The NASA Learning Lunchbox : Feeding STEM Diversity and Serving Underserved Youth with NASA Artemis and the James Webb Telescope Across the Nation

Stephen White

2/09/22 - 7/11/24

Learning Lunchboxes ready for distribution
Credits: COSI

The "NASA Learning Lunchbox" are kits being distributed across the nation to highlight the STEM behind Artemis and the James Webb Telescope through five (5) fun, hands-on activities with learning content around the topic of space - showcasing the diversity of STEM at NASA, while directly engaging underserved youth in urban and rural communities.

COSI partners with NASA Facilities and Centers to distribute 30,000 NASA Learning Lunchboxes across the U.S. using its roadshow model at local foodbanks through an innovative, community-based model that brings together other science centers/museums, afterschool providers, and community leaders to highlight the important of STEM in their own backyards as well as across the country.

List of Partners:

- NASA Centers and Facilities
