Customer _____

Before any construction on this project can begin, project plans must go through Ames' plan review process and new permit(s) must be issued.
Permit is valid for the duration of this project, provided construction begins within 180 **calendar** days of permit issuance and, upon commencement, is diligently and continuously prosecuted **in a safe and code-compliant manner** to completion. If the construction of this project does not commence within that 180 days after permit issuance, then this permit shall automatically terminate.
