There are 7 NASA Federal jobs and 3,220* contractors in the state of Utah.

For every NASA federal job located in Utah, an additional 738.3** jobs are supported in the state economy. For every million dollars’ worth of economic output generated by NASA federal jobs, an additional $279.4** million worth of output is sustained throughout the state economy.

* Indirect effects are the purchases of goods and services by government agencies and private sector contractors, as well as by the industries that supply them.

** Multiplier based on IMPLAN Input Output (I-O) model. To learn more, please visit: [https://blog.implan.com/understanding-implan-multipliers](https://blog.implan.com/understanding-implan-multipliers)

Solid rocket booster motor ground test for future flights of the agency’s Space Launch System rocket in Promontory, Utah.

Twenty-seven Utah suppliers contributed to NASA’s Artemis program. An example of the state’s contributions is making metal fasteners used to join the motor segments of the boosters.
