

*Greetings from*

DEEP

SPACE

*We're going back...*

## POST CARD

Hello friends! Did you hear?

I'm tested, proven, and ready to send astronauts back to the Moon.

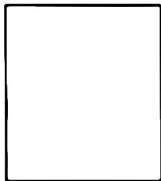

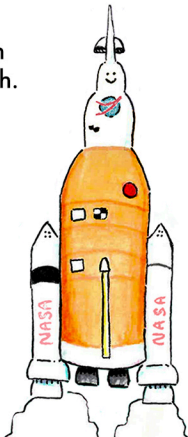

I'm the only rocket powerful enough to send them there in a single launch.

After the Moon, I'm planning a trip to Mars, and maybe even beyond.

*Your friend,*

# SLS

*(Space Launch System)*
