Subject: **Transmittal of Closure Letter and Site Summary for Underground Storage Tank 57, Moffett Federal Airfield, Moffett Field, California (RWQCB Case No. 43D9012)**

Dear Mr. Tamayo:

Attached please find the uniform underground storage tank (UST) closure letter and the site closure summary forms for the above referenced UST. This letter documents that, based on available information, no further action (NFA) related to the above mentioned underground storage tank releases is required following currently adopted site specific petroleum clean up criteria for soil and groundwater.

This NFA status applies only to releases of petroleum from fuel UST at the above referenced site. For those sites where groundwater is polluted by non-petroleum related chemicals or where other sources of petroleum pollution exist (e.g., fuel lines, spills, and above ground tanks), this determination is applicable only to soil and groundwater impacts associated with petroleum UST releases. The closure criteria applied in this assessment can be found in the Moffett Federal Airfield Final Basewide Petroleum Site Evaluation Methodology Technical Memorandum, dated October 2, 1998, published by Tetra Tech EM Inc. The Regional Water Quality Control Board shall be notified of any changes in future land use.

Please contact Judy C. Huang of my staff at (510) 622-2363 or email jch@rb2.swrcb.ca.gov if you have any questions regarding this matter.

Sincerely,

Loretta K. Barsamian
Executive Officer

Subject: **Closure Letter for Underground Storage Tank 57, Moffett Federal Airfield, Moffett Field, California (RWQCB Case No. 43D9012)**

This letter confirms the completion of site investigation and remedial action for the underground storage tank formerly located at the above-mentioned location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank are greatly appreciated.

Based on the information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground tank release is required.

This notice is issued pursuant to a regulation contained in Section 2721(e) of Title 23 of the California Code of Regulations.

Please contact Judy C. Huang of my staff at (510) 622-2363 or jch@rb2.swrcb.ca.gov if you have any questions regarding this matter.

Sincerely,

Loretta K. Barsamian
Executive Officer

Enclosure: Site Closure Summary

Site Summary Form

09-Jul-03

Facility Name: Moffett Federal Airfield **Staff Initials:** JCH **County Name:** Santa Clara

Site: Tank 57 **RB File No.:** 43D9012 **County Code :** 43

Address: Building 577
Moffett Field , CA 94035

Hydrology

Nearest Surface Water: Stormwater retention pond

Distance to Surface Water (ft.): 8,000

Water Wells Affected?: No **Distance to Wells (ft):** **No. Wells:** 1

Groundwater Benef. Use: Non-potable

Direction of GW Flow: North

Highest GW Depth (ft): 25

Lowest GW Depth(ft): 24

Geology

Site Geology: Silts and clays with some sand lenses

Pit Samples Submitted?: Yes **No. Borings:** 5 **Ground Elev. (ft.):** 35

Site Management

Potential Ecological Risk: None

Future Land Use: Industrial(Federal Airfield)

Human Health Risk: Petroleum concentrations are below the Moffett Federal Airfied 1994 petroleum action levels. Soil action levels (ppm): TPH-p 150; TPH-e 400;B 4.4; T 2700;E 3100; X 980. Gorundwater action levels (ppb): TPH-p 50; TPH-e 700; B 1; T 680; E 1000; X 1750.

Current Land Use: Industrial(Federal Airfield)

Subject: Transmittal of Closure Letter and Site Summary for Underground Storage Tank
57, Moffett Federal Airfield, Moffett Field, California (RWQCB Case No. 43D9012)
Dear Mr. Tamayo:
Attached please find the uniform underground storage tank (UST) closure letter and the site closure
summary forms for the above referenced UST. This letter documents that, based on available
information, no further action (NFA) related to the above mentioned underground storage tank releases is
required following currently adopted site specific petroleum clean up criteria for soil and groundwater.
This NFA status applies only to releases of petroleum from fuel UST at the above referenced site. For
those sites where groundwater is polluted by non-petroleum related chemicals or where other sources of
petroleum pollution exist (e.g., fuel lines, spills, and above ground tanks), this determination is applicable
only to soil and groundwater impacts associated with petroleum UST releases. The closure criteria
applied in this assessment can be found in the Moffett Federal Airfield Final Basewide Petroleum Site
Evaluation Methodology Technical Memorandum, dated October 2, 1998, published by Tetra Tech EM
Inc. The Regional Water Quality Control Board shall be notified of any changes in future land use.
Please contact Judy C. Huang of my staff at (510) 622-2363 or email jch@rb2.swrcb.ca.gov if you have
any questions regarding this matter.
Sincerely,
-Loretta K. Barsamian
Executive Officer

Subject: Closure Letter for Underground Storage Tank 57, Moffett Federal Airfield,
Moffett Field, California (RWQCB Case No. 43D9012)

This letter confirms the completion of site investigation and remedial action for the underground storage tank formerly located at the above-mentioned location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank are greatly appreciated.

Based on the information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the underground tank release is required.

This notice is issued pursuant to a regulation contained in Section 2721(e) of

Title 23 of the
California Code of Regulations.
Please contact Judy C. Huang of my staff at (510) 622-2363 or
jch@rb2.swrcb.ca.gov if you have
any questions regarding this matter.
Sincerely,
~Loretta K. Barsamian
Executive Officer
Enclosure: Site Closure Summary
Gray Davis
Governor
The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.
For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at http://www.swrcb.ca.gov.
