SUBJECT: Determination Regarding Attendance by NASA Employees at the 26th Annual
Satellite Industry Association Leadership Dinner on March 10, 2025

On March 10, 2025, The Satellite Industry Association (SIA) being designated as a not-for-profit organization under Section 501(c)(6) of the Internal Revenue Service Code, will hold a leadership dinner, at the International Spy Museum, 700 L'Enfant Plaza, SW, Washington, DC 20024, from 6:30 p.m. to 9:30 p.m. SIA will be in control of the planning, organizing, and issuing invitations for this event. The purpose of this event is to celebrate the dynamic role that satellite technology plays in the nation's economic and national security. The dinner also acknowledges leaders in government that have made a significant contribution to advancing satellite business and/or technology. International Telecommunication Union (ITU), Secretary General Doreen Bogdan-Martin, will be given the Leadership Dinner Award.

Approximately 350 people are expected to attend the event. Attendees will have a diversity of views or interests and will include personnel from other federal agencies, members of the legislative branch, state and local government officials, representatives from academia, industry, and foreign entities. The estimated cost of the event, including all food and beverages, is approximately \$185.00 per person. Attendance at this event will allow NASA attendees to exchange information regarding various NASA programs. I find that the event meets the requirements of a "widely attended gathering" as defined in 5 C.F.R. § 2635.204(g)(2).

I further determine that there is an Agency interest in having NASA personnel attend the event because it will provide an opportunity for the invited persons to exchange ideas and views pertaining to NASA's policies, programs, and operations. NASA employees who do not have a significant role in a matter affecting the interests of the sponsors may accept an invitation for free attendance for themselves and a guest to the event. In those circumstances, I find that the Agency's interest in attendance outweighs any concern that the individual may be, or may appear to be, improperly influenced in the performance of their duties.

However, NASA employees who have a significant role in any pending matter affecting the interests of the sponsor, such as procurement duties, program management, or negotiating or administering a Space Act Agreement, should seek a separate determination from their local ethics counselor as to whether they may accept the invitation.

Adam F. Greenstone
