NASA Explore Days", offers five expansive, complimentary events allowing underserved youth and families to immerse themselves in NASA missions, using both museum exhibits and NASA's educational tools. Through NASA Explore Days, youth and their families will learn about aerospace careers, get involved in NASA's STEM curriculum, and foster their sense of belonging in the STEM-centric museum. The Museum has long considered NASA an important partner in both storytelling and public programming. These programs have effectively

spotlighted NASA's expertise, featuring astronauts, dynamic displays, and riveting content, propelling our Museum to be recognized as New York's premier space hub. NASA Explore Days will pave the way for an even richer bond with young audiences and the local community.

List of Partners:

- NYC Department of Education
- NYC Housing Authority
