

TO

"The Contractor shall use the RITF training services for initial wire wrap certification."

3. Update Attachment J-2 Applicable Documents, JPR (JSC Policy Requirement), page J-2:5. Remove JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies.

4. Update Attachment J-2 Applicable Documents, NASA Standards, page J-2:9. Remove the following:
   A. NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies.
   B. NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology.
   C. NASA-STD-8739.3, Soldered Electrical Connections.
   D. NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses, and Wiring.
   E. NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation.

5. Update Attachment J-2 Applicable Documents, Work Instructions, page J-2:1. Add the following:
   A. DD-UWI-0013 – MODF Contractor Solder Document
   B. DD-UWI-0014 – MODF Contractor Fiber Optic Termination Document
   C. DD-UWI-0015 – MODF Contractor Cable Assembly

6. Update Attachment J-16 Data Requirements List. The following DRDs are no longer required.
   A. Page J-16.11, Line Item No. 0036 Space Shuttle Retirement Plan.
   B. Page J-16.13, Line Item No. 0041 Integrated Planning System (IPS) Facility Operations Procedures.
   C. Page J-16.18, Line Item No. 0064 Software Production Facility User's Guide.

7. Update Attachment J-17 DRD-0025.
   A. Remove the following sections from section 6:
      a. 6-d, NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology.

b. 6-f, NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies.
c. 6-o, JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies.

B. Replace the following sections in section 6:

a. 6-c

FROM

NASA-STD-8739.3, Soldered Electrical Connections

TO

DD-UWI-0013 – MODF Contractor Solder Document.

b. 6-e

FROM

NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses, and Wiring

TO

DD-UWI-0015 – MODF Contractor Cable Assembly

c. 6-g

FROM

NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation

TO

DD-UWI-0014 – MODF Contractor Fiber Optic Termination Document

C. Remove the following sections from section 8-e:

a. ii. Soldering, Surface Mount Technology: use NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology.
b. iv. Conformal Coating and Staking: use NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies.
c. vi. Electrostatic Discharge Control: use ANSI/ESD S20.20-2007… JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies.

D. Replace the following sections in section 8-e:

a. i

FROM

NASA-STD-8739.3, Soldered Electrical Connections

TO

DD-UWI-0013 – MODF Contractor Solder Document.

b. iii.

FROM

NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses, and Wiring

TO

DD-UWI-0015 – MODF Contractor Cable Assembly

c. v.

FROM

NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation

TO

DD-UWI-0014 – MODF Contractor Fiber Optic Termination Document

Replacement pages for the aforementioned changes are attached.

Should a notice of violation, non-compliance, deficiency, or similar regulatory agency notice be issued to NASA as a facility owner/operator on account of the actions or inactions of the Contractor or one of its subcontractors in the performance of work under this contract, the Contractor shall fully cooperate with NASA in correcting any problems and defending against regulatory assessment of any civil fines or penalties arising out of such actions or inactions.

Quality Assurance (QA)

The Contractor shall establish a quality assurance (QA) program that is certified according to the International Organization for Standardization (ISO) document American Society for Quality Control (ASQC) ISO-9000-2000 – Model for Quality Assurance in Design/Development, Production, Installation, and Servicing.
In order to fulfill this quality program, the Contractor shall:

- Perform hardware and software QA.
- Provide a quality plan for on-site and off-site resources within this contract and implement a true peer review (i.e., QA designee) program as the primary method for all product assurance inspections in accordance with Quality Plan and Reports (DRD-FDOC-0025).
- Collect and compile information derived from Contractor data (e.g., test results, analysis reports, inspection records, discrepancy data, nonconformance data, delivery logs, internal audits, work authorization documents) to demonstrate that the products and services delivered to NASA are in compliance with the requirements and specifications as specified in this contract. The delivery of the compliance information will be at the request of NASA, per the NASA surveillance plan.
- Report non-conformances in accordance with Non-conformance Record Template (DRD-FDOC-0028).
- Share information in accordance with the Government Industry Database for Electronic Parts (GIDEP) and NASA Advisory Problem Data Sharing and Utilization Program Documentation and Reporting (DRD-FDOC-0027).

The Contractor shall have an organizational process that produces Class A software in accordance with NPR 7150.2, NASA Software Engineering Requirements and JSC-63756, Mission Operations Directorate Software Management Plan.
The Contractor shall submit procurement documents to the designated NASA quality representative for determination of the need for GSI prior to release of the procurement.
Procurements that require GSI shall include the following statements:

"All work on this order is subject to inspection and test by the Government at any time and place. The Government quality representative who has been delegated quality assurance functions on this procurement shall be notified immediately upon receipt of this order. The Government representative shall also be notified 48 hours in advance of the time articles or materials are ready for inspection or test."

Procurements that do not require GSI shall include the following statement:

"The Government has the right to inspect any or all of the work included in this order at the supplier's plant."

NASA dispositions all nonconforming products, except rework to specification. The Contractor shall track and status all anomalies per Section 2.14.3, Technical Problem Process.
The Contractor shall use the Receiving Inspection and Test Facility (RITF) receiving inspection services for metallic and nonmetallic material properties analysis, destructive physical analysis, failure analysis of electronic components, and screen burn-in of electrical and electronic parts and components. ~~The Contractor shall use RITF training services for hand soldering, electrostatic discharge, and other special processes for personnel certification.~~ **The Contractor shall use the RITF training services for initial wire wrap certification.** The Contractor shall maintain and use quality cost data as a management element of the Quality Management System (QMS). The data serve the purpose of identifying the cost of prevention of non-conforming products (e.g., labor and material involved in product defects caused by defective work, correction of defective work, and for quality assurance exercised by

7. Interrelationships *(e.g., with other DRDs) (Optional)*

SOW 2.11

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1 – Plan, 2 – Surveillance Report, 2 – Training Report

b. Scope: A contract specific Quality Plan shall be prepared which identifies activities performed both on-site and off-site of JSC to ensure the quality products and services. The Quality Plan is to be submitted with the Contractor's proposal. The plan shall be approved by the Contracting Officer concurrent with contract award.

c. Content:

i. The quality plan shall address each element of ANSI/ISO/ASQ Q9001-2000, Quality Management Systems Requirements and the additional requirements identified below:

1. Identify the methods, procedures, and controls that shall be used to ensure the quality, quantity, and timeliness of the required contract requirements.

2. Explain how training shall be provided to personnel responsible for quality assurance, quality engineering, and software quality assurance on-site at JSC, including JSC processes for Discrepancy Reporting and Tracking, Work Authorization Documents (Task Performance Sheets) and Flight Equipment Pre-Shipment Readiness Review.
3. Explain in detail how in-line quality assurance (Quality Assurance, Quality Engineering, and Software Quality Assurance) shall be performed on-site at JSC. Include discussion of specific allocation of responsibilities, authority and resources.
4. Describe how controlled work instructions shall be provided to all applicable employees, on and off-site JSC.
5. Explain how timely review of technical documents that affect quality and changes thereto shall be performed.
6. Describe participation including responsibilities/activities in design reviews.
7. Explain how quality aspects are ensured and fully included in all designs and are continuously maintained in the fabricated articles and during operations.
8. Explain and ensure how quality requirements are implemented and satisfied throughout all phases of contract performance, including preliminary and engineering design, development, subcontracting, fabrication, processing, assembly, inspection, test, checkout, packaging, shipping, storage, maintenance, field use, flight preparations, flight operations, and post-flight analysis, as applicable, on and off-site JSC.
9. Explain how to ensure, monitor, measure, and control the quality of products produced by the contractor and subcontractors. Explain how the Contractor shall ensure that products, which do not conform to product requirements, are identified and controlled to prevent their unintended use or delivery.
10. Describe the methodology for inspection and test planning (economical and effective use of personnel, facilities and equipment) for both off and on-site.
11. Describe the methodology/criteria for assigning itinerate or resident quality assurance personnel at subcontractor or supplier facilities.
12. Explain how the monitoring and measuring, and cross-utilization of personnel will be performed to assure that contract products and services shall not be negatively affected.
13. Describe the Contractor's techniques, procedures, and mechanisms to ensure quality output despite schedule and/or priority pressures.
14. Provide and explain the schedule, including milestones, outlining the Contractor's plan on accomplishing ANSI/ISO/ASQ Q 9001-2000 compliance within one year of the contract award date.
15. Explain how inspection or other activities necessary for ensuring that purchased product meets specified purchase requirements shall be established.
16. Explain how to verify that all personnel performing work affecting product quality are competent as a result of appropriate education, training, skills, and experience. In addition explain the system that shall be used to monitor and maintain this level of personnel competency required during the duration of the contract.
17. Describe the responsibilities and requirements for planning and conducting audits (internal and external), and for reporting results and maintaining records.
18. Explain the process of involvement in waivers and deviations when quality assurance is affected.
19. Explain the methods for measuring the achievement of the Contractor's quality objectives.

ii. The Contractor shall deliver a Surveillance Report ~~each award fee period~~ and a Training Report ~~annually~~. The reports shall include the following information:

1. Surveillance Report:

   a. Description of the surveillance methodology for internal and supplier surveillance.
   b. Internal and Supplier Surveillance performed in the evaluation period.
   c. Internal and Supplier Surveillance findings.
   d. Internal and Supplier Corrective Action Request issued.
   e. Plans for improvement.

2. Certification/Qualification Training Report:

   a. Listing of all processes/tasks/positions that require certification or qualification and the requirements for getting that certification or qualification.
   b. Departments, organizations, or positions participating in training, certification, or qualification.
   c. Type of training (online, classroom).
   d. Number of employees trained, qualified, or certified.
   e. Number of employees left to be trained, qualified, or certified.

d. Format: The Quality Plan format shall match the elements of the ANSI/ISO/ASQ Q 9001-2000.

e. Standards for Electrical and Electronic Equipment and Parts: The Contractor shall comply with the following standards in the design, manufacture, and maintenance of electrical and electronic equipment or applications under FDOC:

i. Soldering, Through-Hole Technology: ~~use NASA-STD-8739.3, Soldered Electrical Connections~~DD-UWI-0013 MODF Contractor Solder Document

~~ii. Soldering, Surface Mount Technology: use NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology~~

~~iii.~~ii. Crimping, Cable, and Harness: use ~~NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses and Wiring~~DD-UWI-0015 MODF Contractor Cable Assembly Document

~~iv. Conformal Coating and Staking: use NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies~~

~~v.~~iii. Fiber Optics: use ~~NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation,~~DD-UWI-0014 MODF Contractor Fiber Optic Termination Document

~~vi. Electrostatic Discharge Control (ESD): use ANSI/ESD S20.20-2007, ESD Association Standard for the Development of an Electrostatic Discharge Control Program for Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices), and JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies~~

~~vii.~~iv. Rigid Printed Wiring Board (PWB) Design: use ANSI/IPC-2221, Generic Standard on Printed Board Design; and ANSI/IPC-2222, Sectional Design Standard for Rigid Organic Printed Boards

~~viii.~~v. Rigid Printed Wiring Board (PWB): use ANSI/IPC-6011, Generic Performance Specification for Printed Boards; ANSI/IPC-6012, Qualification and Performance Specification for Printed Boards; IPC-6011, Generic Performance Specification for Printed Boards; and IPC-6012, Qualification and Performance Specification for Rigid Printed Boards

~~ix.~~vi. Solderless Wire-wrapped Electrical Connections: use MIL-STD-1130B, Connections, Electrical, Solderless Wrapped

f. Distribution: Per Contracting Officer's letter.

g. Submission:

   i. Initial – Due with proposal.
   ii. Final – Start of contract + 30 calendar days.
   iii. Approval – Start of contract + 90 calendar days.
   iv. Frequency – Quality ~~e~~Cost ~~d~~Data, ~~:~~ ~~A~~as required; Surveillance Report, within 10 calendar days following the end of each quarter (i.e. April 10, July 10, etc.); ~~Quarterly and~~ Training Reports, ~~:~~ ~~Annually~~no later than January 15 of each calendar year.

h. Maintenance: Revisions shall be incorporated by change page or complete reissue.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
	1 of 9

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. (If applicable)

CODE 3VRH3 FACILITY CODE

(x) 9A. AMENDMENT OF SOLICITATION NO.

9B. DATED (SEE ITEM 11)

X 10A. MODIFICATION OF CONTRACT/ORDER NO. NNJ09HD46C

10B. DATED (SEE ITEM 13) 11/07/2008

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Schedule

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	
	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
X	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) 52.243-2 Changes - Cost Reimbursement

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to:
1) Increase contract value and max available award fee for issuance of the TO's and DO's supporting FDOC FY14 requirements.
2) Correct funded through date to include Mod 142.
3) Update change in Key Personnel.
4) Correct DRD0025 to include changes made in Mod 122.
Payment Terms:
Net 30 days

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of modification 144 is to:

1. Increase contract value and the maximum available award fee for issuance of the following Task Orders and Delivery Orders supporting FDOC FY13 and FY14 requirements:

CLIN 003	Estimated Cost	Maximum Award Fee	Total
D25-13 Rev 3	$	(b) (4)	
D26-13	$		
D26-13 Rev 1	$		
D26-13 Rev 2	$		
D29-13	$		
D30-13	$		
D28-14	$		
TOTAL	$		

CLIN 004	Estimated Cost	Maximum Award Fee	Total
TO4-13 Mod 2	$	(b) (4)	
T05-13 Mod 3	$		
TO5-13 Mod 4	$		
TO5-13 Mod 5	$		
TO11-13 Mod 1	$		
TO0-14	$		
TO1-14	$		
TO2-14	$		
TO3-14	$		
TO4-14	$		
TO5-14	$		
TO5-14 Mod 1	$		
TO6-14	$		
TO8-14	$		
TO9-14	$		
TO10-14	$		
TO11-14	$		
TOTAL	$		

As a result of this action the contract is hereby changed as follows:

A. Contract Clause B.3, **Estimated Cost and Award Fee**, is revised as follows:

a. The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is (b) (4) Total maximum estimated cost and maximum award fee are ***$942,944,419***.

b. The estimated cost and award fee for this contract is broken out as follows:

CLIN	Supplies/Services	Estimated Cost*	Maximum Award Fee	Total
001	Phase-In	$	(b) (4)	
002	Baseline	$		
003	IDIQ DO	$		
004	LOE TO	$		
005	LOE Flex Option	$ -	$ -	$ -
	Total	$	(b) (4)	$ 942,944,419

B. Attachment J-3, Award Fee Plan, Appendix 3, is deleted in its entirety and replaced with the change page attached. (See Page 6)

2. Correct the funded through date to include changes made in Mod 142:
   A. Clause B.4, Contract Funding (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

      a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **November 22, 2013**.

      b. An additional amount of (b) (4) is obligated under this contract for payment of fee.

(End of Clause)

3. Update to Key Personnel in Section H.5
   A. H.5 KEY PERSONNEL AND FACILITIES (NFS 1852.235-71) (MAR 1989)

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the

contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

NAME	TITLE
Rich Jackson	Program Manager
Laurie Labra	Deputy Program Manager
(b) (4)	Chief Engineer
	Business Operations Manager
	Systems Engineering Manager
	Project Management Office Manager

No key facilities identified.

(End of Clause)

4. Update DRD-0025 Section 8 (See Pages 6–9):
   A. Section 8a

From

Data Type: 1 – Plan, 2 – Surveillance Report, 3 – Training Report

To

Data Type: 1 – Plan~~, 2 – Surveillance Report~~, 2 – Training Report

   B. Section 8c

From

ii. The Contractor shall deliver a Surveillance Report each award fee period and a Training Report annually. The reports shall include the following information:

1. Surveillance Report:
   a. Description of the surveillance methodology for internal and supplier surveillance
   b. Internal and Supplier Surveillance performed in the evaluation period.
   c. Internal and Supplier Surveillance findings.
   d. Internal and Supplier Corrective Action Request issued.
   e. Plans for improvement

To

ii. The Contractor shall deliver a Training Report. The reports shall include the following information:

~~1. Surveillance Report:~~

~~a. Description of the surveillance methodology for internal and supplier surveillance~~

~~b. Internal and Supplier Surveillance performed in the evaluation period.~~

~~c. Internal and Supplier Surveillance findings.~~

~~d. Internal and Supplier Corrective Action Request issued.~~

~~e. Plans for improvement~~

Evaluation Period	Estimated Baseline Award Fee Available	Estimated IDIQ Award Fee Available	Estimated LOE Award Fee Available	Total Estimated Award Fee Available	Score	Earned Award Fee
BASIC CONTRACT (If Options 1 & 2 are not exercised):

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1 – Plan~~, 2 – Surveillance Report,~~ 2 – Training Report

b. Scope: A contract specific Quality Plan shall be prepared which identifies activities performed both on-site and off-site of JSC to ensure the quality products and services. The Quality Plan is to be submitted with the Contractor's proposal. The plan shall be approved by the Contracting Officer concurrent with contract award.

c. Content:

i. The quality plan shall address each element of ANSI/ISO/ASQ Q9001-2000, Quality Management Systems Requirements and the additional requirements identified below:

1. Identify the methods, procedures, and controls that shall be used to ensure the quality, quantity, and timeliness of the required contract requirements.

2. Explain how training shall be provided to personnel responsible for quality assurance, quality engineering, and software quality assurance on-site at JSC, including JSC processes for Discrepancy Reporting and Tracking, Work Authorization Documents (Task Performance Sheets) and Flight Equipment Pre-Shipment Readiness Review.
3. Explain in detail how in-line quality assurance (Quality Assurance, Quality Engineering, and Software Quality Assurance) shall be performed on-site at JSC. Include discussion of specific allocation of responsibilities, authority and resources.
4. Describe how controlled work instructions shall be provided to all applicable employees, on and off-site JSC.
5. Explain how timely review of technical documents that affect quality and changes thereto shall be performed.
6. Describe participation including responsibilities/activities in design reviews.
7. Explain how quality aspects are ensured and fully included in all designs and are continuously maintained in the fabricated articles and during operations.
8. Explain and ensure how quality requirements are implemented and satisfied throughout all phases of contract performance, including preliminary and engineering design, development, subcontracting, fabrication, processing, assembly, inspection, test, checkout, packaging, shipping, storage, maintenance, field use, flight preparations, flight operations, and post-flight analysis, as applicable, on and off-site JSC.
9. Explain how to ensure, monitor, measure, and control the quality of products produced by the contractor and subcontractors. Explain how the Contractor shall ensure that products, which do not conform to product requirements, are identified and controlled to prevent their unintended use or delivery.
10. Describe the methodology for inspection and test planning (economical and effective use of personnel, facilities and equipment) for both off and on-site.
11. Describe the methodology/criteria for assigning itinerate or resident quality assurance personnel at subcontractor or supplier facilities.
12. Explain how the monitoring and measuring, and cross-utilization of personnel will be performed to assure that contract products and services shall not be negatively affected.
13. Describe the Contractor's techniques, procedures, and mechanisms to ensure quality output despite schedule and/or priority pressures.
14. Provide and explain the schedule, including milestones, outlining the Contractor's plan on accomplishing ANSI/ISO/ASQ Q 9001-2000 compliance within one year of the contract award date.
15. Explain how inspection or other activities necessary for ensuring that purchased product meets specified purchase requirements shall be established.
16. Explain how to verify that all personnel performing work affecting product quality are competent as a result of appropriate education, training, skills, and experience. In addition explain the system that shall be used to monitor and maintain this level of personnel competency required during the duration of the contract.
17. Describe the responsibilities and requirements for planning and conducting audits (internal and external), and for reporting results and maintaining records.
18. Explain the process of involvement in waivers and deviations when quality assurance is affected.
19. Explain the methods for measuring the achievement of the Contractor's quality objectives.

ii. The Contractor shall deliver ~~a Surveillance Report each award fee period and~~ a Training Report ~~annually~~. The reports shall include the following information: Form

~~1. Surveillance Report:~~

~~a. Description of the surveillance methodology for internal and supplier surveillance.~~
~~b. Internal and Supplier Surveillance performed in the evaluation period.~~
~~c. Internal and Supplier Surveillance findings.~~
~~d. Internal and Supplier Corrective Action Request issued.~~
~~e. Plans for improvement.~~

2.1. Certification/Qualification Training Report:

a. Listing of all processes/tasks/positions that require certification or qualification and the requirements for getting that certification or qualification.
b. Departments, organizations, or positions participating in training, certification, or qualification.
c. Type of training (online, classroom).
d. Number of employees trained, qualified, or certified.
e. Number of employees left to be trained, qualified, or certified.

d. Format: The Quality Plan format shall match the elements of the ANSI/ISO/ASQ Q 9001-2000.

e. Standards for Electrical and Electronic Equipment and Parts: The Contractor shall comply with the following standards in the design, manufacture, and maintenance of electrical and electronic equipment or applications under FDOC:

i. Soldering, Through-Hole Technology: ~~use NASA-STD-8739.3, Soldered Electrical Connections~~DD-UWI-0013 MODF Contractor Solder Document
~~ii. Soldering, Surface Mount Technology: use NASA-STD-8739.2, Workmanship Standard for Surface Mount Technology~~
iii.ii. Crimping, Cable, and Harness: use ~~NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses and Wiring~~DD-UWI-0015 MODF Contractor Cable Assembly Document
~~iv. Conformal Coating and Staking: use NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies~~
v.iii. Fiber Optics: use ~~NASA-STD-8739.5, Fiber Optic Terminations, Cable Assemblies, and Installation,~~DD-UWI-0014 MODF Contractor Fiber Optic Termination Document
~~vi. Electrostatic Discharge Control (ESD): use ANSI/ESD S20.20-2007, ESD Association Standard for the Development of an Electrostatic Discharge Control Program for Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices), and JPR 8730.1, Electrostatic Discharge Control Requirements for the Protection of Electronic Components and Assemblies~~
vii.iv. Rigid Printed Wiring Board (PWB) Design: use ANSI/IPC-2221, Generic Standard on Printed Board Design; and ANSI/IPC-2222, Sectional Design Standard for Rigid Organic Printed Boards
viii.v. Rigid Printed Wiring Board (PWB): use ANSI/IPC-6011, Generic Performance Specification for Printed Boards; ANSI/IPC-6012, Qualification and Performance Specification for Printed Boards; IPC-6011, Generic Performance Specification for Printed Boards; and IPC-6012, Qualification and Performance Specification for Rigid Printed Boards
ix.vi. Solderless Wire-wrapped Electrical Connections: use MIL-STD-1130B, Connections, Electrical, Solderless Wrapped

f. Distribution: Per Contracting Officer's letter.

g. Submission:

i. Initial – Due with proposal.
ii. Final – Start of contract + 30 calendar days.
iii. Approval – Start of contract + 90 calendar days.
iv. Frequency – Quality ~~e~~Cost ~~d~~Data, ~~:~~ ~~A~~as required; Surveillance Report, within 10 calendar days following the end of each quarter (i.e. April 10, July 10, etc.); ~~Quarterly and~~ Training Reports, ~~:~~ ~~Annually~~no later than January 15 of each calendar year.

h. Maintenance: Revisions shall be incorporated by change page or complete reissue.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans.

Minimum employer contributions costing an average of $3.81 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with

the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than $27.63 (or on a salary or fee basis at a rate not less than $455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds $27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications; (2) The design, development,

documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications; (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used.

All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at http://www.dol. gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any

classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)}

When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of modification 148 is to:

1. Increase contract value and the maximum available award fee for issuance of the following Task Orders and Delivery Orders supporting FDOC FY14 requirements:

CLIN 003		Estimated Cost	Maximum Award Fee	Total
DO31-14		(b) (4)		
	TOTAL			

CLIN 004		Estimated Cost	Maximum Award Fee	Total
TO5-14 Mod 2		(b) (4)		
TO11-14 Mod 1				
TO5-14 Mod 3				
	TOTAL			

As a result of this action the contract is hereby changed as follows:

A. Contract Clause B.3, **Estimated Cost and Award Fee**, is revised as follows:

a. The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is (b) (4) Total maximum estimated cost and maximum award fee are ***$948,105,087***.

b. The estimated cost and award fee for this contract is broken out as follows:

CLIN	Supplies/Services	Estimated Cost*	Maximum Award Fee	Total
1	Phase-In	(b) (4)		
2	Baseline			
3	IDIQ DO			
4	LOE TO			
5	LOE Flex Option			
	Total	(b) (4)		$948,105,087.00

B. Attachment J-3, Award Fee Plan, Appendix 3, is deleted in its entirety and replaced with the change page attached. (See Page 5)

2. Revise contract funding by –

	Purchase Request #	Amount
Obligating Incremental Funding	4200498178	$12,757,270.44
Subtotal		**$12,757,270.44**

As a result of this action, contract funding is hereby changed as follows:

A. The Funding Recapulation is updated as depicted in the chart below:

NNJ09HD46C	Prior Cumulative Obligations (Mod 146)	Obligated This Action (Mod 148)	Revised Cumulative Obligations
Cost		(b) (4)	
Fee			
Total	$867,242,369.22	$12,757,270.44	$879,999,639.66

1) Clause B.4 CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **March 31, 2014**.

b. An additional amount of (b) (4) is obligated under this contract for payment of fee.

(End of Clause)

3. Update to Key Personnel in Section H.5. Mr. John Nelson will be retiring from Lockheed Martin as of January 3, 2014. An agreement has been reach between the Program

Manager (Laurie Labra) and the Chief of the Mission Systems Division (Dan Lindner) that instead of replacing Mr. Nelson, Mr. Amr Hussein will assume the responsibilities associated with the Chief Engineer in addition to his responsibilities that he currently has as the Systems Engineer Manager. Therefore, the position of Chief Engineer will be removed from the list of Key Personnel.

A. H.5 KEY PERSONNEL AND FACILITIES (NFS 1852.235-71) (MAR 1989)

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

NAME	TITLE
Laurie Labra	Program Manager
Brian Flannery	Deputy Program Manager
(b) (4)	Business Operations Manager
	Systems Engineering Manager
	Project Management Office Manager

No key facilities identified.

(End of Clause)

4. Incorporate Small Business Subcontracting Plan, Revision 4.

DeObligating Incremental Funding	420050769	-$50,000.00
Subtotal		**-$50,000.00**

As a result of this action, contract funding is hereby changed as follows:

A. The Funding Recapulation is updated as depicted in the chart below:

NNJ09HD46C	Prior Cumulative Obligations (Mod 149)	Obligated This Action (Mod 150)	Revised Cumulative Obligations
Cost	(b) (4)		
Fee			
Total	$880,471,525.66	-$50,000.00	$880,421,525.66

1) Clause B.4 CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **March 31, 2014**.

b. An additional amount of (b) (4) s obligated under this contract for payment of fee.

(End of Clause)

2. Attachment J-8, Off-Site Government Furnished Property, is hereby updated in its entirety as shown in Attachment 1 of this modification.

3. Attachment J-9, JSC On-Site Installation Accountable Property, is hereby updated in its entirety as shown in Attachment 2 of this modification.

		10B. DATED (SEE ITEM 13) 11/07/2008

CODE 3VRH3	FACILITY CODE

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Schedule

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	
	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) FAR 43.103(a) Bilateral Contract Modification, FAR 52.243-2 Changes-Cost Reimbursement (Alt I)

E. IMPORTANT: Contractor ☐ is not ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
The purpose of this modification is to:

1) Update Section I to remove NFS clause 1852.219-75, Small Business Subcontracting Reporting and replace FAR clause 52.219-9, Small Business Subcontracting Plan with FAR clause 52.219-9 (Deviation) to comply with PIC 13-06A, "Class Deviation from FAR 52.219-9 - Allowing Annual Summary Subcontract Reporting (SSR) in Lieu of Semi-Annually Reporting".

2) Update Section I to include FAR clause 52.204-14, Service Contract Reporting Requirements (JAN 2014) and FAR clause 52.204-15, Service Contract Reporting Requirements for Indefinite-Delivery Contracts (JAN 2014) to comply with FAR Part 4.1703

Continued ...

Except as provided herein, all terms and conditions of the document referenced in Item 9 A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)	16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of modification 152 is to:

1. Increase contract value and the maximum available award fee for issuance of the following Task Orders and Delivery Orders supporting FDOC FY14 requirements:

CLIN 003		Estimated Cost	Maximum Award Fee	Total
DO34-14		(b) (4)		
	TOTAL			
CLIN 004		**Estimated Cost**	**Maximum Award Fee**	**Total**
	TOTAL			

As a result of this action the contract is hereby changed as follows:

A. Contract Clause B.3, **Estimated Cost and Award Fee**, is revised as follows:

a. The maximum estimated cost of this contract is (b) (4) The maximum estimated available award fee is (b) (4) Total maximum estimated cost and maximum award fee are ***$961,791,262.52***.

b. The estimated cost and award fee for this contract is broken out as follows:

CLIN	Supplies/Services	Estimated Cost*	Maximum Award Fee	Total
1	Phase-In	(b) (4)		
2	Baseline			
3	IDIQ DO			
4	LOE TO			
5	LOE Flex Option			
	Total	(b) (4)		$961,791,262.52

B. Attachment J-3, Award Fee Plan, Appendix 3, is deleted in its entirety and replaced with the change page attached. (See Page 5)

2. Revise contract funding by –

	Purchase Request #	Amount
Obligating Incremental Funding	4200503649	$400,000.00
Subtotal		**$400,000.00**

As a result of this action, contract funding is hereby changed as follows:

A. The Funding Recapulation is updated as depicted in the chart below:

NNJ09HD46C	Prior Cumulative Obligations (Mod 149)	Obligated This Action (Mod 152)	Revised Cumulative Obligations
Cost	(b) (4)		
Fee			
Total	$880,471,525.66	$400,000.00	$880,871,525.66

1) Clause B.4 CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through March 31, 2014.

b. An additional amount of (b) (4) is obligated under this contract for payment of fee.

As a result of this action the contract is hereby changed as follows:

A. Contract Clause B.3, **Estimated Cost and Award Fee**, is revised as follows:

a. The maximum estimated cost of this contract is (b)(4) [redacted]. The maximum estimated available award fee is (b) (4) [redacted] Total maximum estimated cost and maximum award fee are ***$961,674,164.52***.

b. The estimated cost and award fee for this contract is broken out as follows:

CLIN	Supplies/Services	Estimated Cost*	Maximum Award Fee	Total
1	Phase-In	(b) (4)		
2	Baseline			
3	IDIQ DO			
4	LOE TO			
5	LOE Flex Option			
	Total	(b) (4) [redacted]	[redacted]	$961,674,164.52

B. Attachment J-3, Award Fee Plan, Appendix 3, is deleted in its entirety and replaced with the change page attached. (See Page 4)

(End of Clause)

2. Revise Attachment J-10, Custom and COTS Software Report.

A. Attachment J-10 Custom and COTS Software Report is deleted in its entirety and replaced with the change pages attached. (See Mod 155 Attachments 1 and 2)

3. Revise Attachment J-17, Data Requirements Description (DRD) Sheets, to remove the requirement for Format 2 of the CPR in DRD-006.
   A. Page J-17.7 of Attachment J-17 Data Requirements Description (DRD) is deleted in its entirety and replaced with the change page attached. (See Mod 155 Attachment 3)

4. Revise Attachment J-21, Work Breakdown Structure to incorporate Revision 4 to DRD 0001.
   A. Attachment J-21, Work Breakdown Structure (WBS) is deleted in its entirety and replaced with the change pages attached. (See Mod 155 Attachment 4)

x 10A. MODIFICATION OF CONTRACT/ORDER NO. NNJ09HD46C

10B. DATED (SEE ITEM 13) 11/07/2008

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☐ is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Schedule

Net Increase: $69,800.00

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	
	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) FAR 52.232-22 Limitation of Funds

E. IMPORTANT: Contractor ☒ is not. ☐ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this modification is to:

1) Obligate $69,800 in incremental funding bringing the funded amount from $903,878,025.66 to $903,947,825.66.

2) Update page 4 of Mod 155 to reflect the correct IDIQ and LOE Award Fee Available. In Mod 155, the additional contract value was inadvertedly added to IDIQ instead of LOE. The total increase in contract value is correct.

Please see page 2 for further details.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of this contract is to:

1. Correct miscalculated totals in Attachment J, Appendix 3 Award Fee Table
2. Increase contract value and maximum available award fee issuance of the following Task/Delivery Orders:

FY14 Task/Delivery Order (DO/TO)	Cost	Fee	Total
DO 32-14 Rev 2			
DO 39-14			
DO (IDIQ) TOTAL			
TO 2-14 Mod 1			
TO 5-14 Mod 5			
TO (LOE) TOTAL			
TOTAL	(b) (4)		

FY15 Task/Delivery Order (DO/TO)	Cost	Fee	Total
DO 35-15			
DO 36-15			
DO 37-15			
DO (IDIQ) TOTAL			
TO 0-15			
TO 1-15			
TO 2-15			
TO 3-15			
TO 4-15			
TO 5-15			
TO 8-15			
TO 9-15			
TO 11-15			
TO (LOE) TOTAL			
TOTAL	(b) (4)		

3. Update Attachment J-6 Security Classification
4. Update Clause H.5 Key Personnel and Facilities
5. Insert Whistleblower Clauses into Section I
6. Update Attachments J-16 and J-17

As a result of this action, the following changes are made to the contract:

I. In Mod 160, the IDIQ Maximum Award Fee was miscalculated. The following table will depict the correction and the new prior value in which Mod 165 will use as the starting point for the increase of contract value due to the issuance of the task/delivery orders:

	Prior Value (Mod 160)	Correction	Revised Value
IDIQ Award Fee		(b) (4)	
IDIQ Contract Value			
Total Award Fee			
Total Contract Value	$ (b) (4)	($ (b) (4)	$1,131,493,897

II. The Contract Value and Award Fee Recapitulations due to the issuance of the newly awarded task/delivery orders are depicted in the charts below:

	Prior Value (Mod 160)	This Action (Mod 165)	Revised Value
IDIQ Estimated Cost		(b) (4)	
IDIQ Award Fee

III. Contract Clause B.3, Estimated Cost and Award Fee, is revised as follows:

a) The maximum estimated cost of this contract is $ (b) (4) The maximum estimated available award fee is $ (b) (4) Total maximum estimated cost and maximum award fee are ***$1,149,278,104.59***.

b) The estimated cost and award fee for this contract is broken out as follows:

Contract Line Item Number	Supplies/Services	Estimated Cost *	Maximum Award Fee	Total
001	Phase-In Period Work (Fixed Price)	(b) (4)		
002	***Baseline Requirements work***			
003	Indefinite Delivery- Indefinite Quantity Orders Issued **			
004	Level-of-Effort Orders Issued **			
005	Level-of-Effort Flex Options ***			
	TOTAL	$ (b) (4)	$ (b) (4)	**$1,149,278,104.59**

IV. Attachment J-3, Appendix 3 Award Fee Table is deleted in its entirety and replaced with the following table:

Evaluation Period	Estimated Baseline Award Fee Available	Estimated IDIQ Award Fee Available	Estimated LOE Award Fee Available	Total Estimated Award Fee Available	Score	Earned Award Fee
BASIC CONTRACT (If Options 1 & 2 are not exercised):						
Period 1: January 1, 2009 - September 30, 2009					97%	(b) (4)
Period 2: October 1, 2009 - March 31, 2010					96%	
Period 3: April 1, 2010 - September 30, 2010					98%	
Period 4: October 1, 2010 - March 31, 2011					99%	
Period 5: April 1, 2011 - September 30, 2011					99%	
Period 6: October 1, 2011 - March 31, 2012					99%

Period 16: October 1, 2016 - March 31, 2017					TBD	TBD
Period 17: April 1, 2017 - September 30, 2017					TBD	TBD
Total Available Award Fee - Option 3					TBD	TBD
Total Available Award Fee - Base Contract, Extension Base & Option 3						

V. Update Attachment J-6 Security Classification by deleting the previous version dated 10/06/2009 and replacing it with Revision 5, dated 08/11/2014 which is included on pages 7-9 of this modification.

VI. Clause H.5, Key Personnel and Facilities, is revised as follows:

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

NAME	TITLE
Theresa Thrift	Program Manager
(b) (4)	Deputy Program Manager
(b) (4)	Business Operations Manager
(b) (4) n	**Systems Support Services Manager**
(b) (4)	**Strategic Services Manager**

No key facilities identified.

VII. Insert the following clauses by reference into Section I:

1852.203-71	AUG 2014	Requirement to inform employees of whistleblower rights.
1852.216-90	AUG 2014	Allowability of legal costs incurred in connection with a Whistleblower proceeding

VIII. Delete the current Attachments J-16 and J-17 in their entirety and replace with the new Attachments J-16 and J-17 which are included on pages 10 -143 of this modification.

IX. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth herein and all claims arising out of or attributable to the issuance of contract changes and/or contractor proposals listed herein, the contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes.

SECTION I - CONTRACT CLAUSES

I.1 LISTING OF CLAUSES INCORPORATED BY REFERENCE

NOTICE: The following contract clauses pertinent to this section are hereby incorporated by reference:

I. FAR (48 CFR CHAPTER 1)

CLAUSE NUMBER	DATE	TITLE
52.202-1	NOV 2013	DEFINITIONS
52.203-3	APR 1984	GRATUITIES
52.203-5	MAY 2014	COVENANT AGAINST CONTINGENT FEES
52.203-6	SEP 2006	RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT
52.203-7	MAY 2014	ANTI-KICKBACK PROCEDURES
52.203-8	MAY 2014	CANCELLATION, RESCISSION, AND RECOVERY OF FUNDS FOR ILLEGAL OR IMPROPER ACTIVITY
52.203-10	MAY 2014	PRICE OR FEE ADJUSTMENT FOR ILLEGAL OR IMPROPER ACTIVITY

(End of By Reference Section)

I.2 APPROVAL OF CONTRACT (FAR 52.204-1) (DEC 1989)

This contract is subject to the written approval of the JSC Procurement Officer and shall not be binding until so approved.

(End of clause)

I.3 NOTIFICATION OF OWNERSHIP CHANGES (FAR 52.215-19) (OCT 1997)

(a) The Contractor shall make the following notifications in writing:

(1) When the Contractor becomes aware that a change in its ownership has occurred, or is certain to occur, that could result in changes in the valuation of its capitalized assets in the accounting records, the Contractor shall notify the Administrative Contracting Officer (ACO) within 30 days.

(2) The Contractor shall also notify the ACO within 30 days whenever changes to asset valuations or any other cost changes have occurred or are certain to occur as a result of a change in ownership.

(b) The Contractor shall –

(1) Maintain current, accurate, and complete inventory records of assets and their costs;
(2) Provide the ACO or designated representative ready access to the records upon request;
(3) Ensure that all individual and grouped assets, their capitalized values, accumulated depreciation or amortization, and remaining useful lives are identified accurately before and after each of the Contractor's ownership changes; and

(4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.

(c) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).

(End of clause)

I.4 NOTICE OF PRICE EVALUATION ADJUSTMENT FOR SMALL DISADVANTAGED BUSINESS CONCERNS (FAR 52.219-23) (OCT 2008)

(a) *Definitions.* As used in this clause—

"Historically black college or university" means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2. For the Department of Defense (DoD), the National Aeronautics and Space Administration (NASA), and the Coast Guard, the term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

"Minority institution" means an institution of higher education meeting the requirements of Section 365(3) of the Higher Education Act of 1965 (20 U.S.C. 1067k), including a Hispanic-serving institution of higher education, as defined in Section 502(a) of the Act (20 U.S.C. 1101a).

"Small disadvantaged business concern" means an offeror that represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either—

(1) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR Part 124, subpart B; and

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed $750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net).

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR Part 124, subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. In this case, in order to receive the benefit of a price evaluation adjustment, an offeror must receive certification as a small disadvantaged business concern by the Small Business Administration prior to contract award; or

(3) Is a joint venture as defined in 13 CFR 124.1002(f).

(b) Evaluation adjustment.

(1) The Contracting Officer will evaluate offers by adding a factor of 10 percent to the price of all offers, except—

(i) Offers from small disadvantaged business concerns that have not waived the adjustment; and

(ii) An otherwise successful offer from a historically black college or university or minority institution.

(2) The Contracting Officer will apply the factor to a line item or a group of line items on which award may be made. The Contracting Officer will apply other evaluation factors described in the solicitation before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) *Waiver of evaluation adjustment.* A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

_____ Offeror elects to waive the adjustment.

(d) Agreements.

(1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for—

(i) Services, except construction, at least 50 percent of the cost of personnel for contract performance will be spent for employees of the concern;

(ii) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern;

(iii) General construction, at least 15 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern; or

(iv) Construction by special trade contractors, at least 25 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern.

(2) A small disadvantaged business concern submitting an offer in its own name shall furnish in performing this contract only end items manufactured or produced by small disadvantaged business concerns in the United States or its outlying areas. This paragraph does not apply to construction or service contracts.

(End of clause)

I.5 NOTIFICATION OF EMPLOYEE RIGHTS CONCERNING PAYMENT OF UNION DUES OR FEES (FAR 52.222-39) (DEC 2004)

(a) Definition. As used in this clause--

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

(b) Except as provided in paragraph (e) of this clause, during the term of this contract, the Contractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)).

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs.

Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

For further information concerning your rights, you may wish to contact the National Labor Relations Board (NLRB) either at one of its Regional offices or at the following address or toll free number:

National Labor Relations Board
Division of Information
1099 14th Street, N.W.
Washington, DC 20570
1-866-667-6572
1-866-316-6572 (TTY)

To locate the nearest NLRB office, see NLRB's website at http://www.nlrb.gov.

(c) The Contractor shall comply with all provisions of Executive Order 13201 of February 17, 2001, and related implementing regulations at 29 CFR part 470, and orders of the Secretary of

Labor.

(d) In the event that the Contractor does not comply with any of the requirements set forth in paragraphs (b), (c), or (g), the Secretary may direct that this contract be cancelled, terminated, or suspended in whole or in part, and declare the Contractor ineligible for further Government contracts in accordance with procedures at 29 CFR part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures. Such other sanctions or remedies may be imposed as are provided by 29 CFR part 470, which implements Executive Order 13201, or as are otherwise provided by law.

(e) The requirement to post the employee notice in paragraph (b) does not apply to--

(1) Contractors and subcontractors that employ fewer than 15 persons;

(2) Contractor establishments or construction work sites where no union has been formally recognized by the Contractor or certified as the exclusive bargaining representative of the Contractor's employees;

(3) Contractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;

(4) Contractor facilities where upon the written request of the Contractor, the Department of Labor Deputy Assistant Secretary for Labor-Management Programs has waived the posting requirements with respect to any of the Contractor's facilities if the Deputy Assistant Secretary finds that the Contractor has demonstrated that--

(i) The facility is in all respects separate and distinct from activities of the Contractor related to the performance of a contract; and

(ii) Such a waiver will not interfere with or impede the effectuation of the Executive order; or

(5) Work outside the United States that does not involve the recruitment or employment of workers within the United States.

(f) The Department of Labor publishes the official employee notice in two variations; one for contractors covered by the Railway Labor Act and a second for all other contractors. The Contractor shall--

(1) Obtain the required employee notice poster from the Division of Interpretations and Standards, Office of Labor-Management Standards, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N-5605, Washington, DC 20210, or from any field office of the Department's Office of Labor-Management Standards or Office of Federal Contract Compliance Programs;

(2) Download a copy of the poster from the Office of Labor-Management Standards website at http://www.olms.dol.gov; or

(3) Reproduce and use exact duplicate copies of the Department of Labor's official poster.
(g) The Contractor shall include the substance of this clause in every subcontract or purchase order that exceeds the simplified acquisition threshold, entered into in connection with this

contract, unless exempted by the Department of Labor Deputy Assistant Secretary for Labor-Management Programs on account of special circumstances in the national interest under authority of 29 CFR 470.3(c). For indefinite quantity subcontracts, the Contractor shall include the substance of this clause if the value of orders in any calendar year of the subcontract is expected to exceed the simplified acquisition threshold. Pursuant to 29 CFR part 470, Subpart B--Compliance Evaluations, Complaint Investigations and Enforcement Procedures, the Secretary of Labor may direct the Contractor to take such action in the enforcement of these regulations, including the imposition of sanctions for noncompliance with respect to any such subcontract or purchase order. If the Contractor becomes involved in litigation with a subcontractor or vendor, or is threatened with such involvement, as a result of such direction, the Contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

(End of clause)

I.6 STATEMENT OF EQUIVALENT RATES FOR FEDERAL HIRES (FAR 52.222-42) (MAY 2014)

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332..

This Statement is for Information Only:

It is not a Wage Determination

See Attachment J-12, STATEMENT OF EQUIVALENT RATES

(End of clause)

I.7 ESTABLISHING A MINIMUM WAGE FOR CONTRACTORS (52.222-99) (JUNE 2014) (DEVIATION)

This clause implements Executive Order 13658, Establishing a Minimum Wage for Contractors, dated February 12, 2014, and OMB Policy Memorandum M-14-09, dated June 12, 2014.

(a) Each service employee, laborer, or mechanic employed in the United States (the 50 States and the District of Columbia) in the performance of this contract by the prime Contractor or any subcontractor, regardless of any contractual relationship which may be alleged to exist between the Contractor and service employee, laborer, or mechanic, shall be paid not less than the applicable minimum wage under Executive Order 13658. The minimum wage required to be paid to each service employee, laborer, or mechanic performing work on this contract between January 1, 2015, and December 31, 2015, shall be $10.10 per hour.

(b) The Contractor shall adjust the minimum wage paid under this contract each time the Secretary of Labor's annual determination of the applicable minimum wage under section 2(a) (ii) of Executive Order 13658 results in a higher minimum wage. Adjustments to the Executive Order minimum wage under section 2(a) (ii) of Executive Order 13658 will be effective for all service employees, laborers, or mechanics subject to the Executive Order beginning January 1 of the following year. The Secretary of Labor will publish annual determinations in the Federal

Register no later than 90 days before such new wage is to take effect. The Secretary will also publish the applicable minimum wage on www.wdol.gov (or any successor website). The applicable published minimum wage is incorporated by reference into this contract.

(c) The Contracting Officer will adjust the contract price or contract unit prices under this clause only for the increase in labor costs resulting from the annual inflation increases in the Executive Order 13658 minimum wage beginning on January 1, 2016. The Contracting Officer shall consider documentation as to the specific costs and workers impacted in determining the amount of the adjustment.

(d) The Contractor Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (c) of this clause, and will not provide price adjustments under this clause that result in duplicate price adjustments with the respective clause of this contract implementing the Service Contract Labor Standards statute (formerly known as the Service Contract Act) or the Wage Rate Requirements (Construction) statute (formerly known as the Davis Bacon Act).

(e) The Contractor shall include the substance of this clause, including this paragraph (e) in all subcontracts.

(End of clause)

I.8 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA-DESIGNATED PRODUCTS (FAR 52.223-9) (MAY 2008)

(a) Definitions. As used in this clause—
"Postconsumer material" means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."
"Recovered material" means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall—

(1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of post-consumer material content; and

(2) Submit this estimate to:

NASA Johnson Space Center
2101 NASA Parkway
Attn: Environmental Office
Houston, TX 77058-3696

(End of clause)

I.9 OZONE-DEPLETING SUBSTANCES (FAR 52.223-11) (MAY 2001)

(a) *Definition*. "Ozone-depleting substance," as used in this clause, means any substance the Environmental Protection Agency designates in 40 CFR Part 82 as—

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

(b) The Contractor shall label products which contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), and (d) and 40 CFR Part 82, Subpart E, as follows:

WARNING

Contains (or manufactured with, if applicable) *_____, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.

* The Contractor shall insert the name of the substance(s).

(End of clause)

I.10 SUBCONTRACTS FOR COMMERCIAL ITEMS (FAR 52.244-6) (MAY 2014)

(a) Definitions. As used in this clause—

“Commercial item” has the meaning contained in Federal Acquisition Regulation 2.101, Definitions.

“Subcontract” includes a transfer of commercial items between divisions, subsidiaries, or affiliates of the Contractor or subcontractor at any tier.

(b) To the maximum extent practicable, the Contractor shall incorporate, and require its subcontractors at all tiers to incorporate, commercial items or nondevelopmental items as components of items to be supplied under this contract.

(c)(1) The Contractor shall insert the following clauses in subcontracts for commercial items:

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (Apr 2010) (41 U.S.C. 3509), if the subcontract exceeds $5,000,000 and has a performance period of more than 120 days. In altering this clause to identify the appropriate parties, all disclosures of violation of the civil False Claims Act or of Federal criminal law shall be directed to the agency Office of the Inspector General, with a copy to the Contracting Officer.

(ii) 52.203-15, Whistleblower Protections Under the American Recovery and Reinvestment Act of 2009 (Jun 2010) (Section 1553 of Pub. L. 111-5), if the subcontract is funded under the Recovery Act.

(iii) 52.219-8, Utilization of Small Business Concerns (May 2014) (15 U.S.C. 637(d)(2) and (3)), if the subcontract offers further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $650,000 ($1.5 million for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(iv) 52.222-26, Equal Opportunity (Mar 2007) (E.O. 11246).

(v) 52.222-35, Equal Opportunity for Veterans (Sep 2010) (38 U.S.C. 4212(a));

(vi) 52.222-36, Affirmative Action for Workers with Disabilities (Oct 2010) (29 U.S.C. 793).

(vii) 52.222-40, Notification of Employee Rights Under the National Labor Relations Act (Dec 2010) (E.O. 13496), if flow down is required in accordance with paragraph (f) of FAR clause 52.222-40.

(viii) 52.222-50, Combating Trafficking in Persons (Feb 2009) (22 U.S.C. 7104(g)).

(ix) 52.225-26, Contractors Performing Private Security Functions Outside the United States (Jul 2013) (Section 862, as amended, of the National Defense Authorization Act for Fiscal Year 2008; 10 U.S.C. 2302 Note).

(x) 52.232-40, Providing Accelerated Payments to Small Business Subcontractors (Dec 2013), if flow down is required in accordance with paragraph (c) of FAR clause 52.232-40.

(xi) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Feb 2006) (46 U.S.C. App. 1241 and 10 U.S.C. 2631), if flow down is required in accordance with paragraph (d) of FAR clause 52.247-64).

(2) While not required, the Contractor may flow down to subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(d) The Contractor shall include the terms of this clause, including this paragraph (d), in subcontracts awarded under this contract.

(End of clause)

I.11 SUBMISSION OF TRANSPORTATION DOCUMENTS FOR AUDIT (FAR 52.247-67) (FEB 2006)

(a) The Contractor shall submit to the address identified below, for prepayment audit, transportation documents on which the United States will assume freight charges that were paid--

(1) By the Contractor under a cost-reimbursement contract; and

(2) By a first-tier subcontractor under a cost-reimbursement subcontract there under.

(b) Cost-reimbursement Contractors shall only submit for audit those bills of lading with freight shipment charges exceeding $100. Bills under $100 shall be retained on-site by the Contractor and made available for on-site audits. This exception only applies to freight shipment bills and is not intended to apply to bills and invoices for any other transportation services.

(c) Contractors shall submit the above referenced transportation documents to--

NASA/JSC
2101 NASA Parkway
Houston, TX 77058-3696
Attn: Mailcode JB7

(End of clause)

I.12 CLAUSES INCORPORATED BY REFERENCE (FAR 52.252-2) (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): Federal Acquisition Regulation (FAR) clauses:

http://www.acqnet.gov/far/

NASA FAR Supplement (NFS) clauses:

http://www.hq.nasa.gov/office/procurement/regs/nfstoc.htm

(End of clause)

I.13 AUTHORIZED DEVIATIONS IN CLAUSES (FAR 52.252-6) (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of (DEVIATION) after the date of the clause.

(b) The use in this solicitation or contract of any NASA FAR Supplement (48 CFR 18) clause with an authorized deviation is indicated by the addition of (DEVIATION) after the name of the regulation.

(End of clause)

I.14 SECURITY CLASSIFICATION REQUIREMENTS (NFS 1852.204-75) (SEP 1989)

Performance under this contract will involve access to and/or generation of classified information, work in a security area, or both, up to the level of SECRET. See Federal Acquisition Regulation clause 52.204-2 in this contract and DD Form 254, Contract Security Classification Specification, Attachment J-6.

(End of clause)

I.15 SECURITY REQUIREMENTS FOR UNCLASSIFIED INFORMATION TECHNOLOGY RESOURCES (NFS 1852.204-76) (JAN 2011)

(a) The contractor shall protect the confidentiality, integrity, and availability of NASA Electronic Information and IT resources and protect NASA Electronic Information from unauthorized disclosure.

(b) This clause is applicable to all NASA contractors and sub-contractors that process, manage, access, or store unclassified electronic information, to include Sensitive But Unclassified (SBU) information, for NASA in support of NASA's missions, programs, projects

and/or institutional requirements. Applicable requirements, regulations, policies, and guidelines are identified in the Applicable Documents List (ADL) provided as an attachment to the contract. The documents listed in the ADL can be found at: http://www.nasa.gov/offices/ocio/itsecurity/index.html. For policy information considered sensitive, the documents will be identified as such in the ADL and made available through the Contracting Officer.

(c) Definitions.

(1) IT resources means any hardware or software or interconnected system or subsystem of equipment, that is used to process, manage, access, or store electronic information.

(2) NASA Electronic Information is any data (as defined in the Rights in Data clause of this contract) or information (including information incidental to contract administration, such as

financial, administrative, cost or pricing, or management information) that is processed, managed, accessed or stored on an IT system(s) in the performance of a NASA contract.

(3) IT Security Management Plan--This plan shall describe the processes and procedures that will be followed to ensure appropriate security of IT resources that are developed, processed, or used under this contract. Unlike the IT security plan, which addresses the IT system, the IT Security Management Plan addresses how the contractor will manage personnel and processes associated with IT Security on the instant contract.

(4) IT Security Plan--this is a FISMA requirement; see the ADL for applicable requirements. The IT Security Plan is specific to the IT System and not the contract. Within 30 days after award, the contractor shall develop and deliver an IT Security Management Plan to the Contracting Officer; the approval authority will be included in the ADL. All contractor personnel requiring physical or logical access to NASA IT resources must complete NASA's annual IT Security Awareness training. Refer to the IT Training policy located in the IT Security Web site at https://itsecurity.nasa.gov/policies/index.html.

(d) The contractor shall afford Government access to the Contractor's and subcontractors' facilities, installations, operations, documentation, databases, and personnel used in performance of the contract. Access shall be provided to the extent required to carry out a program of IT inspection (to include vulnerability testing), investigation and audit to safeguard against threats and hazards to the integrity, availability, and confidentiality of NASA Electronic Information or to the function of IT systems operated on behalf of NASA, and to preserve evidence of computer crime.

(e) At the completion of the contract, the contractor shall return all NASA information and IT resources provided to the contractor during the performance of the contract in accordance with

retention documentation available in the ADL. The contractor shall provide a listing of all NASA Electronic information and IT resources generated in performance of the contract. At that time, the contractor shall request disposition instructions from the Contracting Officer. The Contracting Officer will provide disposition instructions within 30 calendar days of the contractor's request. Parts of the clause and referenced ADL may be waived by the contracting officer, if the contractor's ongoing IT security program meets or exceeds the requirements of NASA Procedural Requirements (NPR) 2810.1 in effect at time of award. The current version of

NPR 2810.1 is referenced in the ADL. The contractor shall submit a written waiver request to the Contracting Officer within 30 days of award. The waiver request will be reviewed by the Center IT Security Manager. If approved, the Contractor Officer will notify the contractor, by contract modification, which parts of the clause or provisions of the ADL are waived.

(f) The contractor shall insert this clause, including this paragraph in all subcontracts that process, manage, access or store NASA Electronic Information in support of the mission of the Agency.

(End of clause)

I.16 OMBUDSMAN (NFS 1852.215-84) (OCT 2003) (ALT I) (JUN 2000)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and contractors during the pre-award and post-award phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact the installation ombudsman, Melanie Saunders, Associate Director (Management), NASA, Lyndon B. Johnson Space Center, Mail code AC, 2101 NASA Parkway, Houston, TX 77058-3696, 281-483-0490 (phone), 281-483-2200 (fax), melanie.saunders-1@nasa.gov. Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the NASA ombudsman, Diane S. Thompson, Contract Management Division, at 202-358-0514, facsimile 202-358-3083, e-mail diane.thompson@nasa.gov. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer or as specified elsewhere in this document.

(c) If this is a task or delivery order contract, the ombudsman shall review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures of the contract.

(End of clause)

I.17 NASA 8 PERCENT GOAL (NFS 1852.219-76) (JUL 1997)

(a) Definitions.

Historically Black Colleges or University, as used in this clause, means an institution determined by the Secretary of Education to meet the requirements of 34 CFR Section 608.2. The term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

Minority institutions, as used in this clause, means an institution of higher education meeting the requirements of section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which for the purposes of this clause includes a Hispanic-serving institution of higher education as defined in section 316(b)(1) of the Act (20 U.S.C. 1059c(b)(1)).

Small disadvantaged business concern, as used in this clause, means a small business concern that (1) is at least 51 percent unconditionally owned by one or more individuals who are both socially and economically disadvantaged, or a publicly owned business having at least 51 percent of its stock unconditionally owned by one or more socially and economically disadvantaged individuals, and (2) has its management and daily business controlled by one or more such individuals. This term also means a small business concern that is at least 51 percent unconditionally owned by an economically disadvantaged Indian tribe or Native Hawaiian Organization, or a publicly owned business having at least 51 percent of its stock unconditionally owned by one or more of these entities, which has its management and daily business controlled by members of an economically disadvantaged Indian tribe or Native Hawaiian Organization, and which meets the requirements of 13 CFR 124.

Women-owned small business concern, as used in this clause, means a small business concern (1) which is at least 51 percent owned by one or more women or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women, and (2) whose management and daily business operations are controlled by one or more women.

(b) The NASA Administrator is required by statute to establish annually a goal to make available to small disadvantaged business concerns, Historically Black Colleges and Universities, minority institutions, and women-owned small business concerns, at least 8 percent of NASA's procurement dollars under prime contracts or subcontracts awarded in support of authorized programs, including the space station by the time operational status is obtained.

(c) The contractor hereby agrees to assist NASA in achieving this goal by using its best efforts to award subcontracts to such entities to the fullest extent consistent with efficient contract performance.

(d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as small disadvantaged business concerns, Historically Black Colleges and Universities, minority institutions, and women-owned small business concerns.

(End of clause)

I.18 MINIMUM INSURANCE COVERAGE (NFS 1852.228-75) (OCT 1988)

The Contractor shall obtain and maintain insurance coverage as follows for the performance of this contract:

(a) Worker's compensation and employer's liability insurance as required by applicable Federal and state workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with the Contractor's commercial operations that it would not be practical. The employer's liability coverage shall be at least $100,000, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) Comprehensive general (bodily injury) liability insurance of at least $500,000 per occurrence.

(c) Motor vehicle liability insurance written on the comprehensive form of policy which provides

for bodily injury and property damage liability covering the operation of all motor vehicles used in connection with performing the contract. Policies covering motor vehicles operated in the United States shall provide coverage of at least $200,000 per person and $500,000 per occurrence for bodily injury liability and $20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) Comprehensive general and motor vehicle liability policies shall contain a provision worded as follows:

The insurance company waives any right of subrogation against the United States of America which may arise by reason of any payment under the policy.

(e) When aircraft are used in connection with performing the contract, aircraft public and passenger liability insurance of at least $200,000 per person and $500,000 per occurrence for bodily injury, other than passenger liability, and $200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least $200,000 multiplied by the number of seats or passengers, whichever is greater.

(End of clause)

I.19 EARNED VALUE MANAGEMENT SYSTEM (NFS 1852.234-2) (NOV 2006)

(a) In the performance of this contract, the Contractor shall use--

(1) An Earned Value Management System (EVMS) that has been determined by the Cognizant Federal Agency to be compliant with the EVMS guidelines specified in the American National Standards Institute (ANSI)/Electronic Industries Alliance (EIA) – 748 Standard, Industry Guidelines for Earned Value Management Systems (current version at the time of award) to manage this contract; and

(2) Earned Value Management procedures that provide for generation of timely, accurate, reliable, and traceable information for the Contract Performance Report (CPR) required by the contract.

(b) If, at the time of award, the Contractor's EVMS has not been determined by the Cognizant Federal Agency to be compliant with the EVMS guidelines, or the Contractor does not have an existing cost/schedule control system that is compliant with the guidelines in the ANSI/EIA-748 Standard (current version at the time of award), the Contractor shall apply the system to the contract and shall take timely action to implement its plan to obtain compliance/validation. The Contractor shall follow and implement the approved compliance/validation plan in a timely fashion. The Government will conduct a Compliance Review to assess the contactor's compliance with its plan, and if the Contractor does not follow the approved implementation schedule or correct all resulting system deficiencies identified as a result of the compliance review within a reasonable time, the Contracting Officer may take remedial action, that may include, but is not limited to, a reduction in fee.

(c) The Government will conduct Integrated Baseline Reviews (IBRs). Such reviews shall be scheduled and conducted as early as practicable, and if a pre-award IBR has not been conducted, a post-award IBR should be conducted within 180 calendar days after contract award, or the exercise of significant contract options, or within 60 calendar days after distribution of a supplemental agreement that implements a significant funding realignment or effects a significant change in contractual requirements (e.g., incorporation of major modifications). The objective of IBRs is for the Government and the Contractor to jointly assess

the Contractor's baseline to be used for performance measurement to ensure complete coverage of the statement of work, logical scheduling of the work activities, adequate resourcing, and identification of inherent risks.

(d) Unless a waiver is granted by the Cognizant Federal Agency, Contractor proposed EVMS changes require approval of the Cognizant Federal Agency prior to implementation. The Cognizant Federal Agency shall advise the Contractor of the acceptability of such changes within 30 calendar days after receipt of the notice of proposed changes from the Contractor. If the advance approval requirements are waived by the Cognizant Federal Agency, the Contractor shall disclose EVMS changes to the Cognizant Federal Agency at least 14 calendar days prior to the effective date of implementation.

(e) The Contractor agrees to provide access to all pertinent records and data requested by the Contracting Officer or a duly authorized representative. Access is to permit Government surveillance to ensure that the Contractor's EVMS complies, and continues to comply, with the EVMS guidelines referenced in paragraph (a) of this clause, and to demonstrate—

(1) Proper implementation of the procedures generating the cost and schedule information being used to satisfy the contract data requirements;

(2) Continuing application of the accepted company procedures in satisfying the CPR required by the contract through recurring program/project and contract surveillance; and

(3) Implementation of any corrective actions identified during the surveillance process.

(f) The Contractor shall be responsible for ensuring that its subcontractors, identified below, comply with the EVMS requirements of this clause as follows:

(1) For subcontracts with an estimated dollar value of $50M or more, the following subcontractors shall comply with the requirements of this clause.

(Contracting Officer to insert names of subcontractors or subcontracted effort).

(b) (4)

(2) For subcontracts with an estimated dollar value of less than $50M, the following subcontractors shall comply with the requirements of this clause except for the requirement in paragraph (b), if applicable, to obtain compliance/validation.

(Contracting Officer to insert names of subcontractors or subcontracted effort.)

TBD

(g) If the contractor identifies a need to deviate from the agreed baseline by working against an Over Target Baseline (OTB) or Over Target Schedule (OTS), the contractor shall submit to the Contracting Officer a request for approval to begin implementation of an OTB or OTS. This request shall include a top-level projection of cost and/or schedule growth, whether or not performance variances will be retained, and a schedule of implementation for the reprogramming adjustment. The Government will approve or deny the request within 30 calendar days after receipt of the request. Failure of the Government to respond within this 30-day period constitutes approval of the request. Approval of the deviation request does not constitute a change, or the basis for a change, to the negotiated cost or price of this contract, or the estimated cost of any undefinitized contract actions.

(End of clause)

NOTE: It is the responsibility of the prime contractor to report earned value for work done by subcontractors whose personnel are matrixed into the prime contractor workforce.

I.20 ACCESS TO SENSITIVE INFORMATION (NFS 1852.237-72) (JUNE 2005)

(a) As used in this clause, “sensitive information” refers to information that a contractor has developed at private expense, or that the Government has generated that qualifies for an exception to the Freedom of Information Act, which is not currently in the public domain, and which may embody trade secrets or commercial or financial information, and which may be sensitive or privileged.

(b) To assist NASA in accomplishing management activities and administrative functions, the Contractor shall provide the services specified elsewhere in this contract.

(c) If performing this contract entails access to sensitive information, as defined above, the Contractor agrees to -

(1) Utilize any sensitive information coming into its possession only for the purposes of performing the services specified in this contract, and not to improve its own competitive position in another procurement.

(2) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(3) Allow access to sensitive information only to those employees that need it to perform services under this contract.

(4) Preclude access and disclosure of sensitive information to persons and entities outside of the Contractor’s organization.

(5) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in this contract and to safeguard it from unauthorized use and disclosure.

(6) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(7) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(d) The Contractor will comply with all procedures and obligations specified in its Organizational Conflicts of Interest Avoidance Plan, which this contract incorporates as a compliance document.

(e) The nature of the work on this contract may subject the Contractor and its employees to a variety of laws and regulations relating to ethics, conflicts of interest, corruption, and other criminal or civil matters relating to the award and administration of government contracts. Recognizing that this contract establishes a high standard of accountability and trust, the Government will carefully review the Contractor’s performance in relation to the mandates and restrictions found in these laws and regulations. Unauthorized uses or disclosures of sensitive information may result in termination of this contract for default, or in debarment of the Contractor for serious misconduct affecting present responsibility as a government contractor.

(f) The Contractor shall include the substance of this clause, including this paragraph (f), suitably modified to reflect the relationship of the parties, in all subcontracts that may involve access to sensitive information

(End of clause)

I.21 RELEASE OF SENSITIVE INFORMATION (NFS 1852.237-73) (JUN 2005)

(a) As used in this clause, ``sensitive information'' refers to information, not currently in the public domain, that the Contractor has developed at private expense, that may embody trade secrets or commercial or financial information, and that may be sensitive or privileged.

(b) In accomplishing management activities and administrative functions, NASA relies heavily on the support of various service providers. To support NASA activities and functions, these service providers, as well as their subcontractors and their individual employees, may need access to sensitive information submitted by the Contractor under this contract. By submitting this proposal or performing this contract, the Contractor agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement, subject to the enumerated protections mandated by the clause at 1852.237-72, Access to Sensitive Information.

(c)(1) The Contractor shall identify any sensitive information submitted in support of this proposal or in performing this contract. For purposes of identifying sensitive information, the Contractor may, in addition to any other notice or legend otherwise required, use a notice similar to the following:

Mark the title page with the following legend:

This proposal or document includes sensitive information that NASA shall not disclose outside the Agency and its service providers that support management activities and administrative functions. To gain access to this sensitive information, a service provider's contract must contain the clause at NFS 1852.237-72, Access to Sensitive Information. Consistent with this clause, the service provider shall not duplicate, use, or disclose the information in whole or in part for any purpose other than to perform the services specified in its contract. This restriction does not limit the Government's right to use this information if it is obtained from another source without restriction. The information subject to this restriction is contained in pages _____ (insert page numbers or other identification of pages).
Mark each page of sensitive information the Contractor wishes to restrict with the following legend:
Use or disclosure of sensitive information contained on this page is subject to the restriction on the title page of this proposal or document.

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is ``sensitive.'' This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

(f) This clause does not affect NASA's responsibilities under the Freedom of Information Act.

(g) The Contractor shall insert this clause, including this paragraph (g), suitably modified to reflect the relationship of the parties, in all subcontracts that may require the furnishing of sensitive information.

(End of clause)

I.22 ENGINEERING CHANGE PROPOSALS (NFS 1852.243-70) (OCT 2001) (ALT II) (SEP 1990)

(a) Definitions.

"ECP" means an Engineering Change Proposal (ECP) which is a proposed engineering change and the documentation by which the change is described, justified, and submitted to the procuring activity for approval or disapproval.

(b) Either party to the contract may originate ECPs. Implementation of an approved ECP may occur by either a supplemental agreement or, if appropriate, as a written change order to the contract.

(c) Any ECP submitted to the Contracting Officer shall include a "not-to-exceed" price increase or decrease adjustment amount, if any, and the required [time of delivery or period of performance] adjustment, if any, acceptable to the originator of the ECP. If the change is originated within the Government, the Contracting Officer shall obtain a written agreement with the contractor regarding the "not-to-exceed" price and [delivery or period of performance] adjustments, if any, prior to issuing an order for implementation of the change. An ECP accepted in accordance with the Changes clause of this contract shall not be considered an authorization to the Contractor to exceed the estimated cost in the contract Schedule, unless the estimated cost is increased by the change order or other contract modification.

(d) After submission of a contractor initiated ECP, the contracting officer may require the contractor to submit the following information:

(1) Cost or pricing data in accordance with FAR 15.403-5 if the proposed change meets the criteria for its submission under FAR 15.403-4; or

(2) Information other than cost or pricing data adequate for contracting officer determination of price reasonableness or cost realism. The contracting officer reserves the right to request additional information if that provided by the contractor is considered inadequate for that purpose. If the contractor claims applicability of one of the exceptions to submission of cost or pricing data, it shall cite the exception and provide rationale for its applicability.

(e) If the ECP is initiated by NASA, the contracting officer shall specify the cost information requirements, if any.

(End of clause)

I.23 PROVIDING ACCELERATED PAYMENT TO SMALL BUSINESS SUBCONTRACTORS (52.232-99) (AUG 2012) (DEVIATION)

This clause implements the temporary policy provided by OMB Policy Memorandum M-12-16, Providing Prompt Payment to Small Business Subcontractors, dated July 11, 2012.

(a) Upon receipt of accelerated payments from the Government, the contractor is required to make accelerated payments to small business subcontractors to the maximum extent practicable after receipt of a proper invoice and all proper documentation from the small business subcontractor.

(b) Include the substance of this clause, including this paragraph (b), in all subcontracts with small business concerns.

(c) The acceleration of payments under this clause does not provide any new rights under the Prompt Payment Act.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Contract Work Breakdown Structure and Dictionary	5/9/2008	DRD-FDOC-0001	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To organize the tasks to be accomplished in this contract in a service-oriented structure. The CWBS and dictionary shall provide the framework for structuring the program implementation plans, establishing and tracking budgets, preparing schedules, developing work force and material estimates, preparing work authorization documents, and reporting contract performance.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.1

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The CWBS shall encompass all the services required to achieve all the requirements of this contract. The CWBS shall subdivide the work to be accomplished into elements that serve as the basis for detailed planning and control, and in addition, permit collection of cost and schedule data for each element.

c. Content: The CWBS shall graphically depict the CWBS tree. The dictionary shall contain a concise description of contract tasks to be performed and products to be delivered, subdivided by CWBS element. A CWBS element may represent an identifiable product, a set of data, a service, a task, or a budget function. The structure shall be at the RFP SOW level with additional levels as required by the Contractor. Lower levels of detail, which the Contractor uses for its own management purposes to validate information reported to NASA, shall be compatible with NASA requirements and be accessible by NASA. The relationship between the CWBS and the Contractor's internal organizations and processes shall also be provided.

d. Format: The CWBS tree is to be in organization chart format and the associated CWBS narrative (CWBS dictionary) in text form, arranged as depicted by the CWBS tree. The CWBS tree and dictionary shall be provided in both electronic and hard copy form.

e. Distribution: Per Contracting Officer’s letter.

f. Submission:

i. Initial – Due with proposal.
ii. Final – Due at contract start.
iii. Approval – Due 90 calendar days from contract start.
iv. Frequency – Each CWBS update.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Integrated Management Plan	5/9/2008	DRD-FDOC-0002	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide a comprehensive plan ("roadmap") that integrates all aspects of the SOW to accomplish efficient and effective management.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2, 2.2.1

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Integrated Management Plan shall describe the basis for the Contractor's management approach, organization, and systems for accomplishing and managing all services and functions described in the SOW. It shall provide a comprehensive integration of all management systems of the prime, subcontractors, and major vendors, including Small and Small Disadvantaged business goals. The systems shall include those specifically required to accomplish the Statement of Work, as well as those systems and procedures that are to be set in place by the Contractor.

c. Content: The Contractor shall address the following elements as a minimum:

i. Schedule

1. Describe adherence to established and fluctuating schedules.
2. Describe the tools utilized to evaluate and track schedules.

ii. Budget

1. Describe how individual program/activity/project budgets will be tracked and maintained.
2. Describe tools utilized to maintain the budget.
3. Describe the process for indirect cost management.

iii. Staffing

1. Describe the method for attracting and hiring qualified personnel.
    a. Identify critical skills.
2. Describe the process for maintaining staffing levels and minimizing turnover throughout the life of the contract.
3. Describe the process for employee recognition and reward for exceptional performance.
4. Describe how to maintain staffing flexibility to accommodate changes in requirements and fluctuations in workloads.

iv. Organizational Structure

1. Describe the internal and external organizational structure to explain roles and responsibilities, and lines of communication to NASA, subcontractors, parent corporations and other organizations.
2. Describe lines of authority to parent organizations and subcontractors to include degree of local autonomy and decision-making authority.
3. Describe how work with subcontractors will be scheduled, controlled, reported and reviewed.
4. Describe methods of communication with other contractors as listed in Attachment H-9 Associate Contractor Agreement for FDOC Activities.
5. Identify by name and position the key personnel.

v. Approach to Work

1. Describe with rationale the technical metrics to be collected during the performance of this contract.

2. Describe the approach to support NASA and affiliated organizations regarding technical and schedule information.
3. Describe the approach to collaborate with NASA to meet cost saving objectives.
4. Describe approach to provide an environment that fosters innovation and opens the channels of communication from anyone in the organization to recommend possible synergies.
5. Identify or propose with rationale opportunities to incorporate current and emerging technologies and processes to streamline and enhance systems/processes currently in use.
6. Describe the strategy for cross-training and flex utilization of personnel.
7. Describe the approach to prioritize anomaly resolution.

vi. Materials and Property

1. Describe the process to administer stock and critical spares to ensure items are available upon request.
2. Describe the process to purchase store stock and critical spare assets for use by NASA and differentiate between purchases made on behalf of NASA and Contractor purchases of items required in the performance of work identified in the SOW.
3. Describe the process for logistics if any Government Furnished Property is to be stored at an off-site location.
4. Describe the process to track, investigate, document, and adjust records associated with property loss.
5. Describe the process for pickup, initial receipt and disposition of excess property to include Government Donation Programs, GSA sales and scrap.
6. Describe the approach to use Commercial Off the Shelf (COTS) products and tools.

vii. Safety, Health, and Quality Assurance

1. Describe the approach to identify safety risk and methods to protect personnel and property from injury and harm.
2. Describe the approach to comply with environmental and energy consumption regulations.
3. Describe the approach to ensure quality work and products in all aspects of the SOW.
4. Describe the approach to identify, track and report risk.

viii. Management

1. Describe the distribution and roles of management to ensure effective accomplishment of the FDOC effort.
2. Describe the approach to maintain the appropriate percentages of work distributed to small businesses and the various small disadvantaged businesses throughout the life of the contract.

d. Format: Contractor's electronic format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due with proposal.
ii. Final – Due 90 calendar days after contract award.
iii. Approval – From start of contract + 180 calendar days.
iv. Frequency – As required.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Risk Management Plan	5/9/2008	DRD-FDOC-0003	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To describe the Contractor's implementation approach for performing and reporting risk management, in conformance with the processes that are defined by the Government provided guidelines NPR 7120.5, latest version.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*
NPR 7120.5D, NASA Space Flight Program and Project Management Requirements	SOW 2.12

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The risk management plan defines the Contractor's method to accomplish proactive end-to-end risk analysis management and abatement, throughout the contract duration. Risk management includes risk: identification, analysis, handling, mitigation, tracking, controlling, and risk communication.

c. Content: Present a structured, integrated risk management and abatement implementation approach that correlates with the proposed integrated architecture evolution. The plan shall address the risk sources, magnitude and mitigation, and actions directed toward its elimination or reduction to an acceptable level. The plan shall take into account technical, programmatic, supportability, cost, and schedule concerns for the solution implementation, and it shall take into consideration impacts due to external influences, e.g., major schedule delays, NASA funding cuts, and mission set adds/deletes. The plan shall specify how the risks are documented, communicated, and reported to the Contractor and NASA management.

d. Format: Contractor's electronic format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Start of contract + 15 calendar days.
ii. Final – Start of contract + 45 calendar days.
iii. Approval – From start of contract + 60 calendar days.
iv. Frequency – As required.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide an approach and rationale for transition of human space flight operations activities to the FDOC.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* None.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The FDOC Transition Plan provides plans for the transfer of all anticipated on-going operations and development activities along with supporting logic and rationale.

c. Content: The Transition Plan shall describe the overall plan for transition. As a minimum, it shall address:

i. Schedule with key milestones,
ii. Approach and rationale for implementing the plans, procedures, and processes required for performance of the contract, including property, personnel, facilities, and security,
iii. Metrics used to determine progress for contract transition,
iv. Property control transfer,
v. Property location moves for GFP in the following locations:

1. Ground Support Development Environment (GSDE) currently located at 595 Gemini, Houston, TX,
2. USA Logistics Facility currently located at 17155 Feathercraft Lane, Webster, TX,
3. Lockheed Martin Logistics Facility currently located at 901 Bay Area Blvd, Houston, TX,
4. SSTF Development String currently located at 600 Gemini, Houston, TX,
5. Software Engineering Environment (SWEN) currently located at 600 Gemini, Houston, TX,
6. Workstation Development Environment (WADE) currently located at 600 Gemini, Houston, TX.

vi. Software control transfer,
vii. Documentation control transfer,
viii. Facilities responsibility transfer,
ix. Incorporation of existing AR, SR, and Ops Note data.
x. Mission assurance considerations,
xi. Security considerations,
xii. Classified document control transfer,
xiii. Risk mitigation strategy,
xiv. Configuration management considerations.

d. Format: Contractor format is acceptable.

e. Distribution: Distribution specified below plus additional distribution per Contracting Officer's letter:

i. Initial – As specified in the proposal instructions.
ii. Final – Contracting Officer, COTR, each Project Manager, and User Applications Project Manager.

f. Submission:

i. Initial – Due with proposal.
ii. Final – Contract award + 5 calendar days.
iii. Approval – Contract award + 10 calendar days.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Earned Value Measurement (EVM) Plan and Reports	5/9/2008	DRD-FDOC-0006	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
The Earned Value Measurement (EVM) Plan shall define measures and measurement methodologies to assess the Contractor's cost, schedule, and technical performance relative to an integrated and time-correlated work and budget baseline. The EVM Reports shall document the results of the planned measures using the established measurement methodologies over the applicable period of time.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. NPR 7120.5D, NASA Space Flight Program and Project Management Requirements b. Contract Work Breakdown Structure (CWBS) c. DI-MGMT-81466A, Contract Performance Report (CPR) d. JSC-27450, Performance Measurement System Handbook – Version 1.1 e. NASA/SP-6105, NASA Systems Engineering Handbook	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.1.4

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Plan – 1, Reports – 2

b. Scope: The EVM Plan shall identify the CWBS elements included in the performance measurement baseline, describe the earned value measures to be recorded, summarize the EVM methodologies, and explain the reports and assessment rationale. This information shall collectively constitute the Contractor's integrated measurement system for assessing and responding to cost and schedule performance as a function of technical progress. The scope of measurement shall include all products, services, and processes specified in the Statement of Work (SOW) regardless of the performing organization, (e.g. prime, subcontractor).

c. Content: The EVM Plan shall specify Earned Value Measurement in accordance with the SOW. The composite set of measures, measurement frequency, and response thresholds should constitute a comprehensive set of information that is reliable and useful for technical and managerial decision making and for surveillance and evaluation by the Government.

The EVM Reports shall explain cost, schedule, and earned value variances in accordance with the SOW. In addition, the Reports shall include projections of the Estimate to Complete (ETC) and Estimate at Completion (EAC) for the allocated work and budget. EVM reporting shall be limited to each element of the CWBS. CPR Format 2 – Organizational Categories is not required to be delivered.

d. Format: The EVM Plan shall be in the Contractor's selected format. EVM Reports shall conform to ANSI-EIA-748.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. EVM Plan:

1. Initial – Due at contract award + 2 business days.
2. Final – Due at contract start.
3. Approval – Due at contract start + 30 business days.
4. Frequency – As required.

ii. EVM Report:

1. Initial – Due 10 business days following close of the first period after approval of the Plan.
2. Final – Due at Contract completion.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Technical Metrics Plan and Reports	5/9/2008	DRD-FDOC-0007	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

The Technical Metrics Plan shall define measures and measurement methodologies to assess the Contractor's schedule and technical performance relative to key system and process attributes. The Technical Metrics Reports shall document the results of the planned technical measures using the established measurement methodologies over the applicable period of time. Technical Metrics and Reports shall be provided at NASA project integration and status meetings, and as requested by NASA.

5. DRD Category: *(check one)*

- ☐ Technical
- ☒ Administrative
- ☐ SR&QA

6. References *(Optional)*

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Plan – 1, Reports – 2

b. Scope: The Technical Metrics Plan shall identify the systems and processes to be measured, describe the measures to be recorded, summarize the measurement methodologies, and explain the reports and measurement assessment rationale. This information shall collectively constitute the Contractor's integrated measurement system for assessing and responding to schedule, and technical performance relative to key system and process attributes. The scope of measurement shall include all products, services, and processes specified in the Statement of Work (SOW) regardless of the performing organization, (e.g. prime, subcontractor). The Technical Metrics Reports shall provide the values of the measures specified in the Technical Metrics Plan relative to prescribed thresholds for response. Additionally, the Technical Metrics Reports shall summarize any trends, notable values, and variances in the measurement data.

c. Content: The Technical Metrics Plan shall include key technical metrics that the Contractor uses to manage schedule and technical performance on the Contract. The planned measures shall include the technical metrics defined in the Statement of Work (SOW) for assessment against the thresholds established uniquely for each facility.

Technical Metrics Status Reports shall include, but not be limited to the following:

i. Support Request (SR) status,
ii. System/subsystem availability,
iii. System/subsystem utilization,
iv. System/subsystem performance,
v. Anomaly Report status by system/subsystem,
vi. Operations Notes status by system/subsystem,
vii. Process Integrity Metrics,
viii. Status Reports, as defined by NASA.

d. Format: Technical Metrics Plan and Reports shall be in the Contractor's selected format, unless otherwise specified by NASA.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Technical Metrics Plan:

1. Initial – Due at contract award + 2 business days.
2. Final – Due at contract start.

3. Approval – Due at contract start + 30 calendar days.
4. Frequency – As required.

ii. Technical Metrics Reports:

1. Initial – Due 10 calendar days following close of the first period after approval of the Plan.
2. Final – Due at Contract completion.
3. Approval – N/A.
4. Frequency – third Thursday of each month.

g. Maintenance:

i. Technical Metrics Plan – Change pages or complete reissue.
ii. Technical Metrics Reports – N/A.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Government Property Management plan defines the Contractor's use, maintenance, repair, protection, and preservation of Government property. It shall describe the Contractor's approach to receiving, handling, stocking, maintaining, protecting, and issuing Government property.

c. Content: This plan shall consist of those procedures which constitute the Contractor's Property Management Manual and shall include at a minimum the following categories:

i. Property Management,
ii. Acquisition,
iii. Receiving,
iv. Identification,
v. Records,
vi. Movement,
vii. Storage,
viii. Physical Inventories,
ix. Reports,
x. Consumption,
xi. Utilization,
xii. Maintenance,

Small Business Subcontracting Plan and Reports (Deviation)	2/6/2014	DRD-FDOC-0009	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To describe the Contractor's planned approach to Small Business Subcontracting and their reporting against this plan.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. FAR 19.702, Statutory requirements b. FAR 52.219-8, Utilization of Small Business Concerns c. FAR 52.219-9 (Deviation), Small Business Subcontracting Plan d. NFS 1852.219-76, NASA 8 Percent Goal	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.2.1

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Plan – 1, Report – 2

b. Scope: The Small Business Subcontracting Plan shall be in compliance with FAR 52.219.9 (Deviation).

c. Content: The Subcontracting plan must include the approach that the Contractor intends to use in meeting the subcontracting goals. Subcontractors whose bid is part of this proposal should be identified. For each subcontractor, the percentage of the proposal and any small or small business subcategory classification should be identified. For areas of potential future subcontracting, the Contractor should identify the area of work, the percentage of contract that this is expected to encompass, potential subcontractors and their small business or small business subcategory classification. Describe the management approach to subcontracting with small, small disadvantaged 8(a), Women-owned, HUBZoned, Veteran owned, and Service disabled veteran owned companies and HBCU/MIs.

d. Format: Contractor format is acceptable for the plan.

e. Distribution: Per Contracting Officer Letter.

f. Submission:

i. Subcontracting Plan:

1. Initial – Due with proposal.
2. Approval – Prior to contract award.
3. Frequency – Subcontracting Plan to be updated in accordance with FAR 19.702.

ii. Reports:

1. All reports shall be submitted in accordance with FAR 52.219-9 (Deviation).
2. In lieu of submitting a paper copy of the SF 294 and SF 295 Subcontracting Report for Individual Contracts. The offer shall submit annually and at contract completion to the NASA/JSC Contracting Officer electronically version of this data.
3. Contractors are required to submit subcontracting data in the Electronic Subcontracting Reporting System (eSRS) which has replaced the paper Standard Form 294 and SF 295 Summary Subcontracting Reports.
4. All contractors are required to register and file both types of subcontracting reports using the eSRS system. The website to register is http://www.esrs.gov.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: This DRD establishes the activity reporting for the Contractor's progress and accomplishments as well as performance and utilization of facilities/systems.

c. Content:

i. Status Reports and Reviews shall include quantitative descriptions of overall technical and administrative progress, and status, of significant activities relating to the accomplishments of the contractual objectives. Risks to the accomplishment of contractual objectives shall also be identified. The report shall also include performance and utilization data for major facilities and systems.

ii. Activity Report items covered shall included significant accomplishments, high level run reports for simulations, tests, problems encountered, quality assurance results, corrective actions, as well as significant facility problems or mishaps.

iii. Metrics Report items shall be in accordance with DRD-FDOC-0006, Earned Value Measurement (EVM) Plan and Reports and DRD-FDOC-0007, Technical Metrics Plan and Reports. All reports shall be of sufficient depth and clarity to permit understanding and evaluation of progress made. Supporting data in the form of charts, graphs, etc. may be included as appropriate.

iv. Program Manager Status Review (PMSR) – A monthly review to document accomplishments; changes in plans; problems being worked and proposed solutions consistent with the requirements of DRD-FDOC-0006. The discussion of plans, progress and problems shall include variance analysis and reporting cause, impact and corrective action. Technical issues shall be covered in terms of performance goals (metrics), exit criteria, schedule progress and/or cost impact. The review shall include current status, year-end estimate and cover upcoming major events.

v. Surveillance Report should include the following information – description of the surveillance methodology for internal and supplier surveillance; internal and supplier surveillance performed in the evaluation period; internal and supplier surveillance findings; internal and supplier corrective action request issued; and plans for improvement.

vi. Status Reports shall include, but not be limited to:

1. Daily Reports:

   a. Facility Status Report,
   b. MOD Facility Status Teleconference.

2. Weekly or As Required Reports:

   a. Weekly Activity Report,
   b. Facility Control Boards (CB),
   c. User Application Control Boards,
   d. Equipment Replacement Working Group (ERWG),
   e. MOD Flight Operations and Integration Group (FOIG),
   f. Operational Readiness Test (ORT) working group meeting,

c. Progress Report,
d. Delivery Schedules Report,
e. Work Plan Report,
f. DRD Status Report,
g. Technical Cost and Schedule Reviews (TCSR),
h. Security reports,
i. QA reports.

j. SQA Monthly Report (IAW NASA-STD-8739.8, Sec 6.7)

k. Surveillance Report

4. Quarterly Reports:

a. Process Integrity Metrics Review (PIMR).

5. Reports due with special frequency:

a. DD and Contractor management status meeting – Twice a month.
b. MOD Flight Readiness Review (FRR) – Per flight and increment.

6. Reviews and Meetings

a. Monthly:

i. Program Manager Review – Monthly.
ii. Program Manager Status Review – Monthly.

b. As required:

i. Operating Plan Review.
ii. PPBE Review.

d. Format: To be determined by mutual agreement with the COTR.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due at the end of the first reporting period after contract award.
ii. Final – Due at the end of the final reporting period.
iii. Approval – N/A.
iv. Frequency – Due on the last day of the applicable period for Status Reports covering periods of time less than or equal to one week. Due 10 calendar days following close of the applicable period for all Status Reports covering periods of time greater than one week.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: Analytical models, unique tools, supporting documentation, equipment, and resource/cost information shall be submitted in accordance with this DR.

c. Content: Data package containing the following:

i. Labor resources:

1. List of all direct labor skills by labor category, segregated by current work breakdown structure (WBS)
2. An estimate of the number of indirect labor skills such as business or computer support normally charged through an indirect expense pool or through a service center expense
3. Current annual average wage rates for each labor category and when these wages were last adjusted for escalation. Also indicate whether any adjustments are projected to be made prior to contract expiration
4. The number of FTEs (Full Time Equivalents) and the estimated number of productive hours for each labor category currently on contract, segregated by current WBS.
5. Seniority level of all skills on the current contract

ii. Non-labor resources:

1. List of all materials, equipment, travel, supplies, etc., and the incurred annual cost by WBS. Only include significant items that are used to perform the technical requirements of this contract.
2. Provide a discussion associated with the major items identified above, such as the materials estimate includes a prompt payment discount of TBD% due to large volume discounts you have negotiated with your vendors.

iii. The projected liability cost associated with unused accrued paid leave associated with non-exempt personnel. Provide a copy of any Collective Bargaining Agreements in place and a current status of any upcoming negotiations with a union.

iv. Technical and Process Information:

Data Requirement Descriptions (DRDs):
DRD-FDOC-0002, Integrated Management Plan
DRD-FDOC-0007, Technical Metrics Plan and Reports
DRD-FDOC-0008, Government Property Management Plan
DRD-FDOC-0010, Information Technology (IT) Plan and Reports
DRD-FDOC-0012, Status Reports and Reviews (excluding Program Manager Status Review charts)
DRD-FDOC-0044, Configuration Management Plan
DRD-FDOC-0045, Level A and B Requirements

DRD-FDOC-0046, Interface Control Document
DRD-FDOC-0055, Design Specifications

d. Format: Electronic format of all submissions shall be compatible with IRD provided desktop standard applications or other ISS standard tools. Organizational format of the supporting documentation shall be the Contractor's format.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial/Final – One deliverable at the Contracting Officer's direction.
ii. Approval – N/A.
iii. Frequency – No periodic submissions required per this Data Requirement (DR) (this does not relieve the requirement for periodic or incremental deliveries per other DRs).

Maintenance: All models/tools and data items shall be maintained electronically. All documentation developed to support the use of each model/tool and data items shall also be maintained electronically. Both the models and the supporting documentation shall be updated as necessary to perform the assessments for which they were developed.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope:

i. Monthly Property Financial Reports are required to be submitted using CHATS. Monthly Financial Report will be submitted in accordance with PIC 04-12.
ii. Annual Property NF 1018 reports shall be submitted using the NF 1018 Electronic Submission System (NESS).
iii. The NF1018 shall be completed in accordance with NASA FAR Supplement (NFS) Subpart 1845.7101 and any supplemental guidance provided by the Contracting Officer.

c. Content:

i. Monthly Report General Instructions:

1. Monthly property financial reports are required with item level supporting data. This data shall be submitted for all items in the Contractor's and its subcontractors' possession with an acquisition cost of $100,000 or more, in the following classifications: real property, equipment, special test equipment, special tooling, and agency peculiar property. Monthly reporting is not required for property in the above classifications with an acquisition cost under $100,000. Monthly data shall also be submitted for items of any acquisition cost in the classifications of materials and contract work-in-process (WIP). Itemized monthly data is required for materials and WIP line items of $100,000 and over. Summary monthly data is required for materials and WIP line items under $100,000. The monthly reports shall be electronically submitted using the Contractor-Held Asset Tracking System (CHATS) (http://nasachats.gsfc.nasa.gov/) using the format described in the CHATS user's manual.
2. Acquisition costs shall be developed using actual costs to the greatest extent possible, especially costs directly related to fabrication such as labor and materials. Supporting documentation shall be maintained and available for all amounts reported, including any amounts developed using estimating techniques.
3. All Adjustments shall be thoroughly explained and directly related to a specific fiscal year. If the fiscal year cannot be determined, the default shall be the previous fiscal year.

ii. NF 1018 Reports:

1. Contractors shall report all NASA-owned property in US dollars, regardless of location.
2. Negative reports are required.
3. This reporting shall be completed in accordance with the NFS Subpart 1845.7101 and any supplemental guidance provided by the Contracting Officer.

d. Distribution:

i. The monthly reports shall be electronically submitted using the Contractor-Held Asset Tracking System (CHATS) (http://nasachats.gsfc.nasa.gov/) using the format described in the CHATS user's manual.

ii. NASA Form (NF) 1018 reports shall be submitted using the NF 1018 Electronic Submission System (NESS) (http://ness.gsfc.nasa.gov/).

e. Submission:

i. The data required for the monthly submission is due the 21st day after the close of the month. Example due dates for the monthly submission are as follows:

1. August 21 for the month ending July 31.
2. September 21 for the month ending August 31.
3. October 21 for the month ending September 30.

ii. The due date for the Financial Property annual submission (NASA Form 1018) is November 30.
iii. All reports shall be submitted electronically through the Contractor Held Asset Tracking System (CHATS).

f. Maintenance: Revisions shall be incorporated by change page or complete reissue.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Initial Baseline Report – 1, Monthly Report – 2

b. Format:

i. Baseline Report (establishes and documents the load allocation agreement per CWBS)

1. Monitory information shall be reported thru “Adjusted Total: Cost Plus Fee”.
2. Header information required includes, with the title, the accounting calendar period start and end dates (i.e. 06/23/09 – 07/30/09).
3. Separate Cost, EPs, and Hours reports shall include a summary roll up of 4th level CWBS at the Project level (as defined by NASA) by program (in accordance with NASA's financial coding structure) and CWBS. The source data file for these three reports, which includes separate Material, Labor, and ODC costs that reflect the Project level (as defined by NASA) by program (in accordance with NASA's financial coding structure) and CWBS, shall also be included in the electronic copy to the MOD Resources Office.
4. Data required – Columns:
   a. Month by Month Plan: Hours, Dollars, EPs (2080 hours/year for EP calculation),
   b. GFY Plan Total: Hours, Dollars, EPs.
5. Data required – Rows:
   a. Cost, Hours, EPs,
   b. Allocated line items,
   c. Total Adjusted Cost.

ii. Monthly Report

1. Monetary information shall be reported thru “Adjusted Total: Cost Plus Fee”.
2. Header information required includes, with the title, the accounting calendar period start and end dates (i.e. 06/23/09 – 07/30/09).
3. Separate Cost, EPs, and Hours reports shall include a summary roll up of 4th level CWBS at the Project level (as defined by NASA) by program (in accordance with NASA's financial coding structure) and CWBS. The source data file for these three reports, which includes separate Material, Labor, and ODC costs that reflect the Project level (as defined by NASA) by program (in accordance with NASA's financial coding structure) and CWBS, shall also be included in the electronic copy to the MOD Resources Office. Any revised reports shall be resubmitted to the MOD Resources Office prior to closure of the NASA accounting system.
4. Data required – Columns:
   a. Current Month Estimate: Hours, Dollars, EPs (2080 hours/year for EP calculation),
   b. Current Month Actuals: Hours, Dollars, EPs (2080 hours/year for EP calculation),
   c. FY Cum-to-Date Actuals: Dollars, Hours,
   d. Inception-to-Date (ITD) Actuals: Dollars, Hours,
   e. Next Month Estimate: Hours, Dollars, EPs (2080 hours/year for EP calculation),

f. Next Month Estimated (NME) Plan: Hours, Dollars, EPs (2080 hours/year for EP calculation),
g. Balance GFY: Hours, Dollars, EPs (2080 hours/year for EP calculation),
h. Estimate at Complete (EAC): Hours, Dollars, EPs (2080 hours/year for EP calculation), *Mod 10 – this requirement is hereby waived for FY09*.
i. GFY Plan through Current Month: Hours, Dollars, EPs.

5. Data required – Rows

a. Cost, Hours, EPs in accordance with NASA's financial coding structure,
b. Allocated line items in accordance with NASA's financial coding structure,
c. Total Adjusted Cost in accordance with NASA's financial coding structure.

iii. Cost Report Narrative: The Cost Report Narrative page shall be the first page of the Customer Cost Report following the cover page. Operating Days and Effective Hours (i.e. 19 days / 133 hrs) shall be included in the Narrative, as well as identification and explanation for any significant or unique events at the Project level by program (in accordance with NASA's financial coding structure) and CWBS.:

1. Prior Period Rate Adjustment; i.e., direct/indirect rates, G&A, etc.,
2. Miscellaneous adjustments; i.e., accounting correction, etc.
3. A +/- 10% variance from previous reporting period for the Prior Month's Estimate, the End of Year Estimate (EOY), the Estimate At Complete (ETC), etc.
4. A +/- 10% variance of monthly actual costs from Fiscal Year Operating Plan.

iv. The NF533M will be the official control document for actuals expended to date, and the Customer Cost Report will reconcile to the NF533M current month's and cum-to-date actuals. The estimate to complete (ETC) and estimate at complete (EAC) shall be adjusted to reflect a change in the current month's estimate and/or out-months.

c. Distribution: Per Contracting Officer's letter.

d. Submission:

i. Baseline Report:

1. Initial – 30 business days prior to contract start.
2. Approval – Initial contract – 12/15/08; Subsequent – Annually, as required by COTR Letter.
3. Frequency – Annually, as required by COTR letter.

ii. Monthly Report:

1. Initial – Synchronized with NF533M report.
2. Final – Synchronized with NF533M report.
3. Frequency –

a. Monthly; due no later than 10 business days following the close of the Contractor's monthly accounting period. Exception: January 2009 month-end data report is due February 12, 2009. The initial due date requiring EVM data is changed to May 8, 2009.
b. The due dates reflect the date the Customer reports are received by personnel on the distribution list, not the date the reports are generated or mailed by the Contractor. It is critical that the Customer reports are submitted in a timely manner to ensure adequate time for NASA to analyze and record the cost into the NASA accounting system.
c. The Contractor shall submit the Customer Cost Report prepared in accordance with instructions contained in NPD 9501.1H and NPR 9501.2D as amended or revised. Cost shall be identified and recorded in the period of time when the benefit is received or incurred without regard to the date of payment. Monthly forecast costs should reflect the most current and reliable data recognized by both technical community and finance personnel.

NF533 M Cost Reporting	5/9/2008	DRD-FDOC-0016	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

To provide Contractor Cost Reporting. The NASA Form 533 (NF533) reports provide data necessary for the following:

a. Projecting costs and hours to ensure that dollar and labor resources realistically support project and program schedules.
b. Evaluating Contractors' actual cost and fee data in relation to negotiated contract value, estimated costs, and budget forecast data.
c. Planning, monitoring, and controlling project and program resources.
d. Accruing cost in NASA's accounting system, providing program and functional management information, and resulting in liabilities reflected on the financial statements.

Cost is a financial measurement of resources used in accomplishing a specified purpose, such as performing a service, carrying out an activity, acquiring an asset, or completing a unit of work or project. NPR 9501.2D, NASA Contractor Financial Management Reporting, identifies the cost reporting requirements for a contract.

SOW 2.1 and 2.1.1

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Initial Baseline Reports – 1, NASA Forms 533 M – 2

b. NASA is required by law to maintain accrual accounting, which requires cost to be reported in the period in which benefits are received, without regard to time of payment. Examples of accrual accounting for common cost elements reported on the NF533 follow:

i. *Labor*: Reported to NASA as hours are incurred.
ii. *Equipment & Materials* (commercial off the shelf): Generally reported to NASA when received and accepted by the Contractor.
iii. *Manufactured Equipment*: Defined as any equipment that is produced to specific requirements that make it useless to anyone else without rework. Cost should be reported to NASA as the equipment is being manufactured. The straight-line method for estimating accrued costs or the use of supplemental information obtained from the vendor are acceptable methods used to calculate the cost accrual amount.
iv. *Leases*: Reported to NASA using a proration over the life of the lease.
v. *Travel*: Reported to NASA as costs are incurred.
vi. *Subcontracts*: Actual and estimated costs reported by prime contractors shall include subcontractors' incurred costs for the same accounting period. Where subcontract costs are material, they should be separately identified on NF533 reports. The prime contractor shall include in the total cost of each subdivision of work the accrued cost (including fee, if any) of related subcontractor effort. Subcontractors should, therefore, be required to report cost to the prime contractor, using the accrual method of accounting. If the G&A and fee reported by a subcontractor are at the total subcontractor level, these costs must be allocated to specific sub-divisions of work. Data submitted by the subcontractor should be structured similar to the prime contractor's NF533 to enable the prime contractor to properly report to NASA. For Firm Fixed Price subcontracts with a contract value greater than $500,000, the prime contractor is required to document the methodology used to generate the sub-contractor costs reported and provide this information to the Contracting Officer and Center Deputy Chief Financial Officer (Finance).

vii. *Unfilled Orders*: Reported as the difference between the cumulative cost incurred to date and amounts obligated to suppliers and subcontractors.

viii. *Fee*: Should be accrued as earned using a consistent and auditable method to determine the amount. For example: an acceptable method would be to use historical data to determine the amount to accrue each month. Fee should be reported on the NF533 following the "Total Cost" line. Award fee must be reported by the following categories: Base Fee, Fee Earned, Interim Fee, Provisional Fee, Potential Additional Fee, and Total Fee. If any of the above fee categories do not pertain, they should not be included in the NF533.

ix. *Prompt Payment Discounts*: Cumulative cost reported to NASA should be the full-incurred cost. The prompt payment discount amount taken should be reported as a separate line item on the NF533 below the cumulative cost amounts for the contract.

c. The NF533 reports are the official cost documents used at NASA for cost type, price determination, and fixed price incentive contracts. The data contained in the reports must be auditable using Generally Accepted Accounting Principles. Supplemental cost reports submitted in addition to the NF533 must be reconcilable to the NF533.

d. Uncompensated overtime hours worked should be reported on NF533 reports as a separate line item or in the footnotes.

e. An initial NF533 report is required in the NF533Q format to be used as a baseline for the life of the contract. In addition to the initial (baseline) report, monthly NF533 reporting shall begin no later than 30 business days after the incurrence of cost.

f. Column 7b (planned cost incurred/hours worked for the month) and 7d (cumulative planned cost incurred/ hours worked) of the NF533M represent the negotiated baseline plan for the contract. There may not be a relationship between the estimates provided in columns 8 of the NF533M to columns 7b and 7d. Columns 7b and 7d represent the legally binding contract negotiated baseline plan plus all authorized changes.

g. Short and long-term cost estimates, which include all data entered in columns 8 and 9a on the NF533M report, shall be based on the most current and reliable information available.

h. Prior period cost adjustments should be reported in column 7a and 7c of NF533M with a footnote discussing the reasons for and amounts of the adjustments.

i. Monthly NF533 reporting is no longer required once the contract is physically complete, provided the final cost report includes actual cost only (no estimates or forecasts). The Contractor must continue to submit monthly NF533 reports as long as estimates for the following period are included. If the final cost of a contract changes after the submission of the "final" contractor cost report, the Contractor must submit a revised NF533 report in the month the cost change is recognized.

j. Format: (See attached) The reports shall be prepared in accordance with NPD 9501.1H or its most current revision and NFS 1852.242-73 and as defined in the statement of work and by contracting officer's letter. All reports shall be provided electronically and in hard copy form. The Contractor shall report cost and hours via electronic submission or diskette and shall be compatible with Microsoft Excel. A hardcopy of the data shall accompany either method and shall be signed by the same person who signs the hard copy NF533. The totals of the submitted data shall agree with the NF533 totals.

i. Format Adjustments:

1. Information on all 533M pages is reported thru "Adjusted Total: Cost Plus Fee".
2. Addition of Government Fiscal Year (GFY) information:

a. GFY Cum-to-Date,
b. GFY EAC,
c. Balance of GFY.

3. 533 reports header section will contain the following information with title:

a. Accounting Calendar Period (i.e. July 20xx),
b. Accounting Calendar Period start and end dates (i.e. mm/dd/yy – mm/dd/yy),
c. Operating Days and Effective Hours (i.e. 19 days / 133 hrs).

ii. Electronic NF533 Requirement: In addition to submitting the NF533M in a hardcopy format, the Contractor, upon request, shall submit the NF533 electronically by the same due date as the hardcopy. The data shall be submitted via email using the Government prescribed flat file format (see attached Agency Defined File Format for an example of the layout details) and shall include the following header information from the hardcopy:

Data Element	Description
Contract Number	NASA assigned contract number
Modification Number	Latest definitive Modification Number
Accrual Date	Date the data was generated for
Report Period End Date	Period ending date of the NF533
Operating Days	Number of operating days for the current NF533
Date Received/Submitted	Date the report is submitted
CCR Format	Monthly (NF533M)
Cost Unit of Measure	Unit of measure used to report cost on the NF533 report
HR/WYE Unit of Measure	Unit of measure used to report Hours/Work Year Equivalents (WYEs) on the NF533 report
Authorized Contractor Representative	Name of Contractor Approving Officer
Authorized Contractor Representative Date Signed	Date the NF533 is approved and signed by the authorized Contractor Representative
Monthly Grand Total Cost Incurred (7a)	Grand Total Actual Monthly cost for the prior month (column 7a on the NF533)
Monthly Grand Total HR/WYE (7a)	Grand Total Actual monthly hours/WYEs for the prior month (column 7a on the NF533)
Monthly Grand Total Cost Planned (7b)	Prior month planned cost (column 7b on the NF533)
Grand Total Cost Incurred ITD (7c)	Grand total contract cost from Inception to Date (ITD) (column 7c on the NF533)
Grand Total Planned Cost (7d)	Grand total planned contract cost (column 7d on the NF533)
Grand Total Estimated Cost (8a)	Grand total current month cost estimate (column 8a on the NF533)
Grand Total Estimated HR/WYE (8a)	Grand total current month HR/WYE estimate (column 8a on the NF533)
Grand Total Next Month Estimated Cost (8b)	Grand total next month cost estimate (column 8b on the NF533)
Grand Total Balance of Contract (8c)	Contract Balance for the remaining estimate to complete (column 8c on the NF533)
Grand Total Contractor Estimate (9a)	Contractor estimate to complete entire scope of contract (column 9a on the NF533)
Grand Total Contract Value (9b)	Contractor distribution of contract value by the reporting categories (column 9b on the NF533)
Grand Total Unfilled Orders Outstanding (10)	Unfilled order outstanding at the end of the reporting period (column 10 on the NF533)

The flat file will also contain detail information for each Reporting Category (RC). A Reporting Category correlates to a task order, delivery order, or Work Breakdown Structure (WBS) and is the level at which cost is reported. Each RC can have Sub-Reporting Category line items (detailed cost elements) that add up to a RC.

The Contractor is required to coordinate with the NASA Resource Analyst assigned to the contract in order to establish and maintain the Reporting Categories the Contractor shall use to comply with this data requirement. The chart below describes the data elements to be included in this section of the flat file (see attached Agency Defined File Format for specific layout details).

Data Element Name	Description
Reporting Category (RC)	Task, Delivery Order, Work Breakdown Structure
Cost Incurred for Month (7a)	Prior month actual cost incurred for each RC (column 7a on NF533)
HR/WYE Incurred for Month (7a)	Prior month actual HR/WYE incurred for each RC (column 7a on NF533)
Contract prior month planned cost (7b)	Planned cost for prior month for each RC (column 7b on NF533)
Contract ITD cost (7c)	Contract ITD cost for each RC (column 7c on NF533)
Contract planned ITD cost (7d)	Contract planned ITD cost for each RC (column 7d on NF533)
Current month estimated cost (8a)	Cost estimate for the current month for each RC (column 8a on NF533)
Current month estimated HR/WYE (8a)	HR/WYE estimate for the current month for each RC (column 8a on NF533)
Next month estimated cost (8b)	Estimated cost for next month for each RC (column 8b on NF533)
Balance of Contract (8c)	Balance of contract for the remaining estimate to complete for each RC (column 8c on NF533)
Contractor Estimate (9a)	Contractor estimate for the total estimate to complete entire scope of contract for each RC (column 9a on NF533)
Contract Value (9b)	Contract value based upon contract modifications for each RC (column 9b on NF533)
Unfilled orders outstanding (10)	Unfilled orders outstanding at the end of the reporting period for each RC (column 10 on NF533)
Reporting Category level	Used by NASA's accounting system to determine the RC level
Reporting Category Identifier	Identifies if the RC is a actual Reporting Category or a Sub-Reporting

The flat file shall be saved as a text file with no extension (do not include .txt after the file name) and named in strict accordance with the specific format described in the attached Agency Defined File Format document.

File names must be provided in a specific format. Each file name will begin with the SAP 2 charter center abbreviation listed below. The contract number and date will be included in the file name as well. Example: **JOCFPS001_NAS00-0001_yyyy_mm_dd**

SAP 2 Charter Center Abbreviations:

Headquarters	HQ
Ames	AM
Dryden	DR
Glenn	GL

Goddard	GO
Johnson	JO
Kennedy	KE
Langley	LA
Marshall	MA
Stennis	ST

iii. Effective 10/1/14, the costs collected on WBS 1.4.12.X (Consolidated Facility Services) shall be allocated to and reported on WBS 1.4.2.X and WBS 1.4.5.X. The allocation percentages and projects shall be provided by NASA via TIRF. Each fourth level 1.4.12.X WBS (i.e. WBS 1.4.12.1) will be allocated to the corresponding fourth level 1.4.2.X and 1.4.5.X WBS (i.e., 1.4.2.1. and 1.4.5.1).

k. Distribution: Per Contracting Officer's letter.

l. Submission: The due dates for the NF533M reports are outlined in Chapter 3 of NPD 9501.1H. The following is a summary of the NF533 due date requirements.

i. Initial –

1. NASA Form 533M – No later than 30 business days after the incurrence of cost.
2. Initial Baseline Reports – An initial NF533 report is required in the NF533Q format to be used as a baseline for the life of the contract. The initial report shall reflect the original contract value detailed by negotiated reporting categories and shall be the original contract baseline plan.

ii. Final – N/A (see item 8.i.).

iii. Approval – Due 90 business days from contract start.

iv. Frequency –

1. 533M – Due not later than 10 business days following the close of the Contractor's monthly accounting period. Exception: The January 2009 month-end report due date is February 12, 2009.
2. The due dates reflect the date the NF533 reports are received by personnel on the distribution list, not the date the reports are generated or mailed by the Contractor. It is critical that the NF533 reports are submitted in a timely manner to ensure adequate time for NASA to analyze and record the cost into the NASA accounting system.

m. Maintenance: Change pages or complete reissue shall incorporate changes.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Wage/Salary and Fringe Benefit Data	5/9/2008	DRD-FDOC-0017	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
The Wage/Salary and Fringe Benefit Data shall be used by the NASA Contracting Officer and the Contract Labor Relations Office to provide the necessary data for submittal of Standard Form (SF) 98, Notice of Intention to Make a Service Contract and Response to Notice, to the Department of Labor, and to assist in the monitoring of Service Contract Act compliance.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.1; FAR 52.222-41, Service Contract Act of 1965

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: The Wage/Salary and Fringe Benefit Data shall be submitted by the Contractor, and any subcontractors, which are subject to the provisions of the Service Contract Act, to the Contracting Federal Agency. In accordance with FAR regulations 22.1007 and 22.1008, the Contracting Officer is required to submit an electronic form 98 to the Department of Labor, Wage and Hour Division.

c. Content: The Wage/Salary and Fringe Benefit Data shall contain the data included in the enclosed DRD forms, titled “Wage/Salary Rate Information”, “Fringe Benefit for Service Employees”, and Fringe Benefits per Collective Bargaining Agreement”. The Wage/Salary Rate Information shall contain a listing of all exempt and nonexempt labor classifications on the contract. Separate forms shall be utilized for classifications working in different geographic areas and for each subcontractor. Wage determination numbers, appropriate labor organization names, and subcontractor names, shall be reflected. All nonexempt labor classifications shall be matched to wage determination classes or to Collective Bargaining Agreement (CBA) classifications if union represented employees are working on the contract. Annotate exempt or nonexempt and union or nonunion. The current hourly rates shall reflect the actual lowest and highest paid employees, along with a computed average rate. State the number of employees in each labor category. Separate Fringe Benefit forms shall be completed for non-represented classifications and for each separate CBA, if applicable. A separate form shall be completed for the prime and each subcontractor. Three hardcopies of each CBA are required if organized labor is represented on your contract.

d. Format: The Wage/Salary and Fringe Benefit Data shall be in a format substantially the same as enclosed with this DRD. (Forms 2, 3, and 3A enclosed).

e. Distribution: Per Contracting Officer’s Letter - BH/Contracting Officer BA/Contract Industrial Relations Officer

f. Submission:

i. Initial – 30 calendar days following contract start.
ii. Frequency – Annually, 90 calendar days prior to the anniversary date of the contract.

g. Maintenance: Changes shall be incorporated as required by change page or complete reissue.

FORM 2

WORK SHEET FOR E-98 DATA
WAGE RATE INFORMATION

CONTRACTORS LABOR CLASSIFICATION	WAGE DETERMINATION CLASSIFICATION	EXEMPT OR NONEXEMPT	UNION OR NONUNION	CURRENT HOURLY RATE	MYE NO OF EMPLOYEES
Illustration of required data:					
Project Manager	Not Required	E	N	$25.00	1
Supervisor	Not Required	E	N	$20.00	1
Electrical Engineer	Not Required	E	N	$16.50 - $20.00	3
Technician, Jr	Elect Tech Main 1	N	U	$12.78 - $15.50	12
Technician, Sr	Elect Tech Main II	N	U	$18.20 - $20.00	4
Secretary	Secretary I	N	N	$11.11 - $12.50	2
File Clerk	General Clerk II	N	N	$8.29	1
Clerical Data Entry	Word Processor I	N	N	$9.25 - $10.90	3

Submit data in the above-illustrated format for all labor classifications used, or planned to be used, on this contract.
All contractor labor classifications shall be matched to wage determination classes listed in CBA's represented classes or classes shown in WD 2005-2516 for nonrepresented classes.

CONTRACTORS LABOR CLASSIFICATION	WAGE DETERMINATION CLASSIFICATION	EXEMPT OR NONEXEMPT	UNION OR NONUNION	CURRENT HOURLY RATE	MYE NO OF EMPLOYEES

_____ _____
Signature of Company Representative Date

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Fiscal Year (FY) Operating Plan and Planning, Programming, Budgeting, and Execution (PPBE)	5/9/2008	DRD-FDOC-0018	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
The Contractor shall provide a separate annual FY Operating Plan and PPBE addressing all of the services under this contract.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.1.3, 2.16, 3.1.2, and 3.1.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Op Plan – 1, PPBE – 2

b. Scope: The FY Operating Plan and PPBE will include a detailed analysis of the content and cost for the future Government Fiscal Year(s). The PPBE will contain a multi-year forecast as specified by requesting letter.

c. Content: The FY Operating Plan and PPBE shall include the plans associated with development, modification, sustaining, program support, and architecture and engineering support. Estimates of the resources required to perform the specified services of the contract. Estimates shall be provided by CWBS and shall include labor in EP and $, material in $ segregated by maintenance contracts, software licenses, spares, logistics and consumables, and contract total price in $. EP, labor hour, and $ estimates shall also be provided by source of funding, such as SSP, ISS, Cx, etc. A plan summary shall be provided which compares the total resources estimated by funding source to specified funding marks, and to the negotiated contract value.

   The FY Operating Plan shall include estimates by month. Technical work content to be achieved within the plan shall be described by list of tasks to be performed under Development, Modification, and Systems Engineering services. Each task shall be separately described by resource estimates for hardware and software engineering, committed or estimated completion dates, and external dependencies. The Contractor shall provide and maintain a master integrated facility schedule which identifies all projects and internal and external project dependencies.

   The PPBE shall designate estimates by FY. Technical work content to be achieved within the plan shall be described by list of equipment replacement and any other major projects to be performed under modification and systems engineering services. Each project shall be separately described with major milestones, external dependencies, and estimated completion dates.

d. Format: Electronic copy and hardcopy, as specified by NASA via TIRF.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – FY Op Plan: As required by TIRF; PPBE: As required by TIRF.
   ii. Final – FY Op Plan: As required by TIRF; PPBE: As required by TIRF.
   iii. Approval – FY Op Plan: 30 calendar days following submittal; PPBE: N/A.
   iv. Frequency – FY Op Plan: As required; PPBE: As required.

g. Maintenance: N/A.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Travel Plan	5/9/2008	DRD-FDOC-0019	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To describe the Contractor's projected travel requirements in support of objectives per fiscal year.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.1.3 and 3.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Travel Plan shall describe the travel plans and purpose required to meet the objectives per fiscal year.

c. Content: The Travel Plan shall address the Contractor's plans by SOW item. Identifying purpose, dates and duration for travel.

d. Format: Contractor’s electronic format is acceptable.

e. Distribution: Per Contracting Officer’s letter.

f. Submission:

i. Initial – Start of contract + 30 calendar days.
ii. Final – Start of contract + 45 calendar days.
iii. Approval – Start of contract + 60 calendar days.
iv. Frequency – Annually, with DRD-0018, Fiscal Year (FY) Operating Plan and Planning, Programming, Budgeting, and Execution (PPBE).

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Workforce Reports	5/9/2008	DRD-FDOC-0020	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide workforce information by geographic location.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*
None.	SOW 2.1

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: The reports provide workforce data by geographic location. There are two types of reports:

   i. Monthly Workforce Report by location,
   ii. As Requested Workforce Report.

c. Content: The monthly workforce report should provide Equivalent Personnel (EPs) by location, specifically on or off site (JSC), and by State for workforce outside of the Clear Lake area. The data should be reconcilable to other financial deliverables. The content of the As Requested Workforce Report will vary based on specific direction provided by NASA Headquarters to support congressional inquiries. Its most common form is an annual request to provide workforce by zip code.

d. Format: Specific formatting to be tailored by NASA and the Contractor.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – 10 business days after initial month end.
   ii. Final – N/A.
   iii. Approval – Due 90 business days from contract start.
   iv. Frequency –

      1. Monthly Workforce Report: Monthly, no later than the 10th day following the close of the accounting period.
      2. As Requested Workforce Report: As directed.
      3. With the FY Operating Plan and PPBE (reference DRD-FDOC-0018).

g. Maintenance: Changes shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Safety and Health Plan	5/9/2008	DRD-FDOC-0021	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Establishes Safety and Health Compliance Plan for contractors providing support to JSC organizations. ***The Office of Primary Responsibility for this DRD is the JSC Safety and Test Operations Division. NOTE: UPON NASA APPROVAL, THE CONTRACTOR'S SAFETY AND HEALTH COMPLIANCE PLAN ("The Plan") BECOMES A CONTRACTUAL REQUIREMENT.	☐ Technical ☐ Administrative ☒ SR&QA

Nonmanufacturing Facilities Community Right-To-Know Act	SOW 2.9

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Content: The requirements for this plan as detailed in the instructions on plan content below include instructions for specific reports and data to be submitted to the Government. These instructions are to be included in the plan and represent contractual commitments by the Contractor to provide this information.

1. MANAGEMENT LEADERSHIP AND EMPLOYEE PARTICIPATION

1.1 Policy: Provide the Contractor's safety and health compliance policy statement with the plan. Compare the Contractor's policy statement with those of NASA and OSHA and discuss any differences.

1.2 Goals and Objectives. Describe your approach to the following:

1.2.1 Specific annual safety and health goals and objectives to be met.

1.2.2 Methods to be used, if any, to improve on the Days Away Case Rate (DACR), the Total Recordable Injury Rate (TRIR), and the total Days Away plus Restricted Duty plus Job Transfer (DART).

1.3 Management Leadership. Describe management's procedures for implementing its sustaining commitment to safety and health compliance through visible management activities and initiatives including a commitment to exercise management prerogatives to ensure workplace safety and health. Describe processes and procedures to making this visible in all Contract and subcontract activities and products. Include a statement from the project manager or designated safety official indicating that the plan will be implemented as approved and that the project manager will take personal responsibility for its implementation.

1.4 Employee Involvement. Describe procedures to promote, implement, and sustain employee (e.g., non-supervisory) involvement in safety and health compliance program development, implementation and decision-making. Describe the scope and breadth of employee participation to be achieved so that approximate safety and health risk areas of the Contract are equitably represented. Describe methods to be used to obtain employee buy in and address the behavioral aspects of safety.

1.5 Assignment of Responsibility. Describe line and staff responsibilities for safety and health program implementation. Identify any other personnel or organization that provides safety services or exercises any form of control or assurance in these areas. State the means of communication and interface concerning related issues used by line, staff, and others (such as documentation, concurrence requirements, committee structure, sharing of the work site with NASA and other Contractors, or other special responsibilities and support). As a minimum, the Contractor will identify the following:

1.5.1 Safety Representative – identify by title, the individual who will be trained and certified in accordance with JPR 1700.1 to be responsive to Center-wide safety, health and fire protection concerns and goals, and who will participate in meetings and other activities related to the JSC Safety and Health program.

1.5.2 Company Physician/Occupational Injury/illness case manager – identify a point of contact who is responsible for the transfer or receipt of company medical data and who will be the primary contact for the company in the event any employee suffers a work related injury or illness (such as the company physician) by name, address, and telephone number to the JSC Occupational Medicine Clinic, mail code SD32. This will facilitate communication of medical data to Contractor management. Prompt notification to the JSC Occupational Medicine Clinic shall be given of any changes that occur in the identity of the point of contact.

1.5.3 Building Fire Wardens – provide a roster of fire wardens at the start of each Contract year (their names, telephone numbers and pagers, and mail codes). Contractor fire wardens are needed to facilitate the JSC fire safety program, including coordination of related issues with NASA facility managers and emergency planning and response officials and their representatives. Fire wardens will be trained in accordance with JPR 1700.1. The Roster shall be maintained by letter to the JSC Safety and Test Operations Division, mail code NS2, with copies to the Contracting Officer and the Contracting Officers Technical Representative. The initial letter shall be received by the Government not later than 15 days after contract start.

1.5.4 Designated Safety Official – identify by title the official(s) responsible for implementation of this plan and all formal contacts with regulatory agencies and with NASA.

1.6 Provision of Authority. Describe consistency of the plan for compliance with applicable NASA and JSC requirements and contractual direction as well as applicable Federal, State, and Local regulations and how compliance will be maintained throughout the life of the contract.

1.7 Accountability. Describe procedures for ensuring that management and employees will be held accountable for implementing their tasks in a safe, healthful, and environmentally compliant manner. The use of traditional and/or innovative personnel management methods (including discipline, motivational techniques, or any other technique that ensures accountability) will be referenced as a minimum and described as appropriate.

1.8 Program Evaluation. Describe your approach to safety and health program evaluation. The program evaluation consists of:

1.8.1 [Reserved]

1.8.2 A written self-evaluation report to be delivered once per year. The self evaluation shall be provided for the Contractor performance evaluation. The self-evaluation shall follow the VPP program evaluation report format found in OSHA CSP 03-01-003, Voluntary Protection Program (VPP): Policies and Procedures Manual, Appendix C, “Format for Annual Submissions”, as mandated by the cognizant OSHA regional office. Contractors who have submitted a written self-

evaluation as a VPP site may submit their original report to OSHA in lieu of writing a new self-evaluation provided that all action plans and status are updated. The self-evaluation shall as a minimum cover the elements of the approved safety and health plan.

1.9 Miscellaneous Reports. The Contractor will acknowledge the following as standing requests of the Government and to be handled as described below.

1.9.1 Roster of Terminated Employees. Identify personnel terminated by the contractor. Send to the JSC Occupational Health Officer, no later than 30 days after the end of each contract year. At the contractor's discretion, the report may be submitted for personnel changes during the previous year or cumulated for all years. Information required:

a. Date of report, Contractor identity, and Contract number.

b. For each person listed, provide name, social security number, and date of termination.

c. Name, address, and telephone number of Contractor representative to be contacted for questions or other information.

1.9.2 Material Safety Data Sheets (MSDS). The Contractor shall prepare and/or deliver MSDS for hazardous materials brought onto Government property or included in products delivered to the Government. This data is required by the Occupational Safety and Health Administration (OSHA) regulation, 29 CFR 1910.1200, "Hazard Communication", EPA "Emergency Planning and Community Right-to-Know (EPCRA, ref. 40 CFR 302, 311, 312); and the Texas Department of Health (TDH, ref. Chapters 505-507 of the Health and Safety Code), and Federal Standard 313 (or FED-STD-313), "Material Safety Data, Transportation Data and Disposal Data for Hazardous Materials Furnished to Government Activities", as revised. This inventory is also required by JPR 1700.1, "JSC Safety and Health Handbook", as revised. 1 copy of each MSDS will be sent upon receipt of the material for use on NASA property to the JSC Central MSDS Repository, maintained by the JSC Occupational Medicine Occupational Health contractor, along with information on new or changed locations and/or quantities normally stored or used. If the MSDS arrive with the material and is needed for immediate use, the MSDS shall be delivered to the Central MSDS Repository by close of business of the next working day after it enters the site.

1.9.3 Hazardous Materials Inventory. The Contractor shall compile an inventory report of all hazardous materials it has located on Government property quarterly, and which is within the scope of 29 CFR 1910.1200, "Hazard Communication"; and Federal Standard 313 (or FED-STD-313), "Material Safety Data, Transportation Data and Disposal Data for Hazardous Materials Furnished to Government Activities", as revised. This inventory is also required by JPR 1700.1, "JSC Safety and Health Handbook", as revised. The call for this inventory and instructions for delivery will be issued by the JSC Occupational Medicine Occupational Health contractor, mail code SD33. This information shall use the format used by JSC for chemical inventory compilation to provide the following:

a. The identity of the material (product number, chemical, manufacturer, and NSN as available.

b. The location of the material by building, room, and area/cabinet number.

c. The quantity of each material normally kept at each location (number of containers, container size, type container, unit of measure, conversion factor, storage temp & pressure, physical state/form, specific gravity, total pounds).

d. Peak quantity stored.

e. Actual or estimated rate of annual usage of each chemical.

1.10 Government Access to Safety and Health Program Documentation. The Contractor shall recognize, in its plan, that all safety and health documentation (including relevant personnel records) be available for inspection or audit at the Government's request. Electronic access by the Government to this data is preferred as long as Privacy Act requirements are met and Government safety and health professionals and their representatives have full and unimpeded access for review and audit purposes. For Contractor activities conducted on NASA property, the

Contractor will identify what records will made available to the Government in accordance with the criteria of OSHA as implemented in JPR 1700.1, "JSC Safety and Health Handbook", as revised. For the purpose of this plan, safety and health documentation includes but is not limited to: logs, records, minutes, procedures, checklists, statistics, reports, analyses, notes, or other written or electronic document which contains in whole or in part any subject matter pertinent to safety, health, or emergency preparedness.

1.11 Review and Modification of Safety Requirements. The Contractor may be requested to participate in the review and modification of safety requirements that are to be implemented by the Government including any referenced documents therein. This review activity will be implemented at the direction of the NASA Contracting Officer's Technical Representative (COTR) in accordance with established contractual procedures.

1.12 Procurement. Identify procedures used to assure that procurements are reviewed for safety and health compliance considerations and that specifications contain appropriate safety criteria and instructions. Set forth authority and responsibility to assure that safety tasks are clearly stated in subcontracts.

1.13 Certified Professional Resources. Discuss your access to certified professional resources for safety and health protection. Discuss their roles in motivation/awareness, worksite analysis, hazard prevention and control, and training.

2. WORKSITE ANALYSIS

2.1 Analysis of Worksite Hazards. Contractor worksite hazards shall be systematically identified through a combination of surveys, analyses, and inspections of the workplace, investigations of mishaps and close calls, and the collection and trend analysis of safety and health data such as: records of occupational injuries and illnesses, findings and observations from preventive maintenance activities, facilities related incidents related to partial or full loss of systems functions; etc. Describe how hazards identified by any of the techniques identified below shall be ranked, processed, and mitigated in accordance with JPR 1700.1. All hazards on NASA property, which are immediately dangerous to life or health, shall be reported immediately to the Safety and Test Operations Division. All safety engineering products that address operations, equipment, etc., on NASA property will be subject to JSC Safety and Test Operations Division review and concurrence unless otherwise waived by the JSC Safety and Test Operations Division.

2.2 Industrial Hygiene. Describe your industrial hygiene program and how it will be coordinated with the JSC Government provided resources for industrial hygiene. In the event corporate resources are used to determine workplace exposures, copies of all monitoring data shall be provided to JSC Occupational Medicine Occupational Health contractor within 15 days of receipt of results.

2.3 Hazard Identification. Describe the procedures and techniques to be utilized to compile an inventory of hazards associated with the work to be performed on this Contract. This inventory of hazards shall address the work specified in this Contract as well as operations and work environments in the vicinity or in close proximity to Contract operations. The results will be reported to the Government in a manner suitable for inclusion in facilities baseline documentation as a permanent record of the facility. Specific techniques to be considered include:

2.3.1 Comprehensive Survey – A "wall to wall" engineering assessment of the Contractor's worksite, which includes the Government furnished facilities to be used by the contractor and the immediate vicinity in which contractual work or tasks will be performed. This assessment encompasses facilities, equipment, materials, and processes.

2.3.2 Change (Pre-use) Analysis – Typically addresses modifications in facilities, equipment, processes, and materials (including waste); and related procedures for operations and maintenance. Change analyses periodically will be driven by new or modified regulatory and NASA requirements.

2.3.3 Hazard Analysis – May address facilities, systems/subsystems, operations, processes, materials (including waste), and specific tasks or jobs. Analyses and report formats will be in accordance with JSC-17773, "Preparing of Hazard Analyses for JSC Ground Operations."

2.3.4 The Contractors safety plan will describe the flow of the findings of the comprehensive survey of hazards into hazard analyses and job hazard analyses and subsequently into controls such as design, operations, processes, procedures, performance standards, and training. The contractor will discuss its approach to notify NASA and other parties external to the contract work of its identified hazards and subsequent analyses and controls.

2.4 Inspections. Includes assignments, procedures, and frequency for regular inspection and evaluation of work areas for hazards and accountability for implementation of corrective measures. The Contractor will describe administrative requirements and procedures for control of regularly scheduled inspections for fire and explosion hazards. The Contractor has the option, in lieu of this detail, to identify policies and procedures with the stipulation that the results (including findings) of inspections conducted on NASA property or involving Government furnished property will be documented in safety program evaluations or the monthly Accident/Incident Summary reports. Inspections will identify:

a. Discrepancies between observed conditions and current requirements, and,

b. New (not previously identified) or modified hazards.

c. Use of JSC's Hazard Abatement Tracking System to manage hazards onsite at JSC (see paragraph 3.12 below).

2.5 Protective Equipment – Set forth procedures for obtaining, inspecting, and maintaining all appropriate protective equipment, as required, or reference written procedures pertaining to this subject. Set forth methods for keeping records of such inspections and maintenance programs.

2.6 Employee Reports of Hazards – Identification of methods to encourage employee reports of hazardous conditions (e.g., close calls) and analyze/abate hazards. The Contractor will describe steps it will take to create reprisal-free employee reporting with emphasis on management support for employees and describe methods to be used to incorporate employee insights into hazard abatement and motivation/awareness activities.

2.7 Accident and Record Analysis

2.7.1 Mishap Investigation – identification of methods to assure the reporting and investigation of mishaps including corrective actions implemented to prevent recurrence. The Contractor will describe the methods to be used to report and investigate mishaps on NASA property and on Contractor or third party property. The Contractor will describe its procedures for implementing immediate notification of NASA using the call tree in 2.7.1.a below. The use of the quick incident reports found at the lower center of the home page of the NASA Incident Reporting Information System (IRIS) at https://nasa.ex3host.com/iris/newmenu/login.asp and use of NASA forms as specified in JPR 1700.1 or any alternate forms used by Contractor. The contingency plan will emphasize timely notification of NASA; preliminary and formal investigation procedures; exercise of jurisdiction over a mishap investigation involving NASA and other contractor personnel; preparation and submission of a formal report to NASA; follow up of corrective actions; communication of lessons learned to NASA; and solutions to minimize duplications in reporting and documentation including use of alternate forms, etc. The Contractor will discuss its procedures for immediate notification requirements for fires, hazardous materials releases, and other emergencies. The Contractor will include appropriate details to address the following:

Note: the NASA Form 1627 is not attached since it is a three part carbonless form not conducive to reproduction. This form is NOT available from JSC or NASA forms management; it can be obtained from the following link: http://jschandbook.jsc.nasa.gov/.

a. The Contractor will include a mishap contingency plan as part of the Safety and Health Plan which meets the requirements of NPR 8621.1B, "NASA Procedural Requirement for Mishap and Close Call Reporting, Investigating, and Recordkeeping", and JPR 1700.1, "JSC Safety

and Health Handbook." The plan will identify the method of immediately notifying NASA in the advent of a type A or B mishap or C property damage mishap and close call with equivalent potential so NASA may take custody of the mishap scene and initiate its investigation as soon as it is safe following the mishap. The Contractor will immediately contact the JSC Safety and Test Operations Division at 281-483-1935 for guidance when a Type A or B mishap or Type C property damage mishap occurs in the course of performing work on a NASA Contract in whole or in part. The contingency plan will clearly identify the Government investigation as taking precedence over any contractor investigation.

b. For Type C injuries and all lower level mishaps, the Contractor will perform its own investigation and submit a report to NASA in accordance with the requirements of NPR 8621.1. The Contractor will ensure that NASA is promptly notified of any Type D mishap so that NASA provides a civil servant to oversee the investigation in an ex officio capacity prior to start of any formal investigation. All initial reports and selected follow up reporting will be accomplished using IRIS.

c. When a NASA investigation is required, witnesses will be identified and their names and contact information provided to NASA investigator but witness statement must be requested and collected by NASA. Such statements will be retained by the Government as part of the mishap file in accordance with NPR 8621.1.

d. The Contractor will deliver to NASA mishap reports which shall include the data specified in NPR 8621.1 for the level of mishap. NASA approval and endorsements will be required as specified in NPR 8621.1 and included in the approved Safety and Health Plan.

2.7.2 Trend Analysis – Describe approach to performing trend analysis of data (occupational injuries and illnesses; facilities, systems, and equipment performance; maintenance findings; etc.). Discuss methods to identify and abate common causes indicated by trend analysis. In support of site-wide trend analysis to be performed by the Government, the Contractor will discuss method of providing data as follows.

a. Accident/Incident Summary Report – The Contractor shall prepare and deliver Accident/Incident Summary Reports as specified on JSC Form 288, "Accident/Incident Statistics" as revised. All new and open mishaps, including vehicle accidents, incidents, injuries, fires, and close calls shall be described in summary form along with current status. Negative reports are also required monthly. Report frequency is monthly; date due is the 10th days of the month following each month reported. Report to be delivered to the JSC S & MA Directorate through the Safety and Test Operations Division, mail code NS2, by fax to 281-244-0426 or by attaching to an e-mail and transmitting to JSC-Safety-Report-Submittals@mail.nasa.gov.

b. Log of Occupational Injuries/Illnesses

i. For each establishment on and off NASA property that performs work on this Contract, the Contractor shall deliver, to the Government, a copy of its annual summary of occupational injuries and illnesses (OSHA 300A or equivalent) as described in Title 29, Code of Federal Regulations, Subpart 1904.5 If the Contractor is exempt by regulation from maintaining and publishing such logs, equivalent data in Contractor's format is acceptable (such as loss runs from insurance carrier) which contains the data required by JSC Form 288.

ii. Data shall be compiled and reported by calendar year and provided to the Government within 45 days after the end of the year to be reported (e.g. not later than February 15 of the year following).

3. HAZARD PREVENTION AND CONTROL

3.1 Identified hazards must be eliminated or controlled. In the multiple employer environment of the Center, it is required that hazards including discrepancies and corrective actions be collected in a

Center wide information system Hazard Abatement Tracking System (HATS) for risk management purposes. Describe your approach to implementing this requirement.

3.2 Appropriate Controls. Discuss approach to consideration and selection of controls. Discuss use of hazard reduction precedence sequence (see JPR 1700.1). Discuss approach to identifying and accepting any residual risk. Discuss implementation of controls including verifying effectiveness. Discuss scope of coverage (hazardous chemicals, equipment, energies, etc.). Discuss need for coordination with safety, health, and emergency authorities at NASA.

3.3 Hazardous Operations and Processes. Establish methods for notification of personnel when hazardous operations and processes are to be performed in their facilities or when hazardous conditions are found to exist during the course of this Contract. JPR 1700.1 will serve as a guide for defining, classifying, and prioritizing hazardous operations; 29 CFR 1910.119 will be the guide for hazardous processes when the material or process meets the requirements therein. Develop and maintain a list of hazardous operations and processes to be performed during the life of this Contract. The list of hazardous operations and processes will be provided to JSC as part of the plan for review and approval. JSC and the Contractor will decide jointly which operations and processes are to be considered hazardous, with JSC as the final authority. Before hazardous operations or processes commence, the Contractor will develop a schedule to develop written procedures with particular emphasis on identifying the job safety steps required. NASA will have access on request to any Contractor data necessary to verify implementation. For all identified operations or processes that may have safety or health implications outside Contract operations, the Contractor shall identify such circumstances to the JSC Safety and Test Operations Division and Occupational Health Officer who will provide additional instructions for further NASA management review and approval.

3.4 Written Procedures. Identification of methods to assure that the relevant hazardous situations and proper controls are identified in documentation such as inspection procedures, test procedures, etc., and other related information. Describe methods to assure that written procedures are developed for all hazardous operations, including testing, maintenance, repairs, and handling of hazardous materials and hazardous waste. Procedures will be developed in a format suitable for use as safety documentation (such as a safety manual) and be readily available to personnel as required to correctly perform their duties.

3.5 Hazardous Operations Permits. Identify facilities, operations, and/or tasks where hazardous operations permits will be required as specified in JPR 1700.1 such as confined space entry, hot work, etc. Set forth guidance to adhere to established NASA JSC procedures. Clearly state the role of the safety group or function to control such permits.

3.6 Operations Involving Potential Asbestos Exposures. Set forth method by which compliance is assured with JSC Asbestos Control Program as established in JPR 1700.1, as revised.

3.7 Operations Involving Exposures to Toxic or Unhealthful Materials. Such operations must be evaluated by the JSC Occupational Health Office and must be properly controlled as advised by same. JSC Occupational Medicine must be notified prior to initiation of any new or modified operation potentially hazardous to health.

3.8 [Reserved]

3.9 Baseline Documentation. Discuss the Contractor’s responsibilities for maintaining facilities baseline documentation in accordance with JSC requirements. The Contractor will implement any facilities baseline documentation tasks (including safety engineering) as provided in the Contractor's plan approved by NASA or as required by Government direction.

3.10 Preventive Maintenance. Discuss approach to preventive maintenance. Describe scope, frequency, and supporting rationale for your preventive maintenance program including facilities and/or equipment to be emphasized or de-emphasized. Discuss methods to promote awareness in the NASA community (such as alerts, safety flashes, etc.) when preventive maintenance reveals design or operational concerns in facilities and equipment (and related processes where applicable).

3.11 Medical (Occupational Healthcare) Program. Discuss the Contractor's medical surveillance program and injury/illness case management to evaluate personnel and workplace conditions to identify specific health issues and prevent degradation of personnel health as a result of occupational exposures. Discuss approach to Cardiopulmonary Resuscitation (CPR), first aid, and, return to work policies and the use of Government provided medical and emergency facilities for the initial treatment of occupational injuries/illnesses.

3.12. Hazard Correction and Tracking. Discuss your system for correcting and tracking safety, health, and environmental hazards with particular emphasis on integration with JSC's Hazard Abatement Process (found online @ http://www.srqa.jsc.nasa.gov/HATS/). (The scope is restricted to establishments at JSC, Sonny Carter Training Facility, and Ellington Field.) This includes the following:

3.12.1 Personnel Awareness of Hazards. Discuss your approach to communicate unsafe conditions and approved countermeasures to your employees. Discuss your approach to communicating such conditions to the Government and other Contractors whose personnel may be exposed to such unsafe conditions. Discuss communications with Facility Managers. Discuss use of the NASA Lessons Learned Information System for both obtaining lessons from other sources and as a repository for lessons learned during performance of the Contract.

3.12.2 Interim and Final Abatement Plans – Describe how you will approach interim and final abatement of hazards. Describe how you will provide data to the JSC HATS for all hazards within Contractor-occupied facilities that are not finally abated (all interim and final abatement actions completed) within 30 days of discovery. Discuss your approach to posting such plans using JSC Form 1240, "JSC Notice of Safety or Health and Action Plan", or equivalent. Discuss compatibility of your system with JSC's role of facility managers in abatement planning, implementation, and verification.

3.13 Disciplinary System. Describe your system for ensuring safety and health discipline in your personnel (including subcontractors). Describe your approach to modifying personnel behaviors when personnel are exhibiting discrepant safety and health performance.

3.14 Emergency Preparedness. Discuss approach to emergency preparedness and contingency planning which addresses fire, explosion, inclement weather, etc. Discuss compliance with 29 CFR 1910.120 (HAZWOPER) and role in JSC Incident Command System (see JPR 1700.1 for details). Discuss methods to be used for notification of JSC emergency forces including emergency dispatcher, safety hotline, director's safety hotline, etc. Discuss establishment of pre-planning strategies through procedures, training, drills, etc. Discuss methods to verify emergency readiness.

4. SAFETY AND HEALTH TRAINING

4.1 Describe the Contractor's training program including identification of responsibility for training employees to assure understanding of safe work practices, hazard recognition, and appropriate responses for protective and/or emergency countermeasures, including training to meet Federal, State, and Local regulatory requirements.

4.2 Describe approach to identifying training needs including traceability to exercises such as job safety analyses, performance evaluation profiles, hazard analyses, mishap investigations, trend analyses, etc.

4.3 Describe approach to training personnel in the proper use and care of personal protective equipment (PPE).

4.4 Discuss tailoring of training towards specific audiences (management, supervisors, and employees) and topics (safety orientation for new hires, specific training for certain tasks or operations).

4.5 Discuss approach to ensure that training is retained and practiced. Discuss personnel certification programs. Certifications should include documentation that training requirements

and physical conditions have been satisfied (examples include physical examination, testing, and on-the-job performance).

4.6 Address utilization of JSC safety and health training resources (such as asbestos worker training/certification, hazard communication, confined space entry, lockout/tagout, etc.) as appropriate with particular emphasis on programs designed for the multiple employer work environment on NASA property. If the Contractor wishes to train their personnel in any regulatory mandated training, an agreement will be secured with JSC Occupational Safety Branch and Occupational Health and Test Operations Division and the JSC Occupational Health Officer Support office prior to beginning training. The agreement will ensure that safety and health training resources available from NASA are utilized where appropriate.

4.7 Discuss approach to making all training materials and training records available to NASA, and other Federal, state, and local agencies for their review upon request.

c. Format:

i. Cover page – To include as a minimum, blocks for the signatures of Contractor's project manager and designated safety official; NASA COTR; JSC Safety and Test Operations Division; JSC Occupational Health Officer; and the NASA Contracting Officer. Other signatures may be required at the discretion of the Government. Once approved by NASA, signatures will be collected and the plan placed on the contract.
ii. Table of Contents – See content above.
iii. Body of plan – As required. Contractor’s format is acceptable but shall be traceable to the elements of the content above.
iv. When preparing its plan, the Contractor is expected to review all the items above and tailor its plan accordingly. The plan shall clearly identify those resources to be provided by the Contractor and proposed resources to be provided by the Government. This review and supporting rationale is to be made available to the Government as part of this plan. It can be documented as a checklist or outline, inserted directly in the body of the plan, or in any format developed by the Contractor that clearly conveys the results of this review including the basis for any underlying assumptions.

d. Distribution: Per Contracting Officer’s letter.

e. Submission:

i. Initial – Due with proposal.
ii. Final – Due 60 calendar days after contract award.
iii. Approval – Start of contract.
iv. Frequency – As required.

f. Maintenance: Review the plan annually or as directed by the CO. The plan shall be updated to meet the latest OSHA, JSC, and VPP requirements. Provide a copy of the updated plan with the changes highlighted to the distribution list above at the start of each Contract year. If no changes are required after the annual review, notify the individuals in the distribution list in writing to that affect.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Safety and Health Program Self-Evaluation	5/9/2008	DRD-FDOC-0022	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Self evaluation of Contractor's safety and health program performance.	☐ Technical ☐ Administrative ☒ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*
JPR 1700.1, JSC Safety and Health Handbook	SOW 2.9

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: The Contractor shall conduct an annual self-evaluation of its safety and health program as required by its safety and health plan.

c. Content:

i. The internal assessment of safety and health program effectiveness during the report period (i.e., the previous year) indicating the status of goals or objectives previously established and areas of strength and weakness in Contractor safety program performance.
ii. Safety and health concerns and resolutions relating to JSC operations, which may have been identified during the report period.
iii. Unresolved safety and health concerns relating to JSC operations which the Contractor feels merit attention of JSC safety and health management.
iv. The goals and objectives of the Contractor safety and health program for the next report period.
v. An analysis of the Contractor's performance, at JSC-administered establishments, in each of the 32 Voluntary Protection Program sub-elements as found in the Federal Register of July 24, 2000 (available at the following link): http://www.osha-slc.gov/FedReg_osha_data/FED20000724A.html
vi. Action plans shall be attached for identified problem areas. Action plans shall include schedule for periodic progress reports to the Government. Frequency of status reports shall to be agreed to by the Government and the Contractor for each problem area.

d. Format: As specified in OSHA TED 8.1, "Revised Voluntary Protection Programs (VPP) Policies and Procedures Manual", Appendix H (Program Evaluation Report), Attachment 2 (VPP Onsite Evaluation Format for Safety and Health Programs) for a STAR work site which is found at the following link: http://www.osha-slc.gov/OshDoc/Directive_data/TED_8_1A.html. Also, as mandated by the cognizant OSHA regional office. Contractors who have submitted a written self-evaluation as a VPP site may submit their original report to OSHA in lieu of writing a new self -evaluation provided that all action plans and status are updated.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – N/A.
ii. Final – September 30 of each year.
iii. Approval – N/A.
iv. Frequency – Annually.

g. Maintenance: N/A.

Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.9

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: Detailed System Safety requirements differ according to different flight programs. The elements of a System Safety Program Plan (SSPP) as outlined below are generic; refer to the appropriate applicable references listed above for specific program requirements. System Safety Program Plans are to be tailored for individual safety engineering projects as integral parts of a formal, disciplined system safety program plan implemented by the Contractor.

c. Content: System Safety Program Plan Requirements:

i. Source Documents. The initial issue of the documents cited herein (including those of any applicable amendments and revisions) shall be as reflected in the contract schedule.

ii. General. The System Safety Program Plan shall be documented in narrative format and shall:

1. Describe the scope of the project for which the safety engineering activity is to be tailored.
2. Describe any interrelationships to other contract requirements, tasks and functional elements including appropriate cross references to minimize duplication.
3. List the Contractor and NASA documents, which shall be applied either as directives or as guidance in the conduct of the SSPP and related system safety tasks.
4. Identify the system safety engineering requirements, tasks, and responsibilities on an item-by-item basis in accordance with the schedule.

iii. Content:

1. System Safety Engineering Organization. The SSPP shall describe:

a. The system safety organization or function within the organization of the contract including charts to show the organizational and functional relationships and lines of communication.
b. The responsibility, authority, and accountability of system safety personnel and other Contractor organizational elements (including subcontractors) involved in the system safety effort. Identify each organizational unit responsible for executing each task. Identify the authority in regard to resolution of all identified hazards. Include the title, address, and telephone number of the System Safety Program Manager.
c. The staffing of the system safety organization for the duration of the project including manpower loading and qualifications of assigned key personnel.
d. The procedures by which the Contractor shall integrate and coordinate the system safety efforts. Include methods of dissemination of system safety requirements to action organizations and subcontractors; coordination of subcontractors' system safety programs;

integration of hazard analyses; management and engineering reviews; program status reporting; and the identities and charters of any system safety groups.

e. The process through which contractor management decisions shall be made to include notification and subsequent actions for the following: critical and catastrophic hazards; corrective actions taken; mishaps or malfunctions; waivers to safety requirements; and program deviations.
f. The interfaces between the system safety organization and all other applicable disciplines such as Engineering, Occupational Safety and Health, Reliability, Quality Assurance, Medical Support, etc., at all levels of the project (NASA, contractor, and subcontractor.)

2. System Safety Project Milestones. The SSPP shall:

a. Identify safety milestones required accomplishing evaluations of the effectiveness of the system safety effort at critical safety checkpoints (such as design reviews, self-evaluations, operational readiness reviews, audits, etc.)
b. Provide a contract schedule of safety tasks showing start and completion dates, reports, review, and man loading, in relationship to other contract milestones.
c. To preclude duplication identify integrated system activities (i.e., design analyses, test, demonstrations, etc.) applicable to the system safety program but specified within other engineering tasks. Include as part of this section the estimated system safety manpower loading required to accomplish these integrated tasks.

3. System Safety Requirements. The SSPP shall:

a. Describe or reference the methods that shall be used to identify and apply hazard control requirements and criteria for the design and operation of equipment, software, and facilities, and for procedures covering all phases of acquisition specified in the schedule. List the safety standards and system specifications, which are the sources of safety requirements with which the contractor either is required to comply or intends to adopt as a requirement.
b. Describe the risk assessment procedures including the hazard severity categories, hazard probability (or frequency) levels, and the precedence to be followed in satisfying safety requirements. State any qualitative or quantitative measures of system safety, which the contractor is required to meet, including a description of the acceptable risk levels. Include system safety definitions, which are in addition to those in JSC documents or are unique to the project covered by the SSPP.
c. Describe the management controls that shall be used to ensure compliance or justify waivers and deviations with general design and operational safety criteria and the closed loop procedures to ensure hazard resolution and control.

4. Hazard Analyses. The SSPP shall describe:

a. The analysis techniques and format that shall be used in qualitative and quantitative analysis to identify hazards, their causes and effects, and recommended corrective actions.
b. The depth to which each analysis technique shall be used within the system, operation, or scenario being analyzed. This description shall include identification of hazards associated with the system, subsystem, components, personnel, support equipment, government furnished equipment, facilities, and their interrelationships in the logistics support, training, maintenance, transportability, operational environments, and phase out or disposal.
c. The integration of subcontractor hazard analyses and techniques within the overall project including contractor hazard analyses.
d. The techniques to be used to establish a single closed loop tracking system.

5. System Safety Data. The SSPP shall:

a. Describe the approach for researching, disseminating, and analyzing pertinent historical hazard or mishap data.
b. Identify deliverable data and the level of approval required for customer acceptance. Attach a copy of the appropriate sheets from the data requirements list (DRL) of the schedule.

c. Identify safety related non-deliverable data and describe the procedures for accessibility by NASA and the retention of data.

6. Safety Verification and Audits. The plan shall describe:

a. The verification and audit requirements and procedures for ensuring that the objectives and requirements of the system safety program have been adequately demonstrated and implemented.
b. The procedures for ensuring feedback of safety-pertinent information for management and engineering review and analysis.
c. The review procedures established by the contractor's system safety organization to ensure safe conduct of hazardous tests with particular emphasis on those involving human test subjects.

7. Training. Describe techniques and procedures to be used by the contractor to ensure that the objectives and requirements of the system safety program are implemented in training for engineers, test subjects, technicians, operators, and support (including maintenance) personnel.

Authority: NFS 1852.223-70, 1852.223-73, 1852.223-73 (Alt 1); JPI 52.223-92, JSC Hazardous Materials Use

d. Format: Contractor’s electronic format is acceptable.

e. Distribution: Per Contracting Officer’s letter.

f. Submission:

i. Initial – Due at contract award + 2 business days.
ii. Final – Due 30 calendar days before start of contract.
iii. Approval – Start of contract.
iv. Frequency – As required.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1 – Plan, 2 – Training Report

b. Scope: A contract specific Quality Plan shall be prepared which identifies activities performed both on-site and off-site of JSC to ensure the quality products and services. The Quality Plan is to be submitted with the Contractor's proposal. The plan shall be approved by the Contracting Officer concurrent with contract award.

c. Content:

i. The quality plan shall address each element of ANSI/ISO/ASQ Q9001-2000, Quality Management Systems Requirements and the additional requirements identified below:

1. Identify the methods, procedures, and controls that shall be used to ensure the quality, quantity, and timeliness of the required contract requirements.
2. Explain how training shall be provided to personnel responsible for quality assurance, quality engineering, and software quality assurance on-site at JSC, including JSC processes for Discrepancy Reporting and Tracking, Work Authorization Documents (Task Performance Sheets) and Flight Equipment Pre-Shipment Readiness Review.
3. Explain in detail how in-line quality assurance (Quality Assurance, Quality Engineering, and Software Quality Assurance) shall be performed on-site at JSC. Include discussion of specific allocation of responsibilities, authority and resources.
4. Describe how controlled work instructions shall be provided to all applicable employees, on and off-site JSC.
5. Explain how timely review of technical documents that affect quality and changes thereto shall be performed.

6. Describe participation including responsibilities/activities in design reviews.
7. Explain how quality aspects are ensured and fully included in all designs and are continuously maintained in the fabricated articles and during operations.
8. Explain and ensure how quality requirements are implemented and satisfied throughout all phases of contract performance, including preliminary and engineering design, development, subcontracting, fabrication, processing, assembly, inspection, test, checkout, packaging, shipping, storage, maintenance, field use, flight preparations, flight operations, and post-flight analysis, as applicable, on and off-site JSC.
9. Explain how to ensure, monitor, measure, and control the quality of products produced by the contractor and subcontractors. Explain how the Contractor shall ensure that products, which do not conform to product requirements, are identified and controlled to prevent their unintended use or delivery.
10. Describe the methodology for inspection and test planning (economical and effective use of personnel, facilities and equipment) for both off and on-site.
11. Describe the methodology/criteria for assigning itinerate or resident quality assurance personnel at subcontractor or supplier facilities.
12. Explain how the monitoring and measuring, and cross-utilization of personnel will be performed to assure that contract products and services shall not be negatively affected.
13. Describe the Contractor's techniques, procedures, and mechanisms to ensure quality output despite schedule and/or priority pressures.
14. Provide and explain the schedule, including milestones, outlining the Contractor's plan on accomplishing ANSI/ISO/ASQ Q 9001-2000 compliance within one year of the contract award date.
15. Explain how inspection or other activities necessary for ensuring that purchased product meets specified purchase requirements shall be established.
16. Explain how to verify that all personnel performing work affecting product quality are competent as a result of appropriate education, training, skills, and experience. In addition explain the system that shall be used to monitor and maintain this level of personnel competency required during the duration of the contract.
17. Describe the responsibilities and requirements for planning and conducting audits (internal and external), and for reporting results and maintaining records.
18. Explain the process of involvement in waivers and deviations when quality assurance is affected.
19. Explain the methods for measuring the achievement of the Contractor's quality objectives.

ii. The Contractor shall deliver a Training Report. The report shall include the following information:

d. Format: The Quality Plan format shall match the elements of the ANSI/ISO/ASQ Q 9001-2000.

e. Standards for Electrical and Electronic Equipment and Parts: The Contractor shall comply with the following standards in the design, manufacture, and maintenance of electrical and electronic equipment or applications under FDOC:

i. Soldering, Through-Hole Technology: use DD-UWI-0013 - MOFD Contractor Solder Document
ii. Soldering, Surface Mount Technology: use
iii. Crimping, Cable, and Harness: use NASA-STD-8739.4, Crimping, Interconnecting Cables, Harnesses and Wiring
iv. Conformal Coating and Staking: use NASA-STD-8739.1, Workmanship Standard for Staking and Conformal Coating of Printed Wiring Boards and Electronic Assemblies
v. Fiber Optics: use DD-UWI-0014 - MOFD Contractor Fiber Optic DocumentElectrostatic Discharge Control (ESD):
vi. Rigid Printed Wiring Board (PWB) Design:
vii. Rigid Printed Wiring Board (PWB):
viii. Solderless Wire-wrapped Electrical Connections: use MIL-STD-1130B, Connections, Electrical, Solderless Wrapped

f. Distribution: Per Contracting Officer's letter.

g. Submission:

i. Initial – Due with proposal.
ii. Final – Start of contract + 30 calendar days.
iii. Approval – Start of contract + 90 calendar days.
iv. Frequency – Quality Cost Data, as required; Surveillance Report, within 10 calendar days following the end of each quarter (i.e. April 10, July 10, etc.); Training Reports, no later than January 15 of each calendar year.

h. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: Plan – 1

b. Scope: Software Assurance includes Quality Assurance, Quality Engineering, Verification and Validation, Non-conformance Reporting and Corrective Action, Safety Assurance, Software Reliability, and Security Assurance. Software Assurance activities are conducted during the software development life cycle. The phases of the software development life cycle are:

i. Concept and Initiation Phase,
ii. Requirements Phase,
iii. Design Phase,
iv. Implementation Phase,
v. Integration and Test Phase,
vi. Acceptance and Delivery Phase,
vii. Operations Phase,
viii. Transition to Sustaining Phase,
ix. Maintenance Phase.

Software Quality Assurance applies to all software developed for NASA, including deliverable software, software included as part of deliverable hardware (including firmware), non-deliverable software (commercially available or user-developed) used for development, fabrication, manufacturing process control, testing, or acceptance of deliverable software or hardware (test and acceptance software; software design, test, and analysis tools; compilers; etc.), and commercially available (COTS), reused, or government-furnished software (GFS).

c. Content: The Contractor shall provide a Software Assurance Plan in accordance with IEEE 730-2002 Standard for Software Quality Assurance Plans. The Software Assurance Plan shall identify the software assurance approval authority responsible for the establishment and composition of all software baselines and any changes to the baseline per NASA-STD-8739.8, Sec.6.3.2.1. Format: Hardcopy and electronic document, JSC web accessible.

d. Distribution: Per Contracting Officer's letter.

e. Submission:

i. Initial – Due with proposal.
ii. Final – Start of contract + 45 calendar days.

iii. Approval – Start of contract + 90 calendar days.
iv. Frequency – Review as required, annually at a minimum.

f. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Government Industry Database for Electronic Parts (GIDEP) and NASA Advisory Problem Data Sharing and Utilization Program Documentation and Reporting	5/9/2008	DRD-FDOC-0027	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

This DRD provides the minimum information to be incorporated into the Contractor's and sub tier contractor implementation procedures and contractual data reporting requirements to comply with the requirement to participate in GIDEP and NASA Advisory Problem Data Sharing and Utilization Program. Data types include:

a. Contractor and sub tier implementation procedures,
b. Preparation and submittal of GIDEP documents,
c. Coordination of potential NASA Advisories with the NASA-JSC Advisory Coordinator,
d. Task management, control, and tracking status,
e. Milestone/mission support (assessment/impact status reports),
f. Cost data on special problems (involving criminal investigations).

5. DRD Category: *(check one)*

d. Non-Conforming Parts and Materials Reports

7. Interrelationships *(e.g., with other DRDs) (Optional)*

SOW 2.11

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: Incidents involving non-conforming products or materials are to be reported through the GIDEP Reporting System to comply with Government Policy as defined by Office of Federal Procurement Policy, Policy Letter No. 91-3 (Appendix D of GIDEP Operations Manual, SO300-BT-PRO-010). Generic problems reported by GIDEP or NASA Advisory distribution networks shall be assessed to determine if there is a real or potential impact on the program or program assets. Generic problems experienced by the program or by program assets shall be reported in the GIDEP or NASA Advisory network, as appropriate. Management documentation shall be adequate to ensure that (1) the subject problem data are received, properly distributed, and thoroughly assessed for potential impact; (2) identified impact issues are resolved or corrected with NASA program management concurrence; (3) cost data for special problem issues are accumulated and reported; and (4) all this information is captured and retained in a database. Special controls shall be implemented to comply with the confidentiality of the problem reports involving criminal investigations. The implementation procedures shall address this special need for the control of information with the restricted distribution as well as the need to track and report the cost of the problem investigation and resolution.

c. Content:

i. The Contractor and sub tier Implementation procedures shall provide details that shall ensure that the Contractor understands and shall implement these procedures, which cover the scope; task importance; management responsibilities; technical expertise to identify and resolve any impacts; "special problem" information sensitivity; and documentation necessary to comply with GIDEP and NASA policies.

ii. GIDEP documents are to comply with the GIDEP Operations Manual and Policy requirements for the appropriate document being prepared and released.
iii. NASA Advisories are to comply with contents as required to complete the JSC NASA Advisory Form, JSC Form 1159 (JF1159), and to accurately report the problem and conditions.
iv. Implementation documentation shall include an index of problem reports received and assessed for impact; hardware/systems/subcontractors subject to the assessments; status of the impact assessments by problem report by hardware/system/subcontractor; and corrective actions for problems with identified impacts, including (1) NASA program management involvement and concurrence, (2) required supporting documentation for all problems experienced on the program/project that meet the criteria for release of a GIDEP report or NASA Advisory and the released GIDEP reports and NASA Advisories, and (3) any other data required to comply with the applicable GIDEP and NASA documents.
v. Details of the required milestone/mission support efforts and reports with the associated roles and responsibilities shall be provided.
vi. Financial data to justify and substantiate any reported "cost impacts" are to be included.

d. Format: Electronic submittal is the preferred medium for providing access to or submittal of information and data under this DRD. Format guidelines are as follows:

i. The Contractor's format is acceptable for their internal implementation procedures.
ii. GIDEP documents are to be prepared on the appropriate GIDEP form found in the GIDEP Operations Manual.
iii. NASA Advisories are to be prepared on the JSC NASA Advisory Form, JF1159.
iv. The Contractor's format is acceptable for providing the "Task Management, Control, and Tracking Status," as long as it includes all the necessary information. An electronic database with access permission to appropriate NASA personnel is preferred.
v. Formats for these reports are to comply with the applicable milestone/mission event.
vi. Cost data are to be provided as required by the financial management reporting system and as necessary to substantiate the data being submitted in support of criminal investigations.

e. Distribution: Per Contracting Officer’s letter.

f. Submission:

i. Initial –

1. Contractor and sub tier implementation procedures (60 calendar days after contract award); also identification of a Point of Contact (POC) to the NASA Advisory Coordinator at jsc-jscadvoc@mail.nasa.gov
2. Release of GIDEP documents (in compliance with GIDEP Operations Manual and Policy).
3. Coordination for Release of NASA Advisories (in accordance with NASA policy).
4. Problem data assessments (30 calendar days after receipt of the problem data).
5. Milestone/mission support (as required to support the milestone or mission events).
6. Cost data (as required for special problems involving criminal investigations).

ii. Final – N/A.
iii. Approval – N/A.
iv. Frequency – As required.

g. Maintenance: Data shall be maintained as required to:

i. Document the current implementation procedures and GIDEP and NASA Advisory policies.
ii. Ensure that the released GIDEP information is complete, factual, accurate, and up to date.
iii. Ensure that the released NASA Advisory information is complete, factual, accurate, and up to date.
iv. Tracking status provided periodically to demonstrate complete accomplishment of the task.
v. Stay current and accurate or as requested to support management activities.
vi. Substantiate submitted costs or to include additional costs as they are identified.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Non-conformance Record Template	5/9/2008	DRD-FDOC-0028	NNJ09HD46C

Problem Reporting and Corrective Action (PRACA) for Johnson Space Center (JSC) Government Furnished Equipment (GFE), ANSI/ISO/ASQ Q9001-2000, Quality Management Systems Requirements	SOW 2.11

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: This DRD establishes the minimum data elements necessary to provide records of the closed loop system for the control of non-conforming products. Non-conformance shall commence with initial receipt of materials or articles for the procurement and continue through all subsequent phases of the program. A non-conformance is defined as when an item fails to meet a specified requirement.

c. Content: The record shall contain the following data elements:

   i. A unique and traceable number,
   ii. Identification of the non-conforming article or material:

      1. Nomenclature,
      2. Part identification number,
      3. Serial no./Lot no./Version,
      4. Manufacturer's name or the Manufacturer's Contractor and Government Entity (CAGE) code (preferable),

   iii. The date the non-conformance was discovered,
   iv. The name of the initiator of the non-conformance record,
   v. A description of the non-conformance including a description of the required characteristics or specification,
   vi. The type of activity being conducted (e.g., fabrication, assembly, qualification test, system test, pre-delivery or pre-installation test, etc.). Reference shall be made to applicable procedure numbers,
   vii. When appropriate, identification of the next higher assembly:

      1. Nomenclature,
      2. Part identification number,
      3. Manufacturer's name or the Manufacturer's CAGE code (preferable),

   viii. Disposition of the non-conforming article or material,
   ix. The signatures of the personnel authorized to provide disposition,
   x. Verification that the prescribed disposition was acceptably completed,
   xi. When applicable, a cross-reference to an associated PRACA reports.

d. Format: Contractor's format.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – Due at contract award + 2 business days.
   ii. Final – Due 90 calendar days after contract award.
   iii. Approval – Due 180 calendar days after contract award.
   iv. Frequency – As required.

g. Maintenance: Revisions shall be incorporated by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Obtains Lessons learned from Contractor for possible publication in NASA Lessons Learned Information System (LLIS).	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.9 DRD-FDOC-0021

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: Criteria for Selecting Lessons Learned. Uncommon insight arising from any event or observation that shall benefit from sharing with a larger community of interested parties. Lessons learned are intended to prevent recurrence of undesirable events and to allow NASA and its team members to capitalize to the greatest extent practical on unique successes.

c. Content:

i. Subject – one line subject of the lesson,
ii. Lesson Learned – usually one sentence that describes insight gained,
iii. Description of Event – narrative of what happened,
iv. Recommendations – may be an action plan, suggestion, etc., that was adopted at event source,
v. Supporting documentation – as needed to give clear picture of lesson (photographs, illustrations, drawings, etc.),
vi. Contact name and e-mail address (for follow up by Government prior to publication of lesson),
vii. Definitions (refer to NASA LLIS at http://llis.gsfc.nasa.gov/ for definitions of terms used).

d. Format: Per Contractor format.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – N/A.
ii. Final – N/A.
iii. Approval – N/A.
iv. Frequency – 30 calendar days after triggering event or 30 calendar days after mishap investigation or hazard analysis / evaluation is completed.

g. Maintenance: N/A.

SSP-50525, ISS Ground Segment SART Security Management Plan (SSMP)	

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Security Management Plan shall describe the Contractor's approach for meeting and maintaining the integrity of the security baseline. The plan shall address the security requirements for facilities, systems, equipment, personnel, information, classified automated information systems, communications, sensitive IT security procedures, COMSEC, and Secure Operations Procedures. This plan establishes the security procedures and Government/contractor relationships, and assigns responsibilities for all physical, personnel, and IT security required for the activity specified in the SOW. It is applicable to all contractor and subcontractor personnel, operations and procedures. This plan includes all facilities on FDOC as specified in this SOW.

c. Content: The management structure, processes, reporting requirements, techniques, and formats shall be established, defined, and documented to ensure adequate visibility and insight for Government personnel. The Security Management Plan shall include, as a minimum, the following:

i. A description of the Contractor's security management structure and assignment of responsibilities,
ii. Methodology used to ensure separation of duties of IT security and operational elements,
iii. The approach for integrating security requirements into functions as described in the SOW, including interfacing with subcontractors,
iv. Identification of the security interfaces with NASA, DoD, and other government agencies and contractors,
v. Description of the security baseline configuration management program,
vi. The methodology for obtaining certifications and re-certifications, including as a minimum:

1. Security Plan approval,
2. Authorization to Process, mission critical systems,
3. Authorization to Process, non-mission critical systems.

vii. Process for developing security implementation plans for approved systems under development or modification, including identification, documentation, and incorporation of security controls into these new or modified systems,
viii. Approach to development and approval of COMSEC procedures,
ix. Approach to development of procedures for protection of sensitive information,
x. Process for identification, reporting, and resolution of IT security incidents, including coordination with MOD and JSC I/T security.
xi. Acknowledgement that all IT training must be provided through the System for Administration, Training, and Educational Resources for NASA (SATERN).

d. Format: Format shall be in the form specified by NIST computer security guidelines.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due with proposal.

ii. Final – Due January 22, 2009.
iii. Approval – Due 90 calendar days following contract award.
iv. Frequency – Annually.

g. Maintenance: Document shall be updated and approved annually.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Facility Security Plan	5/9/2008	DRD-FDOC-0031	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*

The Facility Security Plan:

a. Documents the security requirements of the facility and describes the controls in place or planned for meeting those requirements. Controls include system capabilities, processes, and procedures.
b. Documents the results of the risk analysis, identifies the unmitigated security risks, and identifies potential impacts of those risks.
c. Delineates responsibilities and expected behavior of all individuals who access the system.
d. Includes the facility contingency plan identified in the Emergency Preparedness and Disaster Recovery Plan (DRD-FDOC-0011).

ii. SSP-50525, ISS Ground Segment SART Security Management Plan (SSMP)

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: A separate Facility Security Plan shall be provided for each facility covered by this contract. The Plan shall describe the facility security capabilities, processes and procedures implemented to maintain the security integrity for the facility. The plan shall address the security requirements for facilities, systems, equipment, personnel, information, classified automated information systems, communications, sensitive IT security procedures, COMSEC, and Secure Operations Procedures. Each security plan shall be specifically generated to address the type of facility and information processed in the facility as defined in NPR 2810.1A (latest version), which is applicable to all facilities identified in this Statement of Work.

c. Content: The processes for data collection and risk analysis shall be established, defined and documented to ensure adequate visibility and insight for government personnel.

i. NPR 2810.1A and NIST guidelines describe the required format and content for these plans. The Security Plan is the documentation required to achieve accreditation, certification or approval for processing, and covers the following areas:

1. Identification of the system's function and organizational responsibility
2. Identification of the information processed and how it is shared
3. Assessment of risk based on threats and any known vulnerabilities
4. Description of technical controls and the rules of the system
5. Description of personnel screening and training
6. Description of contingency planning and incident response
7. Description of interconnections with other systems.

ii. Additional content shall address and include MCC/IPS and ITF mission critical requirements not necessarily included in NPR system security guidelines.

d. Format: Security Plan Templates as defined by Mission Operations and Center Operations Directorates Computer Security Officers

e. Distribution: Per Contracting Officer letter.

f. Submission:

i. Initial: Date of Initial submission determined annually by Information System Owner, in consideration of current system Authorization to Operate (ATO) timelines, and whose facility configuration status may vary in response to evolving customer requirements.

ii. Final: Thirty days following initial submission.
iii. Approved: At Information System Owner discretion, thirty days following final submission.
iv. Frequency: Annually for Mission Critical Systems, all others as required.

g. Maintenance:

i. Changes to each facility security plan shall be documented per the NASA/JSC Facility Computer Security Officer guidelines for addenda to security plans. Contents of addenda shall be incorporated into the next release of the security plan.
ii. Security plans for General Support Systems and Major Application systems shall be updated as a minimum every three years, as significant architecture or functional changes are incorporated, or as required by NASA.
iii. Security plans for the FDOC facilities shall be updated as a minimum every 12 months (unless security guidelines permit a longer duration), as significant architecture or functional changes are incorporated, or as required.
iv. Certification and Accreditation products shall be provided per NIST Special Publication 800-53 “Guide for the Security Certification and Accreditation of Federal Information Systems” and NPR 2810.1A “Security of Information Technology” (latest version).

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Contractor Organizational Conflicts of Interest (OCI) Plan	5/9/2008	DRD-FDOC-0032	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To document the Contractor's implementation plan for avoiding, neutralizing, and mitigating organizational conflicts of interest.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. Attachment J-15, Government OCI Assessment of FDOC b. FAR Subpart 9.5, Organizational and Consultant Conflicts of Interest	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.2.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The FDOC OCI Avoidance Plan shall describe the Contractor's management approach and planned implementation methods for avoiding, neutralizing, or mitigating the occurrence of an OCI.

c. Content: The plan shall thoroughly address all organizational conflicts of interest to prevent the existence of conflicting roles that might bias a contractor's judgment and create an unfair competitive advantage. The plan shall establish specific and timely methods to identify, evaluate, and resolve organizational conflicts of interest. FAR Subpart 9.5 describes the nature of these applicable relationships. This plan, in conjunction with Attachment J-15, Government OCI Assessment of FDOC, forms the basis of addressing OCI concerns on FDOC.

The Contractor OCI Plan shall identify the threat of an OCI, assess the likelihood of it occurring, evaluate the impact, and institute mitigation measures to both prevent the occurrence and minimize the impact.

The Contractor OCI Plan shall document the general procedures that the Contractor will use to respond to OCI issues that are identified.

The Contractor OCI Plan shall include the following information:

i. Purpose – A summary of the Contractor's rationale for instituting and applying the OCI plan;
ii. Update Criteria – A description of the criteria and process for determining when an update to the plan is required;
iii. OCI Assessment Methodology – A summary of the general methodology used to avoid, neutralize, and mitigate OCI issues;
iv. OCI Risks – A description of potential OCI risks, due to the Contractor's relationships or potential relationships with the Government, other companies, and other contracts. The description shall characterize the risk and measures to avoid, neutralize, or mitigate each OCI threat;
v. Personnel Clearance Procedures – A description of the procedures the Contractor will use if needed to identify and partition Contractor personnel requiring access or participation in activities that would otherwise create an OCI issue;
vi. OCI Response Procedures – A summary of the steps that the Contractor will take when an OCI has been identified or when circumstances have changed such that an OCI issue is probable; and
vii. OCI Training – A description of the training to be provided to its personnel regarding potential OCI on this contract.

d. Format: The Contractor's electronic format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Due with proposal.
ii. Final – Due 60 calendar days after contract award.
iii. Approval – Due 90 calendar days after contract award.

iv. Frequency – Annually, no later than January 16th each calendar year.

g. Maintenance – Annual and in accordance with Contractor determined update criteria.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Records Management Plan	5/9/2008	DRD-FDOC-0033	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To describe the Contractor's records management organization, processes and systems.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. NPD 1440.6G, NASA Records Management b. NPR 1441.1D, NASA Records Retention Schedules	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.8

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The plan will document the Contractors' processes for identifying, collecting, maintaining, and archiving all records generated during the performance of all tasks in this SOW. This shall include plans for disposition of these records at the end of the contract.

c. Content: The Records Management Plan shall address the Contractor's plans for identifying, collecting, maintaining, and archiving all official records generated under this contract.

d. Format: Contractor's electronic format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – 90 calendar days after contract start.
ii. Approval – Contracting Officer.
iii. Frequency – Reviewed annually, issued as required thereafter.

g. Maintenance: Changes shall be incorporated as required by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
New Technology Reporting	5/9/2008	DRD-FDOC-0034	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Provides NASA with detailed technical information relating to inventions, discoveries, improvements, and innovations made by the Contractor in the performance of work under this contract for the purpose of identifying NASA-supported new technology, and promoting its commercialization and public availability, and also to ensure that the Government obtains sufficient rights in such technology to meet its needs.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* NFS 1852.227-70, New Technology	7. Interrelationships *(e.g., with other DRDs) (Optional)* None.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 3

b. Scope: The Contractor shall establish and maintain active and effective procedures to assure that reportable items are promptly identified and disclosed to Contractor personnel responsible for the administration of this New Technology clause within six months of conception and/or first actual reduction to practice, whichever occurs first in the performance of work under this contract. These procedures shall include the maintenance of laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of the reportable items, and records that show that the procedures for identifying and disclosing reportable items are followed. Upon request, the Contractor shall furnish the Contracting Officer a description of such procedures for evaluation and for determination as to their effectiveness. The Contractor shall submit "Reportable Items," or New Technology Reports, describing any invention, discovery, improvement, or innovation of the Contractor, whether or not the same is or may be patentable or otherwise protectible under the U.S. Patent Laws, conceived or first actually reduced to practice in the performance of any work under this contract or in the performance of any work that is reimbursable under any clause in this contract providing for reimbursement of costs incurred prior to the effective date of this contract. The Contractor shall also submit Interim Reports and a Final Report providing summary information.

c. Content:

i. REPORTABLE ITEMS (New Technology Reports). These reports shall include the following elements as appropriate. NASA Form 666A (April 1985) may be used in accordance with instructions on the reverse of the form. Use of this form is optional, provided all information listed below is included in each report:

1. Name and address of the contractor submitting the report,
2. The contract number of the contract under which the report is being submitted,
3. Title of the item reported,
4. Brief description (abstract) of the item reported,
5. General purpose of the item (if not explained in the brief description or abstract),
6. Improvement and/or advantage over prior methods, materials, or devices,
7. Detailed description of the item, sufficiently complete in technical detail to convey a clear understanding, to the extent known at the time of the disclosure, of the nature, purpose, operation, and physical, chemical, biological, or electrical characteristics. Technical data, drawings, and sketches should be included as required to fully describe the item,
8. Feature of the item believed to be new,
9. Additional information needed to fully describe the item,
10. Applications: Include potential commercial and other non-aerospace uses and users. Identify specific industries, processes, or products in which the "Reportable Item" might find application or to which it might be related,

11. Description of possible extensions, or alternate embodiments of this item,
12. Degree of development and use. Indicate applicable stage:
    a. Concept only.
    b. Development completed, prototype available.
    c. Limited production.
    d. Date of first actual use, or date of first planned use.
13. Innovator's name(s) and social security number(s), mailing address, and telephone number,
14. Identification of any previous publication of the disclosure. List publications, manuscripts submitted for publication, or reports pertaining to this item, together with relevant dates. If company-originated, state where they may be obtained; if not company-originated, indicate source and where publication may be obtained, if known,
15. Technical supervisor or innovator(s).

ii. INTERIM REPORTS shall list reportable items during that period, and certify that all reportable items have been disclosed (or that there are no reportable items) and that the procedures set forth in item 8.b above have been followed.

iii. The FINAL REPORT shall list all reportable items or certify that there were no such reportable items, and list all subcontracts at any tier containing a new technology or patent rights clause or certify that there were no such subcontracts.

d. Format: Contractor’s electronic format is acceptable.

e. Distribution: Per Contracting Officer’s letter.

f. Submission:

i. REPORTABLE ITEMS (New Technology Reports) shall be submitted to the Contracting Officer within two months after the inventor discloses it in writing to Contractor personnel responsible for the administration of the New Technology clause or, if earlier, within six months after the Contractor becomes aware that a reportable item has been made, but in any event for subject inventions before any on sale, public use, or publication of such invention known to the Contractor.

ii. INTERIM REPORTS shall be submitted every 12 months from the date of this contract.

iii. The FINAL REPORT shall be submitted to the Contracting Officer within 3 months after completion of the contracted work. The COTR will determine the format for the Interim and Final Reports. Data shall be provided on electronic media.

g. Maintenance: Changes shall be incorporated as required by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Deficient Government Furnished Property (GFP) Report	5/9/2008	DRD-FDOC-0035	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide NASA with detailed GFP information to enable the delivery of required product on specific date.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* None.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: This document provides detailed information for each line item on the GFP lists.

c. Content: This document shall provide:

i. A description of the expected quality and content,
ii. Rationale for the specified need date relative to OND,
iii. Impact description if the specified product is not received by the specified date,
iv. Risk mitigation or fall-back plan if the specified product is not delivered by the Government,
v. Estimate cost and/or schedule impact for not receiving the specified product.

d. Format: Contractor provided format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission: Frequency – As required for each GFP delivery.

g. Maintenance: Changes shall be incorporated as required by change page or complete reissue.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Space Shuttle Retirement Plan	5/9/2008	DRD-FDOC-0036	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
To provide an approach and rationale for Space Shuttle Program (SSP) retirement and transition activities.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. NSTS 07700, Program Definition and Requirements, Volume XX, Space Shuttle Transition and Retirement Requirements b. NSTS 60576, Space Shuttle Program Transition Management Plan.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 3.1 DRD-FDOC-0033

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The FDOC Space Shuttle Retirement Plan provides plans for the transition of all anticipated operations activities, facility modifications, and clean-up, along with supporting logic and rationale.

c. Content: The Space Shuttle Retirement Plan shall describe the overall plan for the transition of SSP Support, based on inputs from the government on how and when government-provided shuttle assets should be decommissioned and dispositioned. As a minimum, it shall address:

   i. Schedule with key milestones,
   ii. Approach and rationale for implementing the plans, procedures, and processes required for termination of the SSP support, including property, personnel, facilities, and security,
   iii. Metrics used to determine progress for space shuttle retirement,
   iv. Property control transfer,
   v. Facilities responsibility transfer,
   vi. Mission assurance considerations,
   vii. Security considerations,
   viii. Classified document control transfer,
   ix. Risk mitigation strategy,
   x. Configuration management considerations,
   xi. Compliance with federal archive regulations.

d. Format: Contractor format is acceptable.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – September 30, 2009.
   ii. Final – Three months following Initial.
   iii. Approval – Two months following Final.

g. Maintenance: Change pages or complete reissue shall incorporate changes.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Environmental and Energy Consuming Product Compliance Reports	5/9/2008	DRD-FDOC-0037	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Used to complete JSC's required annual report to NASA HQ on affirmative procurement, waste reduction, energy efficient product procurement, and ozone depleting substances.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* a. JPR 8550.1, JSC Environmental Compliance Procedural Requirements b. JPR 8553.1, JSC Environmental Management System (EMS) Manual	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.10

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Content: For Sections I and III, where the Contractor does not purchase any designated product during the fiscal year, the report shall be a statement to that effect.

For Section IV, if the Contractor does not purchase, own, operate, maintain, or repair Ozone Depleting Substances (ODS) equipment on-site, the report shall be a statement to that effect.

"Fiscal year" is the Federal Government fiscal year and is defined as October 1 through September 30.

Section I. Annual Affirmative Procurement Report

The Contractor shall track and report each January 15 to the JSC Environmental Office the following information regarding the purchase by the Contractor (including subcontracts) of all products on the U. S. Environmental Protection Agency's Comprehensive Procurement Guideline list and items on the USDA Farm Bill Biobased list:

a. The total amount of each item purchased during the previous fiscal year in $,
b. The total amount of each listed item purchased during the previous fiscal year that contained at least the minimum recommended percenatges of recycled content or biobased content during the fiscal year in $,
c. The total amount of each listed item purchased during the previous fiscal year that contained some recycled content or biobased content but less than the minimum recommended percentages of recycled content or biobased content during the fiscal year in $,
d. The number of waivers and the name of the item each waiver was requested for submitted to the Environmental Office during the previous fiscal year,
e. The total amount purchased for each waivered item during the previous fiscal year in $, and
f. A narrative explanation of constraints for purchasing each item that did not meet affirmative procurement or biobased content requirements during the previous fiscal year.

Section II.a Waste Reduction Activity Report

The Contractor shall track and report each January 15 to the JSC Environmental Office any new process improvements or programs undertaken by the Contractor (or subcontractors) that have contributed to waste reduction during the previous fiscal year. Waste reduction is defined as increasing the percent of waste material diverted from the landfill. This may be accomplished through source reduction, increasing reuse, and/or recycling of items that would normally go to the landfill (trash). The information will be included in JSC's annual report to NASA HQ on waste reduction activities. Try to limit responses to one page or less per process improvement or program. The response should include a description of the activity, the materials or wastes reduced, an estimated volume or weight of reduction, and a contact name and phone number for a person knowledgeable about the reduction activity.

Section II.b For Construction/Facility Modification Contracts Only:

The Contractor shall track and report to the JSC Environmental Office the total weight in pounds of material sent to the landfill (this does not include shipments managed and paid for by the Environmental Office or their support contractor) and the total number of pounds of material recycled by media (scrap metal, wood, concrete, soil). The report is due within 30 calendar days of completion of all waste generating and recycling activities or of final waste shipments associated with the project and in no case later than completion of the contract.

Section III. Annual Energy Efficiency Product Procurement Report

The Contractor shall report to the JSC Energy Manager, on January 15 of each year, information on purchases of energy consuming products made by the Contractor (including subcontracts) beginning upon contract start. This includes the purchase of premium efficiency motors and efficiency lighting covered by Public Law 109–58, Energy Policy Act of 2005. The report shall provide the following:

a. A list of all energy consuming products purchased during the previous fiscal year.
b. The total purchase cost of each item on the list.
c. A designation of which items were Energy Star or Federal Energy Management Program (FEMP)-sanctioned.
d. For each Energy Star or FEMP-sanctioned product purchased, provide:
    i. The simple payback value as determined by the contractor's life cycle cost analysis.
    ii. The annual savings in dollars and BTUs due to the purchase of the item
e. Metrics which show the effectiveness of the contractor's purchases
    i. Percentage of purchased products that are Energy Star and FEMP-sanctioned against the total number of energy consuming products purchased.
    ii. Total dollar value of the purchased products that are Energy Star and FEMP-sanctioned against the total dollar value of all energy consuming products purchased.

Section IV. Ozone Depleting Substances (ODS) Reports

The Contractor shall track and report each January 15 to the JSC Environmental Office the following information for the previous fiscal year related to ODS equipment that the contractor purchases, owns, operates, maintains, or repairs on-site:

a. A list of the names of all EPA-Certified service technicians employed and their certification dates.
b. A list of any ODS recovery/recycling equipment that will be used and copy of the 40 CFR 82.162 (Title 40 Code of Federal Regulations Part 82, Protection of Stratospheric Ozone, Subpart F, Recycling and Emissions Reduction, § 82.162, Certification by Owners of Recovery and Recycling Equipment) EPA registration.
c. A list of any refrigeration/air conditioning units with a full charge of more than 50 pounds, not previously reported, including
    i. Any identifying equipment numbers.
    ii. The location of the equipment (building/room).
    iii. The owning organization or contract name and number.
    iv. A narrative description of the equipment.
    v. Refrigeration or air conditioning equipment with a full charge of > 50 pounds, permanently removed from service during the year.

This process plan describes the change control process for development & modifications (SR), and sustaining changes (SR/AR/other) to all the facilities and systems covered by this contract.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* JSC-63756, Mission Operations Directorate Software Management Plan	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 2.7, 2.14.2, 2.14.3, 2.16, and 3.1.5

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Change Control Process plan shall address all of the facilities and user applications covered by this contract. It shall include Contractor, NASA, and other organizations roles and responsibilities. The plan shall address deliverables such as change control database and metric reports. The plan shall address closed-loop response to the change originator with regards to the time needed to bringing a ROM estimate to the associated control board. This plan shall address the processes for both Support Requirements (SRs) and Anomaly Reports (ARs) and a streamlined mechanism for documenting minor configuration changes where approval has been delegated to the contractor (e.g. JET, MRR, etc.).

c. Content: The SR and AR shall include submittal, NASA and contractor screening, impact assessment, making recommendations for needed design reviews by the Contractor, NASA and contractor control board review and approval, authorization to proceed, and implementation status. Also included shall be quality assurance, security engineering, security assessment, and organizational conflicts of interest (OCI) assessment. Products of this plan would be the change control database and metric reports.

d. Format: Hardcopy and electronic format, JSC web domain accessible.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – Due with proposal.
   ii. Final – Contract award + 30 calendar days.
   iii. Approval – At contract start.
   iv. Frequency – As required due to organizational restructures or process improvement activities.

g. Maintenance: As required due to organizational restructures or process improvement activities.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Configuration Management Plan shall define the methodologies for identifying configuration items, managing associated states of maturity, controlling changes, coordinating dependent interfaces, and tracking inventory.

c. Content: The Configuration Management Plan shall address the following, as a minimum:

   i. A description of the processes used by the Contractor to perform Configuration Management in accordance with the SOW and applicable documents,
   ii. A description of the procedure for making changes to the Configuration Management Plan,
   iii. The specific allocation of responsibilities, authority, and resources for performing Configuration Management during different lifecycle phases of a facility,
   iv. The procedures and instructions used by the Contractor for the purpose of coordinating, defining, testing, monitoring, and controlling configuration items, (e.g. floor plans, equipment lists, workstation configurations, software loads, and technical interfaces),
   v. A description of methodologies for testing, inspection, examination, and auditing facilities during different stages of support, (e.g., design, build, test) to ensure continuity of hardware and software integrity throughout the life cycle,
   vi. Method for measuring progress toward objectives based on an assessment of inventory and configuration status.

d. Format: Contractor discretion.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – Due with proposal.
   ii. Final – Due two weeks following contract award.
   iii. Approval – Due four weeks following contract award.
   iv. Frequency – As required.

g. Maintenance: Update as required due to configuration management process or procedure changes. Revisions shall be incorporated by change page or complete resubmit.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Level A and B Requirements	5/9/2008	DRD-FDOC-0045	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
The current Level A and B requirements for the applicable facilities shall be maintained. The requirements establish the functional and detailed requirements for each system and subsystem.	[X] Technical [ ] Administrative [ ] SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 3.1.2 and 3.1.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The requirements packages shall be divided into system (Level A) and subsystem (Level B) functional requirements. System functional (Level A) requirements shall be provided separately. Subsystem functional (Level B) requirements shall be provided for each subsystem identified in the Level A requirements.

c. Content: System functional (Level A) requirements shall identify the functions to be performed by major system and shall include a general description of the functional capabilities required, the relationship with other functions, the user interface requirements, including input and output characteristics, and planned functional uses. These requirements will be traceable to parent requirements. Subsystem functional (Level B) requirements shall include a complete description and allocation of the capabilities required of each subsystem. It shall identify subsystem interface requirements, including input and output data requirements, and performance. The subsystem Level B requirements shall describe the test and verification methodology and are traceable to the Level As. Detailed design specifications should not be included in the Level A requirements, but in the Design Specification.

d. Format: Shall include, but not be limited to, the following sections: Introduction, Related Documentation, Assumptions and Constraints, Interface Requirements, Functional Requirements, Performance, Human Factors, Security, Testing Methodology, Reliability, Maintainability, Availability, Traceability, Acronyms, and Glossary.

e. Distribution: Per contracting officer's letter.

f. Submission:

i. Initial – Starting October of each FY.
ii. Final – August of each FY.
iii. Approval – September of each FY.
iv. Frequency – Updated yearly on the above schedule or as agreed to by the NASA Project Manager.

g. Maintenance: The requirements are updated once a year, if required based upon system/subsystem changes.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)

SOW 2.16, 3.1, 3.1.2, 3.1.3, 3.2.1.2, 3.2.3.3, 3.2.4.3, and 3.2.6.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The process shall be prepared separately for each facility. It shall outline the Contractor's methodology for project and system development, modification, sustaining, and decommission. It shall define the full lifecycle of facility services.

c. Content: The process shall include, but not be limited to, the following tasks: requirement generation, design reviews, approval, and decision points, contractor, NASA, and external organization roles and responsibilities, verification, acceptance, transition to sustaining, sustaining, operations, replacement, and decommission.

d. Format: The process shall define the tasks listed in section c, Content above and provide a flow from generation to decommission.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – Prior to August of each FY or as required for development projects.
ii. Final – August of each FY.
iii. Approval – September of each FY.
iv. Frequency – Yearly with updates as required.

g. Maintenance: This document shall be a working document and shall be maintained to reflect current management data and policies.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Equipment Replacement Plan	5/9/2008	DRD-FDOC-0048	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
This document is a 15-year forecast of equipment support and maintainability. It is required for strategic planning of equipment and system replacement due to non-maintainability.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*
None.	SOW 2.16

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Equipment Replacement Plan includes all the equipment in all the facilities under this contract.

c. Content: The Equipment Replacement Plan is a list of all equipment maintained under this contract that is non maintainable in the next 15 years. It is based upon failure trend analysis, performance analysis, spares availability, required vendor support, availability of COTS software and/or licensing agreements. It contains a projection of equipment end of life and an estimate, per government fiscal year, as to the replacement hardware and software material cost and phasing.

d. Format: Deliverable document.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – July 8, 2009.
ii. Final – August 7, 2009.
iii. Approval – First week in September of each FY.
iv. Frequency – Yearly, by August 1st.

g. Maintenance: Updates as required.

JSC-63756, Mission Operations Directorate Software Management Plan	SOW 2.11, 3.1.2, and 3.1.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 1

b. Scope: The Acceptance Review package is a summary of the modification delivery content, test status, and delivery readiness to operations.

c. Content: The package shall include, but not be limited to, the following specific to the changes:

i. Content overview,
ii. Overview of subsystem and system test plan/procedures,
iii. Test report status (including user inputs),
iv. AR status,
v. Documentation status,
vi. Performance review,
vii. Security review,
viii. Quality assurance,
ix. Issues,
x. Operations procedure status,
xi. Open items.

d. Format: Presentation format.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

i. Initial – N/A.
ii. Final – Within 4 weeks of system test completion.
iii. Approval – Within 8 weeks of system test completion.
iv. Frequency – Required for each modification delivery or independent delivery.

g. Maintenance: None required.

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement completes)
Design Review	5/9/2008	DRD-FDOC-0054	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
The Contractor shall provide design review(s) as applicable for all development and modification activities. The Design Review(s) shall provide NASA insight into the Contractor proposed design to meet the NASA approved changes. The Design Review shall be provided prior to implementation to allow for changes to the design. The Contractor shall secure NASA approval of the Design Review, prior to commencing implementation. Design Review(s) to be provided will depend on the complexity, size, scope (e.g. new or update to an existing) of the work and the system/subsystem. The Contractor shall provide design review recommendations as part of the change control process.	[X] Technical [ ] Administrative [ ] SR&QA

6. References *(Optional)*	7. Interrelationships *(e.g., with other DRDs) (Optional)*

A separate system design specification for the facilities in the SOW, identified via TIRF, shall be provided that defines the current architecture baseline. In addition, design specifications shall be provided for each of the facilities systems and subsystems in the SOW for both hardware and software unless otherwise specified in the SOW.	[X] Technical [ ] Administrative [ ] SR&QA
6. References *(Optional)* a. NPR 7123.1A, NASA Systems Engineering Processes and Requirements b. JSC-63756, Mission Operations Directorate Software Management Plan	7. Interrelationships *(e.g., with other DRDs) (Optional)* SOW 3.1.2 and 3.1.3

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: System Design Spec – 2, Subsystem Design Spec – 3

b. Scope: The System Design Specification shall contain the overview of the hardware and software content, data flows, functional system diagrams, and system engineering points of contact. The subsystem design specifications shall contain detailed hardware and software content, data flows, functional system diagrams, and system engineering points of contact. User Application design specifications are addressed in DRD-FDOC-0059, Software Development Folder and shall not be addressed in this DRD.

c. Content: Block diagrams with associated descriptions of each function to be performed shall be included. The specifications shall include at a minimum:

   i. Information flow,
   ii. Capacity requirements/limits,
   iii. Design constraints,
   iv. Performance parameters,
   v. Interface description,
   vi. Environment information,
   vii. RMS,
   viii. Operability,
   ix. Requirements traceability,
   x. Standards,
   xi. Drawings.

d. Format: Technical document in Contractor's format.

e. Distribution: Per Contracting Officer's letter.

f. Submission:

   i. Initial – N/A.
   ii. Final – System Design specification shall be provided annually at the end of the government fiscal year.
   iii. Approval – N/A.
   iv. Frequency – Annually on March 30th per Mod 79

8. Preparation Information *(Include complete instructions for document preparation)*

The following reports are required to be prepared when on site storage exceeds $75,000 for program stock in one location

1. * Data Input for NASA Form 1324, Semi-annual Report of Personnel Property Management Operations. This semi-annual report defines the following line item data elements of 3/15 and 9/15 of each year:

   Material Inventory Status
   Material Inventory Activity
   Material Acquisition Activity
   Material Receiving Activity
   Logistics Personnel Resources Report

   Reference: NHB 4100, NASA Materials Inventory Management Manual.
   Due Dates: 3/25 and 9/25

2. * Data Input for NASA FMD 1489, Semi-annual Analysis of fixed inventory Assets:
   This semi- annual report defines the following monetary data elements as of 3/15 and 9/15 of each year.

   Starting Price: Price of Receipts, Price of Issues, Ending Price

   Note: This will be reported by each Object Class Code stocked in the storeroom. Separate reports are required for Stores, Program, and Standby stock (see the JSC Stocks Stock Catalog prefaces for a detailed explanation of these codes).

   Reference: NPG 4100, NASA Materials Inventory Management Manual.
   Due Dates: 3/25 and 9/25

   * Forms for Data Input are available through JB3/Contract Property Management Branch web page: http://www6.jsc.nasa.gov/ja/jb/jb3.cfm

   DRD item 0065, Reports Required for Logistics Continued:

3. NASA Form 1619, Physical Inventory of Materials Annual Report:
   This annual report identifies the sampling inventory actions completed by the contractor. This report contains the following data by Object Class Code (see the JSC Stores Stock Catalog preface for a detailed explanation of these codes.)

3.a Line items and dollar value of items inventoried.
3.b Number of line items with variance
3.c Dollar value of discrepant items, including overage, shortage, and gross discrepancies.
3.d Identify whether inventory items are stores, program, or standby stock, and also identify the staff hours and dollar value expended in accomplishing and reconciling the inventory.
3.e A brief explanation of cause of discrepancies and actions to minimize the chance for recurrence.

Reference: NPR 4100, NASA Materials Inventory Management Manual.
Due Date: 9/25

Note: All the above are to treat Contractor-Acquired Material (CAM) and Government-Furnished Material as one lot.

4. Quarterly Report of Contractor-Acquired material (CAM)
This report will consist of two transfer documents (DD Form 1149) that identify material purchased and received by the Contractor for on-site use. The two documents will be differentiated as follows:

4.a Items bought for direct consumption on site.
4.b Items issued to storeroom(s) that will impact the dollar value of assets on hand.

The DD Form 1149 will be transferring accountability of these assets to NASA and will be accompanied by requisitions, issue documents, engineering work orders (if flight material destined for a bond room), or any other similar form approved for use by the JSC Property Administrator. The DD Form 1149 shall identify total number of line items and total value.

Due Date: 15 working days after the end of Fiscal Year Quarter.

(5 NOT STANDARD)
5. Annual Report of Exchange/Sale:
As defined by the NASA Property Administrator Transaction submitted 15 working days after the end of each government fiscal year.

DEPARTMENT OF DEFENSE
CONTRACT SECURITY CLASSIFICATION SPECIFICATION

(The requirements of the DoD Industrial Security Manual apply to all aspects of this effort)

12. PUBLIC RELEASE. Any information *(classified or unclassified)* pertaining to this contract shall not be released for public dissemination except as provided by the industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public release shall be submitted for approval prior to release

☒ Direct ☐ Through *(Specify):*

NASA/Johnson Space Center AP/Public Affairs Office Houston, TX 77058-3696

To the Office of Public Affairs, National Aeronautics and Space Administration, Washington, DC 20546, for review.

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)* for review.

*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. SECURITY GUIDANCE. The security classification guidance needed for this effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes: to challenge the guidance or classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. *(Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any document/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.*

Performance of this contract will involve storage of back-up classified information at the contractor's facility. Access to classified information/areas will occur primarily at the user agency (NASA/JSC). Only U.S. citizens granted a final personnel security clearance are eligible for access to classified material. The contractor must meet and comply with the facility clearance requirements for SECRET and the industrial security requirements for access to classified information at the SECRET level in accordance with the National Industrial Security Program Operation Manual, DOD 5220.22-M, dated February 28, 2006 and other NASA/JSC security procedures and guidelines. The place of performance will be at JSC and other locations where the requirement is covered by the obligations specified in section C of the basic contract document. The period of performance is from 10/01/14 through 9/30/16 with Option 3 from 10/1/16 through 9/30/17."

Questions or request concerning clarification or interpretation regarding security requirements shall be directed to the NASA/JSC Industrial Security Specialist at 281-450-5161.

14. ADDITIONAL SECURITY REQUIREMENTS. Requirements, in addition to ISM requirements, are established for this contract. *(If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)* ☒ Yes ☐ No

(a) National Industrial Security Program Operating Manual, DOD 5220.22-M, dated February 28, 2006; (b) JSC Security Handbooks, Manuals, Regulations, Instructions, and Directives (current editions as of the date of Contract Award), as well as any other applicable policies and procedures set forth within the Contract and as identified by NASA.

15. INSPECTIONS. Elements of this contract are outside the inspection responsibility of the cognizant security office. *(If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.* ☐ Yes ☒ No

16. CERTIFICATION AND SIGNATURE. Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

The purpose of modification 167 is to:

1. Revise contract funding by –

	Purchase Request #	Amount
Obligating Incremental Funding	4200531808	$1,051,000.00
Subtotal		**$1,051,000.00**

As a result of these actions, contract funding is hereby changed as follows:

A. The Funding Recapitulation is updated as depicted in the chart below:

NNJ09HD46C	Prior Cumulative Obligations (Mod 166)	Obligated This Action (Mod 167)	Revised Cumulative Obligations
Cost	(b) (4)		
Fee			
Total	$981,623,846.63	$1,051,000.00	$982,674,846.63

1) Clause B.4 CONTRACT FUNDING (NFS 1852.232-81) (JUN 1990), is hereby revised as follows:

a. For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is (b) (4) This allotment is for all FDOC efforts and covers the following estimated period of performance: November 7, 2008 through **January 25, 2015**.

b. An additional amount of (b) (4) is obligated under this contract for payment of fee.

13042 - Illustrator II	23.91
13043 - Illustrator III	30.12
13047 - Librarian	26.69
13050 - Library Aide/Clerk	10.84
13054 - Library Information Technology Systems Administrator	24.09
13058 - Library Technician	16.04
13061 - Media Specialist I	17.39
13062 - Media Specialist II	19.46
13063 - Media Specialist III	21.68
13071 - Photographer I	15.32
13072 - Photographer II	18.15
13073 - Photographer III	22.56

13074 - Photographer IV		27.49
13075 - Photographer V		33.07
13110 - Video Teleconference Technician		16.73
14000 - Information Technology Occupations		
14041 - Computer Operator I		17.31
14042 - Computer Operator II		19.37
14043 - Computer Operator III		21.59
14044 - Computer Operator IV		24.00
14045 - Computer Operator V		26.57
14071 - Computer Programmer I	(see 1)	26.04
14072 - Computer Programmer II	(see 1)	
14073 - Computer Programmer III	(see 1)	
14074 - Computer Programmer IV	(see 1)	
14101 - Computer Systems Analyst I	(see 1)	
14102 - Computer Systems Analyst II	(see 1)	
14103 - Computer Systems Analyst III	(see 1)	
14150 - Peripheral Equipment Operator		17.31
14160 - Personal Computer Support Technician		24.00
15000 - Instructional Occupations		
15010 - Aircrew Training Devices Instructor (Non-Rated)		33.08
15020 - Aircrew Training Devices Instructor (Rated)		40.02
15030 - Air Crew Training Devices Instructor (Pilot)		47.98
15050 - Computer Based Training Specialist / Instructor		33.08
15060 - Educational Technologist		29.23
15070 - Flight Instructor (Pilot)		47.98

15080 - Graphic Artist	26.72
15090 - Technical Instructor	22.43
15095 - Technical Instructor/Course Developer	27.43
15110 - Test Proctor	18.43
15120 - Tutor	18.43
16000 - Laundry, Dry-Cleaning, Pressing And Related Occupations	
16010 - Assembler	9.40
16030 - Counter Attendant	9.40
16040 - Dry Cleaner	12.06
16070 - Finisher, Flatwork, Machine	9.40
16090 - Presser, Hand	9.40
16110 - Presser, Machine, Drycleaning	9.40
16130 - Presser, Machine, Shirts	9.40
16160 - Presser, Machine, Wearing Apparel, Laundry	9.40
16190 - Sewing Machine Operator	12.79
16220 - Tailor	13.75
16250 - Washer, Machine	10.32
19000 - Machine Tool Operation And Repair Occupations	
19010 - Machine-Tool Operator (Tool Room)	19.71
19040 - Tool And Die Maker	23.23
21000 - Materials Handling And Packing Occupations	
21020 - Forklift Operator	13.25
21030 - Material Coordinator	19.46
21040 - Material Expediter	19.46
21050 - Material Handling Laborer	12.26

21071 - Order Filler	11.47
21080 - Production Line Worker (Food Processing)	13.25
21110 - Shipping Packer	14.60
21130 - Shipping/Receiving Clerk	14.60
21140 - Store Worker I	11.34
21150 - Stock Clerk	16.06
21210 - Tools And Parts Attendant	13.58
21410 - Warehouse Specialist	13.25
23000 - Mechanics And Maintenance And Repair Occupations	
23010 - Aerospace Structural Welder	29.47
23021 - Aircraft Mechanic I	28.07
23022 - Aircraft Mechanic II	29.47
23023 - Aircraft Mechanic III	30.94
23040 - Aircraft Mechanic Helper	21.98
23050 - Aircraft, Painter	25.61
23060 - Aircraft Servicer	24.44
23080 - Aircraft Worker	25.76
23110 - Appliance Mechanic	18.61
23120 - Bicycle Repairer	13.91
23125 - Cable Splicer	25.34
23130 - Carpenter, Maintenance	19.71
23140 - Carpet Layer	18.45
23160 - Electrician, Maintenance	26.51
23181 - Electronics Technician Maintenance I	21.28
23182 - Electronics Technician Maintenance II	23.89

23183 - Electronics Technician Maintenance III	25.10
23260 - Fabric Worker	17.17
23290 - Fire Alarm System Mechanic	19.95
23310 - Fire Extinguisher Repairer	15.88
23311 - Fuel Distribution System Mechanic	20.96
23312 - Fuel Distribution System Operator	16.33
23370 - General Maintenance Worker	18.08
23380 - Ground Support Equipment Mechanic	28.07
23381 - Ground Support Equipment Servicer	24.44
23382 - Ground Support Equipment Worker	25.76
23391 - Gunsmith I	15.88
23392 - Gunsmith II	18.45
23393 - Gunsmith III	20.81
23410 - Heating, Ventilation And Air-Conditioning Mechanic	21.04
23411 - Heating, Ventilation And Air Contditioning Mechanic (Research Facility)	21.95
23430 - Heavy Equipment Mechanic	19.79
23440 - Heavy Equipment Operator	19.26
23460 - Instrument Mechanic	25.87
23465 - Laboratory/Shelter Mechanic	19.71
23470 - Laborer	11.04
23510 - Locksmith	18.99
23530 - Machinery Maintenance Mechanic	24.33
23550 - Machinist, Maintenance	20.81

23580 - Maintenance Trades Helper	14.94
23591 - Metrology Technician I	25.87
23592 - Metrology Technician II	26.99
23593 - Metrology Technician III	28.14
23640 - Millwright	21.53
23710 - Office Appliance Repairer	18.99
23760 - Painter, Maintenance	18.99
23790 - Pipefitter, Maintenance	21.38
23810 - Plumber, Maintenance	20.88
23820 - Pneudraulic Systems Mechanic	20.81
23850 - Rigger	20.81
23870 - Scale Mechanic	18.45
23890 - Sheet-Metal Worker, Maintenance	19.95
23910 - Small Engine Mechanic	18.08
23931 - Telecommunications Mechanic I	23.89
23932 - Telecommunications Mechanic II	24.95
23950 - Telephone Lineman	25.52
23960 - Welder, Combination, Maintenance	20.27
23965 - Well Driller	20.81
23970 - Woodcraft Worker	20.81
23980 - Woodworker	15.04
24000 - Personal Needs Occupations	
24570 - Child Care Attendant	10.65
24580 - Child Care Center Clerk	13.27
24610 - Chore Aide	7.35

24620 - Family Readiness And Support Services Coordinator	13.83
24630 - Homemaker	16.84
25000 - Plant And System Operations Occupations	
25010 - Boiler Tender	22.20
25040 - Sewage Plant Operator	18.70
25070 - Stationary Engineer	22.20
25190 - Ventilation Equipment Tender	14.58
25210 - Water Treatment Plant Operator	18.32
27000 - Protective Service Occupations	
27004 - Alarm Monitor	16.14
27007 - Baggage Inspector	11.56
27008 - Corrections Officer	19.62
27010 - Court Security Officer	21.18
27030 - Detection Dog Handler	17.90
27040 - Detention Officer	19.62
27070 - Firefighter	20.41
27101 - Guard I	11.56
27102 - Guard II	17.90
27131 - Police Officer I	24.19
27132 - Police Officer II	26.88
28000 - Recreation Occupations	
28041 - Carnival Equipment Operator	11.63

28690 - Swimming Pool Operator	17.44
29000 - Stevedoring/Longshoremen Occupational Services	
29010 - Blocker And Bracer	20.12
29020 - Hatch Tender	20.12
29030 - Line Handler	20.12
29041 - Stevedore I	18.72
29042 - Stevedore II	21.50
30000 - Technical Occupations	
30010 - Air Traffic Control Specialist, Center (HFO) (see 2)	40.33
30011 - Air Traffic Control Specialist, Station (HFO) (see 2)	27.81
30012 - Air Traffic Control Specialist, Terminal (HFO) (see 2)	30.63
30021 - Archeological Technician I	21.56
30022 - Archeological Technician II	25.47
30023 - Archeological Technician III	30.62
30030 - Cartographic Technician	30.62
30040 - Civil Engineering Technician	30.03
30061 - Drafter/CAD Operator I	21.56
30062 - Drafter/CAD Operator II	24.71
30063 - Drafter/CAD Operator III	27.56

30064 - Drafter/CAD Operator IV		33.10
30081 - Engineering Technician I		20.02
30082 - Engineering Technician II		22.48
30083 - Engineering Technician III		25.15
30084 - Engineering Technician IV		31.09
30085 - Engineering Technician V		38.65
30086 - Engineering Technician VI		46.10
30090 - Environmental Technician		29.96
30210 - Laboratory Technician		23.56
30240 - Mathematical Technician		30.62
30361 - Paralegal/Legal Assistant I		22.52
30362 - Paralegal/Legal Assistant II		27.90
30363 - Paralegal/Legal Assistant III		34.12
30364 - Paralegal/Legal Assistant IV		41.27
30390 - Photo-Optics Technician		30.62
30461 - Technical Writer I		23.21
30462 - Technical Writer II		28.38
30463 - Technical Writer III		34.93
30491 - Unexploded Ordnance (UXO) Technician I		25.63
30492 - Unexploded Ordnance (UXO) Technician II		31.01
30493 - Unexploded Ordnance (UXO) Technician III		37.17
30494 - Unexploded (UXO) Safety Escort		25.63
30495 - Unexploded (UXO) Sweep Personnel		25.63
30620 - Weather Observer, Combined Upper Air Or Surface Programs	(see 2)	26.35

30621 - Weather Observer, Senior	(see 2)	30.48
31000 - Transportation/Mobile Equipment Operation Occupations		
31020 - Bus Aide		11.88
31030 - Bus Driver		17.06
31043 - Driver Courier		14.03
31260 - Parking and Lot Attendant		9.17
31290 - Shuttle Bus Driver		15.28
31310 - Taxi Driver		11.54
31361 - Truckdriver, Light		15.28
31362 - Truckdriver, Medium		18.98
31363 - Truckdriver, Heavy		20.32
31364 - Truckdriver, Tractor-Trailer		20.32
99000 - Miscellaneous Occupations		
99030 - Cashier		10.01
99050 - Desk Clerk		11.72
99095 - Embalmer		23.71
99251 - Laboratory Animal Caretaker I		9.83
99252 - Laboratory Animal Caretaker II		10.71
99310 - Mortician		26.44
99410 - Pest Controller		15.80
99510 - Photofinishing Worker		12.62
99710 - Recycling Laborer		16.46
99711 - Recycling Specialist		20.06
99730 - Refuse Collector		14.67
99810 - Sales Clerk		12.66

99820 - School Crossing Guard	10.96
99830 - Survey Party Chief	20.96
99831 - Surveying Aide	14.35
99832 - Surveying Technician	18.13
99840 - Vending Machine Attendant	12.00
99841 - Vending Machine Repairer	14.41
99842 - Vending Machine Repairer Helper	12.31

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $4.02 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than $27.63 (or on a salary or fee basis at a rate not less than $455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds $27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage

determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at http://www.dol.gov/esa/whd/ or through the Wage Determinations On-Line (WDOL) Web site at http://wdol.gov/.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form

1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees. Information required by the Regulations must be submitted on SF 1444 or bond paper. When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

3. Update Section C, Statement of Work, under 3. Facilities Support with following changes:

3.2.1.3. Maintenance and Sustaining Engineering

The Contractor shall deliver up to two sustaining engineering releases per year of each MCC-H system or subsystem.
The Contractor shall provide technical support of the Meteorological Interactive Data Distribution Subsystem (MIDDS) to MSFC.

The Contractor shall maintain the classified messaging capability, including associated encryption key management services, storage of sensitive and classified documentation, and the interfaces to the classified point to point circuits.
The Contractor shall provide support for the maintenance of the Secret Internet Protocol Router System (SIPRNET).
The Contractor shall provide COMSEC engineering expertise for day-to-day maintenance of COMSEC systems as required by NASA.
The Contractor shall perform limited maintenance on various cryptographic equipment, as described by Memorandum of Agreement (MOA) between NASA and the U.S. Air Force. This equipment is located in the MCC-H, **FOD** simulator facilities, ESTL, **Ellington Field** and the Sonny Carter Training Facility (SCTF).

3.2.1.4. Facility Operations

The Contractor shall provide MCC-H facility operation services consistent with the following mission support operational requirements:

- Support up to two concurrent operations 312 hours/week (this staffing level includes on- and off-console support and trajectory application operations):
  - 1st operation – 24 hours/day x 7 days/week = 168 hours/week.
  - 2nd operation – 24 hours/day x 6 days/week (Monday – Saturday) = 144 hours/week
- For Cryptographic operations – 24 hours/day x 7 days/week = 168 hours/week.
- Security level – Mission Critical & Moderate Security Level Systems.

On-call support and support by special request is to be provided as required to meet special peak or critical periods of activity.

The Contractor shall provide BCC facility operation services:

- Security level - Mission Critical & Moderate Security
- Operations – 8 hours x 5 days/week (Monday – Friday). On-call and special requests can be made 24 hours/day x 7 days/week (Sunday – Saturday).
- In the event of a MCC-H deactivation and BCC activation, after the additional staffing arrives on-site (consistent with Flight Control Team plans), provide 24 hours/day x 7 days/week Telecom/Controller support for up to 60 days.

The Contractor shall maintain the classified messaging capability, including associated encryption key management services, storage of sensitive and classified documentation, and the interfaces to the classified point to point circuits.

The Contractor shall provide support for the daily operations of the Secret Internet Protocol Router System (SIPRNET).
The Contractor shall provide COMSEC engineering expertise for day-to-day operations for the COMSEC systems as required by NASA.
The Contractor shall provide operations support for the Secure Telephone Unit version III (STU-III), Secure Terminal Equipment (STE), various encryptors and their associated fill devices, and any other COMSEC equipment necessary for the ongoing operations of the COMSEC Equipment Facility (CEF).
The Contractor shall perform day-to-day operations of the equipment and its interfaces. This equipment is located in the MCC-H, **FOD** simulator facilities, ESTL, **Ellington Field** and the Sonny Carter Training Facility (SCTF).

4. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth herein and all claims arising out of or attributable to the issuance of contract changes and/or contractor proposals listed herein, the contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes.

12. PUBLIC RELEASE. Any information *(classified or unclassified)* pertaining to this contract shall not be released for public dissemination except as provided by the industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public release shall be submitted for approval prior to release

☒ Direct ☐ Through *(Specify):*

NASA/Johnson Space Center AP/Public Affairs Office Houston, TX 77058-3696

To the Office of Public Affairs, National Aeronautics and Space Administration, Washington, DC 20546, for review.

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)* for review.
*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. SECURITY GUIDANCE. The security classification guidance needed for this effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes: to challenge the guidance or classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. *(Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any document/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.*

Performance of this contract will not involve the receipt, generation, and storage of classified information at the contractor's facility; therefore, classified material cannot be sent to the contractor under this contract. Access to classified information/areas will occur primarily at the user agency (NASA/JSC). Only U.S. citizens granted a final personnel security clearance are eligible for access to classified material. The contractor must meet and comply with the facility clearance requirements for SECRET and the industrial security requirements for access to classified information at the SECRET level in accordance with the National Industrial Security Program Operation Manual, DOD 5220.22-M, dated February 28, 2006 and other NASA/JSC security procedures and guidelines. The place of performance will be at JSC and other locations where the requirement is covered by the obligations specified in section C of the basic contract document. The period of performance is from 10/01/14 through 9/30/16 with Option 3 from 10/1/16 through 9/30/17."

Questions or request concerning clarification or interpretation regarding security requirements shall be directed to the NASA/JSC Industrial Security Specialist at 281-450-5161.

14. ADDITIONAL SECURITY REQUIREMENTS. Requirements, in addition to ISM requirements, are established for this contract. *(If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)* ☒ Yes ☐ No

(a) National Industrial Security Program Operating Manual, DOD 5220.22-M, dated February 28, 2006; (b) JSC Security Handbooks, Manuals, Regulations, Instructions, and Directives (current editions as of the date of Contract Award), as well as any other applicable policies and procedures set forth within the Contract and as identified by NASA.

15. INSPECTIONS. Elements of this contract are outside the inspection responsibility of the cognizant security office. *(If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.* ☐ Yes ☒ No

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted , such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA FAR (48 CFR)

1. The following NASA FAR Supplemental (NFS) Clause is added to Section I of the contract as follows:

I.24 GOVERNMENT-FURNISHED COMPUTER SOFTWARE AND RELATED TECHNICAL DATA (NFS 1852.227-88) (APR 2015)

(a) Definitions. As used in this clause—

"Government-furnished computer software" or "GFCS" means computer software: (1) in the possession of, or directly acquired by, the Government whereby the Government has title or license rights thereto; and (2) subsequently furnished to the Contractor for performance of a Government contract.

"Computer software," "data" and "technical data" have the meaning provided in the Federal Acquisition Regulations (FAR) Subpart 2.1—Definitions or the Rights in Data – General clause (FAR 52.227-14).

(b) The Government shall furnish to the Contractor the GFCS described in this contract or in writing by the Contracting Officer. The Government shall furnish any related technical data needed for the intended use of the GFCS.

(c) Use of GFCS and related technical data. The Contractor shall use the GFCS and related technical data, and any modified or enhanced versions thereof, only for performing work under this contract unless otherwise provided for in this contract or approved in writing by the Contracting Officer.

(1) The Contractor shall not, without the express written permission of the Contracting Officer, reproduce, distribute copies, prepare derivative works, perform publicly, display publicly, release, or disclose the GFCS or related technical data to any person except for the performance of work under this contract.

(2) The Contractor shall not modify or enhance the GFCS unless this contract specifically identifies the modifications and enhancements as work to be performed. If the GFCS is modified or enhanced pursuant to this contract, the Contractor shall provide to the Government the complete source code, if any, and all related documentation of the modified or enhanced GFCS.

(3) Allocation of rights associated with any GFCS or related technical data modified or enhanced under this contract shall be defined by the FAR Rights in Data clause(s) included in this contract (as modified by any applicable NASA FAR Supplement clauses). If no Rights in Data clause is included in this contract, then the FAR Rights in Data – General (52.227-14) as modified by the NASA FAR Supplement (1852.227-14) shall apply to all data first produced in the performance of this contract and all data delivered under this contract.

(4) The Contractor may provide the GFCS, and any modified or enhanced versions thereof, to subcontractors as necessary for the performance of work under this contract. Before release of the GFCS, and any modified or enhanced versions thereof, to such subcontractors (at any tier), the Contractor shall insert, or require the insertion of, this clause, including this paragraph (c)(4), suitably modified to identify the parties as follows: references to the Government are not changed, and in all references to the Contractor the subcontractor is substituted for the Contractor so that the subcontractor has all rights and obligations of the Contractor in the clause.

(d) The Government provides the GFCS in an "AS-IS" condition. The Government makes no warranty with respect to the serviceability and/or suitability of the GFCS for contract performance.

(e) The Contracting Officer may by written notice, at any time—

(1) Increase or decrease the amount of GFCS under this contract;

(2) Substitute other GFCS for the GFCS previously furnished, to be furnished, or to be acquired by the

Contractor for the Government under this contract;
(3) Withdraw authority to use the GFCS or related technical data; or
(4) Instruct the Contractor to return or dispose of the GFCS and related technical data.

(f) Title to or license rights in GFCS. The Government shall retain title to or license rights in all GFCS. Title to or license rights in GFCS shall not be affected by its incorporation into or attachment to any data not owned by or licensed to the Government.

(g) Waiver of Claims and Indemnification. The Contractor agrees to waive any and all claims against the Government and shall indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorney's fees, court costs, and expenses, arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of the GFCS and related technical data by the Contractor, a subcontractor, or by any person to whom the Contractor has released or disclosed such GFCS or related technical data.

(h) Flow-down of Waiver of Claims and Indemnification. In the event a contract includes this NASA FAR Supplement clause 1852.227-88, the Contractor shall include the foregoing clause 1852.227-88(g), suitably modified to identify the parties, in all subcontracts, regardless of tier, which involve use of the GFCS and/or related technical data in any way. At all tiers, the clause shall be modified to define GFCS as it is defined herein and to identify the parties as follows: references to the Government are not changed, and in all references to the Contractor the subcontractor is substituted for the Contractor so that the subcontractor has all rights and obligations of the Contractor in the clause. In subcontracts, at any tier, the Government, the subcontractor, and the Contractor agree that the mutual obligations of the parties created by this clause 1852.227-88 constitute a contract between the subcontractor and the Government with respect to the matters covered by the clause.

(End of clause)

[END OF SECTION]

2. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth herein and all claims arising out of or attributable to the issuance of contract changes and/or contractor proposals listed herein, the contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes.

(b) (4)

2. Update the H.5 PERSONNEL AND FACILITES (NFS 1852.235-71) (MAR 1989) Clause with the replacement of the Systems Support Services Manager, [redacted (b) (4)].

3. Update Section C, "DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK", paragraph 2.2 Contract Communications, to represent the new delivery process for type 2 and 3 DRD's as follows:

2.2. Contract Communications

> Formal communications between NASA and the Contractor shall be via use of the Transmittal/Information Request Form (TIRF), JSC Form JF991C. The TIRF will be used as a cover for all technical direction (sending, receipt/acknowledgment of, and response to technical direction). A TIRF may be used for general communications, requests for information, and submission of type 1 documentation.

4. Update Section J, Attachment J-10 Custom and COTS Software to reflect the latest revision for J-10b dated September 2015. This large attachment can be found on the MyFDOC2 Electronic Configuration Management System (ECMS) at the following link location under > CO Library> Sensitive Information (DRD_Non-DRD Related) > Attachment 10b:

https://myfdoc2.ndc.nasa.gov/pgrm3/docproc/CO%20Data%20Library/Forms/AllItems.aspx?RootFolder=%2Fpgrm3%2Fdocproc%2FCO%20Data%20Library%2FSensitive%20Information%20%28Non%2DDRD%20Related%29&FolderCTID=0x012000F0EF912884AE064D886860BC5EC5BD45&View=%7B5F834871%2D486A%2D400F%2D841E%2D381571A9D861%7D

5. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth herein and all claims arising out of or attributable to the issuance of contract changes and/or contractor proposals listed herein, the contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).

☐ C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

☑ D. OTHER *(Specify type of modification and authority)*
Mutual Agreement of the Parties

IMPORTANT: Contractor IS NOT required to sign this document and return 0 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The purpose of this modification is to update Section C Statement of Work, paragraph 3.2.4.5 Performance Standards, Section J-8 Off-Site GFP, Section J-9 On-Site Installation Accountable GFP, and Section J-17, DRD-0013 "Reprocurement Data Package."

See page 2 - 4.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER	
Karen Beuchaw		Tim A. Boyes, Contracting Officer	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
Karen L Beuchaw (Signature of person authorized to sign)	Digitally signed by Karen Beuchaw (affiliate) DN: c=US, o=U.S. Government, ou=NASA, ou=People, 0.9.2342.19200300.100.1.1=kwbeucha, cn=Karen Beuchaw (affiliate) Date: 2016.04.05 11:38:36 -05'00'	TIMOTHY BOYES (Signature Of Contracting Officer)	Digitally signed by TIMOTHY BOYES DN: c=US, o=U.S. Government, ou=NASA, ou=PIV, cn=TIMOTHY BOYES, 0.9.2342.19200300.100.1.1=tboyes Date: 2016.04.05 15:45:00

I. Update Section C, "DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK", paragraph 3.2.4.5 Performance Standards, to represent the new performance standards for integrated Sims as follows:

3.2.4.5 Performance Standards

The Contractor provides facility systems services for TS in accordance with requirements documents. The training systems perform unique critical functions and require a higher-level performance standard. Higher availability and reliability performance standards are defined as:

Required Service: Provide training operations services for the TS.

Standard of Excellence: 97% system operations availability for Integrated Sims.

Minimum Requirement: 94% system operations availability for Integrated Sims.

Standard of Excellence: 97% system operations availability for all non-integrated Sims (e.g. PTT's FCPTT's, DST's).

Minimum Requirement: 94% system operations availability for all non-integrated Sims (e.g. PTT's FCPTT's, DST's).

II. Update Section J, Attachment J-17, DATA REQUIREMENTS DESCRIPTION, (DRD) 0013, Performance Standards in its entirety and replaced with the following:

1. DRD Title	2. Date of current version	3. DRL line item no.	RFP/Contract No. (Procurement Completes)
Reprocurement Data Package	2/25/2016	DRD-FDOC-0013	NNJ09HD46C

4. Use *(define need for, intended use of, and/or anticipated results of data)*	5. DRD Category: *(check one)*
Provide content and format requirements for delivery to NASA of all analytical models, tools, supporting documentation, equipment, data items and resource/cost information used to perform future reprocurement activities. Data contained in Paragraph 8.c.i, "Labor Resources", Paragraph 8.c.ii, "Non-labor Resources", and Paragraph 8.c.iii may be marked "Lockheed Martin Proprietary Data" and "Competition Sensitive". Data contained in Paragraph 8.c.iv, "Technical and Process Information", and 8.c.v "ECMS" may be disclosed to competing offerors in the future.	☐ Technical ☒ Administrative ☐ SR&QA
6. References *(Optional)* None.	7. Interrelationships *(e.g., with other DRDs) (Optional)* None.

8. Preparation Information *(Include complete instructions for document preparation)*

a. Data Type: 2

b. Scope: Analytical models, unique tools, supporting documentation, equipment, and resource/cost information shall be submitted in accordance with this Data Requirement (DR).

c. Content: Data package containing the following:

i. Labor resources:

1. List of all direct labor skills by labor category, segregated by current work breakdown structure (WBS)

2. An estimate of the number of indirect labor skills such as business or computer support normally charged through an indirect expense pool or through a service center expense
3. Current annual average wage rates for each labor category and when these wages were last adjusted for escalation. Also indicate whether any adjustments are projected to be made prior to contract expiration
4. The number of FTEs (Full Time Equivalents) and the estimated number of productive hours for each labor category currently on contract, segregated by current WBS.
5. Seniority level of all skills on the current contract

ii. Non-labor resources:

1. List of all materials, equipment, travel, supplies, etc., and the incurred annual cost by WBS. Only include significant items that are used to perform the technical requirements of this contract.
2. Provide a discussion associated with the major items identified above, such as the materials estimate includes a prompt payment discount of TBD% due to large volume discounts you have negotiated with your vendors.

iii. The projected liability cost associated with unused accrued paid leave associated with non-exempt personnel. Provide a copy of any Collective Bargaining Agreements in place and a current status of any upcoming negotiations with a union.

Technical and Process Information:

Data Requirement Descriptions (DRDs):
DRD-FDOC-0002, Integrated Management Plan
DRD-FDOC-0007, Technical Metrics Plan and Reports
DRD-FDOC-0008, Government Property Management Plan
DRD-FDOC-0010, Information Technology (IT) Plan and Reports
DRD-FDOC-0012, Status Reports and Reviews (excluding Program Manager Status Review charts)
DRD-FDOC-0042, Training and Certification Plan
DRD-FDOC-0044, Configuration Management Plan
DRD-FDOC-0045, Level A and B Requirements
DRD-FDOC-0046, Interface Control Document
DRD-FDOC-0048, Equipment Replacement Plan
DRD-FDOC-0055, Design Specifications
DRD-FDOC-0061, Standard Operating Procedures

iv. Electronic Contract Management System (ECMS):

Provide the latest version of the ECMS SharePoint Workflow tool via electronic media, including but not limited to the following modules: Transmittal/Information Request Form (TIRF), DRD, Task Order, and Delivery Order. In addition to the actual workflows, documentation and server hardware and software configuration shall also be provided. Format: Electronic format of all submissions shall be compatible with IRD desktop standard applications or other ISS standard tools. Organizational format of the supporting documentation shall be the Contractor's format.

v. Additional data, as requested by Contracting Officer

d. Format: Electronic format of all submissions shall be compatible with IRD provided desktop standard applications or other ISS standard tools. Organizational format of the supporting documentation shall be the Contractor's format.

e. Distribution: Per Contracting Officer's letter.

f. Submission: On Request

i. Initial/Final – Initial Deliverable for items c.i through c.iv at the Contracting Officer's direction. Final Delivery of item c.iv (ECMS) required 60 days before End of Contract
ii. Approval – N/A.
iii. Frequency – No periodic submissions required per this DR (this does not relieve the requirement for periodic or incremental deliveries per other DRs).

Maintenance: All models/tools and data items shall be maintained electronically. All documentation developed to support the use of each model/tool and data items shall also be maintained electronically. Both the models and the

supporting documentation shall be updated as necessary to perform the assessments for which they were developed.

III. Update Section J, Attachments J-8 Off – Site Government Furnished Property (GFP) and J-9 On – Site Installation Accountable GFP, in their entirety and replaced with the latest revision per this modification. These large attachments can be found on the MyFDOC2 Electronic Configuration Management System (ECMS) at the following link location under > CO Library> Sensitive Information (DRD_Non-DRD Related):

Attachment J-8 Offsite Updated as of March 2016 -- Attachment J-8 Updated as of March 2016

Attachment J-9 Onsite Updated as of March 2016 -- Attachment J-9 Updated as of March 2016

IV. In consideration of the modification(s) agreed to herein as full and complete equitable adjustment for the changes set forth herein and all claims arising out of or attributable to the issuance of contract changes and/or contractor proposals listed herein, the contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to these changes.
