## PART 1 - TASK ORDER INFORMATION

<b>Contract No:</b> NNA13AB88C		<b>Contract Title:</b> ACITS 3 NASA AMES		
<b>Date:</b> 8/28/2017		<b>Task Title:</b> Research Flight Control Computer System Software		
<b>Task Order No.:</b> Y47	<b>Task Mod No.:</b> Original	<b>Service Request No.:</b>	<b>Customer Code:</b> NASA/Ames Research Center	<b>SOW Reference:</b> C.3.1.5
<b>Order Type:</b> Cost Plus Fixed Fee		<b>Funding Level:</b> Task Level Funding		
<b>Task Requester Email:</b> (b) (6)		<b>Name:</b> Ernie Moralez		<b>Phone:</b> (b) (6)
<b>Financial Manager Email:</b> (b) (6)		<b>Name:</b> Charles Ingalls		<b>Phone:</b> (b) (6)
<b>Computer Security Officer Email:</b> (b) (6)		<b>Name:</b> Roy Shishido		<b>Phone:</b> (b) (6)
<b>Task previously covered by another contract other than predecessor to incumbent? (If YES, provide in SOW)</b>				<b>YES</b>
<b>Does the task require access to government databases? (If YES, indicate in SOW)</b>				<b>NO</b>
<b>SECTION 508, ELECTRONIC AND INFORMATION TECHNOLOGY ACCESSIBILITY COMPLIANCE (EITAC)</b>				
<b>Does the task include EIT items? (Please review the EITAC documentation)</b>				<b>NO</b>
<p>Upon receipt of this task order request, the contractor shall review the task requirement(s) and inform the Government, as part of its task order/modification response, any discrepancies between standards initially cited and those the contractor proposes to deliver to the Government. Examples of discrepancies include ODCs for which some other standard might be or become applicable and, as a result, require citation in the task order, as well as any cited standards that the contractor believes is not applicable (provide rationale). Note: If, by mistake, the task, including and ODC of the task, should not meet an applicable standard not cited by the requester, it is the requester, not the contractor who is a fault; and the requester must find a way (e.g., by modifying the task request) to bring the task into compliance. In such cases the requester shall complete the required agency forms (or equivalent) before the task order/modification is approved.</p>				
<b>GOVERNMENT FURNISHED EQUIPMENT (GFE)</b>				
<p>Government will provide all appropriate equipment and software necessary for the performance of this task unless otherwise noted in this task order. The contractor, in accordance with the contract can acquire equipment not presently available as GFE. Equipment identified as task unique will be expensed to the task in accordance with ASRC Federal Accounting policy, and will be defined as GFE in the Government inventory. All other equipment purchases will be depreciated and become contractor property. The contractor shall follow agency rules regarding assignment of government owned equipment and other government supplied equipment. The contractor shall provide information, such as, Property Assignments, Property Location and Unused Equipment, upon request.</p>				
<b>AFFIRMATIVE PROCUREMENT (See <a href="http://www.epa.gov/cpg/products.htm">http://www.epa.gov/cpg/products.htm</a>)</b>				
<p>The item(s) being purchased are NOT on any of the EPA's Comprehensive Procurement Guideline lists. - AND -</p> <p>They meet the minimum recycled/recovered content.</p>				
<b>COTR SIGNATURE:</b> Kirsten Nagel (9/18/2017)			<b>CO SIGNATURE:</b> Anjennette Contreras-Rodriguez (9/18/2017)

**Task Background:**

The U.S. Army Aviation Development Directorate (ADD) manages and conducts the Army's aviation-related Science and Technology (S&T) activities as the aviation arm of the Aviation and Missile Research Development and Engineering Center (AMRDEC). The ADD mission is to lead the discovery, development and integration of Aviation technologies that transform Warfighter needs into capabilities. We accomplish this vital mission by empowering a distributed workforce of technical leaders to discover new technologies and approaches, develop advanced concepts, and demonstrate technical maturity and military usefulness, enabling the Army to deliver game changing Aviation capabilities to the battlefield.

ADD's S&T portfolio supports both the current and future Army Aviation fleet. Although a large portion of our investment is focused on future fleet, most of our technology development will also help keep our existing fleet relevant and capable for years to come.

The ADD Human-Systems Interface Technical Area researches and develops technologies to allow safe rotorcraft operations in degraded visual environments and develops symbology and interface concepts to reduce training time and workloads for both manned and unmanned operators.

**Statement of Work - Requirements, part 1:**

The purpose of this task is to support the design, development, integration, and testing of system software for the Research Flight Control Computer (RFCC) Mark 2 to support the flight research and flight test efforts of scientists and engineers with the U.S. Army Aviation Development Directorate -- AFDD (NASA Ames Research Center Code Y).

**Statement of Work - Requirements, part 2:**

Support of development of system software for the Research Flight Control Computer (RFCC) with the following subtasks:

1. Final acceptance testing.
2. Create documentation that describes the system design, test results, load procedures, data download procedures, data file description, and interface control description.
3. Development of a well-designed reliable source code and document control system that shall be used for configuration management.
4. Final documentation and report.
5. Continuing long-term (1-year) support for integration and testing on the (b) (7)(E)

**IT Security Requirements:**

- a. Are this task's activities covered under an organizational IT Security Plan?: YES
- b. Does this task support applications that have been designated as a "Special Management Attention" application?: NO

If yes, please describe:

- c. Is specialized security training required?: NO

If yes, specialized training requirements are described as follows:

- d. Is a security clearance needed for any personnel on this task? NO

If yes, what level of clearance is required?:

- e. IT Security Deliverables associated with this task:

- IT Risk Assessment: NO
- IT Security Plan: NO
- IT Contingency Plan: NO
- IT Security Vulnerability Test Results: NO
- Results of Periodic IT Security Reviews: NO
- Other Documentation as Follows: Report of Status of IT Security Plan, Contingency Plan, and Risk Assessment of Critical Services: NO
- Other Documentation:

**IT Security Requirements (Continued):**

f. Periodic reviews of IT Security measures are necessary. What is the role of the contractor under this task in areas such as review of user accounts, account management, data backup and restoration, use of warning banner, use of encryption, vulnerability scanning, and security tools?

g. In the event of an IT Security incident associated with systems and data under this Task, the Chief Information Security Official, the Security Operations Center (SOC), and the Task Requester are to be notified immediately by the contractor. In order to ensure full coordination, the following individuals also are to be notified:

Title	Name	Phone
System Owner (Responsible for the applicable IT Security Plan)	Roy Shishido	(b) (6)
Organization's Computer Security Official	Roy Shishido	
Alternate System Owner
