Grant Information Circular

GIC 19-02

August 2019

PURPOSE: To inform Grant and Technical Officers of the removal of the terms and conditions, certifications, assurances and representations required for federal grants recipients from Code of Federal Regulations (CFR) 2 CFR 1800 to NASA's Grant and Cooperative Agreement Manual (GCAM).

BACKGROUND: 2 CFR 1800 serves as NASA's supplement to government-wide regulations 2 CFR 200 – Uniform Guidance. In addition to 2 CFR 1800, the GCAM provides internal policy guidance to NASA Technical Officers and Grant Officers to implement government-wide and NASA-specific regulations for awarding and administering grants and cooperative agreements with educational and non-profit organizations; State, local, and Indian tribal governments; and for-profit entities when no cost-sharing is required.

In its final rule to implement 2CFR 1800 in 2015, NASA included its certifications, Assurances and Representations in Appendix A, and Terms and Conditions Clauses in Appendix B. Following a review of 2CFR 200, Subtitle B indicated that NASA is the lone agency of the 32 Agencies and Offices to have their Terms and Conditions and Certifications, Assurances and Representations included in its supplemental regulation. Thus, minor revisions to these terms and conditions result in adhering to the time consuming rulemaking process before becoming final. As a result, the Office of Procurement initiated the process, and the HQ Office of the Chief Financial Officer (OCFO) finalized the removal of the terms and conditions, certifications, assurances and representations from the regulations to be included in the GCAM – a living document not required to adhere to the federal rulemaking process.

GUIDANCE: The GCAM, as amended, is applicable to all grant and cooperative agreements.

EFFECTIVE DATE: This GIC is effective September 1, 2019.

REGULATION OR TERM AND CONDITION CHANGES:
