Did You Know...

- There is an ADR program for EEO at the Center (informal stage of the EEO complaints process) and Agency (formal stage) levels.

- These programs are available to you to address EEO complaints quickly and effectively.
The Basics

The NASA ADR EEO program is a voluntary and confidential program designed to resolve EEO claims at every Center and at the Agency level through facilitation by a neutral third party, also known as a mediator.

The program generally utilizes mediation, one of the most common methods of ADR, to quickly and appropriately resolve workplace disputes. It provides individuals with the opportunity to develop mutually agreeable solutions. It also allows the individuals involved in the dispute to have a greater voice in the outcome than in the traditional EEO process, in which the outcome is determined by a NASA official or EEOC administrative judge.

Finally, ADR can foster stronger, more cooperative working relationships and help to build trust between managers and employees.

For these reasons, the Office of Diversity and Equal Opportunity (ODEO) at NASA champions and advocates ADR as a highly effective and cost-efficient means of resolving EEO disputes.
Objectives

- To proactively address workplace conflicts that may surface in the EEO area through a heightened emphasis on ADR.

- To support a NASA work environment where managers, supervisors, employees, and applicants for employment have a constructive and expeditious way to resolve EEO disputes and can remain focused on the mission.

- To provide a fair, timely, and cost-effective method for resolving EEO disputes.

- To provide for consistency across NASA Centers in ADR EEO processes.
An aggrieved individual who seeks EEO counseling elects mediation to resolve an EEO dispute during the informal EEO complaints process through the Center EO Director’s Office.*

Center EO Office coordinates mediation with the employee, management representative, and a third party neutral (mediator). If the employee chooses to have a representative present, then the Agency would have the discretion to provide an Agency representative, as well.

During mediation, parties discuss the issues that gave rise to the conflict and exchange proposals for resolution.

Center EO Office monitors implementation of the terms of the settlement agreement.

The agreement is finalized and signed by the parties, and implemented consistent with federal law, regulation, and NASA policy.

If parties come to a mutually agreeable resolution, the agreement is drafted and reviewed by Center EO Office, HR, and the Chief Counsel.

If parties do not come to a mutually agreeable resolution, the EO complaint process resumes.

ODDEO ensures that the mediator, a third party neutral, coordinates the mediation with the employee and management officials. If the employee chooses to have a representative present, then the Agency would have the discretion to provide an Agency representative, as well.

During mediation, parties discuss the issues that gave rise to the conflict and exchange proposals for resolution.

Mediation sessions continue until conflict is resolved, or either party chooses to end mediation.

If parties do not come to a mutually agreeable resolution, the EO complaint process resumes.

If parties come to a mutually agreeable resolution, the agreement is drafted. Once drafted, the agreement is then reviewed by the appropriate offices such as the Chief Counsel and Human Resources.

ODDEO monitors implementation of the terms of the settlement agreement.

The agreement is finalized and signed by the parties, and implemented consistent with federal law, regulation, and NASA policy.

Mediation sessions continue until conflict is resolved, or either party chooses to end mediation.

*The term “aggrieved individual” applies to both NASA employees and applicants for employment.
Frequently Asked Questions About ADR EEO Using Mediation

What are the benefits of mediation?

Mediation is an impartial problem-solving process designed to:

■ Lead to a mutually acceptable agreement, which is legally enforceable.

■ Allow both parties to develop a realistic assessment of its own as well as the other party’s viewpoints and alternative solutions.

■ Help the parties to isolate the problems and issues.

■ Ensure fairness for all parties.
ADR FOR EEO: A FAR-REACHING EFFECT

- Help the parties effectively communicate with each other.
- Help the parties explore mutually satisfactory solutions to problems instead of taking the case through the traditional complaints process.
- Lead to more timely resolution of EEO disputes in the workplace.
- Result potentially in monetary and nonmonetary settlement.
At what point during the EEO complaints process may I request ADR?

Either party may request ADR at any time during the EEO complaints process, either at the informal (Center) stage or the formal (Agency) stage.

Will my right to pursue court or administrative action be affected if I decide to mediate an issue?

No. If an aggrieved individual chooses mediation, the individual does not jeopardize his or her right to utilize the EEO complaints process in the future.

How can I obtain further information about the NASA ADR EEO program?

For additional information about the program, contact your Center EO Office (see ADR EEO Points of Contact) or the Agency ADR Program Manager in the Office of Diversity and Equal Opportunity, Complaints Management Division, at 202-358-2180.

You may also wish to review your Center’s ADR EEO procedures, available through your Center EO Office.
