SUBJECT: Determination Regarding Attendance by NASA Employees at the Coalition for Deep Space Exploration Reception on July 22, 2021

On July 22, 2021, the Coalition for Deep Space Exploration (Coalition), a nonprofit organization under 501(c)(6) of the Internal Revenue Code, will host a reception at the Sonoma Restaurant and Wine Bar, Washington, DC, from 5:00 p.m. – 7:00 p.m. The Coalition is not registered and does not engage in lobbying activities. The event is to provide a venue for informal discussion for representatives from industry, the U.S. legislative branch, and others interested in deep space human exploration and space science. The Coalition is in control of the planning, organizing and issuing of invitations for this event.

Approximately 200 people are expected to attend the event. Attendees will have a diversity of views or interests and will include personnel from other federal agencies, representatives from the U.S. Congress, industry, and scientific organizations. The estimated cost of the event, including all food and beverages, is approximately \$50 per person. Attendance at this event will allow NASA attendees to exchange information regarding various NASA programs. I find that the event meets the requirements of a “widely attended gathering” as defined in 5 C.F.R. § 2635.204(g).

NASA employees, including NASA employees in non-career positions who are required to sign the ethics pledge under Executive Order 13989, who do not have a significant role in a matter affecting the interests of the sponsor may accept an invitation for free attendance to the event. In those circumstances, I find that the Agency’s interest in attendance outweighs any concern that the individual may be, or may appear to be, improperly influenced in the performance of their duties.

However, NASA employees who have a significant role in any pending matter affecting the interests of the Coalition, such as procurement duties, program management, or negotiating or administering a Space Act Agreement, should seek a separate determination from their local NASA ethics office as to whether they may accept the invitation. Attendees are reminded to exercise any COVID-19 precautions appropriate to their individual situation.
