With this project, Sierra Nevada Journeys expands their offerings to incorporate NASA activities and lessons into their Family STEM Nights, in which they assist schools with planning, outreach, and RSVPs for the evening event, then facilitate 5-10 hands-on STEM exploration stations plus a competitive main design challenge, a fun opportunity for the whole family to work together. Ten free NASA Family STEM Nights will be

held at schools that otherwise wouldn't be able to afford the program and NASA activities will continue to be part of the Family STEM Night rotation beyond the funding period.
