

part 200: Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Certain parts of Chapter 1 reflect statutory requirements with limited additional guidance and will not be updated. The following are examples of parts in Subtitle A that may be under consideration for the next revision:

- *Part 25*: Universal Identifier and Systems for Award Managements
- *Part 170*: Reporting Subaward and Executive Compensation Information
- *Part 200*: Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards

In this notice, OMB is providing an opportunity for members of the public to provide comments on 2 CFR. Feedback provided should support the following goals of OMB's forthcoming revision:

- (1) revise guidance to incorporate statutory requirements and administration priorities;
- (2) revise guidance to reduce agency and recipient burden;
- (3) clarify guidance by addressing sections that recipients or agencies have interpreted in different ways; and
- (4) clarify guidance by rewriting applicable sections in plain English, improving flow, and addressing inconsistent use of terms. The revision will not represent a complete revision or restructuring of 2 CFR. OMB will strive to maintain the same overall structure of 2 CFR, including section numbers.

OMB seeks responses to one, some, or all of the following questions. Please note the current version of 2 CFR is located at <https://www.ecfr/current/title-2>. Where possible, include specific examples of how you or your organization is or would be impacted negatively or positively by specific sections of 2 CFR and, if applicable, provide references to any reports, articles, or other source material supporting your position. If you believe the current language should be revised, suggest an alternative (which may include not providing guidance at all) and include an explanation, analysis, or both, of how the alternative might meet the same objective or be more effective. Comments on the economic effects including quantitative and qualitative data are especially helpful.

1. What specific section(s) of 2 CFR would benefit from revision in order to support the goal of reducing administrative burden?

2. What specific section(s) of 2 CFR have been interpreted differently by Federal agencies and recipients leading to inconsistent implementation of Federal financial assistance?

3. What specific section(s) of 2 CFR would benefit from improved clarity or more precise language?

4. What specific suggestions do you have for otherwise improving the language of 2 CFR (e.g., consistent use of terms, other suggested edits)?
