## Summary information

---

<b>Repository:</b>	Headquarters Archives
<b>Title:</b>	George Low Administrator Files
<b>Reference code:</b>	ADMIN-05
<b>Date:</b>	1951 - 1990 (creation)
<b>Physical description:</b>	5 Hollinger Boxes (2.09 linear feet); 59 PDF files (37.4 MB)

---

## Scope and content

---

This artificial collection consists of materials related to NASA Administrator George Low (1970-1971). Records include biographical materials, photographs, personal papers, interviews, correspondence, articles, speeches, and records related to Apollo.

---

## Notes

---

### Arrangement

This collection is arranged in two series: Analog Records and Digital Speeches. The Analog Records are arranged by subject, then chronologically. Speeches are arranged chronologically.

### Restrictions on access

Not Reviewed; This collection has not been reviewed for restrictions and must be reviewed prior to any researcher access or digitization.

Distribution Limits: Determined After Review

### Conditions governing use

This collection may contain copyrighted material. The researcher assumes full responsibility for conforming with the laws of copyright. Securing permission to publish or use materials is the sole responsibility of the researcher.

### Note [General]

Speeches in the Analog Records may also be in the Digital Speeches series. Availability in one format does not guarantee that the same record is available in the other.

### Note [General]

Much of the information and description(s) are taken directly from the original finding aid written and the original Headquarters Archivists' records.

## Other notes

- **Publication status:** Published

## Series descriptions

### Series ADMIN-05-01: George Low Analog Records

Date: 1951-1990 (creation)

Publication status:

Published

#### File / item list

Reference code	Title	Dates	Physical description
ADMIN-05-01-B1-F14129	<b>File - Low (Photographs)</b>  <i>Scope and content:</i> Miscellaneous photos re gathering of past NASA administrators; receipt of Explorer Club award with astronaut Neil Armstrong; with Soviets Boris Petrov and Alexei Leonov after Apollo Soyuz Test Project (ASTP) flight readiness review; ASTP post-flight ceremony; meeting at Peruvian embassy; receipt of 1974 Rockefeller Public Service Award; receipt of 1971 Goddard Trophy; with Rocco Petrone observing test of sun shield deployment in buoyancy facility for Skylab; swearing-in ceremony as Deputy Administrator; with Wernher von Braun and Apollo 15 crew; testimony before Senate space committee on ASTP budget; presentation of medal to Skylab 4 crew; assisting Administrator James Fletcher at Space Shuttle press briefing; signing of NASA-Canadian communications satellite agreement; briefing with Mexican Director of Public Works, Antonia Alvarez Perez; mission control center for Gemini 5 and 9; launch control center at Kennedy Space Center (KSC) for Apollo 10; ASTP briefing at Bell-Aerospace in Buffalo; Gemini 4 press briefing; and certificate for NASA Outstanding Leadership Medal. Includes press release re receipt of 1974 Rockefeller Public Service Award; and brochure for farewell ceremony for Low.	1965 - 1980	Location: Box 1
ADMIN-05-01-B1-F24130	<b>File - George Low Personal Papers</b>  <i>Scope and content:</i> Miscellaneous correspondence re policy on holding of Fletcher and Low papers; request for disposition of personal papers to the Nixon Library and the Transportation History Foundation Library; and comments on Apollo 8 decision. Includes press release re donation of papers to the Rensselaer Polytechnic Institute (RPI). Includes a guide to "The George M. Low Papers, 1930-84" from the Institute Archives and Special Collections at RPI, dated 1988. James C. Fletcher contributed the preface to the guide.	1972 - 1988	Location: Box 1
ADMIN-05-01-B1-F34131	<b>File - Low, G.M. (Appointment)</b>  <i>Scope and content:</i> Miscellaneous press releases, news clippings, and excerpts from the Congressional Record re nomination, confirmation, and swearing-in of Low as the NASA Deputy Administrator. Includes Committee Print re hearing before the Senate Committee on Aeronautical and Space Sciences on the nomination of Low as Deputy Administrator of NASA.	1969	Location: Box 1

ADMIN-05-01-B2-F24155	<b>File - Low - Correspondence - 1971</b>	1971	Location: Box 2
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re Aeronautics and Space Engineering Board (ASEB) membership and comments on NASA's Space Shuttle and aeronautics program; FY1972 authorization bill; Low's trip to Soviet Union; FY1971 funding and NASA-Advanced Research Projects Agency (ARPA) agreement for joint development of ILLAC 4 computer system; FY1972 funding for NERVA nuclear program; comments on House Report on effectiveness of federal advisory committees; Space Shuttle Facilities Group (SSFG) study of launch, landing, and support facilities; FY1971 planned activities report to Congress; use of ATS-F satellite for US-Soviet research cooperation; disposal of excess foreign and domestic property; comments on General Accounting Office (GAO) audit reports on Saturn 5 contracts; international participation in post-Apollo program; participation in joint US-Soviet flight (Apollo Soyuz Test Project (ASTP)); procurement of architect-engineer service; selection of Kennedy Space Center (KSC) as launch site for shuttle; application of space technology for navigation of ships and aircraft; NASA budget forecast for FY1973 through FY1977; FY1972 budget for development of an experimental short take-off and landing (STOL) aircraft; NASA activities of interest to Interagency Arctic Research Coordination Committee; establishment and membership of Space Program Advisory Council (SPAC); reorganization of NASA advisory structure (SPAC, Science Advisory Committee, Astronomy Missions Board, Lunar and Planetary Missions Board, and Research and Technology Advisory Council (RTAC); cooperation with Soviet Union through Joint Working Groups; FY1971 appropriation for Mississippi Test Facility (MTF)-Slidell Computer Complex; exhibition of Lunar samples; FY1972 funding for Space Shuttle Program and cost-benefits study; Department of Transportation (DoT)/Department of Defense (DoD)/NASA research on microwave landing system for low-visibility; policy on NASA employees testifying before Congress; report of Joint NASA-DoT Civil Aviation Research and Development (CARD) Policy Study; proposal for data bank of displaced aerospace workers; request to use Michoud Assembly Facility (MAF) by New Orleans Public School System; investigation of Mariner H failure; facilities management policies and procedures; funding repair of Launch Complex 17B environmental enclosure destroyed in fire; selection of remaining Apollo and Skylab mission crews; studies for space tugs; selection of contractor for Space Shuttle Main Engines (SSME); impact of space shuttle development costs on NASA budget; and report of Mariner 1 launch readiness review. Includes press releases re resignation of Julian Scheer as Assistant Administrator for Public Affairs; resignation of Alfred Eggers as Assistant Administrator for Policy; and US-Soviet Agreement, "Summary of Results of Discussions on Space Cooperation Between the Academy of Sciences of the USSR and the US National Aeronautics and Space Administration, Moscow, January 18-21, 1971".</p>			

ADMIN-05-01- B2-F34156	<b>File - Low - Correspondence - 1972</b>  <i>Scope and content:</i>  Contains correspondence re investigation concerning sale by the Muscular Dystrophy Association of America of an Apollo 14 flag and patch; FY1971 contracts in New York's 36th Congressional district; impact on NASA of bill requiring use of recycled material by research and development contractors; Orbiting Solar Observatory (OSO) project; policies regarding selection of subcontractors for Space Shuttle Program; Delta launch vehicle second stage procurement; enrolled enactment to allow NASA to sell off land at Kennedy Space Center (KSC) to the Chapel of the Astronauts, Inc.; Delta Launch Vehicle Systems Review Board investigation of Delta launch failures; FY1973 authorization hearings before Senate Committee on Aeronautical and Space Sciences; FY1973 NASA activities and funds in New Mexico; research on metallic hydrogen technology for rocket propulsion; Construction of Facilities (CoF) funding for modifications for Space Shuttle Main Engine (SSME) component test program at Santa Susana and Canoga Park, California; use of Omega and Bulova wrist watches by the astronauts; policy on service support contracts and the Freedom of Information Act; summary of investigation of unauthorized postal covers taken on Apollo 15; importance of cost-benefit studies and space applications impact on the economy; report on request for West Coast Fire Service to provide fire protection and security services at Manned Spacecraft Center (MSC); institutional management reorganization; NASA-Jet Propulsion Laboratory (JPL) minority business subcontracting policies; section 8a awards to small/minority businesses; Space Program Advisory Council (SPAC) consideration of space policy for 1970's; Research and Technology Advisory Council (RTAC) long range planning for aeronautical program; report, "Selection of Contractor for Space Shuttle Program"; use of geo-stationary satellites for atmospheric turbidity research; and nuclear propulsion stages for space probes. Includes press release re appointment of William Lilly as NASA Comptroller.	1972	Location: Box 2
ADMIN-05-01- B2-F44157	<b>File - Low - Correspondence - 1973</b>  <i>Scope and content:</i>  Miscellaneous correspondence re establishment of Safety and Reliability and Quality Assurance Office; list of individuals reporting NASA and aerospace-related employment; providing satellite communications to Alaska; NASA aid in development of automotive ground propulsion unit; Systematic Transportation Analysis Research (STAR) Project; JT8D Refan Engine noise reduction program; press coverage of Apollo recoveries; selection of contractor for Skylab Program emblems; NASA support to general aviation; NASA role in development of solar energy technology; policy on NASA employees having direct communication with members of Congress or White House; dissemination of data from ERTS-1 satellite; out-placement of Space Nuclear Systems Office (SNSO) and Nuclear Rocket Development Station (NRDS) personnel; communications applications program and funding for ATS-F satellite; proposed amendments to Communications Satellite Act of 1962; personnel reductions at Marshall Space Flight center (MSFC); report to Congress on disposal of foreign excess property; reduction-in-force (RIF) notice to Lloyd G. Egbert, Lewis Research Center (LeRC) employee; policy on contracts reimbursement for employee retirement funds; FY1973 funding for Delta Launch Vehicle; European Space Research Organization (ESRO) establishment of project to study design sortie laboratory for Space Shuttle (Spacelab); request by Governor Jimmy Carter for remote sensing coverage of Georgia; enrolled enactment to rename Manned Spacecraft Center (MSC) to Lyndon B. Johnson Space Center (JSC); use of NASA facilities by other government agencies; FY1973 program levels; awarding of procurement of electrical work at Michoud Assembly Facility (MAF); personnel management; effect of UV radiation on nylon; appointment of NASA special task force on energy conservation; Apollo Soyuz Test Project (ASTP); report on investigation of Skylab 3 service module reaction control system leak; study of science indicators and Civil Aviation Research and Development (CARD) policy study; NASA-US Geological Survey (USGS) cooperation; policy on release of advance agency publicity; proposal by astronaut Edgar Mitchell for establishment of goodwill committee of retired astronauts and cosmonauts; women's role in space; and FY1974 funding for Lunar research. Includes press releases re appointments of Dudley McConnell as Assistant Administration for Equal Opportunity Programs and E. Z. Gray as Assistant Administrator for Industry Affairs and Technology Utilization.	1973	Location: Box 2

ADMIN-05-01-B2-F54158	<b>File - Low - Correspondence - 1974</b>	1974	Location: Box 2
<p><i>Scope and content:</i></p> <p>Correspondence re crew safety for Apollo Soyuz Test Project (ASTP) mission; NASA fire resistant materials and technology research; changing title of Office of Manned Space Flight (OMSF) to Office of Space Flight (OSF); Viking program status; "Jupiter effect" theory; reports on enrolled enactments to turn over land to New Mexico State University, conservation and rehabilitation programs on military reservations, and research and development on solar energy utilization; FY1975 funds and planned actions affecting lunar and planetary exploration programs (Viking); FY1975 funding for Systems Development Laboratory (SDL) at Jet Propulsion Laboratory (JPL); agenda for NASA annual facilities conference; request for ATS-1 communications services to Alaska; cost for additional ATS-F "prime" mission; semiconductor crystalline structure device processing; FY1975 budget for Large Space Telescope (Hubble), SEASAT-A satellite, SDL addition, Flight Research Center (FRC) Orbiter Horizontal Flight Test Facilities, and research and program management; request from House Committee on Science and Astronautics for NASA and contractors' science and technological capability; FY1975 budget; use of PAN camera on ASTP mission; personnel reductions; estimated cost for Space Shuttle "package B"; impact of cancellation of QUESTOL program; data management; plan for energy conservation and management; center directors' FY1976 budget meeting; financial backing for Grumman's F-14 aircraft project; contractor selection for Goddard Space Flight Center (GSFC) Central Computing Support; Space Shuttle external tank program organization; source selection proceedings; indexing of NASA software programs to reduce duplication; establishment of Low Cost Systems Office; integrity of merit system; policy directive for employment of handicapped individuals; personal notes on visit to Jacques Cousteau's ship, "Calypso"; contracting of instruments for Nimbus G satellite; and coordination of ASTP Flight Readiness Review. Includes press releases re appointments of Alan Lovelace as Associate Administrator for Aeronautics and Space Technology (OAST), John Thole as Deputy Associate Administrator for Space Sciences (OSS), Elmer Groo as Associate Administrator for Center Operations, Ray Kline as Assistant Associate Administrator for Center Operations, Edwin Kilgore as Deputy Associate Administrator for Center Operations, John Finley Yardley as Associate Administrator for Manned Space Flight (OMSF), and Elizabeth Covert as Special Assistant for Internal Communications; establishment of NASA Aircraft Office and transfer of Automatic Data Processing (ADP) management office to Office of Center Operations; and retirement of Charles Berry as Director of Life Sciences.</p>			

ADMIN-05-01-B2-F64174	<b>File - Low - Correspondence - June-Dec. 1971</b> <i>Scope and content:</i> Miscellaneous correspondence re cooperation with Soviet Union for Apollo Soyuz Test Project (ASTP) mission; Space Shuttle Facilities Group (SSFG) study of launch, landing, and support facilities; Space Shuttle costs; Kennedy Space Center (KSC)-Goddard Space Flight Center (GSFC) cooperation with Eastern Test Range (ETR); Justice Department cooperation with NASA Earth Resources Survey Program for remote sensing of drug producing plants; NASA environmental science and technology programs; reprogramming of FY1971 funding of Lunar Sample Curatorial Facility and structural-thermal test capability at Marshall Space Flight Center (MSFC); reprogramming of FY1970 KSC funds to Langley Research Center (LaRC); Aircraft Noise Reduction Laboratory construction; bill requiring percentage of recycled material in goods purchased by NASA; membership of National Science Foundation Interagency Decade Planning Group; justification for FY1972 facilities projects; naming of Lunar landing sites; use of Interrogation, Recording, Research and Location System (IRLS) platform for around world flight by British aviatrix, Sheila Scott; research in weather modification; cancellation of GEOS C satellite; Space Shuttle study contracts; Pratt & Whitney protest of selection of Rocketdyne for design of Space Shuttle Main Engines (SSME); study by Mitre Corporation under contract with Council on Environmental Quality; Space Shuttle configuration studies; reorganization of Office of Advanced Research and Technology (OART) and reassignment of Carl Janow; planned use of Mississippi Test Facility (MTF) and Michoud Assembly Facility (MAF) for shuttle engine development; reply for technical information on metals through NASA Regional Dissemination Centers; policy on civil service and contractor employment; NASA launching services to ComSat; and legislation for encouraging international cooperation on Space Shuttle and station programs. Includes announcement of appointment of Lee Scherer as Director of NASA Flight Research Center (FRC).	1971	Location: Box 2
ADMIN-05-01-B3-F14132	<b>File - Low, George M. (Post NASA)</b> <i>Scope and content:</i> Miscellaneous news clippings re receipt of the Presidential Medal of Freedom and the National Medal of Science; selection of son, G. David Low, to the astronaut corps; appointment to NASA transition team for President-elect Reagan; national energy crisis and policy; activities as president of the Rensselaer Polytechnic Institute (RPI); report of panel headed by Low on Federal Aviation Administration (FAA) policies and procedures; industry productivity; resignation from NASA for presidency of RPI; Apollo 8 mission decision; the impact of the Apollo 8 mission on the ecology movement; and obituaries. Includes press releases re the renaming and awarding of the NASA Excellence Award as the George M. Low Trophy; selection of David Low to astronaut class of 1984; appointment as chairman of panel to study the FAA; retirement from NASA; and the awarding of a NASA grant to RPI to establish a center for materials study for application to aircraft. Also includes excerpts from the Presidential Papers re remarks by President Reagan at the Presidential Medal of Freedom and National Medal of Science presentation ceremonies and Space Exploration Day, 1984, noting the passing of Low; and excerpt from the Congressional Record re article by Low, "The Imperative of Basic Research". Includes report of the NASA transition team re aeronautics and space policy, FY1981 and FY1982 budgets, and NASA organization and personnel management.	1976 - 1990	Location: Box 3

ADMIN-05-01- B3-F24133	<b>File - Low, George M. (Biography)</b>	1960 - 1976	Location: Box 3
<p><i>Scope and content:</i></p> <p>Miscellaneous news clippings re resignation from NASA; development of fuel-saving aircraft; Apollo Soyuz Test Project (ASTP) and post-Apollo projects; visit to the Soviet Union; NASA employment rates; space program impact on the California economy; plans for manned space stations; McDonnell Douglas machinists strike threat to ASTP mission; receipt of the Rockefeller Public Service Award, the National Civil Service League Career Service Award, Arthur S. Fleming Award, and the Goddard Trophy; policy on combined military-civilian weather satellites; cooperation with the Soviet Union on ASTP; benefits of the space program to the economy, technology, environment, science, and society; speech against pessimists in the space program; selection of Space Shuttle launch sites; possible termination of the "grand tour" missions; Soyuz 11 accident and Luna 16 landing on the Moon; US lead over USSR in developing a shuttle; cooperation with European countries in space; Soviet space program; benefits from development of a supersonic transport (SST); applications of an Earth resources system; solar flare shielding for Apollo astronauts; Mercury Project and manned space flight; and article by Low on Project Mercury and astronaut training. Includes press releases and news clippings re resignation from NASA; ASTP working group meetings in Soviet Union; disbandment of the Office of Organization and Management; dedication of the Arecibo Observatory; establishment of the space program advisory council; meeting with Soviet Academy of Sciences on space research cooperation; meeting of the Committee on Space Research (COSPAR); receipt of the Distinguished Service Medal; appointments as NASA Deputy Administrator, Manned Spacecraft Center (MSC) Deputy Director, Deputy Director of Manned Space Flight Programs, director of spacecraft and flight missions, and chief, manned space flight program. Also includes National Space Club awards banquet brochure, "The Year of Skylab"; speech, "Project Mercury Progress Report"; notes from news conference on extravehicular activity (EVA) plans for Gemini Program; appointment calendars for the Office of Administrator for September-October, 1975; and correspondence re receipt of the Arthur S. Fleming Award and NASA Outstanding Leadership Medal, and selection of a historian for the Space Task Group (STG).</p>			
ADMIN-05-01- B3-F34134	<b>File - Logsdon Interview - Mr. George M. Low, Dep. Dir., MSC</b>	7-Jul-70	Location: Box 3
<p><i>Scope and content:</i></p> <p>Interview by John Logsdon re early Space Shuttle planning.</p>			
ADMIN-05-01- B3-F44136	<b>File - Low, Dr. George, Interview W/Don Neff, Time, Inc., (2/4/69)</b>	4-Feb-69	Location: Box 3
<p><i>Scope and content:</i></p> <p>Interview by Don Neff re decision for the Lunar-orbit-rendezvous (LOR) mission mode for the Lunar landing, and Saturn launch vehicle and Apollo spacecraft development. Includes compilation of interviews by Neff re establishment and activities of the Space Task Group (STG), Project Mercury, and the move to the Manned Spacecraft center (MSC) in Houston.</p>			
ADMIN-05-01- B3-F54137	<b>File - Low - Interview - JFK Library, 1964</b>	1-May-64	Location: Box 3
<p><i>Scope and content:</i></p> <p>Interview by Eugene Emme, Addison Rothrock, and Jay Holmes re President Kennedy's tour of the Manned Spacecraft Center (MSC) in 1963; transition from the Eisenhower Administration to Kennedy; Space Task Group (STG); reports by the Wiesner, Goett, Fleming, and Hornig committees; Lunar landing decision; decision of Lunar orbit-rendezvous (LOR) mission mode decision for Lunar landing; Abe Silverstein decision to base launch vehicle program on hydrogen technology; report of the Large Launch Vehicle Planning Group (LLVPG); Congressional testimony during the Gagarin flight; and development of the Saturn launch vehicles.</p>			

ADMIN-05-01-B3-F64138	<b>File - Indianapolis -- Dr. Low 10/21/75</b>	1975	Location: Box 3
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence and notes, itineraries, and background information for speech to be given at the Columbia Club in Indianapolis, Indiana. Includes statistics on FY1975 and FY1975 funds spent in Indianapolis and Indiana, and examples of technology transfer in Indiana; and biographical information on executives of the Detroit Diesel Allison Division of General Motors.</p>			
ADMIN-05-01-B3-F74139	<b>File - Low, George M. (Published Articles)</b>	1951 - 1970	Location: Box 3
<p><i>Scope and content:</i></p> <p>NACA Technical Notes: TN3103 "Cooling Requirements for Stability of Laminar Boundary Layer with Small Pressure Gradient at Supersonic Speeds", by Low; TN2257 "Temperature Distribution in Internally Heated Walls of Heat Exchangers Composed of Noncircular Flow Passages", by Low and E.R.G. Eckert; and TN2531 "Simplified Method for Calculation of Compressible Laminar Boundary Layer with Arbitrary Free-Stream Pressure Gradient", by Low. Includes article, "What Made Apollo a Success?", by Low.</p>			
ADMIN-05-01-B3-F84153	<b>File - Low, George M. (Correspondence 1959-69)</b>	1959 - 1969	Location: Box 3
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re comments by Low on paper by John Logsdon, "NASA's Implementation of the Lunar Landing Decision" (HHN-81); policy on rating launch vehicle thrust; on-board television cameras for Apollo spacecraft to view the first step on the Moon; Grumman analysis of Lunar Module (LM) landing problems; mission planning for Apollo C-Prime flight; flight profile for Lunar landing missions; Apollo certification of flight worthiness (COFW) procedures; Rocketdyne LM ascent engine contract; Apollo change policies and procedures; cost reduction of General Electric-MSC engineering support; Boeing Technical Integration and Evaluation (TIE) management plan contract; reduction of extravehicular activity (EVA) operations for first Lunar landing; review of Apollo circuit breakers as ignition sources; procurement of systems for development, testing, and rating of Apollo spacecraft; Kennedy Space Center (KSC) mission launch support service contracts; personnel reassignments; Gemini Program results; selection of MSC Gemini Support Team for the Group Achievement Award; cancellation of Saturn 1 manned flights; Saturn 1B and 5 flight schedule; proposal for micrometeoroid experiment using Saturn launch vehicle; summary of meeting of the Space Task Group (STG) on Apollo plans and programs; establishment of the Manned Lunar Landing Program Committee to set plans for Apollo; proposed use of infrared scanners for spacecraft recovery; review of design proposals by Albert Patterson and Ubaldo Ranzi on spacecraft reentry modes; use of American and Indian born rhesus monkeys; and establishment of criteria for selection of Project Mercury astronauts.</p>			
ADMIN-05-01-B3-F96681	<b>File - Low, George M. Interview By Ed Ezell</b>	1975	Location: Box 3
<p><i>Scope and content:</i></p> <p>Interview of George M.Low by Edward Ezell re origins of Apollo Soyuz Test Project (ASTP) agreement.</p>			
ADMIN-05-01-B3-F107878	<b>File - George M. Low - Shuttle - 1972-77</b>	1972 - 1977	Location: Box 3
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re Space Shuttle Program decision; shuttle cost analysis; shuttle booster decision; comments on General Accounting Office (GAO) study on shuttle; FY1977 budget and new start proposals by Space Program Advisory Council (SPAC); funding for 5 orbiters or 3 orbiters and Titan 3 capability; and management review of shuttle systems engineering.</p>			

ADMIN-05-01-B3-F117879	<p><b>File - George M. Low - Project Apollo 1967</b> 1967 Location: Box 3</p> <p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re North American Aviation (NAA) contract for Apollo command and service module (CSM); recollections by Joseph Shea; contract negotiations; Apollo Project Office management; Apollo test procedures, quality and inspection; space raft structural environment; considerations in selection of spacecraft atmospheres; Apollo spacecraft wiring; restructuring and engineering decisions after Apollo 1 fire; Boeing's role in space vehicle integration; visit of Senate committee staff members to NAA; contract change authorizations (CCA) for Apollo spacecraft; and management organization of Rocketdyne's Reaction Control System (RCS) engines for Apollo CSM.</p>
ADMIN-05-01-B4-F14175	<p><b>File - Low - Speeches/Statements 1960-68</b> 1960 - 1968 Location: Box 4</p> <p><i>Scope and content:</i></p> <p>Testimony before the House Committee on Science and Astronautics re FY1961 budget request and Project Mercury; Mercury and Apollo manned space flight programs and description of the MR2 flight; and astronaut qualifications. Includes speeches re Project Mercury and astronaut training; "Manned Space Flight - When, Where and Why"; "Project Apollo"; "Organizing for the Conquest of Space"; space race and national security; and "A Report on the Manned Space Flight Program".</p>
ADMIN-05-01-B4-F24176	<p><b>File - Low - Speeches/Statements - 1970</b> 1970 Location: Box 4</p> <p><i>Scope and content:</i></p> <p>Testimony before the House Committee on Science and Astronautics re FY1971 budget; testimony before the House Ad Hoc Subcommittee on Aerospace Museum Study re bill to establish a NASA aerospace museum on the western United States; and transcript of press conference on the Apollo 13 Review Board report. Includes speeches re early years in space and the impact on technology, "Our Future in Space: A Challenge in Leadership"; "The Impact of Man and His Environment on the Space Program"; and the value of the space program and its science and technology.</p>
ADMIN-05-01-B4-F34177	<p><b>File - Low - Speeches/Statements - 1971</b> 1971 Location: Box 4</p> <p><i>Scope and content:</i></p> <p>Testimony on FY1972 budget before House Committee on Science and Astronautics, House Subcommittee on HUD-Space-Science, Committee on Appropriations, and the Senate Committee on Aeronautical and Space Sciences; and testimony before the Senate Committee on Aeronautical and Space Sciences and the Joint Committee on Atomic Energy re FY1972 NERVA space nuclear propulsion program funding; Senate Committee on Aeronautical and Space Sciences re "Space Cooperation Between the United States and the Soviet Union"; and the House Subcommittee on NASA Oversight, Committee on Science and Astronautics, re Mariner 8 failure and Mariner 9 launch readiness. Includes speeches re science, technology, applications and public policy and "International Aspects of Our Space Program"; transcripts of press conferences re Mariner 8 failure and Soviet loss of three cosmonauts on Soyuz 11; press release re briefing on FY1972 budget; and paper by Low and L.R. Scherer re "Apollo Lunar Exploration".</p>

ADMIN-05-01- B4-F44178	<b>File - Low - Speeches/Statements - 1972</b>	1972	Location: Box 4
<p><i>Scope and content:</i></p> <p>Miscellaneous speeches re "America's Stake in the Space Program"; "Productivity in the Space Program"; "NASA's Attack on the Cost Problem"; "Status of the Space Program and Its Goals, National and International"; "The Cost of Doing Business in Space"; NASA organization and project management; challenges and cuts in future space program; and commencement speech given at Rensselaer Polytechnic Institute (RPI). Includes transcript of press conferences re foundation of Space Shuttle Program; selection of Space Shuttle launch sites; and US-Soviet cooperation in space. Also includes testimony before House and Senate Science Committees, re May 1972 Moscow Summit Agreement.</p>			
ADMIN-05-01- B4-F54179	<b>File - Low - Speeches/Statements - 1973-76</b>	1973 - 1976	Location: Box 4
<p><i>Scope and content:</i></p> <p>Testimony before the Senate Committee on Aeronautical and Space Sciences re FY1974 authorization and benefits of NASA research in space and aeronautics, with appendix describing visual displays; and Joint Committee on Defense Production re NASA's response to report of government officials visiting hunting facilities as guests of aerospace contractors. Includes speeches re dedication of Launch Pad 39A upon fifth anniversary of the Apollo 11 lunar landing; impact of science and technology on society; "Our Future in Space"; international aspects of the US Space Program; space science and exploration, applications and transportation, and international cooperation; and status of Landsat, Viking, and Space Shuttle Programs. Also includes transcript of the Fourth Annual Lunar Science Conference with Christopher Kraft, Anthony Calio, Gerald Wasserburg, and Low.</p>			
ADMIN-05-01- B5-F14159	<b>File - Low - Correspondence - 1975</b>	1975 - 1977	Location: Box 5
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re enrolled enactment for conservation programs on military reservation and public lands; comparison of productivity programs of government agencies; European organizations involved in aeronautics and space; incentive awards program; benefits and outlines of meetings with non-aerospace business and community leaders; actions to increase women and minorities in GS14 and higher positions; use of large thermal vacuum chamber at Kennedy Space Center (KSC); FY1977 budget estimates; NASA support of contractor minority business commitments; chronological notes of visit to Soviet Union for Apollo Soyuz Test Project (ASTP); distribution practices for NASA publications through Government Printing Office (GPO); submission of new logo type for NASA; roll-out of Space Shuttle; and invitation to Space Shuttle management review. Includes articles re significance of ASTP mission, and hiring of women and minorities in NASA; and press release re appointment of Raymond G. Romantowski as Energy Research and Development Agency (ERDA) Assistant Administrator for Administration.</p>			
ADMIN-05-01- B5-F27877	<b>File - George M. Low, Chron Files 1976</b>	1976	Location: Box 5
<p><i>Scope and content:</i></p> <p>Miscellaneous correspondence re nomination of Arnold Frutkin for 1976 Rockefeller Public Service Award; stratosphere research program; research on chlorofluoromethanes; funding for the Large Space Telescope (LST/Hubble); nomination of Bruce Lundin for Astronautics Engineer Award; tail design modifications to the Boeing 747 Approach and Landing Test (ALT) aircraft; turnover of Low's activities upon resignation; NASA FY1978 space science budget; budget cut impact on planetary exploration; European participation on Space Telescope; proposed answers for the President on space policy and the shuttle program; and pricing policies for Space Shuttle services.</p>
