

*Greetings from*

**GALILEO**

The word 'GALILEO' is rendered in large, 3D block letters. Each letter contains a different space-themed image: 'G' shows a satellite with solar panels; 'A' shows a lunar lander on the surface; 'L' shows a lunar lander with a rover; 'I' shows a lunar lander; 'L' shows a lunar lander; 'E' shows a lunar lander; 'O' shows a lunar lander. The letters are set against a dark blue background with a large, detailed moon in the upper left and a smaller, reddish planet in the upper right.

*lunar space station*

Gateway is central to the NASA-led Artemis missions to return to the Moon for scientific discovery and chart a path for the first human missions to Mars. The small space station will be a multi-purpose outpost supporting lunar surface missions, science in lunar orbit, and human exploration further into the cosmos. NASA is working with commercial and international partners to build humanity's first lunar space station.
