Definitions

Rationale: The reason for requesting a metric addition, deletion, or modification. Not required if no change is requested

Program Office: The office of the IV&V Program responsible for tracking and updating this metric

Metric Name: What this metric will be called

Metric Owner: The individual responsible for ensuring the achievement of the goal measured by this metric

Goal Supported: The text of the IV&V Program Measurement Goal which is supported by this metric

Metric Description: A brief description of what this metric will measure and how it will be collected (please include what data, data transformations, or algorithms will be used to arrive at the metric)

Collection Frequency: The time period at which the data for this metric will be collected

Minimum Success Criteria: The minimum value of this metric which will achieve the goal supported, and why this value was chosen

Ideal Success Criteria: The value of this metric which will surpass the goal supported and provide excellent results, and why this value was chosen
