Jeanette Epps is from New York.

She is an inventor and received patents for her ideas to make cars safer.

Jeanette likes to travel to new places, read, run and scuba dive. She also likes to be a mentor and to spend time with family.

She was selected as an astronaut in 2009. She has been on an underwater mission. She spent nine days living and working on the ocean floor.

She is part of the Crew-8 mission to the International Space Station. Crew-8 is flying in a SpaceX Dragon spacecraft.
