SUBJECT: Call for Space Flight Awareness (SFA) Program Honoree Nominations –
Starliner Crew Flight Test

The Boeing Crew Flight Test (CFT) will be the first crewed mission of the Boeing Starliner and the third orbital flight test of the Starliner overall after the two flight tests, OFT-1 and OFT-2. CFT will fly with a crew of two NASA astronauts to the International Space Station, as part of the Commercial Crew Program to live and work in space for approximately 8 days.

We are proud to announce that the SFA Program will host a special honoree event in conjunction with the CFT. This SFA event is tentatively scheduled for no earlier than April 2023 at the Kennedy Space Center. Nominees may include civil servants, contractors, international partners or military personnel. We encourage you to consider the diversity of employees in your workforce as you make your nominations.

Nominations should be no longer than one page in length and submitted using the SFA Nomination Form (NF-1738). To nominate an employee for this significant opportunity, the justification should clearly illustrate how the nominee met one or more of the SFA honoree selection criterion. The nomination form and criterion is available at the SFA website <https://www.nasa.gov/directorates/heo/sfa/sfa-awards-and-criteria>. Nominations must be submitted to your local SFA representative by close of business **December 13, 2022**.

Travel funds must be provided by each honoree's respective organizations. Each honoree is permitted to bring one guest; however, guest travel expenses will not be paid for using government funds.

Please contact your local SFA representative at your Center or contractor organization if you have any questions. You may also contact Dr. Alotta Taylor, SFA Program Manager, by telephone at (202) 441-3382, or by e-mail, alotta.e.taylor@nasa.gov.

Thank you for your continuing support in helping to motivate and recognize our workforce for their role in promoting astronaut safety and mission success.
