1. The following paragraph (g) is hereby added to NASA clause 1852.242-72 Observance of Legal Holidays Alternate II:

“(g)(1) If the Contractor or some or all of its employees were determined to be “non-exception” during the government shutdown from October 1, 2013 through October 16, 2013, and (2) the Contractor directed or authorized its employees to record wages and salaries as either paid leave or leave without pay for all or a portion of the government shutdown period, and (3) for each employee for which the Contractor seeks reimbursement, the Contractor confirms that the employee was not otherwise scheduled to take leave for reasons unrelated to the government shutdown period, then the Contractor may make retroactive adjustments to their records as necessary for such non-exception employees for the period of the government shutdown, to revise such paid leave or leave without pay to an administrative leave category. Such adjustments are for the purpose of ensuring that costs incurred for such adjustments shall be without loss to the contractor. No reimbursement shall take place until the contractor demonstrates that it has actually incurred costs.”

2. The contractor acknowledges that this action and modification to the NASA Observance of Legal Holiday Clause (Alternate II) is a one-time occurrence, and is not precedent for any future furlough or other work stoppage, or any instance in which the Observance of Legal Holiday Alternate II clause or any other clause may or may not be relevant in determining a contractor’s ability to recover. This action is not authority for recovery for wages and salaries for periods other than the October 2013 shutdown.

3. All other terms and conditions remain unchanged.

Previous edition unusable.
(a)(1) The performance of this contract requires contractor employees of the prime contractor or any subcontractor, affiliate, partner, joint venture, or team member with which the contractor is associated, including consultants engaged by any of these entities, to have access to, physical entry into, and to the extent authorized, mobility within, a NASA facility.

(2) NASA may close or deny contractor access to a NASA facility for a portion of a business day or longer due to any one of the following events:

(i) Federal public holidays for federal employees in accordance with 5 U.S.C. 6103.
(ii) Fires, floods, earthquakes, unusually severe weather to include snow storms, tornadoes and hurricanes.
(iii) Occupational safety or health hazards.
(iv) Non-appropriation of funds by Congress.
(v) Any other reason.

(3) In such events, the contractor employees may be denied access to a NASA facility, in part or in whole, to perform work required by the contract. Contractor personnel already present at a NASA facility during such events may be required to leave the facility.

(b) In all instances where contractor employees are denied access or required to vacate a NASA facility, in part or in whole, the contractor shall be responsible to ensure contractor personnel working under the contract comply. If the circumstances permit, the contracting officer will provide direction to the contractor, which could include continuing on-site performance during the NASA facility closure period. In the absence of such direction, the contractor shall exercise sound judgment to minimize unnecessary contract costs and performance impacts by, for example, performing required work off-site if possible or reassigning personnel to other activities if appropriate.

(c) The contractor shall be responsible for monitoring the local radio, television stations, NASA Web sites, other communications channels, for example contracting officer notification, Continued ...
that the NASA facility is accessible. Once accessible, the contractor shall resume contract performance as required by the contract.

(d) For the period that NASA facilities were not accessible to contractor employees, the contracting officer may:

(1) Adjust the contract performance or delivery schedule for a period equivalent to the period the NASA facility was not accessible;
(2) Forego the work;
(3) Reschedule the work by mutual agreement of the parties; or
(4) Consider properly documented requests for equitable adjustment, claim, or any other remedy pursuant to the terms and conditions of the contract.

(e) Notification procedures of a NASA facility closure, including contractor denial of access, as follows:

(1) The contractor shall be responsible for monitoring the local radio, television stations, NASA Web sites, other communications channels, for example contracting officer notification, for announcement of a NASA facility closure to include denial of access to the NASA facility. The contractor shall be responsible for notification of its employees of the NASA facility closure to include denial of access to the NASA facility. The dismissal of NASA employees in accordance with statute and regulations providing for such dismissals shall not, in itself, equate to a NASA facility closure in which contractor employees are denied access. Moreover, the leave status of NASA employees shall not be conveyed or imputed to contractor personnel. Accordingly, unless a NASA facility is closed and the contractor is denied access to the facility, the contractor shall continue performance in accordance with the contract.

(2) NASA's Emergency Notification System (ENS). ENS is a NASA-wide Emergency Notification and Accountability System that provides NASA the ability to send messages, both Agency-related and/or Center-related, in the event of an emergency or emerging situation at a NASA Continued ...
facility. Notification is provided via multiple communication devices, e.g. Email, text, cellular, home/office numbers. The ENS provides the capability to respond to notifications and provide the safety status. Contractor employees may register for these notifications at the ENS Web site:
