

Biography

Mr. Anthoy M. Springer

*Director of the Integration and Management Office
NASA Aeronautics Research Mission Directorate (ARMD)*

Mr. Springer is responsible for the key directorate processes and activities including strategic communications, education, integration of ARMD and agency strategic planning and performance reporting, various program support activities including internal reviews, and program, human capital and mission support resources and technology requirements.

He has previously served in multiple positions within the mission directorate and its predecessor organizations including serving as the lead for communications and education, and the manager for alliance development.

Prior to coming to Headquarters Springer served as the resident manager for a NASA experimental vehicle program, and was a test engineer at the NASA Marshall Space Flight Center where his focus areas were launch vehicle aerodynamics and wind-tunnel testing. He began his career with NASA in the late 1980s as a cooperative education student.

During his career Springer has written or edited numerous technical papers, reports, encyclopedia entries and books. He has held numerous positions in aerospace professional societies, and is a fellow of the American Institute of Aeronautics and Astronautics.

He has a bachelor's of science in aeronautical and astronautical engineering from the University of Illinois.
