NASA JOBS
SUPPORTED

Kennedy Space Center has 2,162 NASA federal employees and 18,290 contractors* in the state of Florida.

For every NASA civil servant job located in Florida, an additional 15** jobs are supported in the state economy. For every million dollars' worth of economic output generated by NASA civil service employees, an additional \$7.2** million worth of output is sustained throughout the state economy.

[*] Indirect effects are the purchases of goods and services by government agencies and private sector contractors, as well as by the industries that supply them.
[**] Multiplier based on IMPLAN Input Output (I-O) model. To learn more, please visit: <https://blog.implan.com/understanding-implan-multipliers>

National Aeronautics and
Space Administration

Kennedy Space Center (KSC)

Launching Humanity's Future

NASA Kennedy Space Center's mission statement is to 'Provide continuous access to space from Earth's premiere spaceport through creativity and innovation'. The agency accomplishes this by having the largest concentration of space launch operators in the world located on Kennedy. KSC's infrastructure, research and innovative technologies enables both government and commercial space ventures, advances the science that teaches us more about our planet and universe, and builds the future of long-term human space exploration.
