Summary information

Repository:	Headquarters Archives
Title:	Apollo Program Subject Files
Reference code:	SPFL-27
Date:	1958 - 2006 (creation)
Physical description:	135 Hollinger boxes (56.29 linear feet)

Scope and content

This artificial collection consists of Apollo program files collected by the National Aeronautics and Space Administration (NASA) Headquarters archivists for inclusion in the Historical Reference Collection. Records contain materials collected from the Office of Manned Space Flight (OMSF), contractor historians, and NASA retirees. Specifically, this series contains correspondence files; reports; meeting files; speeches; oral histories; congressional briefings and budget files; Apollo 11 flight and crew; impact of space program on society; lunar exploration; Apollo spacecraft design and development; program management; Apollo 8 flight and crew; Apollo 1 (AS-204) fire and investigation; Apollo 13 accident and investigation; and Apollo mission mode selection.

Notes

Arrangement

Materials are arranged in two sections: General Subject Files and Apollo Missions. Materials are arranged chronologically within these sections.

Restrictions on access

Restricted Possibly; Based on the content, this collection may contain information that has Controlled Unclassified Information (CUI) restrictions.

Distribution Limits: Determined After Review

Conditions governing use

This collection may contain copyrighted material. The researcher assumes full responsibility for conforming with the laws of copyright. Securing permission to publish or use materials is the sole responsibility of the researcher.
