

NASA Office of STEM Engagement

Statement of Interest

Organizations interested in exploring a partnership with NASA STEM Engagement should submit a Statement of Interest of no more than five pages to NASAEdPartners@nasa.gov. Do not include Proprietary Data in the Statement of Interest, as NASA reserves the right to share Statements of Interest broadly inside and outside NASA.

Statements of Interest should include the following:

- Entity Name and Web Address
- Physical Address
- Country of Origin of Entity's Headquarters
- Point of Contact Name and Title
- Overview of your organization, strategic goals and examples of past work with education audiences
- Overview of proposed partnership activities and anticipated products or programs to be produced through the relationship
- Intended outcomes of partnership activities
- Description how activities align with NASA strategic goals for STEM engagement
- Explanation of how the requested activities further your organization's mission
- Description of target audience and anticipated student reach
- Description of strategies to engage students from under-resourced communities and/or populations traditionally underrepresented in STEM careers
- Summary of proposed organizational roles in the partnership. Include estimated commitment of NASA resources necessary (number of hours of requested staff time and facilities, etc.) to accomplish activities in non-funded relationship
- Proposed timeline for partnership activities
