FROM: Associate Administrator for Space Operations Mission Directorate

SUBJECT: FY 2024 Annual Call for Space Flight Awareness (SFA) Program Awards

This is a call for Fiscal Year 2024 SFA Award Nominations. The SFA Program is currently accepting nominations for the following awards: Silver Snoopy, Trailblazer, Team, Flight Safety, Management, and Supplier. You are encouraged to use these various SFA Awards throughout the year to recognize deserving employees and teams to the maximum extent possible. The program also recommends that you recognize the diversity of our workforce when submitting your award nominations.

Employees selected for all SFA Awards will be evaluated and must meet the specified criteria. The award criteria is available on the program's webpage: <https://www.nasa.gov/space-flight-awareness/>. A completed nomination form (NASA Form 1738) with typewritten justification (one-page only) using appropriate criteria must accompany each nomination for all SFA Awards. Please ensure you select the appropriate award name (Silver Snoopy, Honoree, Trailblazer, Team, Flight Safety, Management and/or Supplier) for the individual or team you are nominating.

Please note, in addition to this call, NASA will also sponsor two SFA Honoree Events. A separate call will be issued for these awards. Typically, employees selected as SFA Honorees are afforded an opportunity to travel to a NASA Center or contractor facility, be recognized by senior management officials during an award ceremony, receive a facility tour, and may have the opportunity to view a launch or other special activity.

As NASA moves forward with advancing human spaceflight and taking the necessary steps to maintain America's pre-eminence in human spaceflight for years to come, we also renew our commitment to our employees. It is imperative that we strive to maintain a world-class workforce that can successfully deliver quality products and services. An important and critical element of our past and future success is the motivation and recognition of our employees through the SFA Program.

If you have any questions or comments, please do not hesitate to contact your SFA representative at your Center or contractor location or SFA Program Manager Mr. Isidro Reyna at Isidro.R.Reyna@nasa.gov. Thank you in advance for your nominations.

Kenneth D. Bowersox
