FOREWORD

The preparation of an index may appear to some people as a fruitless exercise in the compilation of past events. To some others, however, to index is to capture for reference the march of events. This Index, compiled by Mrs. Olive C. Ankersen, Documents Department, KSC Library, Kennedy Space Center, Florida, was prepared with this in mind.

The "Spaceport News Index" is intended to serve as a ready reference tool for the names, places and events that comprise the history of John F. Kennedy Space Center. The period covered by the Index is December 1962 through February 1972.

The arrangement is alphabetical by subject; under each subject, entries are arranged alphabetically by title. To facilitate use, cross references and scope notes have been provided.

Space Administration

John F. Kennedy Space Center

NASA

KSC FORM 16-12 (REV. 8/76)

00000515

FOREWARD

The Spaceport News Index is intended to serve as a ready reference tool for the names, places, and events that comprise the history of John F. Kennedy Space Center. The period covered by the Index is January 1980 through December 1984.

The arrangement is alphabetical by subject; under each subject, entries are arranged alphabetically by title. To facilitate use, cross references and scope notes have been provided.

The Index was prepared by KSC Library Services. Questions may be referred to KSC Archivist, NWSI-E, 867-2407.

FORWARD

The Spaceport News Index is intended to serve as a ready reference tool for the names, places, and events that comprise the history of John F. Kennedy Space Center. The period covered by the Index is January 1985 through December 1989.

The arrangement is alphabetical by subject; under each subject, entries are arranged alphabetically by title. To facilitate use, cross references have been provided.

The Index was prepared by KSC Library Services. Questions may be referred to KSC Archivist, NWSI-E, 867-2407.
