## SCAN CREATIVE WRITING

The year is 2045 and you have just been selected as an astronaut for a very important mission. After an extreme space weather incident, NASA has lost contact with a Mars rover. Now the agency needs your help to find the rover's location. Read the Space Communications and Navigation (SCaN) Vocabulary Key to learn more about space communications, then write the story of your exciting journey to find and repair the lost Mars rover using eight of the twelve words in the box below.

Communications	Satellite	Antenna
Ground Station	Data	Launch
Navigation	Mars	NASA
Artemis	Rover	SCaN
